2. The dates on or about which the sales will be held, and the total quantity of opium, as well as the respective quantities manufactured at the Patna and Ghazeepore Factories, which will be brought forward for sale every month, are specified below. The Board of Revenue reserve to themselves the right of altering the dates should circumstances render it expedient to do so. In accordance with the notification of the Government of India, No. 2686, dated 26th June 1891 2,150 chests of Patna and 2,350 chests of Benares opium will be sold monthly from January to December 1892:—

DATES.				Chests manufactured at the Patna Factory.	Chests manufactured at the Ghazeepore Factory.	Total chests.
On or about Monday,	4th January	1892	...	2,150	2,350	4,500
On or about Monday,	1st February	,,	...	2,150	2,350	4,500
On or about Wednesday,	2nd March	,,	...	2,150	2,350	4,500
On or about Monday,	4th April	,,	...	2,150	2,350	4,500
On or about Monday,	2nd May	,,	...	2,150	2,350	4,500
On or about Friday,	3rd June	,,	...	2,150	2,350	4,500
On or about Monday,	4th July	,,	...	2,150	2,350	4,500
On or about Wednesday,	3rd August	,,	...	2,150	2,350	4,500
On or about Thursday,	1st September	,,	...	2,150	2,350	4,500
On or about Monday,	10th October	,,	...	2,150	2,350	4,500
On or about Wednesday,	2nd November	,,	...	2,150	2,350	4,500
On or about Thursday,	1st December	,,	...	2,150	2,350	4,500
		Total	...	25,800	28,200	54,000

The following are the conditions of sale:—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered

DEPOSIT.
When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided or in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained; and the first *bond fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazeepore Factory for the year 1890-91, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

T. INGLIS, *Secretary.*

FORT WILLIAM, *the 24th November* 1891.

No. 1646B.

NOTICE is hereby given that the First Sale of Opium, the Provision of 1889-90, will be held at the Government Opium Sale-room, No. 2, Bankshall-street, on Monday, the 4th January 1892, at 11 A.M., and will comprise 4,500 chests, viz.—

	Chests.
Behar Opium	2,150
Benares do.	2,350
Total ...	4,500

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 24th November 1891, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 9th and 19th January 1892 respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 1-30 P.M. of Saturday, the 9th January 1892, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Tuesday, the 19th January 1892.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less of Behar and Benares Opium, will be brought to sale in the present year about the date specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so :—

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 27th November 1891.—It is hereby notified for general information that the Lieutenant-Governor is pleased, in exercise of the power conferred on him by section 414 of Act II (B.C) of 1888, to confirm the following revised bye-law made by the Commissioners of the Calcutta Municipality under section 412 (*k*) of the Act, in supersession of bye-law No. 5 of their bye-laws made under the said provision of the law and confirmed under Government notification dated 4th October 1890, which appeared at pages 308-318 of Part IB of the *Calcutta Gazette* of the 8th idem.—

"Every owner of a theatre or other place of public resort shall, within fourteen days after he shall have received notice from the Commissioners so to do, provide such urinal or latrine as, in the opinion of the Commissioners, may be necessary for the frequenters of the said theatre or other said place of public resort, and the site and construction of the said urinal or latrine shall be subject to the approval of the Commissioners."

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 27th November 1891.—It is hereby notified that, under section 24 of the Bengal Local Self-Government Act III (B.C.) of 1885, the Lieutenant-Governor is pleased to reappoint the Magistrate of Dacca to be the Chairman of the Dacca District Board, with effect from the 3rd November 1891.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 27th November 1891.—It is hereby notified that, under section 24 of the Bengal Local Self-Government Act III (B.C.) of 1885, the Lieutenant-Governor is pleased to reappoint the Magistrate of Furreedpore to be the Chairman of the Furreedpore District Board, with effect from the 3rd November 1891.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 27th November 1891.—It is hereby notified that, under section 24 of the Bengal Local Self-Government Act III (B.C.) of 1885, the Lieutenant-Governor is pleased to reappoint the Magistrate of Backergunge to be the Chairman of the Backergunge District Board, with effect from the 3rd November 1891.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 27th November 1891.—It is hereby notified that, under section 24 of the Bengal Local Self-Government Act III (B.C.) of 1885, the Lieutenant-Governor is pleased to re-appoint the Magistrate of Mymensingh to be the Chairman of the Mymensingh District Board, with effect from the 3rd November 1891.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION

The 27th November 1891.—It is hereby notified that, under section 27, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint Babu Poorna Chandra Roy to be the Chairman of the Jehanabad Municipality, in the district of Hooghly, *vice* Mr. Kedar Nath Roy, transferred.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 30th November 1891.—It is hereby notified that the Lieutenant-Governor is pleased to approve the election, by the members of the Khoorda Local Board in the district of Pooree, under section 29 of Act III (B.C.) of 1885, of Mr. W. C. Taylor to be their Chairman, *vice* Mr. F. W. Duke, resigned.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 30th November 1891.—It is hereby notified that, under section 33 of Act II (B.C.) of 1888, the Calcutta Trades' Association have elected Mr. E. F. Longley to be a Commissioner of Calcutta, *vice* Mr. W. M. Osmond, and re-elected to be a Commissioner of Calcutta Mr. R. Y. Remfrey, who had resigned his appointment.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 30th November 1891.—It is hereby notified for general information that, in exercise of the power conferred on him by section II, Act V (B.C.) of 1864, the Lieutenant-Governor is pleased to extend the provisions of the said Act to the Telkupi khal, situated in the district of Puona and navigable during the rains, connecting the Dhanbandi river on the east with the Ichamutty river on the west.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 30th November 1891.—It is hereby notified for general information that the Lieutenant-Governor intends, under the provisions of section VI of Act V (B.C.) of 1864, to fix the following rates at which tolls shall be levied on the Telkupi khal in the district of Pubna, unless good reasons are shown to the contrary within one month from the date of the publication of this notification in the *Calcutta Gazette* :—

	Rs.	A.	P.	
All laden boats except as below	1	0	0	per 100 maunds.
All boats laden with wood, straw, bamboos, &c. ...	0	12	0	,, 100 do.
Bamboos in rafts	0	1	0	,, 100 bamboos.
Passenger boats	0	3	0	,, oar.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 1st December 1891.—It is hereby notified that under section 24 of the Bengal Local Self-Government Act III (B.C.) of 1885, the Lieutenant-Governor is pleased to re-appoint the Magistrate of Rajshahye to be the Chairman of the Rajshahye District Board.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 1st December 1891.—It is hereby notified that, under section 19, clause (3) of the Local Self-Government Act III (B.C.) of 1885, the Lieutenant-Governor is pleased to appoint Babu Jogendra Nath Bandopadhya, M.A., to be a member of the District Board of Julpigoree in the place of Babu Hari Pada Bhattacharjee, transferred.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 1st December 1891.—It is notified for general information that so much of the declaration, dated the 11th September 1890, published at page 298, Part IB of the *Calcutta Gazette* of the 17th idem as relates to the acquisition of a plot of land No. 327, Upper Chitpore Road, marked B on plan, required by the Calcutta Corporation for widening the junction of Nimoo Gossain's Lane and Upper Chitpore Road in the town of Calcutta within the Municipality, is hereby cancelled.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 1st December 1891.—Whereas a notification, dated the 10th September 1891, was published at page 209, Part IB of the *Calcutta Gazette* of the 16th idem, declaring the intention of the Lieutenant-Governor to extend the provisions of Act V (B.C.) of 1866 (an Act for the registration of Hackney Carriages) to the South Barrackpore Municipality, and whereas no objection has been raised to the proposed measure within one month from the date of the publication of the Notification within the Municipality, it is hereby notified for general information that, in the exercise of the power conferred on him by section 1 of Act II (B.C.) of 1891, the Lieutenant-Governor sanctions the extension of the last named Act, which has superseded Act V (B.C.) of 1866, to the South Barrackpore Municipality.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 27th November 1891.—The Sub-Inspector of Excise, Terai, Darjeeling, is appointed to be an *ex-officio* member, and Mr. J. D. Gwilt to be a member, of the Terai Branch Road Cess Committee, *vice* Babu Jogendra Nath Mozumdar, transferred, and Mr. F. B. Baker, resigned, respectively.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

LAND SALE NOTICES.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates, or shares of estates, in the district of Beerbhoom, will be put up for sale at the Collector's Office of that district on 10th December 1891, for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale :—

1	2	3	4	5	6	7	8	9
Touji No.	Name of mehal and pergunnah.	Sudder jumma of whole estate.	Whether the whole estate is to be sold.	If only a share is to be sold, specification of such share or shares.	Names of proprietors of property to be sold.	If only a share is to be sold, the sudder jumma of such share.	If the whole estate is to be sold, the arrears due from it.	If only a share is to be sold, the arrears due from it.
74	Kirtihat, pergunnah Khargram. The 16th—17th November 1891. J. C. PRICE, Collector.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, which are situated along the Hooghly Bridge junction railway, in the district of the 24-Pergunnahs, will be put up to sale at 11 o'clock, on Saturday, the 5th December 1891, corresponding with 20th Augran 1298 B.S., at the Naihati Municipal Office. The purchasers of the several plots of land will be subject to the following conditions:—*1st.*—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the land closer than 3 feet from its foundation. *2nd.*—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid at once. *3rd.*—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale. *4th.*—The plots of land will be sold revenue-free to the highest bidders. *5th.*—The purchasers will be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

Mozufferpore Collectorate, the 27th November 1891. B. G. GEIDT, Offg. Collector.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates or shares of estates in the district of Tipperah will be put up for sale at the Collector's Office of that district on the 7th January 1892, for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale.

In addition to the above, there are 1,515 estates with balances under Rs. 500 each, aggregating Rs. 1,79,739-6-3, the particulars of which may be learnt at this Office. The Official Assignee has received for remuneration for the quarter ending 30th June 1891 Rs. 11,157-1-1.

CALCUTTA,
The 1st July 1891.

(795—1)

A. B. MILLER,
Official Assignee.

Forest Department, Bengal.

AUTHORISED CAMPING GROUNDS, 1891-92.

IN supersession of the Notice, dated the 10th November 1890, published at page 1589, Part II of the *Calcutta Gazette* of the 19th November 1890, and in accordance with Rule 4 of the Rules passed by His Honour the Lieutenant-Governor of Bengal under section 75 (*d*) of the Indian Forest Act (VII of 1878), and published in the Gazette of the 15th December 1880, the following will be the authorised camping grounds in the Reserved Forests of the Darjeeling district from 15th November 1891 to 31st October 1892 :—

DARJEELING DISTRICT.

DARJEELING FOREST DIVISION.

Goom Block.

1. Batasidhara.

Goompahar Cart Road.

1. Barbutteadhara.
2. Goompahar saddle.
3. Tungsong.
4. Alobaree.
5. Chetaidhara.
6. Goom rock.
7. Lepcha Jagat.
8. Majdhura.
9. Sukiapokri location.
10. Jorpokri location.
11. Gairibash.

Nepal Frontier Road.

1. Simanabusti location.
2. Manibhanjan.
3. Chagara.
4. Kerabari.
5. Lambadhara.
6. Dooteriah (Tonglu).
7. Tonglu (Bhutiabusti).
8. Jaobari.
9. Barabhanjan.
10. Kyakatta.
11. Kalapokri.
12. Bikhabhanjan.
13. Sundukphu.
14. Subarkum.
15. Jaodhara (Pillar 23).
16. Chibudhara.

Chongtong Road.

1. Chongtongdhara.

Nagri Spur Road.

1. Debreepani.

Hill Cart Road.

1. Rungmuk Jhora.

Old Military Road.

1. Rangbul.
2. Chuttackpore.
3. Bamanjhora.
4. Sixth mile (from Kurseong).
5. Mahalderam chimney.

Babu Khola Road.

1. Seven half mile (Mamrem Block).

Jor Bungalow—Teesta Road.

1. Rungirum turning.
2. Rangbi ditto.
3. Poomong stable.
4. Geille turning.

Darjeeling-Sureil Road.

1. Lebdah.
2. Mamring turning.
3. Fourth mile.
4. Fifth mile.

Teesta Valley Road.

1. Rangit bridge.
2. Rungbong.
3. Teesta-Rangit junction.
4. Teesta bridge.
5. 29th mile.
6. Rangnu.
7. Raiang bridge.
8. Berrik koti.
9. Ruyem bridge.
10. Andera jhora.
11. Sivoke halting shed.

Darjeeling-Thibet Road.

1. Pashok Public Works Department halting shed near 16th milepost.

Boro Geille-Teesta Road.

1. Kamjor.

TEESTA FOREST DIVISION.

Rilli Road.

1. Right bank, Rilli river.

Darjeeling-Thibet and Ambiokh Road.

1. One mile above Teesta bridge.
2. Junction of Thibet and Ambiokh roads.
3. Paiengaon.
4. Rissoom.
5. Mirig.

Labah-Loolagaon Road.

1. Loolagaon.
2. Chumung.
3. Mangbur.
4. Rungpo.
5. Mangchu.
6. Sungseer.

Mungpong Block.

1. Shunduria jhora.
2. Rungdung jhora.
3. Kalagoitee jhora.

Leesh Valley Road.

1. Leesh river.
2. Chunbatti.

Loolagaon-Chunbatti Road.

1. Haban khola.
2. Bogra khola.
3. Planters' location.

Ramthick Block.

1. Ramthick river.
2. Geesh river.

Lohti Block.

PURNA CHANDRA BOSE, ACCT.,
For Exe. Engr., Nuddea Rivers Division.
Berhampore, the 30th November 1891.

Now Ready, one Volume, half-bound, Quarto Fifty-eight plates, Rs. 38.

ILLUSTRATIONS OF ANCIENT BUILDINGS IN KASHMIR prepared at the India Museum, London, under the authority of the Secretary of State for India in Council from photographs, plans, and drawings taken by order of the Government of India, by Henry Hardy Cole, Lieutenant, R.E., to be obtained from Messrs. Thacker, Spink & Co., Calcutta; Messrs. Higginbotham & Co., Madras; and of Messrs. Thacker, Vinning & Co., Bombay.

The illustrations in this work have been produced in carbon from the original negatives, and are therefore permanent.

Th Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

	Without postage.	With postage

REVENUE DEPARTMENT.

REVISED ADVERTISEMENT.

A Dictionary of the Economic Products of India

BY DR. GEO. WATT, C.I.E.

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first five volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets; &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries and confirmed the vernacular names, so that the Dictionary is

not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Vol. II embraces the letter C in 689 pages; Vol. III contains the letters D, E, F and half of G. Vol IV latter half of G to middle of L; and Vol. V contains the latter half of L to end of "O." The whole work will, it is expected, be completed in seven volumes during the current year; but an eighth volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a Glossary of the vernacular and European names of the plants, animals and minerals of India, and as such will be a work of reference, which, it is hoped, may prove of considerable value.

The period of registration of subscribers' names having expired on the 1st October, the price will in future be in India Rs. 45 and in England 3 guineas, payable in advance, for the complete set (exclusive of the Index, for which a separate charge will be made). An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England, at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately.

The Shargi Architecture of Jaunpur, with Note on Zafarabad, Sahet-Mahet, and other places in the N.W. P. and Oudh. By A. FUHRER, Ph. D. with drawings and architectural descriptions. Super royal 4to., cloth bound. Rs. 16 (Re. 1.)

Casual advertisements, 4 annas per line.

Notice.

IT is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

The List of Books available for sale at the Secretariat Press will in future be published once only in each month. Spare copies of the List will, however, be kept in stock ready for issue on receipt of applications for them.

NOTICE TO SUBSCRIBERS.

SUBSCRIBERS to the *Calcutta* and *Bengali Gazettes* and Indian Law Reports are hereby informed that unless the amount of their subscription for 1892 is received before the 31st December 1891, it will be concluded that the Gazettes and Reports are no longer required, and the supply will accordingly be discontinued from 1st January 1892.

All remittances should be made direct to the Accountant and Treasurer, Bengal Secretariat, Calcutta, by means of money-order. No postage stamps or stamps of any other kind will be received in payment of subscriptions.

The correct address of the subscriber should be legibly written on the money-order coupon, and the period for which the subscription is paid should be stated.

H. C. STREATFEILD,

Under-Secy. to the Govt. of Bengal.

The 1st December 1891.

NOTICE TO MARINERS No. 210.

[First Publication.]

AUSTRALIA—KEPPEL BAY.

Discovery of rock reported by Pilot Hannah; and also of a Pinnacle rock near Bald Rock.

IN continuation of Notice to Mariners No. 122, dated 6th July last, issued by this Office, the Port Master, Brisbane, has given notice (No. 30A. of 1891) that the Harbour Master, Rockhampton, reports having found the rock reported by Pilot Hannah (27-5-91), and notified in Notice to Mariners No. 18 of 1891. It lies with about 9 feet 6 inches of water over it, with the following compass bearings:—

Bald Rock	... N.W. by N.½ N.
South point of Humpy Island (just open with Wedge Island)	... S.W. ½ W.

Captain Sykes also reports having found a pinnacle rock about 5 cables E. by S. from Bald Rock with from 5 to 7 feet of water over it.

[Second Publication.]

BAY OF BENGAL—ORISSA COAST.

Certain beacons and buoys out of position in False Point harbour.

THE Port Officer, False Point, reports that during the recent cyclone that occurred on the 5th instant, the Screw-pile and Cross beacons on Reddie Head were washed away, and that about half a mile of Reddie Head sand spit has entirely disappeared. The Fairway buoy has been lost, and all other beacons in and about the harbour have been blown down. The outer western Black buoy is in position, but without a basket. The Reddie Head spit buoys are also in position, but without the basket; and the water has shoaled at these buoys to 17 feet reduced; but about 100 feet north of them 27 feet of water reduced is to be found.

The Anchoring mark for steamers drawing over 20 feet will now be Hookeytollah Flagstaff; or the Refuge Building at Hookeytollah, bearing S ½ East.

A Chequered painted new buoy will be laid in the place of the Fairway buoy, and the baskets replaced on the other buoys, as soon as possible.

CHINA SEA—CARIMATA STRAIT.

Reef reported south-east of Cirencester shoal.

THE British Admiralty has given notice (No. 480 of 1891) that Mr. W. Townsend, commanding the steam-vessel *Galley of Lorne*, reports having passed, at the distance of about 2 cables, a dangerous reef lying about 10 miles south-eastward of Cirencester shoal, near the fairway of Carimata strait.

This reef (*Townsend reef*), on which the sea broke, appeared to have little water over it, and to extend (in the shape of a crescent) about one cable in a south-east and north-west direction. The weather at the time was too rough to allow a boat being lowered for further examination.

Position as given (to be considered doubtful), lat. 3° 0′ 30″ S., long. 109° 5′ E.

BAY OF BENGAL—CHITTAGONG COAST.

Intended alteration in Kutubdea Light.

IT is intended, on and after the 1st May 1892, to alter the character of the present light exhibited from the Kutubdea Light-house from a fixed to a first class dioptric revolving white light having an interval of one minute between the flashes. It will be elevated 121 feet above high water, and should be seen in clear weather from a distance of 17 miles.

The works, in connection with this alteration, will be commenced on the 1st February 1892, after which date the existing light will, during their progress, be shown thirty feet lower down on the Light-house; and a blue light will be burnt every quarter of an hour between the 1st February and 30th April 1892.

On the exhibition of the new revolving light, the blue light now shown from the 1st August to 31st December, inclusive, will be discontinued.

Position: Lat. 21° 52′ 30″ N.; long. 91° 49′ 58″ E.

INDIA—EAST COAST—Bay of Bengal.

A buoy adrift.

Caution.—The Commander of the British India Steam Navigation Company's *S. S. Warora* reports that while on the passage up the Bay of Bengal, at 6-50 A M. of the 19th November, Lat. 14°43′ N., Long. 85°7′ E., he passed a white conical buoy with a staff and round basket cage painted red; resembling the one near the Intermediate light-vessel station, which has gone adrift. Navigators are accordingly warned.

Calcutta, *the 23rd November* 1891.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

NOTICE TO MARINERS No. 204.

[Second Publication.]

CHINA SEA—Macclesfield bank.

Shoal water reported near the north-west edge.

The British Admiralty has given notice (No. 497 of 1891) that Mr. A. Symons, commanding the P. and O. S.S. *Cathay*, reports having obtained a sounding of 5½ fathoms, over rock or coral, near the north-west edge of Macclesfield bank, in lat. 15° 55′ N., long. 114° 0′ E. As the ship passed over the shoal, the bottom, composed of dark black rock and white coral patches, was seen. Immediately after passing over it, the sea became dark blue, without a sign of shoal water.

Caution.—In 1857, a depth of 4 fathoms was reported to exist near the north-west edge of Macclesfield bank, in approximately lat. 16° 3′ N., long. 114° 10′ E., and as from the nature of a coral atoll, the depth of the submerged rim is very irregular, it is highly desirable to avoid passing over such banks, even when the depths known give no indication of absolute danger.

Eaton W. Petley,
Port Officer of Calcutta.

CHINA SEA—BORNEO—North coast.

Banguey South channel—Particulars of rocky shoal in fairway.

In continuation of Notice to Mariners No. 127, dated 20th July 1891, issued by this office, the following British Admiralty Notice (No. 498 of 1891) is republished—

The following particulars have been received from Commander A. M. Field, H.M. Surveying Ship *Egeria*, dated 9th September 1891, concerning the rocky shoal (*Petrel rock*) lying in the fairway of Banguey South channel, originally reported by the Commander of the steam-vessel *Petrel* :—

Petrel rock, a narrow ridge of coral about 40 yards in length in an E.N.E. and W.S.W. direction, and 10 yards in width, is plainly visible, and has 14 feet on it at low water spring tides, with 12 fathoms close around. It lies with the south extreme of Molleangan island bearing N. 84° W., and the peak (663 feet in height) on the south coast of Banguey island, west of Pagassan island, N. 3° W., distant 4½ miles.

Approximate position : lat. 7° 4′ 20″ N., long. 117° 6′ 30″ E.

Marchesa bay—Beacon on Leonan reef.

Information has also been received from Commander A. M. Field, that a beacon, consisting of an iron staff surmounted by a cage 25 feet above the reef, has been erected on the east side of Leonan reef, northern side of Marchesa bay.

Approximate position, lat. 6° 44′ 45″ N., long. 117° 37′ 45″ E.

ACTION TAKEN UPON THE RECOMMENDATIONS OF THE POLICE REFORM COMMITTEE.

No. 4226J.

RESOLUTION.

POLICE.

Motihari, the 28th November 1891.

READ—

Resolution of this Government, dated 24th September 1891, appointing a Committee consisting of Mr. J. Beames, c.s., Mr. J. F. Stevens, c.s., and Mr. J. C. Veasey, c.s., to collect information regarding the reform of the Police in these Provinces.

The Report of the Committee.

In the Resolution cited in the preamble, it was stated that the Lieutenant-Governor, after examining, in compliance with the instructions of the Government of India, the statistics of crime cognizable by the Police reported and disposed of in Bengal during the years 1878—1888, had come to the conclusion that although crime generally was not positively great in Bengal and was decreasing relatively to the increase of population, yet certain offences showed a tendency to increase; that an unduly large proportion of the crime actually occurring was not brought to the notice of the Police or of the Magistrates and was therefore never enquired into; that the Police enquiry into a large number

of the cases taken up was fruitless, such cases never coming before the Courts, and that a disproportionable number of the persons brought before the Courts were acquitted. The Governor-General in Council, on considering the special reports of this and the other Local Governments on the subject, thought it advisable not to appoint a General Commission to investigate the problem of Police reform throughout India, for the reason that the conditions under which the administration of different Provinces is carried on vary so much that practical results are likely to be attained only by concentrating attention on local circumstances and requirements. It was accordingly left to the Lieutenant-Governor, if he should see fit, to convene a Provincial Committee. Being of opinion that it was evidently necessary to enquire minutely into the causes of the imperfections admitted to exist, and to ascertain by what means whether legislative or executive, remedies capable of being made practically effective could be devised and applied, Sir Steuart Bayley decided to appoint a Committee, consisting of experienced officials from both the Executive and Judicial branches of the service, and of gentlemen representing the views of the public. Mr. J. Beames, Commissioner of Bhagulpur, who was appointed the President of the Committee, entered upon his duties on the 20th August 1891. Mr. J. F. Stevens, Judge of Gya, and Mr. J. C. Veasey, Inspector-General of Police, joined him at the beginning of October. Raja Peary Mohun Mukherjea, a large zemindar, was added to the Committee on the 1st December, Mr. E. R. Macnaghten, Secretary of the Behar Planters' Association, joined it on the 16th idem, and Mr. H. H. Risley, C.S., acted as Member and Secretary from the 17th idem. After examining a number of witnesses, and discussing the written and oral evidence and other materials before them, the Committee submitted their Report on the 26th February 1891.

2. Since the receipt of the Report, which is signed unanimously, the Government of Bengal has fully considered the numerous recommendations made by the Committee; a number of the suggestions have already been acted upon, and the Lieutenant-Governor has been taking steps to carry out those remaining which have met with his approval. The measures adopted have now advanced to such a stage that what has been done can be conveniently summarised and made public. The ensuing paragraphs, in describing the recommendations and the action taken upon them follow the order of arrangement adopted in the Committee's Report which is divided into three main heads, viz.—I. The Village Police. II. The Regular Police. III. The Criminal Courts.

PART I.—VILLAGE POLICE.

3. The Committee have passed in review the previous essays towards the important and difficult question of improving the Village Police of Bengal, and have examined the working of Act VI (B.C.) of 1870, amended by Act I (B.C. of 1886, and the systems of chaukidars who are not under that Act. The conclusion of the Committee is that, although chaukidars are better paid than formerly, they are not much, if at all, more useful than they were, and that radical changes in the law affecting both punchayets and chaukidars are necessary before improvement can be expected. The chief proposals made may be classed as follows:—

(*A*).—*Recommendations requiring legislation.*

(*a*). The repeal of the restriction of the minimum of 60 houses in villages, and 80 houses in unions, for the introduction of the Act. The Magistrate should have power to introduce the Act into all villages irrespective of the number of houses they contain, provided that the inhabitants can afford to pay the chaukidar's wages.

(*b*). The number of chaukidars to be employed in any village should not be left to the punchayet entirely as at present, but the determination of the punchayet should be subject to the control of the Magistrate; the minimum of 1 chaukidar for 60 houses, 2 for 150, and one more for every extra 100 houses remaining as before.

(*c*). The rate of pay of the chaukidar between the limits of Rs. 3 and Rs. 6 *per mensem* should be fixed by the Magistrate and not by the punchayet.

(*d*). The supervision over chaukidars should be exercised by an official to be called the Circle Officer (halkadar), who should also collect the chaukidari rate. He should be directly under the orders of the Magistrate of the district,

and should be paid by a levy of 25 per cent. over and above the amount levied for the chaukidar's salary, instead of 15 per cent. as now provided in section 13 of the Act. The collections made by this officer should be paid into the district or sub-divisional treasury.

(*e*). The provisions of section 50 of the Act should be amended so as to allow of the zemindar contesting the claim of the punchayet to include in the *chakran* area lands which he contends are rent-paying. Section 64 should also be amended so as to give Commissioners control over the proceedings of Collectors under Part II of the Act.

(*f*). Special provisions for the duties of assessment and supervision in tea gardens in Julpaiguri and elsewhere, where ordinary punchayets cannot be appointed.

The most important of these recommendations is that the Magistrate should be allowed power to introduce the Act into all villages in the province. The Lieutenant-Governor has accepted this, and proposes to divide the inhabited area of the whole country into blocks—each of which should have one or more chaukidars according to its size, and the number and means of its inhabitants. It may be necessary to take power to fix the pay of the chaukidar at Rs. 2 a month in some of the poorer and worst cultivated blocks, but the Lieutenant-Governor expects that this will be only necessary in a few exceptionally situated places. It may also be found desirable in some parts of the country to have only one punchayet for two or more blocks, and this will be provided for in the new law. Provision will also be made for the election of punchayets in such parts of the country as may be fitted for the exercise of this privilege, and where it is desired. The Lieutenant-Governor has been unable to accept the proposal mentioned in clause (*d*) above, that the collections should be paid into the district or sub-divisional treasury. The disadvantages of this seem to outweigh any possible advantages. It will be necessary to make it clear in the law that any member of a punchayet may, if competent, be appointed collecting officer, that the duties of collection and supervision shall not necessarily be entrusted to the same officer, and also that the amount to be levied in excess of the chaukidars' salaries need not be as much as 25 per cent. in all cases, and will be available for other purposes connected with the administration of the Act, besides the payment of circle and collecting officers. A draft Bill intended to carry out the changes which have been resolved on has been submitted to the Government of India and to the Secretary of State, and permission to introduce it into the Lieutenant-Governor's Council has now been obtained. The draft has been circulated for opinion to all local officers and the various associations representing classes interested in the subject, and any recommendations made by them will be considered before the Bill is introduced. Besides the changes mentioned above, based on the recommendations of the Committee, the draft contains the following provisions:—

(*a*). The extension of the powers of arrest by a chaukidar so as to bring the law into accordance with the general practice.

(*b*). The extension of the power of the Local Government to issue rules for the guidance of Magistrates and others exercising powers under the Act.

It also contains some minor changes which need not be detailed here.

It is recommended by the Committee that the duty of reporting vital statistics, epidemics, state of crops, &c., should be transferred from the chaukidar to the punchayet, who should send a written report by the chaukidar when he goes to the police-station to attend muster-parade, or by post when more convenient. The Lieutenant-Governor is inclined to agree to this proposal. It has not been incorporated in the Bill, but on the receipt of replies from those consulted, His Honour will consider the propriety of introducing a provision to give effect to this recommendation.

(B)—Recommendations to be carried out by executive order.

(*a*). The Committee are of opinion that the rate of pay of the chaukidar, between the limits of Rs. 3 and Rs. 6 per mensem, varies very unfairly and in many places is not fixed with reference to the rates of wages of unskilled labour, cost of living and other local circumstances. The Lieutenant-Governor has caused enquiries to be instituted by District Officers in each thana with a view to fixing the rate of pay for that area, which shall be the ordinary rate in

future; the results of these enquiries will be scrutinized by the Divisional Commissioners. As above mentioned, it may hereafter be found necessary to fix the pay as low as Rs. 2 in a few tracts.

(*b*). The system of muster-parades prevailing in most districts is commended in the Report, and the Lieutenant-Governor approves the principle upon which it is based of requiring the chaukidar to attend regularly at the police station. The Inspector-General of Police has recently drawn up draft instructions for the purpose of bringing the procedure to be followed at these parades into accord throughout the Province; these instructions have been sent to selected District Officers and District Superintendents for criticism and suggestions before being issued.

(*C*)—*Recommendations concerning service lands.*

(*a*). The Committee advocate the abolition of the Government orders of 1886, which are to the effect that the provisions of the Act for the conversion of *chakran* lands should not be put into force where there are already chaukidars in the enjoyment of *chakran* lands, and the amount and value of such lands are sufficient for their proper maintenance. These orders have had the effect of retarding greatly the abolition of *chakran* chaukidars, whose services almost invariably are unsatisfactory, and Sir Charles Elliott agrees with the Committee that the last circular upon the subject should be cancelled as soon as the proposed provisions, giving the Commissioner of the Division general controlling authority over the proceedings of the Collector in effecting the conversion, are passed into law. The present Act would leave the parties without the power to appeal against the Collector's orders.

(*b*). Besides the regular village police, there exist in the Bankura, Midnapore, Manbhum, and some other districts, classes of rural officers called *ghatwals, paiks and phanridars*; these always hold service lands, but the services they are supposed to render are very often delegated by them to sub-lessees. The organization of these old rural officials is most unsatisfactory and calls for special investigation. Mr. Risley, the Secretary of the Committee, drew up a Bill to provide for the commutation of the lands of the *ghatwals*, and the Committee recommended it with diffidence, as they did not deem themselves very competent to express an opinion upon the subject. The subject seemed to the Lieutenant-Governor to be one of such difficulty, involving many old customs and nice points of law, that he deputed a special officer, Mr. E. R. Henry, now Officiating Inspector-General of Police, to visit the districts in question and draw up careful notes upon the facts relating to each of the various kinds of tenure. These notes have been sent to the local officers for their opinion; on receipt of replies the Lieutenant-Governor will be in a better position to deal with the problem of effecting an improvement which has hitherto proved difficult.

(*c*). The chaukidari system in Orissa is shown by the Committee to be in urgent need of reform, and three different courses of action are suggested, but not exhaustively examined. The Commissioner of the Division, in consultation with the district officers, is now considering a suggestion to bring all the Orissa chaukidars under the Act. If this measure be adopted, the Lieutenant-Governor thinks that it had better be carried out under the supervision of the settlement officer when the *jagirs* held by the chaukidars have been surveyed and determined. All these lands should be commuted, and the necessary number of chaukidars should be decided on and their pay fixed *pari passu* with the progress of settlement.

PART II.—THE REGULAR POLICE.

4. The essential part of the recommendations of the Committee for the improvement of the Regular Police is that no officers inferior in rank to Sub-Inspectors should be employed in the investigation of criminal cases, and that head-constables, whose number would be greatly reduced, should be confined to work of a less responsible nature. Sir Charles Elliott has accepted this principle and has determined to carry it out as far as possible, though he thinks that there may be some places in which the amount of reported crime is so small as not to warrant the employment of a Sub-Inspector. The Committee did not fully work out the details of the

scheme recommended by them, but it appears from a statement attached to the report that it practically amounted to little more than the substitution of a Sub-Inspector wherever there is now an investigating head-constable. The cost of this would be prohibitive in the present state of the finances. The Government of India, in their proposals for the next financial contract, have intimated that they will not allow anything on the score of the improvements in the police beyond a sum of Rs. 1,71,417 already sanctioned on account of constables as will be described below. Consequently any additional cost to be provided for from the Provincial revenues can only be available during the later years of the contract, and any improvement now made involving an increase of cost will have to be met by reduction in some other direction. Now there appears to be little doubt that by judicious redistribution of the station staff, and improvement in the method of investigating, a considerable reduction can be made in the number of officers required for investigating duty. This will allow of many head-constables being abolished and additional Sub-Inspectors being appointed in their places; but the Lieutenant-Governor finds it impossible to work out the details of this change without local enquiry, as the strength of the machinery to be employed in investigating crime must depend not merely on the arithmetical figures of crime to be investigated but also on local characteristics and peculiarities, on the class of crime most prevalent, and to some extent on the area to be supervised and on the density of population. The Lieutenant-Governor has therefore found it necessary to appoint a Committee composed of Mr. H. J. S. Cotton, Financial Secretary to Government as President, and of Mr. J. C. Veasey, Inspector-General, and Mr. Knyvett, District Superintendent of Police, to work out for each district the number of Sub-Inspectors required, and the changes in the distribution of the force which have become necessary. Mr. Henry, Officiating Inspector-General, will assist in making the enquiries, and will be present at the meetings of the Committee when his other duties permit him. Mr. Knyvett will act as Secretary to the Committee.

5. This Committee will also frame rules for the appointment of Sub-Inspectors and for their subsequent promotion. They will consider whether first appointment should not be made to depend to some extent on the result of competitive examination, and it has been suggested that the following classes should be allowed to compete:—

(*a*) Candidates who have passed the F. A. examination of the Calcutta University, or who have received a certificate of proficiency from a Police training institution, such as that of Mr. Ballard, a retired Inspector of Police, recognized by Government, and who also pass a physical standard and a riding examination.

(*b*) Head constables and writer-constables who have been recommended by Magistrates for practical success in the detection of crime, and as possessing really high qualities of intelligence, activity and honesty.

Certain questions connected with boat establishments and river patrols, which also need further elucidation, have been referred to the Committee now appointed.

6. The Committee recommended that the pay of the lowest grade of Inspectors should be raised from Rs. 100 to Rs. 150, that the pay of the lowest grade of Sub-Inspectors should be raised from Rs. 30 to Rs. 40, and that of the highest grade from Rs. 80 to Rs. 100, the pay of the intermediate grades being also raised. The Lieutenant-Governor does not consider that sufficient evidence has been produced to show the necessity of this increase, while its cost would make it impossible at present even if reason for it had been shown. The officers in the lowest grade of Sub-Inspectors will, under the future arrangements, be considered to be on probation, their duties and powers will be necessarily limited, and the Lieutenant-Governor considers the pay of Rs. 30 to be sufficient in the circumstances.

7. The Committee propose that the four grades of head-constables on Rs. 10, Rs. 15, Rs. 20, and Rs. 25 should be altered to three grades, Rs. 15, Rs. 20, and Rs. 25. Sir Charles Elliott accepts the argument put forward that, as the first grade constable draws Rs. 9 per mensem and may have an additional Re. 1 as good conduct allowance, the minimum pay of a head-constable should be more than Rs. 10. In view of the fact that head-constables are not ordinarily

to investigate cases, His Honour has determined that three grades on Rs. 12, Rs. 15, and Rs. 20 will be sufficient.

8. The Lieutenant-Governor has already carried out the recommendations of the Committee for increasing the pay and allowances of constables on the ground that the standard of wages has risen generally amongst the labouring and lower classes throughout these Provinces, but especially in Bengal Proper, and that there is in consequence difficulty in enlisting suitable recruits and keeping them afterwards. Sir Charles Elliott therefore agreed to the proposal to fix the pay of the lowest grade of constables in the Presidency, Burdwan, Rajshahye, Dacca, and Chittagong Divisions at Rs. 7 instead of the former rate, Rs. 6, and has also done away with the deduction of 2 pice in the rupee on account of the Superannuation Fund. He has also sanctioned the grant of a free kit to recruits on entering the service, and an increase to the former clothing allowances. These concessions, which involve the additional cost of Rs. 1,71,417 per annum, were brought into force with the consent of the Government of India from the 1st July last.

9. The questions connected with Reserves were not dealt with fully by the Police Committee. They, however, advised the Government to substitute in the special reserves of Dumka, Bhagalpur, and Dacca, military titles such as sepoy, havildar, jamadar, and subadar, for the civil designations of constable, head-constable, sub-inspector and inspector. This has met the Lieutenant-Governor's approval, and it has been embodied with other more important matters in a draft Bill, called the Bengal Military Police Bill, framed upon the lines of the Burma Military Police Act, 1888, which has been forwarded to the Government of India for sanction to its introduction into the Bengal Legislative Council. In 1887 the Government of India drew the attention of this Government to the desirability of re-organizing the district reserves with a view to rendering them more efficient in the repression of local disturbances, especially during religious celebrations. Sir Steuart Bayley was in favour of an increase in these reserves, but found that there were financial objections in the way. Orders on the subject were received from the Government of India in March 1889, but the district reserves are still in an unsatisfactory state. Sir Charles Elliott thinks that an opportunity has now presented itself in the proposed reorganization of the staff of the police, and the consequent reduction in some of the smaller stations, to withdraw a sufficient number of men from mofussil work to be formed in an efficiently drilled force that may be ready to put down disturbances on any emergency, and has directed the Committee which has now been formed to consider this question fully.

PART III.—CRIMINAL COURTS.

10. The suggestions made in the Report under this head are less definite than under the two other heads, and some difficulty has been found to give practical effect to them. Such action as it has been possible for Government to take upon the measures advocated has already been taken.

11. The Committee ascribe the defects in the working of the courts to the insufficient supervision exercised by the superior courts over subordinate Magistrates. They consider that the faults of the majority of such Magistrates lie chiefly in fear of responsibility, dilatoriness and want of thoroughness. They set forth instances of the superficiality and want of method which is observed on all sides. They point out that witnesses are detained day after day, and are made to attend again and again after long intervals to the great inconvenience of themselves and to the great prejudice of the administration of justice. They say that many Magistrates do not understand that it is their duty to exhaust every source of enquiry that may appear available, and to make good the deficiencies in the evidence presented in court, but are under the erroneous impression that they have only to adjudicate upon such matters as the contending parties or the police choose to lay before them. They assert that cases are not infrequently committed to the Sessions without any real necessity, because the Magistrate will not take it upon him to exercise his own judgment. In order to correct these evils, they urge that District Magistrates should exercise greatly increased supervision over Subordinate Magistrates, and, while avoiding interference with the judicial discretion of such Magistrates, should endeavour to secure punctuality of attendance, method,

regularity, promptitude, and general efficiency in the disposal of business, and, when necessary, should assist their subordinates by judicious criticism and advice. The Lieutenant-Governor has accepted generally the recommendations of the Committee, and rules* have been laid down to give effect to them. A fortnightly register showing the number of under-trial prisoners is to be submitted to the District Magistrate from each subsidiary jail. The District Magistrate is directed to inspect once a week the trial register of each subordinate Magistrate at head-quarters, sending for particular records, calling for explanation, or passing other orders when necessary. A statement is to be sent from each court away from head-quarters containing extracts from the trial register, showing each case which has been remanded more than three times or has been pending more than a month. District Magistrates are also, if possible, once a quarter, without previous warning, to send for and inspect the records of the last six cases disposed of by each subordinate Magistrate. A manual of inspection is under preparation, embodying the principles which have been laid down by the Committee, and accepted by the Lieutenant-Governor.

* Circular No. 3060J, dated 5th August 1891.

12. The Committee in commending the system of competitive examination for the recruitment of the Subordinate Executive Service, which has been in force for the last few years, recommend that the Evidence Act should be added to the subjects to be taken up for examination. The suggestion has been acted upon, and the notification of the 10th October 1891, prescribing the list of subjects for the next examination, contains this Act, together with other enactments usually required by Magistrates among the subjects for examination.

13. The Committee suggest that in order that subordinate Magistrates may feel that their success depends as much upon attention to their judicial work as to their executive work, their merits should be reported on by the Sessions Judges as well as by District Officers. The rule prescribing this has lately been revived by the High Court, and Government has received a copy of all the reports for last year.

14. It is pointed out in the Report that the failure in Sessions trials often results from the delay in hearing the cases. The Committee state their opinion that it is desirable that such trials should be held as soon as possible after the occurrence, and propose that a system of holding monthly sessions should be introduced as far as practicable. Other Governments have been consulted concerning their practice, and the High Court have been asked their advice in the matter.

15. Another cause of failure of justice at the Sessions Courts, alluded to in the Report, is the imperfect way in which many cases are committed by Magistrates. The Committee advise that powers of committal be entrusted only to selected Magistrates of the second class, and not to all as at present. The Lieutenant-Governor has accepted this advice, and has cancelled the general order of 1874, and after consulting local officers has vested this power in selected officers only.

16. The Committee consider that the Crown should be represented in all important appeals, and point out that the number of successful appeals, notwithstanding that the number of appeals lodged increases, remains very small. The rules on the subject seem sufficient to the Lieutenant-Governor, as any Court against whose order an appeal is lodged can apply for the Government Pleader to appear to support the order. In a recent circular† the Lieutenant-Governor has prescribed a form by which the subordinate Court is invited to state when notice of appeal is sent, whether the Government Pleader should appear or not.

† Circular No. 4J.D., dated 15th October 1891.

17. The Committee point out that the Government Pleader is not always the best man at the local bar or the best man available. They suggest that the Judge and the Magistrate should always be consulted before a Government Pleader is appointed. The Legal Remembrancer, with whom the nomination lies, has been requested to consult these officers always in future. And Sir Charles Elliott has under consideration a suggestion to appoint Government pleaders for a term of years, instead of for life, as is practically now the case.

18. The Committee recommend that both in head-quarters and at subdivisions the best local legal practitioners should be engaged as legal advisers

to the police and as public prosecutors before Magistrates. The scheme which would cost a very large sum is not fully developed. In many places suitable advisers could not be obtained, and Sir Charles Elliott doubts if cases would be much improved by legal advice given to the police during investigations: if advice is required, the District or Sub-divisional Magistrate is the proper person to apply to. The Lieutenant-Governor is, however, of opinion that more attention should be devoted to the prosecution of police cases, and desires to relieve Court Sub-Inspectors of much of their routine work to allow them time for this important duty. The experiment of transferring a large portion of the Court Sub-Inspector's work to the Magistrate's office, and setting the Court Sub-Inspector free from the multifarious details which now engross his time to prepare cases and conduct prosecutions, will be tried for six months in six selected districts. The officiating Inspector-General has selected for this experiment the districts of the 24-Pergunnahs, Mymensingh, Backergunge, Mozufferpore, Patna, and Monghyr, and he expects to have all arrangements completed by the 1st of January. His Honour has sanctioned a suggestion by Mr. Henry that hereafter Court Sub-Inspectors shall draw Rs. 20 at head-quarters and Rs. 10 at sub-divisions more than their grade pay in order to attract the best men to Court work. Special rules will be framed for the appointment of this class of Sub-Inspectors in order to secure superior knowledge of law and procedure.

19. The Report deals with the great delays which frequently occur in disposing of cases instituted under section 110, Criminal Procedure Code, which are known as "bad livelihood" cases, and it is advised that Magistrates should be allowed perfect freedom of action, and the existing rules which direct cases of bad livelihood should be taken up in the village where the accused resides should be abolished as being the cause of much of the delay observed. The Lieutenant-Governor dealt with the subject in a circular* in June last, in which it was pointed out that the orders directing local enquiry were issued by Sir Ashley Eden, who in 1877 had found that there had been an indiscriminate use of the provisions regarding security, and had little doubt that a number of innocent persons had been committed to jail upon mere hearsay evidence. Sir Charles Elliott, in modifying so much of the previous orders as prescribed a local trial in every case, and in leaving the matter to the discretion of the Magistrate, only did so because he prefers a speedy trial in Court to a long deferred one on the spot, and expressed his hope that Magistrates would try such cases as far as possible in or near the villages where the accused persons reside.

* Circular No. 3J.D., dated 4th June 1891.

20. *Conclusion.*—So much has been done. The passing of the Chaukidar Bill and the reorganisation of the Police staff are the chief objects which now remain to be effected. Sir Charles Elliott trusts that their accomplishment will be seen at the end of the present cold season.

By order of the Lieutenant-Governor of Bengal,

JOHN EDGAR,

Chief Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL, MARINE DEPARTMENT.
No. 214Mne., dated Calcutta, the 1st December 1891.

THE following report of the 17th quarterly inspection of the Dock Works at Kidderpore which are being carried out by the Commissioners of the Port of Calcutta, is published for general information.

By order of the Lieutenant-Governor of Bengal,

J. M. McNEILE, *Col.*, R.E.,
Secy. to the Govt. of Bengal, P. W. Dept.

QUARTERLY INSPECTION OF THE KIDDERPORE DOCK WORKS.

Dated Calcutta, the 24th November 1891.

From—LIEUT.-COL. A. D. McARTHUR, R.E., and H. N. C. CLOËTE, ESQ.,
To—The Secretary to the Government of Bengal, Public Works Department.

AGREEABLY to the orders of the Government of Bengal, received with the Under-Secretary's letter No. 2536M. of the 30th ultimo, we have the honour to report that the inspection of the Kidderpore Dock works for the two quarters ending 30th September 1891 was made by us on the 21st instant. All the works are approaching completion, and their present state is as reported below.

Sixty-feet Lock.—Already reported complete. A small quantity of work on the jetties at the head of the lock remains to be done. The entrance to the lock has been dredged.

Eighty-feet Entrance.—As previously reported, this work is completed, and the jetty heads are almost finished. The dredging of the entrance has been carried out.

Double Entrance to Dock No. 1—Is completed as previously reported.

Tidal Basin.—The masonry work is completed. Half the total area of the basin was dredged to within 5 feet of the required depth and full depth dredged between the lock and double entrances.

Graving Dock.—The engine-house for this dock which was under construction at the time of our last inspection is now completed with the exception of finishing work. The engines and pumps have already been utilized for emptying the docks.

Dock No. 1.—The additional works rendered necessary by the slips reported during the quarter ending 30th September 1890 are well in hand. With regard to repairs to walls of this dock, it was at first found impossible to make any progress with dismantling and reconstructing the upper portions of the injured walls while the river had access to the dock, and consequently it was decided to strut the gates of the 60 feet and 80 feet passages against the tide. Since this was done, the work on the walls has made good progress. More than ⅓rd of the concreting of the south-west berth had been done, and on the eastern wall 368 out of 418 bolt holes had been drilled and 60 per cent. of the waling had been fixed and the pockets concreted.

Boat Canal.—The lock and bridge at Chetla Hât are now completed. The gates and overbridge which were under construction when our last report was submitted are now finished, as also the revetments. The foot-bridge across the lift lock at the Budge-Budge Road has been erected and raised to position, and the piers erected under it.

Subsidiary Works.—The addition to the hydraulic engine station for the accommodation of electric light engines and plant was nearly completed at the time of our inspection. The wing was roofed and satisfactory progress made with engine foundation. The iron work for the cargo sheds has been received from England. Four sheds on the west side have been erected and partly roofed in, and two on the east side were put in hand. Considerable progress has been made with them.

GENERAL REMARKS.

We consider that the progress on the works in hand during the two quarters was very satisfactory, and that, so far as we could judge, the quality of work done was all that could be desired, promising completion at a very early date.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 28th November, 1891.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL.			
BURDWAN DIVN. 1	Burdwan Nov. 28, '91	Nil	Weather—fairly cool, but cloudy for the last two days. *Aman* crop is being harvested. Prices of common rice :— Srs. Burdwan ... ... 14 to 16 Cutwa ... ... 15 Culna ... ... 14 Raneegunge ... ... 15½ per rupee.
	Culna ...	Nil	
	Cutwa ...	Nil	
	Raneegunge ...	Nil	
2	Bankoora ,, 28, '91	Nil	Weather—seasonable with patches of clouds in the sky. Harvesting of *aman* rice commenced. Sowing of *rabi* continues. Sugarcane prospering. Condition of cattle good. Fodder sufficient. Common rice selling at 15½ seers per rupee at Bishenpur and 17 seers at Sudder.
3	Birbhum ,, 28, '91	Nil	Weather—rather too warm for the season. Since yesterday (27th) somewhat cloudy. Harvesting of winter rice has commenced. Prospects of *rabi* crops good. Supply of fodder and water sufficient. Common rice sells at from 14½ to 18½ seers per rupee.
	Rampore Haut ...	Nil	
4	Midnapore ,, 28, '91	Nil	Weather—fair; not so cool as it should be. Harvesting of paddy has begun in all parts except Contai. *Rabi* and indigo doing well. No want of fodder or water. Price of silk cocoons increased in Ghatal during last month. Prices of common rice :— Srs. Sudder ... ... 16 Contai ... ... 17 Tumluk ... ... 16 Ghatal ... ... nearly 16 per rupee.
5	Hooghly .. 28, '91	Nil	Weather—clear but not sufficiently cool. Winter rice crop severely affected by want of rain. *Rabi* sowings almost over. Sugarcane doing well. Fodder and water-supply sufficient. Prices of common rice :— Srs. Sudder ... ... 13 Serampore ... ... 18 Jehanabad ... ... 16 per rupee.
	Serampore ...	Nil	
	Jehanabad ...	Nil	
6	Howrah ,, 28, '91	Nil	Weather—somewhat cloudy and warm for the season. Paddy on high lands in some parts of the district parched up. *Rabi* crops being sown on lands near the river. Health of cattle good. Fodder and water-supply sufficient. Price of common rice 14 to 14½ seers per rupee.
	Uluberia ...	Nil	
PRESIDENCY DIVN. 7	24-Pergha ,, 28, '91	Nil	Weather—moderately cold and seasonable. *Aman* paddy is being reaped; want of rain has affected the outturn. Sowing of *rabi* crops in progress. Common rice is being sold at from 12½ to 15 seers per rupee. No cattle-disease reported. No want of fodder or water.
8	Nuddea ,, 28, '91	Nil	Weather—seasonable. Prospects of *aman* unchanged. Outturn expected to be not more than 8 annas. *Rabi* crops not doing well for want of moisture. Common rice selling at 13 seers 12 chittacks to 15 seers per rupee. Condition of cattle good, and supply of fodder and water sufficient.
	Kushtea ...	Nil	
	Meherpore ...	Nil	
	Chuadanga ...	Nil	
	Ranaghat ...	Nil	
9	Khoolna ,, 28, '91	Nil	Weather—slightly cloudy and foggy in the morning. Sowing of *rabi* just finished. Prospects of *aman* fair. Prices of common rice 14 to 16 seers per rupee. Fodder and water sufficient.
	Bagirhat ...	Nil	
	Satkhira ...	Nil	
10	Jessore .. 28, '91	Nil	Weather—rather warm for the season. Rain wanted for winter crops and *boran* paddy. *Chhotan* paddy being harvested. No cattle-disease reported. Supply of fodder and water for cattle plentiful.
	Jhenidah ...	Nil	
	Magura ...	Nil	
	Narail ...	Nil	
	Bongong ...	Nil	
11	Murshedabad ,, 28, 91	Nil	Weather—cloudy and nights cool. Harvesting of winter rice has commenced. *Rabi* sowings completed in Lalbagh subdivision. Rain still wanted. No want of fodder for cattle.
CHITTAGONG DIVN. 12	Chittagong Dec. 1, '91	Nil	Weather—warm. Mornings sometimes foggy. State and prospects of winter rice crop not very good. Prices steady.
13	Noakhally Nov. 28, '91	Nil	Weather—foggy mornings, hot days, cool nights. *Aman* paddy maturing. In some places reaping of *aman* commenced. *Rabi* crops progressing. Condition of cattle and supply of fodder and water good. Price of common rice 15½ seers at head-quarters and 17 seers at Feuny.
14	Tipperah ,, 28, '91	Nil	Weather—seasonable. Prospects of crops fair. Fodder sufficient. No cattle-disease reported from any part of the district.
15	Chittagong Hill Tracts. ,, 26, '91	Nil	Weather—cool and foggy generally from 1 to 9 A.M. Hot and cloudy throughout the rest of the day. Cotton is still being gathered. Early plough-paddy is being harvested in places and late paddy progressing. Sowing and transplanting of mustard and other cold-weather crops almost over. Price of common rice 11½ seers per rupee.

	No	District and date of return.		Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL—*concluded.*					
Dacca Divn.	16	Dacca	Nov. 28, '91	Nil	Weather—seasonable. Harvesting of *aman* going on. Prospects appear to be favourable. Fodder available. Common rice selling at from 13 to 17 seers per rupee. Condition of cattle good.
	17	Furreedpore	„ 28, '91	Nil	Weather—getting cool. Harvesting of *aman* in progress. Rice selling at 14 to 16 seers per rupee.
	18	Backergunge	„ 28, '91	Nil	Weather—seasonable. Prospects of crops good in the Patuakhali and Perozepur subdivisions, but poor in the Sudder and Bhola subdivisions. Price of common rice varies from 11 to 17 seers per rupee. Supply of fodder and water sufficient.
	19	Mymensingh	„ 28, '91	0·54	Weather—moderately cold. Damage has been caused by the recent hail shower in the Sudder only. Prospects of crops fair on the whole. Rice sells at 14 seers a rupee. Condition of cattle good, and supply of fodder and water sufficient.
Rajshahye Divn.	20	Dinagepore	„ 28, '91	Nil	Weather—cool and cloudy. Prospects of winter rice continue bad as before. Cultivation of *rabi* crops still in progress. Price of rice at Sudder 18 seers per rupee and at Thakurgaon 10 seers. Condition of cattle good. Supply of fodder and drinking water sufficient.
		Thakurgaon	...	Nil	
	21	Rajshahye	„ 28, '91	Nil	Weather—seasonable. Prospects of *aman* continue unchanged. Condition of *rabi* crops good. Prospects of ganja favourable. Price of common rice varies from 12 to 15 seers per rupee. Supply of fodder and water sufficient. No cattle-disease.
		Nattore	..	Nil	
		Nowgong	...	Nil	
	22	Rungpore	„ 28, '91	Nil	Weather—unseasonably hot with cold mornings. Rice harvest has commenced. A slightly better outturn is expected than previously estimated. Prices have fallen slightly in the Nilphamari and Gaibanda subdivisions. The general average is 12 seers for *aus* rice but old *aman* rice sells at 9 seers. Prospects of *rabi* crops and sugarcane favourable. Fodder sufficent.
		Nilphamari	...	Nil	
		Kurigram	...	Nil	
		Gaibanda	...	Nil	
	23	Bogra	„ 28, '91	Nil	Weather—cool in the morning and hot in the day. Prospects of *rabi* good. An average outturn of 8 annas of *aman* expected. Fodder and water ample except in the jurisdict ons of the western thanas where insufficiency of drinking water reported. Common rice selling at 13½ seers a rupee.
		Sherpur	...	Nil	
		Nowkhilla	...	Nil	
	24	Pubna	„ 28, '91	Nil	Weather—cool. State and prospects of *aman* paddy much the same as before; outturn expected to be 10 annas. *Rabi* crops doing well. Price of common rice stationary, being 13 seers per rupee. Condition of cattle good. Supply of water and fodder sufficient.
	25	Darjeeling	„ 28, '91	Nil	Weather—fair. Paddy on high lands is being cut. Low land paddy ripening, but ears are small. Mustard and *kalai* doing well. No disease among cattle. Fodder and water-supply ample. Prices of common rice:—

	Srs.	
Silliguri	11	per rupee.
Phansidewa	9	
Nuxalbari	10½	
Darjeeling	9	
Kalimpong	9	
Pulbazar	10	
Jore Bungalow	10	
Nagri	8	
Sonadah	10	
Kurseong	10	
Kharibari	9	

	26	Julpigoree	„ 28, '91	Nil	Weather—seasonable. Prospects of *himasti* paddy unfavourable. Common rice sells at 10 seers a rupee. Fodder and water-supply sufficient. No cattle-disease.
BEHAR					
Bhagulpore Divn	27	Monghyr	„ 28, '91	Nil	Weather—fine and seasonable. Prospects of *rabi* crops continue favourable in Begusarai and parts of the Sudder subdivision; only 8 annas have been sown in Jamui owing to want of moisture. Prospects of paddy unchanged. Prices of common rice vary from 11 to 15 seers per rupee in different parts of the district. Fodder and water-supply at present sufficient.
		Begusarai	...	Nil	
		Jamui	.	Nil	
	28	Bhagulpore	„ 28, '91	Nil	Weather—seasonable. Harvesting of *aghani* rice commenced. Prospects of *aghani* rice and *rabi* crops unchanged. Prospects of *kurthi* reported to be fair and those of *tori* (mustard) very indifferent in the Maddapore subdivision. Yield of sugarcane in the Banka subdivision is fair. Fodder plentiful. Price of common rice 13½ seers per rupee.
	29	Purneah	„ 23, '91	Nil	Weather—much cooler. *Aghani* prospects unfavourable as previously reported. Some *aghani* is being reaped. *Rabi* generally doing well, but rain will soon be necessary, especially for wheat. Fodder and water sufficient. No cattle-disease. Prices of common rice in the Sudder subdivision from 9 to 13 seers, in Kishengunge 10 seers, and in Arrareah 13 seers, per rupee.
		Kishengunge	...	Nil	
		Arrareah	...	Nil	
	30	Maldah	„ 28, '91	Nil	Weather—cool, but a little cloudy since yesterday (27th). Harvesting of winter rice has commenced in some places. The Collector on tour in the tract east of the district estimates the outturn from enquiries and personal observation to be not less than 8 annas. Prospects of *kalai* and other *rabi* crops continue favourable. Common rice sells at from 10 to 15 seers per rupee. Supply of fodder and water adequate. Condition of cattle good.
		Chanchal	...	Nil	
		Shibgunge	...	Nil	
		Gajole	...	Nil	
	31	Santhal Perghs.	„ 28, 91	Nil	Weather—seasonably cool; cloudy at times. Winter rice is being harvested everywhere; outturn about 12 annas on average. Rain wanted for standing *rabi* crops. Price of common rice 16 seers per rupee in the Sudder subdivision. Fodder and water-supply sufficient.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BEHAR—(*concld.*)			
Patna Division. 31	Patna Nov. 28, '91	Nil	Weather—clear and getting cold. Paddy still being harvested. *Rabi* sowing still in progress. Those already sown have germinated well. Rain urgently wanted. Poppy sowings almost completed. Prices of food-grains almost stationary.
	Barh ...	Nil	
	Behar ...	Nil	
	Dinapore ...	Nil	
33	Gya ,, 28, '91	Nil	Weather—cold with cloudy mornings. Paddy being harvested. Sowing of *rabi* and poppy still going on in some places, but rain urgently wanted. Prices of food-grains almost stationary. Supply of fodder and water for cattle yet sufficient.
	Aurungabad ...	Nil	
	Jehanabad ...	Nil	
	Nawada ...	Nil	
34	Shahabad ,, 28, '91	Nil	Weather—cold nights and mornings, days warm. Paddy harvest proceeding. Prospects of *rabi* crops still fair; but rain is much wanted, and insects have done some damage. Prices rising in Bhabuah, but show a tendency to fall in Sasseram, where new rice is coming into the market. Poppy promising.
	Buxar ...	Nil	
	Bhabuah ...	Nil	
	Sasseram ...	Nil	
35	Durbhunga ,, 28, '91	Nil	Weather—getting cool. *Rabi* coming on well where there is moisture. Paddy is being harvested in places. Rain urgently wanted for *rabi* crops. First poppy sowings have been a failure; second sowings going on. Supply of fodder for cattle sufficient. Price of common rice varies from 12 to 13½ seers per rupee.
36	Mozufferpore ,, 28, '91	Nil	Weather—seasonable. Paddy is being harvested. Average outturn for Sudder subdivision 5 annas, for Sitamarhi subdivision 6 and 7 annas, and for Hajipur subdivision 3 annas. *Rabi* sowings still going on in many places. Reports on the state of *rabi* are not encouraging. Rain most urgently wanted both for *rabi* and poppy. *Rahar*, sugarcane and other standing crops are in good condition. Prices stationary. Fodder and water for cattle plentiful.
	Hajipore ...	Nil	
	Sitamarhi ...	Nil	
37	Sarun ,, 28, '91	Nil	Weather—warm for the time of the year. *Rabi* doing well. Poppy sowings continue. Fodder and water sufficient. Prices of common rice:— Sudder ... . Srs 13 Ch. 0; Sewan ... ... 16 8; Gopalgunge ... ... 14 6 — per rupee.
38	Chumparun ,, 28, '91	Nil	Weather—seasonable. *Rabi* is being sown. State of standing crops fair. Supply of fodder and water for cattle sufficient.
ORISSA.			
Orissa Divn. 39	Cuttack ,, 28, '91	Nil	Weather—seasonable. *Laghu* paddy is still being harvested. Tobacco is being transplanted. Price of common rice has gone up at head-quarters, the rate being 13 seers 12 chittacks per rupee, against 14 seers 7 chittacks in the preceding week. Cattle-disease reported from places. In the part affected by the late cyclone, food-grains are not easily available in the local markets.
40	Pooree ,, 26, '91	Nil	Weather—seasonable. *Laghu* paddy being reaped. *Sarad* paddy partly in ear and partly ripening. Common rice sells at from 12½ seers to 19 seers per rupee. Cattle-disease reported from pergunnahs Kurlo, Kuspalla, and Banpur.
	Khurda ...	Nil	
	Banpur ...	Nil	
	Pipli ...	Nil	
	Gop ...	Nil	
41	Balasore ,, 28, '91	Nil	Weather—seasonable. Harvesting of winter rice continues. Prospects good. Rice selling at Balasore 19 seers and at Bhadrak 20 seers per rupee.
CHOTA NAGPORE.			
	South-West Frontier Agency.		
Chota Nagpore Divn. 42	Hazaribagh Nov. 28, '91	Nil	Weather—cold and bright. Harvesting of paddy not yet complete; estimated outturn 12 annas. *Rabi* sowings completed. Common rice selling at from 13 to 16 seers per rupee. Fodder and water-supply sufficient. Cattle-disease reported from thana Jageswar.
	Giridih ...	Nil	
43	Lohardugga ,, 28, '91	Nil	Weather—a little cloudy. Rain badly wanted for *rabi* crops. Harvesting of winter rice continues. Price of common rice 15 seers per rupee. Ample fodder for cattle.
	Palamow (up to 23rd) ...	Nil	
44	Singbhoom ,, 28, '91	Nil	Weather—cloudy since yesterday (27th). Harvesting of paddy continues with the same satisfactory results as reported in previous week. Prices stationary. No cattle-disease. Fodder plentiful.
45	Manbhoom ,, 28, '91	Nil	Weather—less cool than seasonable. Prospects of winter crops good. Rice selling at 20 seers per rupee. Fodder and water-supply still sufficient.
	Govindpore ...	Nil

* Mean of 6 days. | † Mean of 5 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last The Anemometer of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numbers are the numerical means or average of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the past seasons in the district sending in returns divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

for the week ending Saturday, the 28th of November 1891.

Average humidity at 8 A.M.	Average cloud amount at 8 A.M. for week.	Rainfall of week at observing station.	Of week.		District observations. Rainfall. Since 1st of month.			Since 16th October 1891.			Of week.		Representative station.	District.	Meteorological Division
			Mean for district.	Normal mean.	Mean for district.	Normal mean.	Variation.	Mean for district.	Normal mean.	Variation.	Average number of rainy days.	Normal number of rainy days.

Explanation.—.....indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the 1st December* 1891.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 28TH OF NOVEMBER 1891.

DURING the previous week the weather conditions in the south of the Bay had been decidedly disturbed for a considerable period, but up to the close of that period no storm had been formed, and indeed on the 21st, or the last day of that week, conditions were much less disturbed than they had been, and on the Saturday there were no indications even of the existence of any barometric depression of importance, and still less of the formation of a storm. It is probable, however, that on the morning of this day a storm was gradually developing over the area in the Bay where pressure had been persistently low for several days, for the observations received on the morning of Sunday 22nd indicated very clearly that a cyclonic storm had formed to the west-south-west or south-west of Diamond Island, and apparently not very far away from land, the storm being well on the east side of the Bay. After its formation the storm commenced to move rather rapidly in a north-easterly or north-north-easterly direction. The centre of the cyclone passed to the west of Diamond Island about 5 A.M. of the 23rd, and during the passage of the storm near Diamond Island, even though the centre of the storm was not by any means near the land—for the lowest barometric reading recorded there was not lower than about 29·6 inches—that station reported winds of hurricane force with a tremendous sea, and for part of the night the wind velocity averaged 45 miles an hour. As the storm approached nearer the land the direction of its advance became more easterly, and during a large part of the 23rd it was advancing in a north-easterly or east-north-easterly direction, and perhaps when it struck the coast on the night of the 23rd or the morning of the 24th it was even travelling in an easterly direction. There are no meteorological observatories on the Burma coast between Diamond Island and Akyab, a distance of about 350 miles; but, so far as can be judged, the storm crossed the coast about midway between the two stations, though in the absence of any neighbouring observatory it is impossible to say the precise point of the coast crossed by the storm or what the depression of the barometer was near the centre of the storm. From the wind velocities recorded at Diamond Island, which are some of the highest ever registered at that station, it is clear the storm was a very severe one, and that such was the case is also proved by the experience of various vessels which were involved in the cyclone and which suffered damage from it. Directly, however, the storm passed inland and into the Arakan Hills, it must have commenced to break up rapidly, for at 8 A.M. of the 24th there was very little evidence of the existence of the storm at all, though pressure was still low over Burma, and by the morning of the 25th all trace of the existence of the former fierce cyclone had disappeared. The storm was probably of small diameter only though very fierce; it had also an exceedingly short life history, and the amount of rainfall brought up by it was comparatively small and was mainly confined to Burma.

From the 26th to the 28th, or for the remainder of the week, there was again ample evidence of the existence of a low-pressure area in the south of the Bay probably between the Andamans and the Madras coast; but this did not develop in any way, although the strong easterly and north-easterly winds which continued to blow at Diamond Island at this time pointed to the existence of squally unsettled weather generally in the south and east of the Bay.

As is usual, the disturbed weather in the Bay reacted on the general weather conditions in Bengal, and again the week has been one in which the cold weather conditions have not been at all fully developed. During the existence of the storm, and to a smaller extent at the close of the week, the skies became more clouded than usual, the air became damp, and temperature rose and became very much above the normal; pressure also fell for a considerable period, but the storm was too far away to affect the general pressure in Bengal to any material extent. As might be expected, the weather was more affected in the southern and south-eastern districts than elsewhere, and at a few stations in South-East Bengal a few light showers were reported; but these were of little practical importance. Elsewhere the whole province has again been rainless during the week.

Pressure.—The mean pressure for the week has been slightly below the normal over the greater part of the province, but the defects have been largest at the southern stations, where they generally equal from 0·02″ to 0·03″. At the northern stations in the province the defects are either very small and of only a few thousandths of an inch, or in several cases very slight excess amounts have been registered.

Temperature.—The mean temperature for the week has been from 2° to 3° in excess of the normal in South, West, East and North Bengal, and in Chutia Nagpur and South Behar. In Orissa the excess has been 1·6° and in North Behar 0·6°. For the whole province, therefore, the mean temperature for the week has been 2·1° in excess of the normal. The distribution of temperature during the week and its variation from the normal are best seen in the table below, where the average maximum, minimum and mean temperatures for the week at nine typical stations in different districts of the province are compared with their normal

values for the same period. The excess temperature, it will be seen, has been almost equally marked in both day and night temperatures :—

Table showing the excess or defect of the actual mean temperature from the normal for the week ending 28th November 1891.

	Normal mean maximum temperature for the week ending 28th November.	Actual mean maximum temperature for the week ending 28th November 1891.	Variation of actual mean from the normal.	Normal mean minimum temperature for the week ending 28th November.	Actual mean minimum temperature for the week ending 25th November 1891.	Variation of actual mean from the normal.	Normal mean daily temperature for the week ending 28th November.	Actual mean daily temperature for the week ending 28th November 1891.	Variation of actual mean from the normal.

Rainfall.—The only stations at which falls in excess of a tenth of an inch have fallen during the week have been Rangamati, Agartolah (1·35 inches), Mymensingh (0·54 inch during a dust storm accompanied by rain and hail), and Netrokona. Elsewhere the whole province has been practically rainless.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 28th of November 1891 :—

Meteorological Divisions.	Temperature.						Rainfall.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

≏, dew.

C. LITTLE,

MEMORANDUM.

Report on the Monthly Statistics of Deaths registered in forty-five districts of Bengal for the month of August 1891.

THE total number of deaths registered in forty-five districts of Bengal during the month of August 1891 amounted to 142,154, against 116,479 in August 1890, and an average of 120,573 in the corresponding month of the previous five years, 1886—90. These figures represent an annual death-rate of 25·80, 21·12 and 21·96 per 1,000, respectively, of the aggregate population of those districts, which is 65,859,534. The death-rate of August 1891 is 3·84 higher than the mean rate of the corresponding month of the past five years, 1886—90, and is also higher than the rate of the corresponding period of any of the past five years with which comparison is instituted, *vide* the figures below—

	August 1886.	August 1887.	August 1888.	August 1889.	August 1890.	Monthly average of five years, 1886—90.	August 1891.
Number of deaths	113,678	137,366	105,530	126,815	116,479	120,573	142,154
Ratio per mille per annum	20 64	24·96	19·68	23·04	21·12	21 96	25 80

It will also be seen from the following table that the death-rate of the forty-five districts during August 1891 is greater than the previous months of the year except January, March and April:—

Months.	*Number of deaths.*	*Ratio per mille.*
January	143,492	26·04
February	137,553	24·96
March	168,185	30·60
April	161,980	29·52
May	125,975	22 92
June	140,594	25·56
July	121,977	22 20
August	142,154	25·80

The following table exibits the registered results as they occurred among the different sexes and the several classes of the community which comprise the population of the Bengal Province. As usual, more males died than females. The ratio of deaths among the sexes, calculated on the proportion the mortality bears to the total male and female population of the province, is as 116 is to 100; but, individually considered, in only three districts, viz, Dinagepur, Darjeeling, and Noakhali, the death-rates among females is greater than that among males. Of the several classes of the community, in proportion to population, death is greater among the Hindus, next among Buddhists, then among the Other classes and Mahomedans. Christians suffered the least:—

	Sexes.			Classes.				
	Males.	Females.	Ratio of male deaths to every 100 female deaths, calculated on the proportion such mortality bears to the total male and female population.	Christians.	Hindus.	Mahomedans.	Buddhists.	Other classes.
Number of deaths	75,832	66,322	...	151	99 960	38,607	103	3,287
Ratio per mille per annum ...	27·64	23·86	116	18·73	27·96	21·73	25·31	23 40

The following table shows the proportions of deaths registered during the month of August 1891, above 25 per mille, arranged in order of sequence, and compared with the ratios of the corresponding month of 1890:—

Districts.	Ratio per *mille* during— August 1891.	August 1890.	*Districts.*	Ratio per *mille* during— August 1891.	August 1890.
Gya	54 36	36·84	Maldah	31·32	8·28
Shahabad	49·08	29·88	Lohardugga	30·24	18 24
Darjiling	48·48	37 20	Monufferpore	30·12	25·92
Patna	42 96	33 12	Bhagulpore	28 68	18 96
Sarun	38·60	22·44	Julpaiguri	27·72	25·20
Monghyr	34 92	22·56	Murshedabad	26·88	15·36
Chumparun	33·48	31·08	Rajshahye	26 88	22·32
Dinajpore	31·56	24 00	Manbhum	26 04	22·44
Hazaribagh	31 56	25·08	Serampore	25·08	22·56

It will be seen from the statement appended to this memorandum that the highest death-rate occurred in Gya, 54·36 per mille per annum, and the lowest in Mymensing, 14·28 per 1,000 of population. In eighteen districts the death-rates were above 25 per mille, in sixteen between 20 and 25, and in the remaining 11 below 20. In the districts which show a lower death-rate than 20 per mille per annum, registration of deaths does not appear to have been accurately carried on.

The total mortality from the several registered death-causes during the month under review is compared in the following table with the mortality from those causes in the corresponding month of 1890, and the average of the previous five years, 1885—90:—

	Ratio per *mille* during—		
	August 1891.	August 1890.	Monthly average of five years, 1885—90.
Cholera	2·64	1·92	2·04
Small-pox	·12	·08	·04
Fever	18·00	15·24	15·00
Dysentery and diarrhœa	·60	·48	·72
Injury	·72	·72	·72
Other causes	3·48	3·00	3·00

Compared with the figures of both the past periods, there is a considerable increase in the mortality of August 1891 under the heads cholera and fever.

The deaths from *Cholera* numbered 14,548, which is equivalent to an annual rate of 2·64 per 1,000 of population, against 20,049 (ratio 3·60 per mille) in the preceding month. The greatest severity of this disease was felt in Gya and Shahabad, which returned death-rates of 17·76 and 17·64 per 1,000 per annum, respectively, then in Sarun, where the death-rate was 8·40, in Patna 7·32, Chumparun 6·, Mozufferpore 4·80, Monghyr 4·20, Durbhanga 3·24, Bhagulpore 3·24, Lohardugga 2·64, and in Hazaribagh 2·52. From three districts, viz., Noakhali, Tipperah, and Singbhoom, the disease was entirely absent.

Small-pox carried of 659 persons (ratio ·12 per mille per annum), against 1,335 (ratio ·24) in the month before. Midnapore and Cuttack returned the highest small-pox death-rate (1·20 per mille per annum) each, followed by Pooree ·84 per mille. Nine districts, viz., Birbhum, Serampore, Rajshahye, Rungpore, Pubna, Darjiling, Noakhali, Tipperah, and Bhagulpore, were entirely free from this disease.

Fever caused 99,028 deaths (ratio 18· per 1,000 per annum), against 77,775 (ratio 14·16) in the preceding month, and *dysentery and diarrhœa* proved fatal in 3,668 instances (ratio ·60 per mille per annum), against 3,272 (ratio ·48) in the previous month. All the districts suffered from the latter ailments. The greatest mortality rates from fever were recorded in Darjiling (39·12), Gya (29·16), Dinajpur (28·80), Maldah (27·72), Julpaiguri (26·16), Shahabad (25·56), Rajshahye (24·96), Monghyr (24·60), Patna (24·12), Hazaribagh (23·64), Jessore (22·68), Murshedabad (21·48), Chumparun (21·24), and Bhagulpore (20·76). Darjiling also returned the highest death-rate from dysentery and diarrhœa, viz., 11·16 per mille; Howrah and Balasore stand next to Darjiling with a death-rate of 3·36 per mille each, followed by Pooree 3·.

Injury proved fatal in 4,204 instances (ratio ·72 per mille), against 3,945 (ratio ·60) in the previous month, and the mortality from *all other causes* not specified amounted to 19,747 (ratio 3·48 per mille), against 15,601 (ratio 2·76) in the preceding month. Pooree returned the highest death-rate from the unspecified diseases coming under the head "All other causes," viz., 11·76 per 1,000 per annum, next Sarun (10·44), then Patna (9·).

With regard to mortality according to *Age*, infants under one year of age, as usual, perished in the largest numbers, viz., at the rate of 187·20 per 1,000 of population per annum, next came old persons (60 years and upwards) with a death-rate of 59·16 per mille. The lowest death-rate occurred among persons between 10 and 15 years of age, viz., 13·08 per 1,000 per annum.

Detailed information regarding the mortuary statistics of the forty-five districts of Bengal during the month under review will be found in the statement appended.

W. H. GREGG, *Dip. Publ. Health, Camb.*,
Sanitary Commissioner for Bengal.

The 27th November 1891.

Statement showing the Results of the Registration of Deaths in the Districts in Bengal for the month of August 1891.

Increase.

Coal 873
This is due to greater import for storage.

Cotton piece goods—
(1) European 10
Due to Durga Poojah requirements.

Grains—
(4) Others 63
Due to greater import of indigo seed.

Jute—
(1) Raw 88
Due to greater despatch of pressed jute from Jiaganj.

Oils—
(2) Kerosine 24
This is due to E. I Railway rate being high carried by steamer to Azimganj and thence by railway to Nalhati.

Oil-seeds—
(2) Mustard and rape 56
Due to greater import for high demand.

Salt 33
This is due to greater import to intermediate stations.

Tobacco 35
There was no traffic in this head last year.

Decrease.

Grains—
(2) Rice 26
Less exported owing to local rate being high.

Railway plant and rolling-stock ... ...
Less materials carried.

Sugar—
(2) Undrained 26
Due to less import owing to dull market rate.

R. G. Mookerjee,
Manager, Nalhati State Railway.

Weekly Return of Traffic Receipts on Indian Railways.

EAST INDIAN RAILWAY.

Approximate Return of Traffic for week ended 21st November 1891, on 1,525½ miles open.

PART I.

Orders and Notifications by the Lieutenant-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 95A.

GENERAL.—*The 7th December* 1891.—Sir John Edgar, K.C.I.E., C.S.I., Chief Secretary to the Government of Bengal, is allowed leave for thirty-five days, under article 291 of the Civil Service Regulations, with effect from the afternoon of the 4th instant.

The Hon'ble H. J. S. Cotton, Secretary to the Government of Bengal, Financial and Municipal Departments, is appointed to act as Chief Secretary to the Government of Bengal, during the absence, on leave, of Sir John Edgar, K.C.I.E., C.S.I., or until further orders.

H. LUSON,
Under-Secy. to the Govt. of Bengal.

GENERAL.—*The 1st December* 1891.—Mr. C. E. Buckland, Officiating Secretary to the Government of Bengal in the General, Revenue and Statistical Departments, is confirmed in that appointment, *vice* Mr. P. Nolan.

Mr. C. C. Stevens, Commissioner, Patna Division, on leave, is appointed to be a Member of the Board of Revenue on the retirement of Mr. A. Smith.

The 3rd December 1891.—Mr. W. R. Bright, Joint-Magistrate and Deputy Collector, is appointed to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors, with effect from the forenoon of the 19th ultimo, and is posted to the head-quarters station of the Monghyr district, with effect from the 27th idem.

The services of Mr. C. A. Bell, Assistant Magistrate and Collector, 24-Pergunnahs, are placed temporarily at the disposal of the Financial Department of this Government.

The 4th December 1891.—In modification of the order of the 3rd July last, it is notified that Mr. J. F. Stevens, District and Sessions Judge of Mozufferpore, was on leave, under article 308 of the Civil Service Regulations, from the afternoon of the 9th July 1891 to the forenoon of the 10th October 1891.

The Lieutenant-Governor is pleased to accept the resignation tendered by the Rev. A. W. Atkinson, Honorary Chaplain of the Calcutta Volunteer Rifle Corps, of his commission, with effect from the 17th November 1891.

Babu Kanty Chunder Mukerji, Munsif of Oolooberiah, in the district of Hooghly, is appointed to be a substantive *pro tempore* Deputy Magistrate and Deputy Collector of the sixth grade.

The services of Babu Kanty Chunder Mukerji, substantive *pro tempore* Deputy Magistrate and Deputy Collector, are placed at the disposal of the Revenue Department of this Government for employment on survey and settlement work in Chittagong.

In modification of the order dated the 24th ultimo, Babu Parbati Churn Roy, Deputy Magistrate and Deputy Collector, on furlough, is posted to the head-quarters station of the 24-Pergunnahs district.

The 7th December 1891.—The services of Mr. W. C. Macpherson, Joint-Magistrate and Deputy Collector, are placed at the disposal of the Board of Revenue for employment on special duty, with effect from the date on which he assumed charge.

Lieutenant-Colonel A. E. Gordon, Officiating Deputy Commissioner, Lohardugga, is appointed to act, until further orders, in the first grade of Deputy Commissioners, with effect from the 16th November 1891.

Babu Koilas Chunder Das, Sub-Deputy Collector, on deputation as Manager under the Court of Wards, Chittagong, is appointed to be a Probationary Deputy Magistrate and Deputy Collector, but to continue on deputation until further orders.

Mr. C. J. S. Faulder is appointed to act, until further orders, as Magistrate and Collector of Pubna.

Mr. Nunda Krishna Bose, Joint-Magistrate and Deputy Collector, is appointed to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors, and is posted to the head-quarters station of the Pubna district, on being relieved of his present appointment as Officiating Magistrate and Collector of that district.

Moulvi Abul Khair Mohamed Abdus Subhan, Deputy Magistrate and Deputy Collector, Patna, is transferred to Gya, and is posted to the head-quarters station of that district.

This cancels the order of the 30th ultimo transferring him to Dacca.

Mr. H. R. H. Coxe is appointed to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors, with effect from the date on which he was relieved of his officiating appointment as Magistrate and Collector of Chumparun, and is appointed to have charge of the Bettiah sub-division of that district, with effect from the date on which he joined the sub-division.

Mr. E. W. Collin, substantive *pro tempore* Joint-Magistrate and Deputy Collector, first grade, is confirmed in that grade, with effect from the 22nd September 1891, *vice* Mr. C. S. Bayley, but will continue to act, until further orders, as Magistrate and Collector of Rungpore.

Kumar Gopendra Krishna Deb, substantive *pro tempore* Joint-Magistrate and Deputy Collector, second grade, is confirmed in that grade, with effect from the 22nd September 1891, *vice* Mr. E. W. Collin, but will continue to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors.

The following Sub-Deputy Collectors are appointed to be Probationary Deputy Magistrates and Deputy Collectors, but to continue to be employed on special duty under the Public Works Department (Irrigation Branch) of this Government until further orders :—

Babu Jugdam Sahoy. | Babu Siva Sankar Singh.

POLICE.—*The 2nd December* 1891.—The order of the 27th October last, granting one month's privilege leave to Mr. H. B. St. Leger, Assistant Superintendent of Police, in charge of the District Police, Southal Pergunnahs, is cancelled.

The 7th December 1891.—Mr. H. W. Boileau, Assistant Superintendent of Police, is posted to the district of the 24-Pergunnahs on being relieved of his present appointment as Officiating District Superintendent of Police, Nuddea.

Mr. A. R. G. Hampton, Officiating Assistant Superintendent of Police, 24-Pergunnahs, is transferred to Moorshedabad.

The 8th December 1891.—Mr. W. R. Green, District Superintendent of Police, Howrah, is allowed furlough for two years, under article 371 of the Civil Service Regulations, with effect from the 6th March 1892.

REGISTRATION.—*The 8th December* 1891.—Babu Hem Chunder Kerr is appointed to be Rural Sub-Registrar of Sealdah, in the district of the 24-Pergunnahs, *vice* Rai Koylas Chunder Mookerjee Bahadur, resigned.

EDUCATION.—*The 2nd December* 1891.—Mr. J. Mann, Professor, Hooghly College, reported his departure on furlough on the 17th ultimo.

The following notifications are republished from the *Assam Gazette*:—

EDUCATION DEPARTMENT, BENGAL.

Civil Engineering College, Seebpore.

AN examination for admission to the Mechanical Apprentice Department will be held at the College on Monday and Tuesday, the 11th and 12th January 1892.

Candidates must apply in writing to the Principal not later than the 31st December 1891 for permission to appear at the examination, enclosing a fee of Rs. 2, a certificate of good conduct, and a certificate of age. Applications unaccompanied by fee and certificates will not be considered.

For admission to this Department, candidates must be between the ages of 16 and 17 years.

The subjects of examination are—

Arithmetic	...	...	...	The whole.
Algebra	...	...	...	To Simple Equations.
Euclid	...	...	...	Books I and II.

English Grammar and Composition.

Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, fitness for manual labour, and eyesight. If this officer's report is unsatisfactory, the applicant will not be admitted and his examination fee will be returned.

There will be two vacancies on the free list for Christian apprentices in February next and nineteen on the reduced * fee list.

* Rs. 5 per mensem.

For Natives there will be at least twelve vacancies, possibly more, on the reduced † fee list. These vacancies will be filled up by the Board of Visitors.

† Rs. 2 per mensem.

Owing to want of accommodation, the number of *Hindu* apprentices to be admitted is limited. Candidates will be selected in order of merit.

Further particulars will be supplied on application to the Principal.

J. S. SLATER,
SEEBPORE, *the 20th November* 1891. *Professor in Charge, Civil Engineering College.*

Orders by the Vice-Chancellor and Syndicate of the Calcutta University.

THE undermentioned candidates have passed the M.A. Examination :—

ENGLISH.

CLASS I.

Poetry.

Epitaph on a Hare.
The Dog and the Water-Lily.
Alexander Selkirk.
Ye Mariners of England.
Alice Fell; or Poverty.
Lucy Gray; or Solitude.
Casabianca.
A Psalm of Life.

TO BE COMMITTED TO MEMORY.

Epitaph on a Hare.
Alexander Selkirk.
Casabianca.
A Psalm of Life.

Two papers to be set in English. The first paper to contain questions on the text-books and questions on grammar arising therefrom; the second paper to contain passages in a vernacular as defined in paragraph 6 of the Regulations for the Entrance Examination, for translation into English, together with questions on English composition. In the case of students whose vernacular is English, a special paper will be set in which simple essays or letters or other original compositions will replace the passages for translation into English.

ENTRANCE EXAMINATION, 1894.

GREEK.

Xenophon	... ...	Anabasis, Books III and IV.

LATIN.

Cornelius Nepos	...	Selections by G. S. Farnell, M.A. (Macmillan's Elementary Classics.)
Aulus Gellius ...	...	Selected Stories by G. H. Nall, M.A. (Macmillan's Elementary Classics.)
Ovid ...	...	Easy Selections by H. Wilkinson, M.A. (Macmillan's Elementary Classics)

One paper to be set in this subject with questions on history, parsing, and geography arising therefrom, and easy passages from authors not prescribed to be translated into English; and one paper containing questions in Latin grammar with simple and easy sentences of English to be translated into Latin.

GERMAN.

Hauff	... ...	Die Karavane.

One paper to be set on the text-book and one paper on elementary grammar and composition.

FRENCH.

Souvestre	... ...	Un Philosophe sous les Toits.

One paper to be set on the text-book and one paper on elementary grammar and composition.

HEBREW.

The book of Genesis.

SANSKRIT.

Vidyáságar	... ...	Rijupáthá, Part III (17th Edition, 1890).

The following books or any others covering similar ground are recommended as text-books in Sanskrit Grammar:—

Vidyáságar	... ...	Vyákaran Kaumudi.
		or
Vidyáságar	... ...	Upakramaniká, as translated by Rajkrishna Banerjee, 12th Edition,
		or
Nilmani Mukerjee	...	Laghumanjari,
		or
Herambanath Tattvaratna	...	Vyákarana Sangraha,
		or
Kalikumar Sarma	...	Vyákaranádarsa,
		or
Kanailal Sastri ...	...	Vyákaranabodh (in Hindi).

BENGALI.

Calcutta University Selections for 1893. Edited by Babus Bankim Chandra Chatterjee, B.L., and Sarada Charan Mitra, M.A., B.L.

ARABIC.

Sullam-ul-Adab ...	...	Edited by Colonel Holroyd.

PERSIAN.

Selections by Shams-ul-Ulama Maulavi Ahmad.

URDU.

Selections by Shams-ul-Ulama Maulavi Ahmad.

HINDI.

Bireswar Chakrabarti	...	Sáhitya Sangraha.
Tulsidas ...	...	Rámáyana, Ajodhyá Kánda.

URIYA.

M. S. Rao ...	...	Prabandhamálá, pages 1-115.
Ram Narayan Roy	...	Kabitá Sangraha.

ARMENIAN.

History of Armenia, Books I—III.

PALI.

Pali Miscellany, by Professor Trenckner (28 pages of text).

Selections from the Jatakas. (Professor Fausböll's edition). The Apannakajataka (36 pages of text).

BURMESE.

Prose.

Zanaka Jataka.
Withandya Jataka.

Poetry.

Lanka-thara Son-ma-sá.
Am-tha tha-sin-ma-sá.

The spelling required of the candidates who present themselves for examination in Burmese should be in accordance with—

(*a*) Thatpôn published by the Text-book Committee.
(*b*) Judson's Dictionary, and
(*c*) The revision made by the Text-book Committee of the words of disputed spelling in Judson's Dictionary.

TAMIL.

Poetry.

Tamil Poetical Anthology, No. 11, page 15 to end.

Prose.

Panchatantra . Parts I, II and III.

One paper to be set on the text-books in each of the Oriental languages (including questions on grammar and idiom, and easy sentences to be translated into the other language); and one paper containing (i) simple passages in English to be translated into one of the vernaculars of India* recognised by the Senate (the passages being taken from a newspaper of other current literature of the day), and (ii) a subject for original composition in one of the vernaculars recognised by the Senate. Half the value of the paper is to be assigned to the passages in English and half to the subject for original composition.

HISTORY.

R. C. Dutt ...	...	Brief History of Ancient and Modern India.
Miss Buckley ...	...	History of England for Beginners.

GENERAL AND PHYSICAL GEOGRAPHY.

Christian Vernacular Manual of Geography.
Education Society. or

Clarke ...	...	Class Book of Geography, omitting (a) all the paragraphs headed "Communications," (b) all the paragraphs headed "Historical Sketch."
Huxley ...	...	Introductory Primer, Arts. 12—55.
Geikie ...	...	Physical Geography Primer.

MATHEMATICS.

Euclid ...	...	† Elements of Geometry, edited by Hall and Stevens, or any other edition covering the same ground.

* The vernaculars recognised by the Senate are the following:—Bengali, Hindi, Uriya, Mahrathi, Urdu, Burmese, Armenian, Parbatia, Assamese, Telugu, Gujrathi, Khasia, and Tamil.

† The notes are to be read as elucidating the text of Euclid, and the additional propositions are to be treated as riders.

DRAWING *.

Whitehall Drawing Copy Book, Nos. 1, 2, 3, 6 and 9, Freehand.

FIRST EXAMINATION IN ARTS, 1894.

ENGLISH.

Green	...	Readings from English History, Part II.
Sir W. Butler	...	Gordon (English Men of Action Series) omitting Chapters II and III.
Blackie	...	Self-Culture.
Tennyson	...	Enoch Arden.
Scott	...	Rokeby.
Goldsmith	...	The Traveller.

Some subject for original composition to be set in one of the papers.

GREEK.

Herodotus	...	Book IV.
Euripides	...	Hecuba.

LATIN.

Vergil	...	Æneid, Book VI.
Cicero	...	De Amicitia; Pro Archia.

With passages from Latin authors not prescribed before and, to be translated into English.

FRENCH.

Bowen	...	The Campaigns of Napoleon, Jena (Rivington's).

On or about Thursday,	1st December	,,	...	2,150	2,350	4,500
		Total	...	25,800	28,200	54,000

The following are the conditions of sale:—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

Deposit.
When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained; and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazeepore Factory for the year 1890-91, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

T. INGLIS, *Secretary.*

FORT WILLIAM, *the 24th November* 1891.

No. 1646B.

NOTICE is hereby given that the First Sale of Opium, the Provision of 1889-90, will be held at the Government Opium Sale-room, No. 2, Bankshall-street, on Monday, the 4th January 1892, at 11 A.M., and will comprise 4,500 chests, viz.—

	Chests
Behar Opium	2,150
Benares do.	2,350
Total ...	4,500

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 24th November 1891, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 9th and 19th January 1892 respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 1-30 P.M. of Saturday, the 9th January 1892, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Tuesday, the 19th January 1892.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less of Behar and Benares Opium, will be brought to sale in the present year about the date specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so :—

The Calcutta Gazette.

WEDNESDAY, DECEMBER 9, 1891.

PART IB.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION.

The 1st December 1891.—It is hereby notified for general information that on the application of the Municipal Commissioners of the town of Bishenpore, in the district of Bankroos, the Lieutenant-Governor is pleased to declare that the provisions of section 3 of Act XX of 1887, with respect to wild birds, shall apply, so far as regards the rules framed by the Municipal Commissioners of Bishenpore, to deer and hares.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 1st December 1891.—The following rules, framed by the Commissioners of the Bishenpore Municipality, in the district of Bankoora, under section 3 of Act XX of 1887, for the protection of wild birds and game within the limits of the said municipality, are hereby confirmed by the Lieutenant-Governor, under clause 4 of the said section of the Act, and are published for general information under clause 5 of section 6 of the General Clauses, Act I of 1887 :—

Rule 1. "Wild bird" for the purpose of these rules shall include jungle-fowl, pea-fowl, pheasants, partridges, quail, snipe, plover, wild duck, teal, and ortolans.

Rule 2. The Local Government having, by notification of this date, declared that the provisions of section 3, Act XX of 1887, shall apply to hares and deer, the following rules will apply to those animals also as well as to wild birds.

Rule 3. The breeding season for the purposes of these rules shall extend from 15th March to 15th August.

Rule 4. Whoever during the breeding season has in his possession in Bishenpore any wild bird, deer or hare recently killed, or exposes for sale any such bird or animal living or dead, shall be liable to a fine not exceeding Rs. 2 for each bird or animal.

Rule 5. Whoever during the breeding season imports into the town the plumage of any kind of wild bird recently killed or taken shall be liable to a fine not exceeding Rs. 2 for each bird or animal.

Rule 6. In case of a second conviction, the fine may extend to Rs. 4 for each bird or animal.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 1st December 1891.—It is hereby notified that, under section 27, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint Babu Sheo Nath Pathak, Moulvie Mohammud Quasim Sher, and Moulvie Mirza Mehdi to be Commissioners of the Tikaree Municipality, in the district of Gya, *vice* Babus Mod Narain Pathak, Deoki Nundun Pathak, and Sheo Narain Bajpai, who have ceased to be Commissioners under section 20 of the Act.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 2nd December 1891.—It is notified for general information that the declaration, dated the 15th November 1889, published at page 249 Part 1B of the *Calcutta Gazette* of the 20th idem, for the acquisition of a plot of land required by the Nasirabad Municipality, in the district of Mymensingh, for the construction of a public ghât leading to the Brahmaputra, in the village of Shehara, within the municipality, is hereby cancelled.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 2nd December 1891.—It is hereby notified that, under section 19, Act III (B.C.) of 1885, Mr. W. C. Taylor has been elected by the members of the Khoorda Local Board, in the district of Pooree, to be a member of the District Board of Pooree, *vice* Rai Bhagbut Mahanty Bahadoor, resigned.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 4th December 1891.—It is hereby notified that, under section 59 of Act III (B.C.) of 1884, the Lieutenant-Governor approves the election by the Commissioners of the Sahebgunge Municipality, in the district of the Sonthal Pergunnahs, of Babu Haridass Marwaree to be their Chairman.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 4th December 1891.—It is hereby notified that under section 27, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint Mr. A. Hannah to be a Commissioner of the Serajgunge Municipality in the district of Pubna, *vice* Babu Lachman Das Panday, who has ceased to be a Commissioner under section 20 of the Act.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 4th December 1891.—It is hereby notified that, under section 19, Act III (B.C.) of 1885, Babu Lukhi Persad Mundul has been elected by the members of the Banka Local Board, in the district of Bhagulpore, to be a member of the District Board of Bhagulpore, *vice* Babu Isuwar Chand Singh, deceased.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 4th December 1891.—It is hereby notified for general information that, under section 6, clause (*b*) of Act I (B.C.) of 1885, the Lieutenant-Governor is pleased to take possession of the ferries named in the margin, which are situated in the district of Mymensingh, and to declare them to be public ferries.

1. *Dhuldia ferry* over the Singna river intersecting the road from Keshoregunge to Dhuldia.
2. *Nakhla ferry* over the Suti river intersecting the road from Gachihata to Kargoon.
3. *Pyarabhanga ferry* over the Narsunda river intersecting the road from Keshoregunge to Pyarabhanga.
4. *Nilgunge ferry* over the Raghukhali river intersecting the road from Keshoregunge to Nilgunge.

2. Under clause (*c*) of the said section, His Honour is further pleased to sanction the establishment of two public ferries at Magura and Manikkhali over the Kurikhai river and Manikkhali khal respectively, in the district of Mymensingh.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 4th December 1891.—It is hereby notified for general information that the Lieutenant-Governor has been pleased, in the exercise of the power conferred on him by section 35 of the Bengal Ferries Act I (B.C.) of 1885, to direct that the ferries named in the margin shall be managed by the District Board of Mymensingh, and that all the proceeds of the ferries, and all the fines levied and compensation received under the said Act in respect thereof, shall be paid into the District Fund of the same district.

1. *Dhuldia ferry* over the Singna river intersecting the road from Keshoregunge to Dhuldia.
2. *Nakhla ferry* over the Suti river intersecting the road from Gachihata to Kargoon.
3. *Pyarabhanga ferry* over the Narsunda river intersecting the road from Keshoregunge to Pyarabhanga.
4. *Nilgunge ferry* over the Raghukhali river intersecting the road from Keshoregunge to Nilgunge.
5. *Magura ferry* over the Kurikhai river intersecting the road from Magura to Shararchur.
6. *Manikkhali ferry* over the Manikkhali khal intersecting the road from Kataltali to Manikkhali.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 6th December 1891.—Whereas a notification, dated the 1st September 1891, was published at page 203, Part IB of the *Calcutta Gazette* of the 2nd idem, declaring the intention of the Lieutenant-Governor to extend the provisions of sections 224, 232, 250, 251, 254, 255, 257, 259, 270 (clause 4) and 274 of Act III (B.C.) of 1884 to the Jajpore Municipality, in the district of Cuttack, and whereas no objection has been raised to the proposal within one month from the date of the publication of the above notification within the Municipality, it is hereby notified for general information that, in the exercise of the power vested in the Local Government by section 221 of the Act, and in accordance with the recommendation of the Commissioners of the Jajpore Municipality, made at a meeting, the Lieutenant-Governor sanctions the extension of the above sections of the Municipal Act to the said Municipality.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 8th December 1891.—It is hereby notified for general information that, in the exercise of the power vested in the Local Government by section 223 of Act III (B.C.) of 1884, and in accordance with the recommendation of the Commissioners of the Motihari Municipality, in the district of Chumparun, made at a meeting, the Lieutenant-Governor is pleased to cancel the notification, dated 15th December 1888, extending the provisions of Part IX of the said Act to the above Municipality, which was published at page 462, Part IB of the *Calcutta Gazette*, dated the 19th idem.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 8th December 1891.—It is hereby notified for general information that, in exercise of the power conferred on him by section 138 of Act III (B.C.) of 1885, the Lieutenant-Governor is pleased to make the following modification in the heading of Form I—Budget Estimates of Probable Receipts and Expenditure—prescribed by Rule 13 of the Rules under clauses (*i*) and (*l*) of the aforesaid section of the Act, published under notification, dated the 31st July 1890, at pages 221 to 265, Part IB of the *Calcutta Gazette* of the 6th August 1890, and also in the heading of Form No. IA—Details of Estimate—prescribed by revised Rule 14 of the said Rules, and published under notification, dated the 26th February 1891, at page 92, Part IB of the *Calcutta Gazette* of the 4th March 1891—

For "Six months' actuals" both in receipts and expenditure *read* "Five months' actuals."

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 4th December 1891.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the English Bazar Municipality for a public purpose, viz., for a trenching ground within the said municipality in Mirchak, pergunnah Amirabad, revenue-free estate Chakkorbonali, No. 99, Register B, Part I, zillah Maldah, it is hereby declared that for the above purpose a piece of land measuring, more or less, 3 bigahs, 14 cottahs and 13 chittacks of standard measurement, is required. The land is bounded on the North by Faune Mir's garden; on the East by Alam Sheikh's and Kader Sheikh's bamboo garden; on the South by the gardens of Bhagawan Chundra Choudhary and Alam Sheikh; and on the West by the gardens of Shahib Jan Mahalut and Lattu Sheikh.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 4th December 1891.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the English Bazar Municipality for a public purpose, viz., for a trenching ground within the said municipality in Pirojpore, pergunnah Amirabad, estate Rokanpur, towji No. 510, zillah Maldah, it is hereby declared that for the above purpose a piece of land measuring, more or less, 6 bighas 4 cottahs and 1 chittack of standard measurement, is required. The land is bounded on the North by the gardens of Elahibux and Bafatullah Sheikh; on the East by the garden of Elahibux; on the South by the Pirojpore road; and on the West by Kurhan Dass' garden.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 7th December 1891.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Colgong Municipality for a public purpose, viz., for a sarai in Colgong, proposed to be built by the Colgong Municipality, in the village of Colgong, pergunnah Colgong, zillah Bhagulpore, it is hereby declared that for the above purpose a piece of land measuring, more or less, 7 cottahs and 13 dhoors of standard measurement, is required. The land is bounded on the North by Ramsahai Kahar's house; on the South by waste land; on the East by Bhagulpore-Pirpaintee Road; and on the West by village road.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 7th December 1891.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz., for widening the junction of Kalighat Road and Strand Road in the town of Calcutta, it is hereby declared that for the above purpose a piece of land, No. 33, Kalighat Road, in Dihi Punchannogram, district 24-Pergunnahs, measuring, more or less, 13 chittacks and 30 square feet only, is required. The boundaries of the land are as follows:—On the North the new road; on the South and West Strand Road; and on the East Kalighat Road.

A plan and specification of the land are filed at the Office of the Commissioners for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

THE public are hereby informed that the next Annual Agricultural Exhibition and Mêla will be held as usual in the station of Furreedpore from the 1st of January 1892, and will continue for a month. Special arrangements will be made for the accommodation of shop-keepers, traders, and dealers.

T. L. JENKINS, Magistrate and President of the Agricultural Exhibition and Mêla Committee, Furreedpore.
Furreedpore, dated the 24th November 1891.

Commissioners for the Port of Calcutta.

NOTICE.

THE following scale of charges for the use of the Commissioners' new Graving Dock at Kidderpore having been approved by His Honour the Lieutenant-Governor of Bengal is hereby published for general information, in accordance with the provisions of section 107, Act III of 1890.

By order of the Commissioners,
R. A. DONNITHORNE, Secretary.

The 5th December 1891.

Graving Dock.

	Feet.
Length on blocks	520
Width at entrance	67
Least depth on blocks	23

The Dock is intended principally for the painting and cleaning of vessels and the execution of very slight repairs. Its use for heavy repairs will only be given in special circumstances.

The terms are as follows, and will include removal of vessels from Graving Dock entrance into Graving Dock and back, docking, pumping, shoring, and undocking; also the use of stages and stage-ropes for cleaning and painting:—

	Rs.	A.	P.	
For the first 24 hours with a minimum of Rs. 600 ...	0	8	0	per ton gross tonnage.
For the second 24 hours or part thereof	100	0	0	
For the third 24 hours or part thereof	200	0	0	

and for every period of 24 hours or part thereof that a vessel remains in dock in excess of 72 hours, the charge of Rs. 200 will be repeated; provided that, if the Dock be required for another vessel, a vessel that has already occupied it for 72 hours must immediately vacate or pay 8 annas per ton gross tonnage with a minimum charge of Rs. 600 a vessel for every 24 hours or part thereof that she remains in occupation.

For night work Rs. 100 a night, or part thereof, will be charged extra for work done in connection with the docking or undocking of vessels.

A vessel engaging the Dock and not using it will be charged Rs. 300.

The Commissioners will not undertake the work of cleaning, painting, or repairing vessels. Owners, Agents, or Masters will have to make their own arrangements for the execution of the work.

No commission or other fees will be levied on stores brought either by land or water into the Dock for cleaning, painting or repairing.

No. 2678 Marine.

The Local Government hereby signifies its approval of the above scale.

W. B. BESTIC, Under-Secy. to the Govt. of Bengal.
Govt. of Bengal, Marine Dept., the 13th Nov. 1891.
(809—3)

Administrator-General's Office.

NOTICE.

Annual Statement of the Seaborne Trade and Navigation of the Bengal Presidency and of its Chief Port (Calcutta), and each of its Subordinate Ports (Chittagong, Balasore, Cuttack, Poorie, and Narainguree. Volumes I and II. Price Rs. 20 for 1890-91. Published at the Calcutta Custom House. Previous years volumes can also be obtained at the same price.

Th Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

Postage one anna.

For Calcutta.

The same rates as those for the Mofussil, with the exception of the charge for postage.

*Containing the Acts and Bills of the Legislative Councils of India and Bengal.

NOTE.—Rate for advertisements in the *Calcutta Gazette*—

Full page, per issue	Rs.	20
Half ,, ,, ...	,,	10

Casual advertisements, 4 annas per line.

Notice.

IT is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

The List of Books available for sale at the Secretariat Press will in future be published once only in each month. Spare copies of the List will, however, be kept in stock ready for issue on receipt of applications for them.

NOTICE TO SUBSCRIBERS.

SUBSCRIBERS to the *Calcutta* and *Bengali Gazettes* and Indian Law Reports are hereby informed that unless the amount of their subscription for 1892 is received before the 31st December 1891, it will be concluded that the Gazettes and Reports are no longer required, and the supply will accordingly be discontinued from 1st January 1892.

All remittances should be made direct to the Accountant and Treasurer, Bengal Secretariat, Calcutta, by means of money-order. No postage stamps or stamps of any other kind will be received in payment of subscriptions.

The correct address of the subscriber should be legibly written on the money-order coupon, and the period for which the subscription is paid should be stated.

H. C. STREATFEILD,
Under-Secy. to the Govt. of Bengal.
The 1st December 1891.

APPENDIX TO

The Calcutta Gazette.

NOTICE TO MARINERS—No. 218.

[First Publication.]

BAY OF BENGAL—ORISSA COAST.

The buoys in False Point harbour in position.

IN continuation of Notice to Mariners No. 213 of the 30th November, issued by this Office, the Port Officer, False Point, has given further notice, that Reddie Head Spit having shoaled to the northward, the outer Spit buoy has been shifted about 120 feet north of its former position into 21 feet reduced; also the inner Spit buoy has been shifted 100 feet N. ¼ W. of its former position into 24 feet reduced.

In consequence of the Reddie Head flat having shoaled to the westward, the Reddie Head Flat buoy, which had been swept away during the recent cyclone, has been placed 100 feet to the westward of its former position in 12 feet reduced.

All the buoys in the harbour are now in position.

[Second Publication.]

AUSTRALIA—KEPPEL BAY.

Discovery of rock reported by Pilot Hannah; and also of a Pinnacle rock near Bald Rock.

IN continuation of Notice to Mariners No. 122, dated 6th July last, issued by this Office, the Port Master, Brisbane, has given notice (No. 30A. of 1891) that the Harbour Master, Rockhampton, reports having found the rock reported by Pilot Hannah (27-5-91), and notified in Notice to Mariners No. 18 of 1891. It lies with about 9 feet 6 inches of water over it, with the following compass bearings:—

Bald Rock ... ... N.W. by N.½ N.
South point of Humpy Island (just open with Wedge Island) ... S.W. ½ W.

Captain Sykes also reports having found a pinnacle rock about 5 cables E. by S. from Bald Rock with from 5 to 7 feet of water over it.

NOTICE TO MARINERS No. 199.

[Third Publication.]

BAY OF BENGAL—ORISSA COAST.

Certain beacons and buoys out of position in False Point harbour.

THE Port Officer, False Point, reports that during the recent cyclone that occurred on the 5th instant, the Screw-pile and Cross beacons on Reddie Head were washed away, and that about half a mile of Reddie Head sand spit has entirely disappeared. The Fairway buoy has been lost, and all other beacons in and about the harbour have been blown down. The outer western Black buoy is in position, but without a basket. The Reddie Head spit buoys are also in position, but without the basket; and the water has shoaled at these buoys to 17 feet reduced; but about 100 feet north of them 27 feet of water reduced is to be found.

The Anchoring mark for steamers drawing over 20 feet will now be Hookeytollah Flagstaff; or the Refuge Building at Hookeytollah, bearing S. ¼ East.

A Chequered painted new buoy will be laid in the place of the Fairway buoy, and the baskets replaced on the other buoys, as soon as possible.

EATON W. PETLEY,
Port Officer of Calcutta.

NOTICE TO MARINERS No. 201.

[Third Publication.]

CHINA SEA—CARIMATA STRAIT.

Reef reported south-east of Cirencester shoal.

THE British Admiralty has given notice (No. 480 of 1891) that Mr. W. Townsend, commanding the steam-vessel *Galley of Lorne*, reports having passed, at the distance of about 2 cables, a dangerous reef lying about 10 miles south-eastward of Cirencester shoal, near the fairway of Carimata strait.

This reef (*Townsend reef*), on which the sea broke, appeared to have little water over it, and to extend (in the shape of a crescent) about one cable in a south-east and north-west direction. The weather at the time was too rough to allow a boat being lowered for further examination.

Position as given (to be considered doubtful), lat. 3° 0′ 30″ S., long. 109° 5′ E.

EATON W. PETLEY,
Port Officer of Calcutta.

[Third Publication.]

BAY OF BENGAL—CHITTAGONG COAST.

Intended alteration in Kutubdea Light.

IT is intended, on and after the 1st May 1892, to alter the character of the present light exhibited from the Kutubdea Light-house from a fixed to a first class dioptric revolving white light having an interval of one minute between the flashes. It will be elevated 121 feet above high water, and should be seen in clear weather from a distance of 17 miles.

The works, in connection with this alteration, will be commenced on the 1st February 1892, after which date the existing light will, during their progress, be shown thirty feet lower down on the Light-house; and a blue light will be burnt every quarter of an hour between the 1st February and 30th April 1892.

On the exhibition of the new revolving light, the blue light now shown from the 1st August to 31st December, inclusive, will be discontinued.

Position: Lat. 21° 52′ 30″ N.; long. 91° 49′ 58″E.

CALCUTTA, *the 17th November* 1891.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

NOTICE TO MARINERS No. 203.

[Third Publication.]

INDIA—EAST COAST—BAY OF BENGAL.

A buoy adrift.

Caution.—The Commander of the British India Steam Navigation Company's *S. S. Warora* reports that while on the passage up the Bay of Bengal, at 6-50 A M. of the 19th November, Lat. 14°43′ N., Long. 85°7′ E., he passed a white conical buoy with a staff and round basket cage painted red; resembling the one near the Intermediate light-vessel station, which has gone adrift. Navigators are accordingly warned.

EATON W. PETLEY,
Port Officer of Calcutta.

W. B. BESTIC,
Under-Secretary, Marine Department.

CALCUTTA, *the 23rd November* 1891.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

NOTICE TO MARINERS No. 204.

[Third Publication.]

CHINA SEA—MACCLESFIELD BANK.

Shoal water reported near the north-west edge.

THE British Admiralty has given notice (No. 497 of 1891) that Mr. A. Symons, commanding the P. and O. S.S. *Cathay*, reports having obtained a sounding of 5½ fathoms, over rock or coral, near the north-west edge of Macclesfield bank, in lat. 15° 55′ N., long.

114° 0′ E. As the ship passed over the shoal, the bottom, composed of dark black rock and white coral patches, was seen. Immediately after passing over it, the sea became dark blue, without a sign of shoal water.

CAUTION.—In 1857, a depth of 4 fathoms was reported to exist near the north-west edge of Macclesfield bank, in approximately lat. 16° 3′ N., long. 114° 10′ E., and as from the nature of a coral atoll, the depth of the submerged rim is very irregular, it is highly desirable to avoid passing over such banks, even when the depths known give no indication of absolute danger.

EATON W. PETLEY,
Port Officer of Calcutta.

Published for general information.

W. B. BESTIC,
Under-Secretary, Marine Department.

NOTICE TO MARINERS No. 205.

[Third Publication.]

CHINA SEA—BORNEO—NORTH COAST.

Banguey South channel—Particulars of rocky shoal in fairway.

IN continuation of Notice to Mariners No. 127, dated 20th July 1891, issued by this office, the following British Admiralty Notice (No. 498 of 1891) is republished—

The following particulars have been received from Commander A. M. Field, H.M. Surveying Ship *Egeria*, dated 9th September 1891, concerning the rocky shoal (*Petrel rock*) lying in the fairway of Banguey South channel, originally reported by the Commander of the steam-vessel *Petrel* :—

Petrel rock, a narrow ridge of coral about 40 yards in length in an E.N.E. and W.S.W. direction, and 10 yards in width, is plainly visible, and has 14 feet on it at low water spring tides, with 12 fathoms close around. It lies with the south extreme of Molleangan island bearing N. 84° W., and the peak (663 feet in height) on the south coast of Banguey island, west of Pagassan island, N. 3° W., distant 4½ miles.

Approximate position : lat. 7° 4′ 20″ N., long. 117° 6′ 30″ E.

Marchesa bay—Beacon on Leonan reef.

Information has also been received from Commander A. M. Field, that a beacon, consisting of an iron staff surmounted by a cage 25 feet above the reef, has been erected on the east side of Leonan reef, northern side of Marchesa bay.

Approximate position, lat. 6° 44′ 45″ N., long. 117° 37′ 45″ E.

(*Variation 2° Easterly in* 1891.)

EATON W. PETLEY,

Carried over ...	185	1,75,784	Total ...	307	3,01,415

4. Of the works enumerated in paragraph 1, the following are specially noted:—

Public buildings.—Under this head, a sum of Rs. 45,948 was contributed. Of this amount, Surat Mandal gave Rs. 1,200 for a mosque at Bagula, in the Nadiya district; Babu Sarut Chundra Ray Chowdhury gave Rs. 7,000 for a school building in the town of Gaibandha, in the Rangpur district; Moulvie Khoda Bux, Khan Bahadur, gave Rs. 32,000 for a library at Chowhatta, in the Patna district; and Babu Jadu Lal Marwari gave Rs. 3,000 for a serai at Bhogwan Bazar, in the Sarun district.

Roads.—The total of Rs. 1,425 under this head is made up mostly of small amounts, the largest being Rs. 400 given by Panjoo Howladar for a road in Char Hogla, in the district of Backergunge.

Bridges.—Rs. 650 only were contributed for two bridges—one costing Rs. 350 at Dhoomnagar, in the Champaran district, and the other costing Rs. 300 near the Panka river, in the Monghyr district, which were constructed, respectively, by Roopan Kahar and Nanku Kampti.

Embankments or bunds.—Of Rs. 8,519 contributed, Rs. 5,441 were given by Mr. William Maling Grant for a bundh at Deegalpahari, in the Sonthal Pergunnahs. This gentleman also gave Rs. 1,024 and Rs. 929 for two other bundhs in the same district.

Tanks.—Under this head the large sum of Rs. 1,82,902 was contributed. The following contributions are specially noted:—Babu Nil Madhub Hazra, Burdwan district, Rs. 2,000; Babu Dwarka Nath Chakravarti, Hooghly district, Rs. 5,000; Sheikh Tofeluddin, Hooghly district, Rs. 4,000; Ranee Mon Mohiny Dabya, Rajshahai district, Rs. 30,000; Meherulla Sarkar, Rajshahai district, Rs. 2,000; Babu Tara Chand Saha, Pabna district, Rs. 4,540; Manaraddi Choudhuri, Tipperah district, Rs. 2,500; Doolhin of Bettiah, Champarun district, Rs. 5,000; and Babu Anaroodha Jha, Champarun district, Rs. 4,000.

Wells.—Rs. 9,700 were spent in constructing wells. Rs. 600 were contributed in the district of Pabna for one well; Rs. 700 in the district of Maimensingh for two wells; Rs. 1,800 in the district of Shahabad for six wells; and Rs. 4,250 in the district of Monghyr for sixteen wells. The other wells for which contributions were given during the year are distributed among the districts of Dinajpur, Rajshahai, Gaya, Chumparun, Sarun, and Cuttack.

Ghâts.—The Jute Mills Company of Gouripore gave Rs. 2,000 for a pucca bathing ghât on the riverside at Gouripore, in the 24-Pergunnahs district, with a pucca road leading to it; Kaimuddi Bepari gave Rs. 800 for a masonry ghât to the Government tank at Bhola, in the Backerganj district; Babu Jadu Lal Marwari gave Rs. 1,800 for a pucca ghât on the river Gogra at Rattanpurwah, in the Sarun district; and Babu Mahabir Pershad gave Rs. 22,000 for a bathing ghât on the river Daha at Sewan, in the same district.

Irrigation channels.—Only two irrigation channels or dhars were constructed during the year, and both in the Sonthal Pergunnahs—one at Doondia at a cost of Rs. 247, and the other from Deegalpahari bundh to Tilabooni at a cost of Rs. 909. This latter sum was contributed by Mr. William Maling Grant.

Other works.—Under this head are included repairs and improvements. Babu Janoki Ballab Sen gave Rs. 20,000 for excavating the dry bed of the Ghaghat river, in the Rungpore district. His Highness the Maharajah of Kuch Behar gave Rs. 2,350 for repairing the Patgram and Morangahat road and the emigration roads and bridges thereon in the Jalpaigori district, and Rs. 240 for removing and improving the hât site at Patgram; Babu Jadu Lal Marwari gave Rs. 700 for improving a tank at Bhogwan Bazar, in the Sarun district; Babu Bhokta Ram Rai gave Rs. 200 for repairing a tank at Panrora, in the Sonthal Pergunnahs district; and Babus Beer Coomar Bhanja and Ram Churn Singh gave Rs. 325 for repairing a bundh at Doondia, in the same district.

RESOLUTION.—The donations for works of public utility have diminished considerably both in number and amount, and the Lieutenant-Governor hopes that the decrease noticed is a temporary one, and that future reports will show

a decided improvement both in the number of works constructed and the sums contributed for them. To those who have contributed towards such works during 1890 the Lieutenant-Governor tenders his acknowledgments for their public spirit and liberality, and in doing so His Honour desires to express a hope that the good example set by them will be followed by those who can afford to contribute towards works of usefulness for the benefit of the poorer classes in the country.

Letters of acknowledgment will be forwarded by the Government to those who have constructed works costing over Rs. 500. The contributors of works costing Rs. 500 and under will, as usual, receive an acknowledgment from the Commissioner or the Magistrate of the division.

ORDER.—Ordered that a copy of this Resolution and of the statement be forwarded to the Board of Revenue, Lower Provinces, and to all Commissioners of Divisions; to the Commissioner of Chutia Nagpur, and to all Superintending Engineers of Public Works Circles in Bengal, for information.

Ordered also that a copy of this Resolution and of the statement be forwarded to the Revenue and Judicial Departments of this Government for information.

Ordered also that this Resolution and the statement be published in the Supplement to the *Calcutta Gazette* for general information.

By order of the Lieutenant-Governor of Bengal,

F. J. JOHNSTONE,

Joint-Secretary to the Government of Bengal.

Statement of works of public utility constructed by private individuals during the year 1890.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 5th December, 1891.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL.			
BURDWAN DIVS. 1	**Burdwan** Dec. 5, '91	Nil	Weather—seasonable. Harvesting of *aman* going on. Prices of common rice:—
	Culna ...	0·06	
	Cutwa ...	Nil	
	Raneegunge ...	Nil	Srs. Sudder ... ... 15½ Raneegunge ... ... 15½ Cutwa ... ... 15 Culna ... ... 14 } per rupee.
2	**Bankoora** ,, 5, '91	Nil	Weather—cloudy and rather warm for the season. Harvesting of winter rice and sowing of *rabi* crops continue. Condition of cattle good. Supply of fodder and water sufficient. Common rice selling at 18 seers per rupee at Bishenpore and 17 seers at the Sudder market.
3	**Birbhum** ,, 5, '91	Nil	Weather—fair and cool. Harvesting of winter rice in progress. *Rabi* sowings continue and prospects good. Common rice selling at from 14½ to 18½ seers per rupee. Supply of fodder and water sufficient.
	Rampore Haut ...	Nil	
4	**Midnapore** ,, 5, '91	Nil	Weather—getting cooler every day. Harvesting of *haimanti* paddy going on. *Rabi* crops and indigo doing well. Fodder sufficient. Prices of common rice:—
			Srs. Sudder ... ... 18 Contai ... ... 20 Tumluk ... ... 16 Ghatal ... ... nearly 16 } per rupee.
5	**Hooghly** ,, 5, '91	Nil	Weather—fair; rather warm for the season. *Aman* rice on high land has suffered for want of rain; total outturn 8 to 10 annas. Prospects of sugarcane and potatoes fair. Fodder and water-supply sufficient. Prices of common rice:—
	Serampore ...	Nil	
	Jehanabad ...	Nil	Srs. Sudder ... ... 12 Serampore ... ... 13 Jehanabad ... ... 16 } per rupee.
6	**Howrah** ,, 5, '91	Nil	Weather—fine. *Aman* crop on higher lands has suffered from drought; otherwise there is a prospect of an average harvest. Sugarcane good. Price of common rice 14 seers per rupee. Cattle are healthy. Fodder and water-supply adequate.
	Uluberia ...	Nil	
PRESIDENCY DIVS. 7	**24-Perghs.** ,, 5, '91	Nil	Weather—seasonable. Harvesting of *aman* has commenced. Sowing of winter crops still continues. Prices stationary. No cattle-disease reported. Supply of fodder and water sufficient.
8	**Nuddea** ,, 5, '91	Nil	Weather—rather warm. Sky often clouded, but no immediate sign of rain.
	Kushtea ...	Nil	Harvesting of *aman* nearly finished; outturn poor. Condition of *rabi* crops
	Meherpore ...	Nil	continues bad for want of rain. Common rice selling at from 12 seers 12
	Chuadanga ...	Nil	chittacks to 15 seers per rupee. Condition of cattle good and supply of
	Ranaghat ...	0·04	fodder and water sufficient.
9	**Khoolna** ,, 5, '91	Nil	Weather—seasonable; occasionally cloudy. Prospects of *aman* fair. Reaping
	Bagirhat ...	Nil	of *chhotan* paddy going on. Prospects of *rabi* crops not very good.
	Satkhira ...	Nil	Prices of common rice range from 13 to 16 seers per rupee. Fodder and water sufficient.
10	**Jessore** ,, 5, '91	0·04	Weather—seasonable. Harvesting of *aman* paddy going on. Prospects of
	Jhenidah ...	Nil	winter crops not favourable. No cattle-disease reported. Supply of water
	Narail ...	Nil	and fodder for cattle sufficient.
	Bongong ...	Nil

STATISTICAL DEPARTMENT,
The 5th December, 1891.

C. E. BUCKLAND,
Offg. Secretary to the Govt. of Bengal.

Abstract of the results of Meteorological Observations taken at the Alipore Observatory in the month of November 1891.

	Inches.	Date.	Hour.
The mean pressure of the month	29·934		
The average pressure of November from 24 years' registers ...	29·970		
The highest pressure in the month	30·148	30th	10
The lowest pressure in the month	29·707	6th	6
The range of pressure	0·441		
	Hours.		
The total number of hours of bright sunshine during the month	242·0		
The maximum possible number of hours of sunshine ...	330·8		
	⊖		
The mean temperature of the month	73·6		
The average temperature of November from 24 years' registers	74·8		
The highest temperature in the month	86·8	2nd & 3rd	
The lowest temperature in the month	60·1	20th	
The range of temperature during the month	26·7		
The mean daily range of temperature	17·7		
The greatest range of temperature in one day	22·6	20th	
	Per cent.		
The mean humidity of the month	75		
The average humidity of November from 24 years' registers ...	72		
	Inches.		
The mean vapour tension of the month	0·615		
The average vapour tension of November from 9 years' registers	0·616		
The mean cloud proportion of the month	2·18		
The average cloud proportion of November from 14 years' registers	2·61		
The total rainfall of the month	0·51		
The total rainfall indicated by a Beckley's self-registering rain-gauge (mouth of the gauge about 52 feet above the ground)	0·50		
The average fall of November from 48 years' registers ...	0·65		
The greatest fall in 24 hours	0·49	6th	
	Days.		
The number of rainy days in the month	3		
The average number of rainy days in November from 24 years' registers	2		
	⊖		
The mean maximum equilibrium temperature of solar radiation during the month	136·6		
The mean difference of sun and air temperatures	53·6		
The greatest sun temperature	146·5	27th	
The greatest excess of sun over air temperature	63·4	27th	
The mean temperature of the nocturnal radiation thermometer on woollen cloth	59·4		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	6·0		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	8·5	2nd	
	Miles.		
The mean movement of the wind per day	81·9		
The greatest movement of the wind in one day	289·0	6th	
The greatest movement of the wind in one hour	19·0	6th, 11 to noon.	

The number of hours with winds from each of the 8 points—

N. 296, N.E. 140, E. 70, S.E. 13, S. 14, S.W. 21, W. 10, N.W. 103, Calm 44.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 1·6° lower; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

C. LITTLE,

For Meteorological Reporter to the Govt. of India.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF NOVEMBER 1891.

THE main features in the meteorology of November have been—

1. The formation of two very severe cyclones in the neighbourhood of the Andaman Islands. The first originated probably a little to the east of the Andamans on the 1st, then moved north-westwards till it almost reached the Ganjam coast. It then recurved and moved in a northerly direction along and close to the Orissa coast, then it moved in a north-easterly direction, crossing the Sunderbuns to the east of Saugor Island, then travelled through East Bengal into Assam and Upper Burma, where it filled up and disappeared. The second storm originated on the 21st to the west or west-north-west of Diamond Island, and afterwards travelled in a north-easterly or north-north-easterly direction, crossing the Burma coast about midway between Diamond Island and Akyab late on the night of the 23rd or the early morning of the 24th. Both these storms were very severe and caused several disasters at sea and on land.

2. In addition to these two cyclones which caused exceptionally stormy weather in the Bay, diffused disturbances or feeble barometric depressions have also existed in the south of the Bay, usually between the Andamans and Madras coast, for a considerable portion of the month, but beyond giving unsettled weather in the Bay with its accompanying unsettled weather in Bengal, the disturbances did not materially affect the weather and did not develop into storms.

3. The first of the two cyclones gave good general rain of about twice or three times the normal amount to South-West and East Bengal and parts of North Bengal, and exceptionally heavy rain to Orissa, which received nearly five times the usual fall; Chutia Nagpur and South Behar also received showers, but North Behar was quite rainless.

4. Owing to the two cyclones and to the continued periods of disturbance in the Bay, the weather in Bengal has been unsettled for a considerable part of the month, and the usual north-east monsoon or cold weather conditions have only set in very partially.

5. Temperature has therefore been rather largely in excess in all districts of Bengal, except Orissa. The usual excess has been about two to two and a half degrees in South Behar and Chutia Nagpur, and from one to one and a half degrees in South-West, East and North Bengal and North Behar, but in Orissa the excess is less than half a degree. In Assam the mean temperature has been almost normal.

6. Humidity and cloud proportion have also been decidedly in excess of the normal.

7. The variations of pressure during the month have been considerable, but the mean pressure has not been far removed from the normal. Distinct defects amounting to about 0·02″ have been recorded in Orissa and the neighbouring parts of South-West Bengal, while on the other hand, at many of the northern stations, slight excess pressures have been recorded, so that for the whole province of Bengal the mean pressure has been almost normal. In Assam also pressure has been very nearly normal.

Meteorological summary of the month.—In the report for October, it was stated that squally weather had formed in the south of the Bay on the last day of that month, but that, though the disturbed weather existed as far north as about 11°N. Lat., there was nothing to show that the conditions were developing or had formed any definite storm. On the 1st of November the changes which took place at the coast stations round the Bay were small. Pressure was falling very slowly only over the whole Bay; light to moderate north-easterly winds were blowing at the stations on the east coast, and north-westerly winds generally at the western stations, while moderate to heavy rain was falling along the Madras coast from Cuddalore southwards. Though the coast stations in no way showed the formation of a barometric depression, it is probable that one was forming, or even had formed, on this day close to the Andaman Islands. It was probably not of much intensity when the meteorological observations were taken on this morning, though it must have developed rapidly during the day, for reports received from Port Blair in the Andamans show that a rather severe cyclone passed over that station during the night of the 1st and on the morning of the 2nd instant, causing a large amount of damage. The wind directions reported from that station indicate that the centre of the storm passed over it between 2 and 3 A.M. of the 2nd, when there was a lull in the storm for about 40 minutes, while the total duration of the storm was about 7 hours. Even at this period it was a very violent storm, and caused much destruction of life and property. As, however, the Andaman Islands are not connected by telegraph with the main land, no information was available from Port Blair as to the formation of the storm. On the morning of the 2nd November the meteorological observations taken at the coast stations round the Bay showed the existence of bad weather. There had been a general, but only moderate, fall of pressure all round the Bay, which was largest at Diamond Island and in the south of the peninsula, and winds at Diamond Island, which had previously been N. N. E. and of light force, at 8 A M. of the 2nd had become E. N. E. and were strong in force. So far as can be ascertained from the observations at the coast stations, the centre of the storm was to the south-west or west-south-west of Diamond Island, or to the west or west-north-west of the Andamans, on the morning of the 2nd, but probably a long distance (perhaps 300 miles) from land. The observations at the coast stations on this day did not point to the storm being more than of moderate intensity. On the 3rd the storm had distinctly moved in a north-westerly direction, and its centre was probably in the latitude of Nellore

in about 14° N. Lat. and 87° E. Long., and still at a long distance from land. From the 2nd to the 3rd the storm does not appear to have increased in intensity as judged by the observations taken at the coast stations, for though fairly strong winds were blowing at some of the west coast stations, yet in the rear of the storm winds had rapidly decreased in force, and moderate winds only were blowing at Diamond Island, the velocity having decreased from 13 miles an hour reported on the morning of the 2nd to 9 miles reported on the morning of the 3rd instant. From the 3rd to the 4th, however, the storm very rapidly increased in intensity and became a violent cyclone, and wind velocity at Diamond Island on this day showed the increase in intensity of the storm by rising up to 18 miles an hour. The cyclone had also again advanced in a north-westerly direction, and its centre at 8 A.M. of the 4th was probably opposite Vizagapatam, or to the south-east of Gopalpur, and about perhaps 200 miles from land. The storm centre apparently passed close to the coast near Gopalpur on the early morning of the 5th, and the meteorological observer at that station reported that the centre of a cyclone passed over that station between 2 and 5 A.M. of the 5th, though the observation is doubtful and may prove incorrect when the history of the storm is worked out in detail. At this time the cyclone appears to have altered the direction of its advance, and to have taken up a northerly direction. It then advanced slowly close to the coast of Orissa passing near Pooree, and the meteorological observer at Pooree has reported that that station was visited by a heavy cyclone from 10-25 P.M. of the 4th to 1-30 P.M. of the 5th, receiving the very heavy rainfall of 13·61 inches, and that during the storm house-property was seriously damaged and some lives were lost. The storm was very close to False Point on the afternoon of the 5th, and the centre was off that station, but probably very close to land between 4 and 5 P.M. It gave hurricane winds at that station from 9 A.M. to 8 P.M. The direction of the advance of the storm must, however, have again changed at this time, and the storm evidently commenced to recurve towards the north-east. The centre was to the south of Balasore between 8 and 11 P.M. of the 5th, but at a long distance from it, and it passed to the south of Saugor Island about 2 A.M. of the 6th, and also at some distance from the land. At 2-30 A.M. on the 6th the storm centre almost passed over the F. L. V. *Canopus* at the intermediate station, and the reports from that station show that it was one of the most intense cyclones on record. At 8 A.M. of the 6th the storm had again advanced in a north-easterly direction, and its centre was to the south-east of Saugor Island. The centre passed about 80 to 120 miles to the south-east of Calcutta about noon of the 6th, and afterwards a little to the north of Burrisal between 5 and 8 P.M. of the same day; but the rapidity of the north-easterly advance of the storm had at this time greatly increased, and by the morning of the 7th the storm had left Bengal altogether, and was probably in Sylhet or Cachar. It had also rapidly decreased in intensity, and on this day was of little importance. On the 7th any residual low pressure, due to the disintegrated storm, was probably in Upper Assam or Upper Burma, but the storm had then practically ceased to exist.

The lowest pressure during the passage of the storm, of which any record has yet been received from any of the meteorological observatories, was about 28·15 inches at False Point. Observations made on some of the vessels in the north-west angle of the Bay, which were involved in the storm, particularly on board the ship *Lena*, appear to show that a pressure of about 28 inches or even 27·9 inches was experienced.

The cyclone was accompanied by a very complete cyclonic circulation of winds, apparently even from its formation close to the Andamans, and the storm, though by no means so large as many cyclones have been, was attended by extremely fierce and destructive winds which, according to some observers, were as fierce if not more fierce than they have ever previously experienced. One of the highest recorded wind velocities was the average velocity of 59 miles an hour at Pooree, just before the time when the telegraphic communication with that station ceased during the night of the 4th. Judging, however, by the fact that this was only the average hourly velocity for 3 hours, and that this occurred before the full force of the storm reached the station, it is probable that in the squalls and close to the calm centre the velocity of the wind must have run up to at least 80 or 90 or even 100 miles an hour. The strength of the wind is also shown by the number of vessels in the north-west angle of the Bay which were dismasted by the force of the cyclone, and by the damage done in the Andamans at a time when the cyclone could not have attained its full force.

The storm brought up rain to all the districts through which it passed, but on the whole the rainfall was smaller in amount than is usual in large and fierce cyclones. Orissa received a very heavy rainfall, and one station, Pooree, reported 13 61 inches during the storm, while Kendraparah received about 15 7 inches, and so on; but the falls were much smaller in South Bengal than in Orissa, and in Sylhet and Assam the falls had become very light. With the approach of the storm into the north-west of the Bay, the weather conditions in Bengal at once completely changed. Fine settled weather of north-east monsoon character had obtained at the commencement of the month, but from the morning of the 3rd the sky rapidly clouded in the southern districts till it became almost overcast over the whole province, and from the morning of the 4th light rain commenced in Orissa. The rainfall was heavy over the whole of Orissa on the 5th and 6th, and on the latter date rather heavy rain commenced in South Bengal, and moderate rain continued to fall on the 6th and 7th in East Bengal and over the southern districts of North Bengal. Chutia Nagpur and the Sonthal Pergunnahs districts in South Behar also received light to moderate rain on the 5th and 6th instant. It will thus be seen that the weather conditions in Bengal

for the first seven or eight days of November were entirely controlled by the advance of the cyclone towards the province, and by its subsequent passage through the southern half of it, and one of the beneficial effects of the storm was to give rain to all districts except Behar and part of North Bengal.

Another rather remarkable feature in connection with the cyclone was the rapidity with which the disturbed weather which accompanied it disappeared and was replaced by fine settled weather of the ordinary cold season type. So rapid, indeed, had been this change, that by the morning of the 8th, fine weather with almost cloudless skies was reported from all districts except Assam, and only at one or two stations, such as Sibsagar, Bhogotpur and Gopalpore, was any rain received. The meteorological changes during the next two or three days were not important; and weather remained of ordinary cold weather character up till the 12th, when, however, there were clear indications that another barometric depression had formed in the Bay to the south-west of Diamond Island or to the west of the Andamans, and so far as could be ascertained from the observations made at the coast stations, it was giving squally, unsettled weather over the centre and south of the Bay. Indeed, all the conditions pointed to the possibility of formation of another cyclonic storm. Immediately with the occurrence of the disturbance in the Bay, the sky commenced to cloud over in all districts of Bengal except Behar and part of North Bengal. A few light showers were also reported in East Bengal, principally from the Chittagong district, but the only falls of importance were 0·90 inch at Rangamati and 0·66 inch at Satkanya. Over Bengal generally temperature rose rather rapidly, and humidity also increased largely, while the barometer fell steadily, but not by more than about 0·03 inch to 0·04 inch. On the 18th the depression to the west of the Andamans appeared to have slowly increased in intensity, but its position was unchanged, and on this day it was certainly influencing the weather in Bengal very largely. The sky became heavily clouded in all districts, except Behar, Chutia Nagpur and Orissa; the air became very damp, and numerous showers were reported in parts of East and South-West Bengal, particularly in the Furreedpur, Dacca, Tipperah, Jessore, Khoolna, and Nuddea districts. Temperature also again increased and became above the normal by amounts which were usually between 3° and 5°, while pressure again fell moderately over the whole province.

The depression in the Bay, however, filled up almost entirely on the 14th, and thus weather began rapidly to improve in Bengal, and the sky cleared to a large extent, though still a few local rain-showers fell at some of the stations in East Bengal, and which falls were reported on the morning of the 15th instant. The disturbed conditions in the province, indeed, had so rapidly disappeared, that on the 15th instant at almost all stations the sky had become nearly cloudless, and at the same time humidity decreased and the air became generally fairly dry, so that from this day practically ordinary cold weather or north-east monsoon conditions had again set in over the province. The meteorological changes in Bengal on the next three days were unimportant; but on the 18th, to the east of the centre of the Bay, however, there were distinct indications of the formation of a new depression, and strong easterly winds set in at Diamond Island, pointing to the existence of squally or somewhat stormy weather in the eastern part of the southern half of the Bay. The indications of the existence of this depression were more marked on the morning of the 19th, but the depression did not then concentrate to form a definite storm; for on the 20th and 21st the depression had practically disappeared, though probably squally weather generally obtained in the south of the Bay. The unsettled weather in the Bay as usual affected the weather in Bengal, and pressure fell moderately to rapidly, while temperature rose decidedly. The sky became a little more clouded, and humidity a little higher, but except for a few drops of rain at Cox's Bazar and Darjeeling, the whole province remained rainless.

On the 21st conditions appeared again much less disturbed than they had been, and there were no indications even of the existence of any barometric depression of importance, and still less of the formation of a storm. It is probable, however, that on the morning of this day a storm was gradually developing over the area in the Bay where pressure had been persistently low for several days, for the observations received on the morning of the 22nd indicated very clearly that a cyclonic storm had formed to the west-south-west or south-west of Diamond Island, and apparently not very far away from land, the storm being well on the east side of the Bay. After its formation the storm commenced to move rather rapidly in a north-easterly or north-north-easterly direction. The centre of the cyclone passed to the west of Diamond Island about 5 A.M. of the 23rd, and during the passage of the storm near Diamond Island, even though the centre of the storm was not by any means near the land—for the lowest barometric reading recorded there was not lower than about 29·6 inches—that station reported winds of hurricane force with a tremendous sea, and for part of the night the wind velocity averaged 45 miles an hour. As the storm approached nearer the land, the direction of its advance became more easterly, and during a large part of the 23rd it was advancing in a north-easterly or east-north-easterly direction, and perhaps when it struck the coast on the night of the 23rd or the morning of the 24th it was even travelling in an easterly direction. There are no meteorological observatories on the Burma coast between Diamond Island and Akyab, a distance of about 350 miles; but, so far as can be judged, the storm crossed the coast about midway between the two stations, though in the absence of any neighbouring observatory it is impossible to say the precise point of the coast crossed by the storm, or what the depression of the barometer was near the centre of the storm. From the wind velocities recorded at Diamond Island, which are some of the highest ever registered at that station, it is clear the

storm was a very severe one, and that such was the case is also proved by the experience of various vessels which were involved in the cyclone and which suffered damage from it. Directly, however, the storm passed inland and into the Arakan Hills, it must have commenced to break up rapidly, for at 8 A.M. of the 24th there was very little evidence of the existence of the storm at all, though pressure was still low over Burma, and by the morning of the 25th all trace of the existence of the former fierce cyclone had disappeared. The storm was probably only of small diameter though very fierce; it had also an exceedingly short life history, and the amount of rainfall brought up by it was comparatively small and was mainly confined to Burma.

From the 26th to the 28th of November there was again ample evidence of the existence of a low-pressure area in the south of the Bay, probably between the Andamans and the Madras coast; but this did not develop in any way, although the strong easterly and north-easterly winds which continued to blow at Diamond Island at this time pointed to the existence of squally unsettled weather generally in the south and east of the Bay.

As is usual, the disturbed weather in the Bay reacted on the general weather conditions in Bengal, and again for the last ten days of the month the cold weather conditions were not at all fully developed. During the existence of the storm, but to a smaller extent at the close of the month, the skies were more clouded than usual, the air became damp, and temperature rose and became very much above the normal; pressure also fell for a considerable period, but the storm was too far away to affect the general pressure in Bengal to any material extent. As might be expected, the weather was more affected in the southern and south-eastern districts than elsewhere, and at a few stations in South-East Bengal a few light showers were reported; but these were of little practical importance. Elsewhere the whole province continued rainless up till the close of the month.

Pressure—During the first week was governed by the existence of the cyclone and by its movements, which at the stations near its path as at False Point gave a fall of pressure of nearly two inches. The general average pressure for the first week was, however, only a twentieth of an inch in defect at the stations in the south-west of the province, while at the northern stations the defects were only about half this amount. In the second week the mean pressure was almost normal, but in the third week it was generally below it by from one to three hundredths of an inch. The cyclone in the last week was too far from Bengal to affect the pressure materially, and the mean pressure for this period was only slightly in defect; but the defects were largest at the southern stations, where they equalled from 0·02″ to 0·03″. Therefore the mean pressure for the whole month was in distinct defect by about 0·02″ at the southern stations, particularly in Orissa and the neighbouring parts of South-West Bengal, but at the central stations, pressure was almost normal, and at the northern stations in very slight excess. For the whole province, therefore, the mean pressure for November has been almost normal, and the same has been the case in Assam.

Temperature—In the first week was about 0·6° above the normal: in the second week the excess was 0·8°, while in the third week the excess had increased to one degree. In the fourth week this excess had largely increased and equalled no less than 2·1°. For the whole month the mean temperature in South Behar and Chutia Nagpur has equalled about two to two and-a-half degrees above the normal, while in South-West, East and North Bengal and South Behar the excess has been from one to one and-a-half degrees. The smallest excess has been registered in Orissa, where it has equalled 0·3°. For the whole of Bengal the mean excess has equalled 1·4°. In Assam, on the other hand, the excess has been only 0·1°.

Rainfall.—The rainfall of the month was almost entirely brought up by the action of the cyclone in the first week. The falls in Orissa have averaged no less than six and a quarter inches, or nearly five inches more than usual. In East Bengal the amounts have equalled nearly two inches, or three quarters of an inch more than usual. In South-West Bengal the falls have averaged an inch, or nearly three times the normal, and in North Bengal six-tenths were received or about four times the usual fall. In South Behar and Chutia Nagpur the falls have only equalled about a tenth of an inch, or very decidedly less than usual.

The following table gives in a condensed form the rainfall information for each of the seven large meteorological Divisions of Bengal for the present year up to the close of November. The numbers there given, as in the case of the former months of the year, are the actual average rainfalls in each month in each Division, expressed as a percentage of the normal fall for the period, and the last column also gives the total rainfall up to the end of November expressed as a percentage of the normal amount:—

Meteorological Divisions.	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	Actual rainfall of first eleven months of 1891 expressed as a percentage of the normal fall for the period.
Orissa	11	167	424	86	134	28	74	139	180	21	452	113
South-West Bengal...	53	193	303	50	170	61	94	81	71	17	297	90
East Bengal ...	3	311	93	130	151	71	100	65	51	33	171	86
North Bengal ...	78	377	239	77	140	53	117	46	37	46	353	77
North Behar ...	171	283	590	19	172	94	83	65	35	39	Nil	79
South Behar ...	253	159	734	30	165	88	85	83	56	45	55	89
Chutia Nagpur ...	183	91	506	30	148	47	97	93	102	18	41	94

These falls have, however, been very unequally distributed. In Orissa, while the Pooree and Cuttack districts received an average fall of about eight inches, Balasore district received less than four. In South-West Bengal, the Saugor Island district received two and a half inches, Jessore, Khoolna, Berhampur, West Burdwan and Beerbhum between one and one and a half inches, and Nuddea, Bankoorah, Burdwan, 24 Pergunnahs, Howrah and Hooghly about half an inch. In East Bengal, Comilla received nearly four and a half inches; Dacca and Chittagong Hill Tracts from two to two and a half inches, and Chittagong, Backergunge, Noakhally, Furreedpur and Mymensingh from one to two inches. In North Bengal the falls were still more irregular; the district of Bogra received more than two inches, Pubna and Rajshahye a little more than an inch, while Maldah, Dinagepur, Rungpur and Darjeeling districts received less than a fifth of an inch, and Julpigoree and Cooch Behar practically no rain at all. The whole of North Behar was rainless. The whole of South Behar was also practically rainless, except in the Sonthal Pergunnahs district, where an average amount of 0·46 inch fell. In Chutia Nagpur, the Hazaribagh, Lohardugga and Manbhoom districts received falls varying up to a fifth of an inch, while in the Singbhoom district the fall equalled half an inch.

In Assam, during the month, Silchar received 2·08 inches, Sibsagar 1·10 inches, and Dhubri only 0·07 inch.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the month of November 1891 :—

Meteorological Divisions.	Temperature.						Rainfall.							
			Averages for month.				Of month.			Rainy days.			Since 16th Oct. 1891.	
	Highest observed during month.	Lowest observed during month.	Of highest of each day.	Of lowest of each day.	Of mean for each day.	Average mean of month above or below normal mean of month.	Average. * Mean of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last The humidity of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numbers are the numerical means or average of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the past stations in the district reading in returns divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

for the week ending Saturday, the 5th of December 1891.

Average humidity at 8 A.M.	Average cloud amount at 8 A.M. for week.	Rainfall of week at observing station.	DISTRICT OBSERVATIONS. RAINFALL. Of week. Mean for district.	Of week. Normal mean.	Since 1st of month. Mean for district.	Since 1st of month. Normal mean.	Since 1st of month. Variation.	Since 16th October 1891. Mean for district.	Since 16th October 1891. Normal mean.	Since 16th October 1891. Variation.	Of week. Average number of rainy days.	Of week. Normal number of rainy days.	Representative station.	District.	Meteorological Division.

Explanation.—.. ..indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the 8th December* 1891.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 5TH OF DECEMBER 1891.

DURING the first half of the previous week a cyclone had formed in the Bay and had advanced in a north-easterly direction, crossing the Burma coast between Diamond Island and Akyab. Even after the disappearance of the cyclone there was a feeble area of disturbance to the south of the centre of the Bay, which continued to exist up to the close of the week These disturbed conditions were again present on the 29th, or the first day of the present week, but from the 30th they rather rapidly disappeared, and on the 1st conditions became more normal, and weather became more settled

As usual during the existence of any disturbance in the Bay, weather in Bengal at the commencement of the week was rather abnormal Temperature on the 29th was unusually high for the season, the excess in the mean temperature at some stations ranging up to five and six degrees, while humidity and cloud proportion were also higher than usual, and at one or two stations a few drops of rain were reported. Pressure, however, was still falling by very small amounts on the 28th, but on the 30th it rose by moderate amounts, and this increase caused pressure to be rather largely in excess of the normal. A moderate fall then set in on the. 1st of December which continued on the 2nd, but on the 3rd pressure was again rising, though it fell again on the 4th and 5th ; but the changes were so small that even up to the close of the week pressure was still very slightly in excess of the normal. These changes for the second half of the week were indeed only of the usual oscillatory character accompanying fine weather, though undoubtedly the tendency of the changes was to produce a lower pressure. Temperature also has been generally falling very slowly during the week, and even at its close the mean temperature was usually above the normal by an average amount of from 2° to 4°. Wind directions have been fairly normal, and a light northerly and north-westerly current has blown over the whole province. Cloud proportion has been generally decidedly higher than usual, particularly in the southern districts, while humidity has also been moderately large ; but except for two or three light showers of absolutely no importance, which occurred in South-West Bengal at the beginning of the week, rainfall has been absent from the province. It will therefore be seen that again the week has been one in which the usual cold season conditions have only been feebly developed.

Pressure.—The mean pressure for the week has been rather largely .above the normal, the usual excess equalling from 0·04° to 0·06°. This excess has been smallest in South-West Bengal and Orissa and largest in North Bengal and Behar.

Temperature.—The mean temperature has been from about 2° to nearly 5° in excess of the normal in the different divisions of the province, the largest excess being in South Behar, where it has equalled 4·6°. For the whole province the mean temperature has been three degrees above the normal.

The distribution of temperature during the week and its variation from the normal are best seen in the table below, where the average maximum, minimum and mean temperature for the week at nine typical stations in different districts of the province are compared with their normal values for the same period. The excess temperatures, it will be seen, have been fairly equally distributed during both the day and night :—

Table showing the excess or defect of the actual mean temperature from the normal for the week ending 5th December 1891.

	Normal mean maximum temperature for the week ending 8th December.	Actual mean maximum temperature for the week ending 8th December 1891.	Variation of actual mean from the normal.	Normal mean minimum temperature for the week ending 8th December.	Actual mean minimum temperature for the week ending 8th December 1891.	Variation of actual mean from the normal.	Normal mean daily temperature for the week ending 8th December.	Actual mean daily temperature for the week ending 8th December 1891.	Variation of actual mean from the normal.

Rainfall—Has been practically entirely absent from the whole province for the week.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 5th of December 1891 :—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th Oct. 1891.

The average fall of the corresponding period for 24 years, S.-G.'s Office ...	65·19

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

⌓, dew.

C. LITTLE,

For Meteorological Reporter to the Govt. of India.

METEOROLOGICAL OFFICE, GOVT. OF INDIA;
Calcutta, the 7th December 1891.

Statement showing the Results of the Registration of Births and Deaths in the principal Municipalities in Bengal during the week ending with Saturday, the 14*th November* 1891.

* Includes 17,434 tons and 4,503 tons during 1891 and 1890 respectively carried for Revenue, for which no "Up" and "Down" registers maintained.

† Railway plant and rolling-stock 7,974 tons and 5,645 tons for the year 1891 and 1890 respectively, for which no "Up" and "Down" registers maintained.

Comparative statement of the principal commodities carried over the Eastern Bengal State Railway during the month of September 1891.

INCREASES.

	Tons.
Coal	17,661
For railway and flotilla consumption principally.	
Cotton piece-goods	3,128
Probably due to increased demand from up-country stations for sale during the poojahs.	
Rice	2,040
Larger despatches from Sara Ghât, Kooshtea, and Goalundo.	
Jute, screwed	7,405
Haldibari, Darwani, Mymensingh to Karaid, and Serajgunge contributed to this increase.	
Jute, unscrewed	20,767
Principally in despatches from Domar, Darwani, Rungpur, Atrai, Raninagar, and Serajgunge, due to a favourable market.	
Kerosine oil	1,611
Due to opening of the Budge-Budge Branch.	
Oil-seeds	2,838
Due to good crops and an improved market. Kasba, Jattrapur, Alamdanga, and Goalundo contributed to this increase.	
Railway plant and rolling-stock	2,329
Probably due to repairs and renewals.	
Salt	2,840
Principally in despatches from Chitpore.	
Tea	2,312
Good season.	
Tobacco	1,084
Haldibari, Domar, Saidpur, and Kaunia contributed principally to this increase.	

HARRY STUART,
Examiner.

CALCUTTA, *the 7th December* 1891.

PART I.

Orders and Notifications by the Lieutenant-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 97A.

GENERAL.—*The 24th October* 1891.—Mr. E. G. Colvin is allowed leave up to the 5th December next, under article 291 of the Civil Service Regulations, with effect from the date on which he may be relieved of his present appointment as Officiating Postmaster-General, Bengal.

Mr. Colvin is also appointed to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors, with effect from the latter date.

The 21st November 1891.—Mr. E. G. Colvin, Joint-Magistrate and Deputy Collector, is allowed leave for one month, under articles 313 and 314(*b*) of the Civil Service Regulations, in extension of the leave granted to him under the order of the 24th ultimo.

The 27th November 1891.—Babu Pyari Mohun Basu, Sub-Deputy Collector, is appointed to be a Probationary Deputy Magistrate and Deputy Collector, but will continue to be employed on settlement duty until further orders.

The 5th December 1891.—Babu Saroda Prosad Sircar, Deputy Magistrate and Deputy Collector, is appointed to perform the functions of a Collector under section 4 of Act VII (B.C.) of 1880 in the Rajshahye district.

The 8th December 1891.—Babu Purna Chundra Chatterjee, Deputy Collector, is appointed to perform the functions of a Collector under section 4 of Act VII (B.C.) of 1880 in the district of the 24-Pergunnahs.

Mr. G. M. Currie, Magistrate and Collector, on leave, is appointed to be Magistrate and Collector of Jessore. This cancels the orders of the 23rd ultimo, appointing Mr. W. Fiddian, Magistrate and Deputy Collector, Howrah, to be Magistrate and Collector of Jessore, and Mr. G. M. Currie to be Magistrate and Deputy Collector, Howrah.

The 9th December 1891.—Mr. S. C. Roberts, Deputy Revenue Superintendent, Orissa Canals, is appointed to be a Deputy Magistrate and Deputy Collector of the third grade, with effect from the 15th September 1891. He will continue to be employed under the Public Works Department of this Government until further orders.

The 10th December 1891.—Babu Purna Chunder Roy, Deputy Magistrate and Deputy Collector, Jehanabad, Hooghly, is vested with the powers of a Collector under Act X of 1870 in that sub-division.

Mr. W. Maxwell, who has recently been appointed to be a member of the Indian Civil Service, is appointed to be an Assistant Magistrate and Collector in the Burdwan Division, and is posted to the head-quarters station of the Midnapore district.

Mr. C. H. Bompas, Assistant Magistrate and Collector, Midnapore, is appointed to have charge of the Contai sub-division of that district.

Babu Dino Nath Dey, Deputy Magistrate and Deputy Collector, Contai, Midnapore, is transferred to the head-quarters station of the Rungpore district.

Mr. H. H. Heard, Deputy Magistrate and Deputy Collector, Kendrapara, Cuttack, is appointed to have charge of the Jajepore sub-division of that district.

Babu Monmohun Roy, Deputy Magistrate and Deputy Collector, Jajepore, Cuttack, is transferred to the head-quarters station of that district.

Mr. H. A. Boyd, Assistant Magistrate and Collector, Cuttack, is appointed to have charge of the Kendrapara sub-division of that district.

The 11th December 1891.—The Revd. Alexander Ferrier, Senior Chaplain of the Church of Scotland, Calcutta, is appointed to be Honorary Chaplain of the Cossipore Artillery Volunteers, *vice* the Revd. J. Lillie, deceased.

Mr. C. M. W. Brett is appointed temporarily to be Additional District and Sessions Judge for the districts of Dacca, Jessore with Khulna, and Backergunge, and is posted to Jessore until further orders.

The 12th December 1891.—Babu Burmeshwar Prosad, substantive *pro tempore* Sub-Deputy Collector and Superintendent of Distillery, Shahabad, is allowed leave for three months, under article 291 of the Civil Service Regulations, with effect from the date on which he may be relieved.

Babu Ram Charan Bose, Deputy Magistrate and Deputy Collector, 24-Pergunnahs, is allowed furlough for six months, under article 371 of the Civil Service Regulations.

The 14th December 1891.—The services of Babu Bejoy Krishna Bose, Deputy Magistrate and Deputy Collector, on leave, are placed at the disposal of the Revenue Department of this Government for employment on settlement duty in the Darjeeling district.

Mr. H. Wheeler, who has recently been appointed to be a member of the Indian Civil Service, is appointed to be an Assistant Magistrate and Collector of the Bhagulpore Division, and is posted to the head-quarters station of the Bhagulpore district.

Mr. H. G. W. Herron, Assistant Magistrate and Collector, has been granted by Her Majesty's Secretary of State for India an extension of leave for three months on medical certificate.

Mr. A. W. Mackie, District and Sessions Judge of Rungpore, is allowed furlough for nine months, under article 340(*b*) of the Civil Service Regulations, with effect from the 17th March 1892.

The 15th December 1891.—Mr. T. W. Richardson is appointed to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors, with effect from the forenoon of the 16th ultimo, the date on which he was relieved of his appointment as Officiating Deputy Commissioner of Lohardugga, and is posted to the head-quarters station of that district, with effect from the date on which he joined the appointment.

Mr. Ahsanuddin Ahmad, Officiating Joint-Magistrate and Deputy Collector, Manbhoom, is allowed leave for two months and ten days, under article 291 of the Civil Service Regulations, with effect from the 3rd January 1892, or any subsequent date on which he may avail himself of it.

Mr. W. C. Taylor, Special Deputy Collector for the purpose of acquiring lands for the East Coast Railway, is vested with the powers of a Collector under Act X of 1870 in the district of Cuttack.

In modification of the orders of the 11th August and the 16th October last, Mr. F. W. Badcock, Officiating District and Sessions Judge, Burdwan, is allowed leave for forty-five days, under article 308 of the Civil Service Regulations, with effect from the 4th September 1891.

Babu Pramada Nath Mukerjee is appointed to be a Probationary Deputy Magistrate and Deputy Collector, and is posted to the head-quarters station of the district of Dacca.

Mr. C. W. Bolton, Officiating Secretary to the Board of Revenue, is confirmed in that appointment, with effect from the 3rd instant, *vice* Mr. C. E. Buckland.

Babu Bhubandra Nath Roy, Sub-Deputy Collector, Nilphamaree, Rungpore, is allowed leave for three months, under article 291 of the Civil Service Regulations, with effect from the afternoon of the 30th October 1891.

POLICE.—*The 11th December* 1891.—Mr. H. E. C. Paget, District Superintendent of Police, reported his departure from India on furlough on the 21st ultimo.

REGISTRATION.—*The 14th December* 1891.—Maulvi Ghulam Nabi is appointed to be Joint Sub-Registrar of Bagirhat at Kachua, in the district of Khulna.

JAILS.—*The 12th December* 1891.—Babu Jagat Durlabh Mozoomdar, Subordinate Judge of Monghyr, is appointed to be a Visitor of the jail of that district.

EDUCATION.—*The 9th December* 1891.—Babu Kunja Behary Bose (class IV) is appointed to act in class II of the Subordinate Educational Service during the absence, on privilege leave, of Babu Ambica Charan Bose, or until further orders, with effect from the 20th October 1891.

Babu Bonomali Mullick (class V) is appointed to act in class IV of the Subordinate Educational Service, during the absence, on deputation, of Babu Kunja Behary Bose, or until further orders, with effect from the 20th October 1891.

The following notifications are republished from the *Assam Gazette* :—

No. 10183*G.*—*The 4th December* 1891.—Under the provisions of section 25 of Act XII of 1887 (The Civil Courts Act), the Chief Commissioner invests Babu Nepal Chandra Bose, Munsif of the Second Court of Habiganj, in the district of Sylhet, with the powers of a Judge of a Court of Small Causes for the trial of suits cognizable by such a Court up to the value of Rs. 50 within the local limits of the Habiganj Munsifi, during the absence, on deputation, of Babu Suruth Kumar Ghosal, or until further orders.

No. 10184*G.*—*The 4th December* 1891.—Under the provisions of section 8 of Act I of 1882 (The Inland Emigration Act), the Chief Commissioner appoints Mr. W. A. M. Duncan, C.S., Assistant Commissioner, to be an Assistant Inspector of Labourers under the said Act in the district of Lakhimpur.

No. 3618*J.*—*The 1st December* 1891.—The services of Babu Suruth Kumar Ghosal, Munsif of the Third Court of Habiganj, in the district of Sylhet, are placed temporarily at the disposal of the Government of Bengal.

No. 3622*J.*—*The 1st December* 1891.—Babu Sirish Chandra Banerji, B.L., is appointed to officiate as a Munsif in the district of Sylhet, to be ordinarily stationed at Habiganj, during the absence, on deputation, of Babu Suruth Kumar Ghosal, or until further orders.

H. J. S. COTTON,
Offg. Chief Secy. to the Govt. of Bengal.

James Sully.	Outlines of Psychology, 5th edition.
Martineau	Types of Ethical Theory, 3rd edition, Vol. I (Introduction only), Vol. II.

HONOUR COURSE.

(In addition to the subjects for the Pass Course.)

HISTORY OF PHILOSOPHY.

Bacon and Descartes to Reid and Kant.

The following books are recommended :—

Ueberweg	History of Philosophy, Vol. II.
Schwegler	History of Philosophy.
Fraser	Berkeley (Blackwood's Philosophical Classics).
Fraser	Locke (Blackwood's Philosophical Classics).

NATURAL THEOLOGY.

Martineau	Study of Religion, 2nd edition (omitting Book I and Book III, Chap. II).

PURE LOGIC.

P. K. Ray	Text-book of Deductive Logic, including the Appendix, 4th edition.
Ueberweg	System of Logic and History of Logical Doctrines.

MATHEMATICS.

PASS COURSE.

Greaves	Elementary Statics (omitting all articles marked with an asterisk).
Lock	Dynamics for Beginners.
Maxwell	Matter and Motion, Chap. III and articles 95, 97.
Besant	Elementary Hydrostatics, Chapters I—VII and Chapter VIII, paras. 1—8, omitting articles 93, 102, 104, 111—121, (or the corresponding portions of S. B. Mukerjee's Elementary Hydrostatics.)

HONOUR COURSE.

Greaves	Elementary Statics (the whole).
Lock	Dynamics for Beginners.
Maxwell	Matter and Motion.
Besant	Hydrostatics, Chaps. I—VII, and Chap. VIII, paras. 1—8, omitting articles, 93, 102, 104, 111—121, (or the corresponding portions of S. B. Mukerjee's Elementary Hydrostatics).
Salmon	Conic Sections (6th Edition, Chaps. I—III, V—VIII, to the end of article 116, and X—XIII.
Williamson	Differential Calculus (6th edition), Chaps. I—V, IX, XI—XVIII.

Fawcett	Manual of Political Economy.

HONOUR COURSE.

(In addition to the subjects for the Pass Course.)

Capes	The Early Empire.
Capes	The Age of the Antonines.
Bagehot	The English Constitution.
Mill	Political Economy.

PHYSICS AND CHEMISTRY.

PASS COURSE.

Deschanel	Elementary Treatise on Natural Philosophy.
Kolbe	Inorganic Chemistry, translated by Humpidge.

PHYSICS, CHEMISTRY AND THE DOCTRINE OF SCIENTIFIC METHOD.

HONOUR COURSE.

Deschanel	Elementary Treatise on Natural Philosophy.
S. P. Thompson	Elementary Lessons in Electricity and Magnetism.
Tait	Heat (omitting Chaps. 21 and 22).
Frankland and Japp	Inorganic Chemistry (Edition 1884), omitting all the sections printed in small type, and all the parts relating to the following elements:—Zirconium, Thorium, Niobium, Tantalum, Beryllium, Palladium, Iridium, Rhodium, Osmium, Ruthenium, Norwegium, Cerium, Didymium, Lanthanum, Yttrium, Erbium, Terbium, Scandium, Samarium, and Decipium.
Remsen	Organic Chemistry.
Jones	Junior Course in Practical Chemistry.
Jevons	Principles of Science, 2nd edition (omitting Books I and II).

BIOLOGY.

PHYSIOLOGY AND BOTANY.

PASS COURSE.

Huxley	Elementary Lessons in Physiology.
Huxley and Martin	Practical Biology.
Prantl and Vines	Text-book of Botany.
Oliver	First Book of Indian Botany.

PHYSIOLOGY AND ZOOLOGY.

PASS COURSE.

Huxley	Elementary Lessons in Physiology.
Huxley and Martin	Practical Biology.
Claus-Sedgwick	Elementary Text-book of Zoology, Vol I, General Part and Special Part. Protozoa to Insecta, Vol. II. Special Part, Mollusca to man.

PHYSIOLOGY, BOTANY, ZOOLOGY, AND THE DOCTRINE OF SCIENTIFIC METHOD.

HONOUR COURSE.

Huxley	Elementary Lessons in Physiology
Huxley and Martin	Practical Biology.
Foster	Text-book of Physiology.
Prantl and Vines	Text-book of Botany.
Oliver	First Book of Indian Botany.
Henfrey	Elementary Course of Botany.
Vines	Lectures on the Physiology of Plants.
Claus-Sedgwick	Elementary Text-book of Zoology. Vol. I. General Part and Special Part, Protozoa to Insects Vol. II. Special Part, Mollusca to Man.
Huxley	Comparative Anatomy of the Vertebrata.
Huxley	Comparative Anatomy of the Invertebrata.
Jevons	Principles of Science, 2nd edition (omitting Books I and II).

GEOLOGY.

GEOLOGY AND PHYSICAL GEOGRAPHY.

PASS COURSE.

Geikie	Class-book of Geology.
Blanford	Sketch of the Geology of India.
Huxley	Physiography.
Geikie	Lessons in Physical Geography.

GEOLOGY AND MINERALOGY.

PASS COURSE.

Geikie	Class-book of Geology.
Blanford	Sketch of the Geology of India.
Dana	Text-book of Mineralogy.
Scheerer and Blanford.	Introduction to the Use of the Mouth Blowpipe.

GEOLOGY, MINERALOGY, PHYSICAL GEOGRAPHY, AND THE DOCTRINE OF SCIENTIFIC METHOD.

HONOUR COURSE.

Geikie	Class-book of Geology.
Blanford	Sketch of the Geology of India.
Geikie	Text-book of Geology.
Dana	Text-book of Mineralogy.
Blanford and Scheerer.	Introduction to the Use of the Mouth Blowpipe.
Huxley	Physiography.
Geikie	Lessons in Physical Geography.
Jevons	Principles of Science, 2nd edition (omitting Books I and II).

M. A. EXAMINATION, 1893.

MENTAL AND MORAL SCIENCE.

Ueberweg	History of Philosophy (omitting the 1st and 2nd periods of the Philosophy of the Christian era and the Appendices).
Descartes	Veitch's Descartes, 6th Edition.
Locke	Essay concerning Human Understanding.

Berkeley	Fraser's Selections from Berkeley 3rd Edition.
Hume	Enquiry concerning Human Understanding.

Registrar.

SENATE HOUSE,
The 1st December, 1891.

Civil Engineering College, Seebpore.

AN examination for admission to the Mechanical Apprentice Department will be held at the College on Monday and Tuesday, the 11th and 12th January 1892.

Candidates must apply in writing to the Principal not later than the 31st December 1891 for permission to appear at the examination, enclosing a fee of Rs. 5, a certificate of good conduct, and a certificate of age. Applications unaccompanied by fee and certificates will not be considered.

For admission to this Department, candidates must be between the ages of 15 and 17 years.

The subjects of examination are—

Arithmetic	... The whole.
Algebra	... To Simple Equations.
Euclid	... Books I and II.
English Grammar and Composition.	

Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, fitness for manual labour, and eyesight. If this officer's report is unsatisfactory, the applicant will not be admitted and his examinaton fee will be returned.

There will be two vacancies on the free list for Christian apprentices in February next and nineteen on the reduced * fee list.

* Rs. 5 per mensem.

For Natives there will be at least twelve vacancies, possibly more, on the reduced † fee list. These vacancies will be filled up by the Board of Visitors.

† Rs. 2 per mensem.

Owing to want of accommodation, the number of *Hindu* apprentices to be admitted is limited. Candidates will be selected in order of merit.

Further particulars will be supplied on application to the Principal.

J. S. SLATER,
Professor in Charge, Civil Engineering College.

SEEBPORE, *the 20th November* 1891.

Orders by the Vice-Chancellor and Syndicate of the University of Calcutta.

IT is hereby notified that at the Arts Examinations of 1894, and subsequent years, candidates will be required to use the *Devanagari* character in answering the Sanskrit papers.

SENATE HOUSE, *the 14th December* 1891. A. M. NASH, *Registrar.*

Calcutta University Notice.

IN continuation of the University notice, dated the 17th November 1891, it is hereby announced that His Excellency the Governor-General in Council has been pleased to permit the M. As. and holders of corresponding degrees in the other Faculties of the University to elect two of their number to be Fellows, subject to the approval of His Excellency the Chancellor.

SENATE HOUSE, *the 14th December* 1891. A. M. NASH, *Registrar.*

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 1613B.

NOTICE is hereby given that the Provision Opium to be brought forward for sale by public auction in the year 1892 will consist of about 25,800 chests prepared at the Patna Factory, each chest of which is believed to contain 1 maund 18 seers 12 chittacks of pure opium, besides 9 seers 6 chittacks used for pasting the leaves of the shell, and about 28,200 chests prepared at the Ghazeepore Factory, each chest of which is believed to contain 1 maund 18 seers 12 chittacks of pure opium, besides 9 seers 6 chittacks used for pasting the leaves of the shell; being of the two seasons 1889-90 and 1890-91 in the proportion marginally noted.

On or about Wednesday,	3rd August	,,	...	2,150	2,350	4,500
On or about Thursday,	1st September	,,	...	2,150	2,350	4,500
On or about Monday,	10th October	,,	...	2,150	2,350	4,500
On or about Wednesday,	2nd November	,,	...	2,150	2,350	4,500
On or about Thursday,	1st December	,,	...	2,150	2,350	4,500
		Total	...	25,800	28,200	54,000

The following are the conditions of sale:—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered

DEPOSIT.
When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained; and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazeepore Factory for the year 1890-91, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

T. INGLIS, *Secretary.*

FORT WILLIAM, *the 24th November* 1891.

No. 1646B.

NOTICE is hereby given that the First Sale of Opium, the Provision of 1889-90, will be held at the Government Opium Sale-room, No. 2, Bankshall-street, on Monday, the 4th January 1892, at 11 A.M., and will comprise 4,500 chests, viz.—

	Chests.
Behar Opium	2,150
Benares do.	2,350
Total ...	4,500

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 24th November 1891, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 9th and 19th January 1892 respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 1-30 P.M. of Saturday, the 9th January 1892, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Tuesday, the 19th January 1892.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less of Behar and Benares Opium, will be brought to sale in the present year about the date specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so :—

DATES.	Behar about chests.	Benares about chests.	Total, about chests.
On or about Monday, 1st February 1892 ...	2,150	2,350	4,500
On or about Wednesday, 2nd March 1892 ..	2,150	2,350	4,500
On or about Monday, 4th April 1892 ...	2,150	2,350	4,500
On or about Monday, 2nd May 1892 ...	2,150	2,350	4,500
On or about Friday, 3rd June 1892 ...	2,150	2,350	4,500

Commissioners for the Port of Calcutta.

NOTICE.

THE following scale of charges for the use of the Commissioners' new Graving Dock at Kidderpore having been approved by His Honour the Lieutenant-Governor of Bengal is hereby published for general information, in accordance with the provisions of section 107, Act III of 1890.

By order of the Commissioners,
R. A. DONNITHORNE, Secretary.

The 5th December 1891.

Graving Dock.

			Feet.
Length on blocks	...	...	520
Width at entrance	...	...	67
Least depth on blocks	...	...	23

The Dock is intended principally for the painting and cleaning of vessels and the execution of very slight repairs. Its use for heavy repairs will only be given in special circumstances.

The terms are as follows, and will include removal of vessels from Graving Dock entrance into Graving Dock and back, docking, pumping, shoring, and undocking; also the use of stages and stage-ropes for cleaning and painting:—

	Rs.	A.	P.	
For the first 24 hours with a minimum of Rs. 600 ...	0	8	0	per ton gross tonnage.
For the second 24 hours or part thereof	100	0	0	
For the third 24 hours or part thereof ...	200	0	0	

and for every period of 24 hours or part thereof that a vessel remains in dock in excess of 72 hours, the charge of Rs. 200 will be repeated; provided that, if the Dock be required for another vessel, a vessel that has already occupied it for 72 hours must immediately vacate or pay 8 annas per ton gross tonnage with a minimum charge of Rs. 600 a vessel for every 24 hours or part thereof that she remains in occupation.

For night work Rs. 100 a night, or part thereof, will be charged extra for work done in connection with the docking or undocking of vessels.

A vessel engaging the Dock and not using it will be charged Rs. 300.

The Commissioners will not undertake the work of cleaning, painting, or repairing vessels. Owners, Agents, or Masters will have to make their own arrangements for the execution of the work.

No commission or other fees will be levied on stores brought either by land or water into the Dock for cleaning, painting or repairing.

No. 2678 Marine.

The Local Government hereby signifies its approval of the above scale.

W. B. BESTIC, Under-Secy. to the Govt. of Bengal.
Govt. of Bengal, Marine Dept., the 18th Nov. 1891.
(809—3)

Road Cess Notification.

IT is hereby notified that, under section 38 of the Cess Act, as amended by the second schedule of the Local Self-Government Act III (B.C.) of 1885, the District Board of Pubna have determined that road cess in that district for the cess year 1892-93 shall be levied at the maximum rate, viz., one-half anna on each rupee of the annual value of lands and of the annual net profits from mines, quarries, tramways, railways, and other immoveable property as enumerated in section 6 of the Cess Act.

NANDA KRISHNA BOSE, Chairman.

THE Purneah District Board, at their meeting on the 7th December 1891, have fixed full rate of road cess, i.e., 2 pice per rupee to be levied during 1892-93.

Notice

IS hereby given that the Julpaiguri District Board have resolved to levy road cess at the maximum rate of one anna in the rupee in the district for the current year 1891-92.

SHYAMAPADA CHOWDRY, for Chairman, District Board, Julpaiguri.

Julpaiguri, the 9th December 1891.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

Notice.

IT is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

The List of Books available for sale at the Secretariat Press will in future be published once only in each month. Spare copies of the List will, however, be kept in stock ready for issue on receipt of applications for them.

NOTICE TO SUBSCRIBERS.

SUBSCRIBERS to the *Calcutta* and *Bengali Gazettes* and Indian Law Reports are hereby informed that unless the amount of their subscription for 1892 is received before the 31st December 1891, it will be concluded that the Gazettes and Reports are no longer required, and the supply will accordingly be discontinued from 1st January 1892.

All remittances should be made direct to the Accountant and Treasurer, Bengal Secretariat, Calcutta, by means of money-order. No postage stamps or stamps of any other kind will be received in payment of subscriptions.

The correct address of the subscriber should be legibly written on the money-order coupon, and the period for which the subscription is paid should be stated.

H. C. STREATFEILD,
Under-Secy. to the Govt. of Bengal.

The 1st December 1891.

BAY OF BENGAL—ORISSA COAST.

The buoys in False Point harbour in position.

IN continuation of Notice to Mariners No. 213 of the 30th November, issued by this Office, the Port Officer, False Point, has given further notice, that Reddie Head Spit having shoaled to the northward, the outer Spit buoy has been shifted about 120 feet north of its former position into 21 feet reduced; also the inner Spit buoy has been shifted 100 feet N. ¼ W. of its former position into 24 feet reduced.

In consequence of the Reddie Head flat having shoaled to the westward, the Reddie Head Flat buoy, which had been swept away during the recent cyclone, has been placed 100 feet to the westward of its former position in 12 feet reduced.

All the buoys in the harbour are now in position.

1891.	Pages.					Rs. A. P.			
Mar., 10th	43	8vo dy	1st ...	1,000	Printed	0 8 0	Mir Masbárruf Hossain, Láhinipárá, Kushtea.	Contains the story of the fall of Yezid, who poisoned Imam Hasan, and treacherously killed his brother. Yezid is said to have been defeated by the followers of Jainál Abidin. He is said to have entered into a well, where he is believed to be still living in the midst of infernal fire.	261
April, 10th	78	12mo ...	1st ...	500	ditto ...	0 6 0	.....	The story of a Hindu girl falling in love with a Muhammadan gentleman of the neighbourhood, who came to inspect the girls' school, where the girl received her education. The girl could not at first marry him, because she would thereby incur the displeasure of her mother. But soon after her death she became a Muhammadan and married him, though her Hindu husband was alive.	262
Mar., 23rd	64	8vo dy	1st ...	1,000	ditto ...	0 4 0	Bipradás Mukharji, 150, Mániktalá Street, Calcutta.	A translation of the Mysteries of Paris.	263
April, 19th	82	12mo dy	1st ...	1,000	ditto ...	0 5 0	S. A. Rahim ...	Some touching stories relating to the Moorish palace at Cordova.	264
Jan., 12th	140	12mo dy	1st ...	1,000	ditto ...	1 0 0	Chuni Lál Mitra, 6, Nandaram Sen's Lane, Calcutta.	The story of a girl who died of snakebite, and whose body was thrown into the river, but who was restored to life by a *Sannyási*. After many adventures she meets her father, and is married to the man who loved her.	265
Mar., 16th	430	8vo dy	1st ...	1,000	ditto ...	2 4 0	Sarkár and Company, 37, Fakir Chánd Chakravarti's Lane, Calcutta.	The story of one of the Bengali officers who helped Colonel Sleeman in the suppression of Thuggy and Dacoity.	266
Feb., 25th	200	12mo dy	1st ...	1,000	ditto ...	1 0 0	Sharat Chandra Sarkár 72-1, Muktárám Babu's Street, Calcutta.	The story of a bandit's daughter who fell in love with Shivaji, and helped him in his predatory expeditions. She died of snakebite. It contains the story of a secret valley full of gold and jewels, the secret of which is transmitted from generation to generation to three persons only.	267
Jan., 25th	332	12mo dy	1st ...	1,000	ditto ...	1 12 0	Sharat Chandra Sen, 112, Upper Chitpore Road, Calcutta.	An adaptation of the plot of Shakespear's Othello. But the end is not tragic, the author having managed to unite Desdemona and Othello at the end.	268
April, 1st	288	12mo dy	1st ...	1,000	ditto ...	1 4 0	Dhírendranáth Pál, 26, Scott's Lane, Calcutta.	An adaptation of the plot of Shakespear's Macbeth. But there are no witches in this work: they have been replaced by an old *Sannyási* and Bhramar, a girl whom the Bhils worship as their goddess, and who often assumes male attire, and is known as Jumelia, the leader of all the Bhil tribes.	269
1890.									
Dec., 29th	164	8vo cr.	1st ...	500	ditto ...	0 12 0	Braja Náth Gosvámí, Netra Koná.	A story of the British conquest of Bengal. The *Sannyásis* play an important part in this work, and an attempt is made by the hero to establish a Hindu kingdom. His men are, however, corrupted by British gold, and he falls a victim to treachery.	270
1891.									
Feb., 1st	170	12mo dy	1st ...	1,000	ditto ...	1 0 0	Haridás Bhattácháryya, 37, Nimu Gosáin's Lane, Calcutta.	Four short stories of love: the first is a story of suicide at the unchastity of a dearly beloved wife; the second is a story of a poor girl being saved from drowning by the *sardár* of a gang of dacoits; the third is that of a rich man's daughter falling in love with a dependant of the family; and the fourth that of a poor homeless girl married to a wealthy husband, who is killed by her co-wife owing to jealousy of the new bride.	271

1890.	Pages.					Rs. A. P.			
Nov., 30th	89	12mo dy	1st ...	1,250	Printed	0 8 0	Hirá Lál Dhol, 127, Musjidbári Street, Calcutta.	The first part of the work was noticed in the last catalogue. The present part contains the speech of a *Sannyási* on love.	342
	The *sannyási* had a girl-wife who he thought did not return his love. At a Railway station he heard the news of her death, and renounced the world. After his speech was over it appeared that he was wrongly informed								
1891.	and that his wife was living. He found her out, and became a householder again.								
Jan., 6th	58	12mo dy	1st ...	1,000	ditto ...	0 5 0	Shashi Bhúshan Bhattácháryya, Faridpur.	The story of Dhruba's devotion to Hari as given in the Puránas.	343
Mar, 12th	14	8vo dy	1st ...	500	ditto ..	.....	Rám Náth Tarkaratna, Shántipur.	The writer shows that a compulsory religious ceremony may be put a stop to by the order of the King, and that the Garbhádhán ceremony might, according to the Shastras, be postponed for three years after the appearance of the signs of womanhood.	344
Feb., 26th	78	12mo dy	1st ...	2,000	ditto ...	0 4 0	Naoser Alikhán Usafji, Charangram, Mymensing.	Contains a description of the condition of Musalmans in Bengal. Some time ago the Musalmans had fallen so low that even the richest and best men among them did not scruple to perform Durgápújá in their houses. But a change has come over the spirit of Islam in Bengal. The exertions of Maulvies from various parts of India are purifying it from superstition and idolatry.	345
April, 15th	183	12mo dy	1st ...	1,0 0	ditto ...	1 4 0	Shaikh Abdos Sobhán.	Contains the account of a Musalman Constable who was greatly ill-treated by the Hindu Police Officers and caused to be dismissed from the service. In the course of the narrative the writer abuses the Hindus, their religion, their manners, and their conduct, both as men and as public officers, in the strongest terms possible, and advises the Musalmans never to be place-hunters.	346
May, 19th	68	12mo dy	1st ...	1,000	ditto ...	0 2 0	C. T. and B Society, 23, Chowringhi Road, Calcutta.	The account of the suffering of Revd. Mr. Judson and his wife at the prisons of Ava and Amarapura during the first Burmese war in 1826. Mr. Judson was an American Missionary, and was thrown into prison by the King of Burmah for his supposed correspondence with the English.	347
March, 2nd	376	dy ...	1st ...	2,000	ditto ...	.....	.....	Contains a number of very interesting essays on moral subjects written in easy Bengali, and an engaging style, enlivened by anecdotes from real life.	348
1890. Dec., 26th	439	12mo dy	3rd ...	2,000	ditto ...	3 0 0	Brajahari Datta, 25-2, Grey Street, Calcutta.	An improved and enlarged edition.	349
„ 26th	305	12mo dy	3rd ...	2,000	ditto ...	Included in the 1st volume.	ditto ...	ditto ditto ...	350
1891. Jan., 2nd	211	12mo dy	1st ...	2,000	ditto ...	1 8 0	ditto ...	Contains witty anecdotes, short poems, songs, and information on a variety of subjects.	351
Feb., 20th	144	12mo dy	1st ...	1,000	ditto ...	0 8 0	Khirod Náth Ráy Chaudhuri, Dumka.	A collection of short essays on a variety of weighty subjects, indicating remarkable power of thought. They show that the author is well read both in Hindu and in Western systems of philosophy.	352
„ 15th	95	8vo dy	1st ...	500	ditto ...	0 2 0	Jogendra Náth Chatterji, Calcutta.	Denounces marriage without love, and gives a large number of instances of unhappy married life.	353
April, 10th	170	12mo dy	1st ...	1,000	ditto ...	1 8 0	P. C. Mazumdár, Peace Cottage, Upper Circular Road, Calcutta.	A well written hand book of morals for the use of Bengali females, giving them instruction how to live and move in society, and how to conduct themselves in the various circumstances of life.	354

1891.									
April, 11th	42	12mo dy	1st ...	500	ditto ...	0 4 0	Kamal Krishna Sinha, Susanga Durgapur.	Written by a contemporary of Bhárat Chandra about the time of the commencement of British rule in Bengal. The writer is one of the few poets of East Bengal, and he writes in a very polished style. There are two books in this publication. One gives the personifications of the *Rágas* and *Rágínis* of Hindu music, as represented in a collection of pictures purchased by the Sushanga Raj family from a Delhiwalla. The other is a rapid summary of the Padmá Purán, the only large poetical work from East Bengal known as yet.	372
Mar., 18th	109	12mo dy	1st ...	1,000	ditto ...	0 8 0	Jadu Náth Mandal, 4, Medical College Street, Calcutta.	Describes the condition of villages on the river Dámudá. They were prosperous 25 years ago, but malaria has nearly depopulated them within this interval. The writer gives many anecdotes in connection with these villages. Those relating to Shubhankar Ráya, the great arithmetician, are very interesting.	373
April, 15th	88	2mo dy	1st ..	1,000	ditto ...	0 4 0	Shashi Bhúshan Dás, Báránasi Ghosh's Street, Calcutta.	Short pieces on a variety of subjects.	374
May, 1st	78	12mo dy	1st ...	1,000	ditto ...	0 4 0	Ishvar Chandra Sáhá, Kámárgaon, Dacca.	Written in imitation of the works of the Gosvámis of old. The work treats of Chaitanya as an incarnation of Krishna, and the writer applies songs in honour of the sports of Krishna to Chaitanya and *vice versâ*.	375

May, 5th	78	12mo dy	1st ...	1,000	ditto ...	0 8 0	Rabíndra Náth Tagore, 6, Dwáraka Náth Tagore's Lane, Calcutta.	Compares the ease-loving, idle, thoughtful and contented life of the modern Hindus with that of the busy, jostling, and	454
matter-of-fact life of modern Europe, and shows the disadvantages under which Hindu life labours. The writer gives some idea of the social reforms necessary in the present state of Hindu society. The diary will be published in the second part. This part gives only the preface.									
BOOKS.									
1891.									
Mar., 21st	141	8vo dy	1st ...	600	ditto ...	1 8 0	.....	A eulogistic account of the public career of Sir Steuart Bayley, the late Lieutenant-Governor of Bengal. The work was originally intended to form the intro-	2432
duction to Part II of Sir Steuart's speeches. It has been issued as a separate work because it exceeded the limits of such an introduction.									
May, 1st	8	8vo dy	1st ...	500	ditto ...	0 1 0	Priya Náth Basu, Nandanpur, Khulna.	The writer thinks that "in comparison with Bháskarácháryya Newton will stand as a child to his father." The writer makes	2433
much of the theory of gravitation as given in Bháskarácháryya's well-known couplet "Akrishtasaktisch a Mahí tayá yat Khastham guru svábhimukham svasaktyá," &c.									
April, 17th	31	12mo dy	1st ...	1,000	ditto ...	0 4 0	H. Datta, Bongong.	A work designed for the purpose of exposing the evils brought on Hindu society by the	2434
Mr. and Mrs. Cháki depose before the District Magistrate that they saw Harendra having intercourse with and sends the case to the Sessions. The Judge believes in the innocence of the bridegroom, and prevails upon him to for perjury and sentenced to seven years' rigorous imprisonment. But the medical examination has brought eternal retire from the world.									
1890.									
Oct., 1st	212	8vo cr.	1st ...	500	ditto ...	...	.....	The story of a lunatic with a homicidal tendency, whom a spirited young lady rescues from	2435
his confinement in a doctor's house and marries. The madman comes to India where he kills many natives in the jungles, but they are reported to have been killed by tigers.									
Dec., 6th	108	8vo dy	1st ...	500	ditto ...	1 8 0	.....	A story of the mutiny. Miss Mabel Templeton was stolen away by dacoits, who kept	2436
her concealed for years in a temple in the land of the Bheels. She was a colonel's daughter. The Colonel died during the mutiny. The girl was rescued by Charles; she recovered her fortune and married Charles.									
1891.									
Feb., 7th	96	8vo rl	1st ...	500	ditto ...	...	Asiatic Society, 57, Park Street, Calcutta.	The late Mr. Blochmann published the translation of the first volume of the Ain-i-Akbari. His untimely death put a stop to	2437
the work of translation, which has now been undertaken by Colonel H. S. Jarrett. This volume contains informations of inestimable value for the History and Geography of India under the Moghal Empire.

1891.	Pages.					Rs. A. P.			
Mar., 6th	96	8vo dy	1st ...	500	Printed	.....	Asiatic Society, 57, Park Street, Calcutta.	The text of Udayana accompanied with the commentary entitled *Prakásh* by Bardhamána, illustrated by extracts from the gloss named Makaranda.	1189
April, 6th	440	8vo rl	1st ...	500	ditto ...	.....	Rás Bihárí Mukharji, Uttarpara.	The aphorisms of Patanjali, the *bháshya* attributed to Vyás, and the commentary entitled *Tattva vaisháradya* by Váchaspati Mishra. Many difficult passages in the commentary have been explained by a *Sannyási* named Balaráma.	1190
„ 9th	187	8vo dy	1st ..	1,000	ditto ...	2 4 0	Sarveshvar Bhattáchárryya, Nadia.	The work is by the celebrated Gadádhar Bhattáchárryya of Navadvipa who flourished about eight generations ago. It is accompanied with the commentary of Harináth Tarkasiddhánta, the late Chief Pandit of the Tagore Sanskrit College at Mulajor. It treats of the import of words, *i.e.*, of the power inherent in words to express meaning.	1191
„ 6th	81	12mo rl	1st ...	1,000	ditto ...	.....	Gaur Gopál Mukharji, Pánchthupi, Moorshedabad.	On the loves of Krishna and Rádhá. The poet leaves all birds of a better class to poets of a higher order, and makes the crow the vehicle of his communication.	1192
Jan., 1st	174	8vo s rl	1st ...	1,200	ditto ...	3 0 0	Jogendra Chandra Basu, 34-1, Kalutola Street, Calcutta.	One of the Mahápuránas, 11,000 *slokas* in extent. It treats of the *phallic* emblem of Shiva, the method of worshipping it, the places sacred to it, and similar topics concerning the Shiva worship.	1193
„ 1st	595	8vo s rl	1st ...	1,200	ditto ...	5 0 0	ditto ...	The claim of this work to be regarded as a Mahápurána is often disputed.	1194
„ 1st	336	8vo s rl	1st ...	1,200	ditto ...	3 0 0	ditto ...	One of the Mahápuránas. Often noticed.	1195
May, 1st	433	8vo s rl	1st ..	1,200	ditto ...	3 0 0	ditto ...	One of the Mahápuránas. Vishnu assumes the form of a fish and spreads over the whole world. The fish speaks this *purána* to Manu, the King reigning at the time.	1196
„ 1s	358	8vo s rl	1st ...	1,200	ditto ..	3 0 0	ditto ...	One of the Mahápuránas. It was published some time ago in the Bibliotheca Indica Series.	1197
1890. Nov., 22nd	96	8vo dy	1st ...	500	ditto ...	.....	Asiatic Society, 57, Park Street, Calcutta.	Treats of the auspicious moments for the performance of various rites of the Hindus.	1198
1891. April, 13th	96	8vo dy...	1st ..	500	ditto ..	.....	ditto ...	ditto ditto ...	1199
May, 9th	96	8vo dy...	1st ...	500	ditto ...	0 12 0	ditto ...	The commentary of Anartiya, the son of Barradatta.	1200
„ 5th	96	8vo dy..	1st ..	500	ditto ...	0 6 0	ditto ...	The title explains the object of the work.	1201
Mar., 30th	88	8vo dy...	1st ...	500	ditto ...	0 6 0	ditto ...	This is an Upapurána chiefly advocating the Vaishnava faith. Though no date is attached to it, yet from its contents there is sufficient reason to think that it must have been compiled in comparatively recent times when Buddhism was on the decline and was universally despised.	1202

PERIODICALS—continued.									
1891.	Pages.					Rs. A. P.			
April, 1st	31	12mo ...	...	450	Printed	1 0 0 yearly.	.....	In one of the articles the writer deplores the present condition of Bengali literature, and says that the tastes, thoughts, and aspirations of the writers, readers, and patrons of literature must be reformed before a healthy literature can grow up.	2528
1890.									
Nov., 14th	32	8vo rl	1st ...	1,000	ditto ...	0 4 0	Umesh Chandra Datta, Calcutta.	One of the writers argues that since in the Shastras the wife is called the *Sahadharmini*, it shows that females used to be as well educated as males. In another article the writer asks wives to keep an eye on their husbands' health, and to be kind to all the members of his family.	2529
Dec., 9th	32	8vo rl	1st ...	1,000	ditto ...	0 4 0	ditto ...	The faith of the Burmese in metempsychosis is much stronger than that of the Hindus. They do not kill lower animals, as they think that the soul of one of their ancestors may be present in them.	2530
1891.									
Jan., 18th	32	8vo rl	1st ...	1,000	ditto ...	0 4 0	ditto ..	One of the writers implores the leaders of social and political movements to make God the centre round which all their congresses, conferences, and unions should meet. A godless agitation is not likely to succeed.	2531
Feb., 14th	32	8vo rl	1st ...	1,000	ditto ..	0 4 0	ditto ...	Contains an article on the superstitious observances current in countries which boast of superior civilization.	2532
April, 11th	32	8vo rl	1st ..	1,000	ditto ...	0 4 0	ditto ...	Articles suited to the taste of female readers.	2533
May, 4th	32	8vo rl	1st ...	1,000	ditto ...	0 4 0	ditto ...	ditto ditto ...	2534
June, 2nd	32	8vo rl	1st ...	1,000	ditto ..	0 4 0	ditto ...	Contains a piece of poetry in which Mahárani Jhindan, the widow of the Lion of the Panjáb, makes a spirit-stirring speech asking the Sikhs to deserve the name of the followers of Nanak.	2535
1890.									
Oct., 16th	104	8vo rl	1st ...	1,000	ditto ...	0 6 0	Svarna Kumárí Devi, Káshiabágán Garden House, Calcutta.	Articles of literary, historical, and antiquarian interest. The writer on female education is glad to notice the establishment in India of associations of North-Western Provinces, for the amelioration of the condition of Hindu widows. Mr. P. N. Bose of the Geological schools in Bengal.	2536
Dec., 12th	64	8vo rl	1st ...	1,000	ditto ...	0 6 0	ditto ...	Articles of social, historical, and antiquarian interest. In one of the articles the Kindergarten system of education has been clearly explained.	2537

RESULTS OF SURVEYS AND RECORDS-OF-RIGHTS IN CERTAIN WARDS' ESTATES.

REVENUE DEPARTMENT—LAND REVENUE.

Calcutta, the 10th December, 1891.

RESOLUTION No. 3745 L.R.

READ—

Letter No. 411A., dated 10th June, 1891, from the Board of Revenue, with enclosures, regarding the survey-settlement of the Churaman Estate.

Government Resolution No. 899L.R., dated 11th July, 1891, regarding the survey-settlement of the Churaman Estate.

Letter No. 353A., dated 20th May, 1891, from the Board of Revenue, with enclosures, regarding the survey-settlement of the Maldwar Estate.

Government Resolution No. 307T.R., dated 12th September, 1891, regarding the survey-settlement of the Maldwar Estate.

Letter No. 667A., dated 13th August, 1891, from the Board of Revenue, with enclosures, regarding the survey-settlement of the Shankarpur Estate.

Government Resolution No. 584T.R., dated 3rd October, 1891, regarding the survey-settlement of the Shankarpur Estate.

Government Resolution, No. 1243L.R., dated 9th November, 1891, on the cadastral survey of Behar.

Mr. E W. Collin's report No. 200A., dated 7th July, 1891, on the survey-settlement of the Srinagar-Banaili Estates.

In paragraph 13 of the Government Resolution No. 1243L.R., dated the 9th November 1891, published at pages 1895-99 of the Supplement to the *Calcutta Gazette* of the 18th idem, on the subject of the resumption of survey and settlement operations in North Behar, it was declared that an account would

shortly be published of what the surveys and records-of-rights in some large estates had cost, and the returns which they had produced to the landlords. Four such estates have recently been surveyed and settled, viz., the Churaman, Maldwar, Shankarpur and Srinagar-Banaili Wards' Estates, and the following paragraphs contain the main results of the operations.

2. *Churaman Estate.*—The mehals comprised in this estate are situated entirely within the Dinajpur district. They do not form a compact tract of country, but contain villages which lie scattered about the district and are interlaced with other estates. The survey and settlement operations were undertaken while the estate was under the Court of Wards. The total area of the estate, as ascertained by the survey, is 169,936 acres, of which 114,802 acres were surveyed by non-professional agency under the old procedure, and the remaining 55,134 acres, which were held by the late ward jointly with other co-sharer landlords, were surveyed and settled under the provisions of Chapter X of the Bengal Tenancy Act. The financial result of the operations was that a considerable area was recovered from the wrongful possession of other zemindars, and an additional rental of Rs. 4,621, or about 3·8 per cent. of the entire rental, was obtained chiefly from the rental of lands recovered from other proprietors. The cost of the operations amounted to Rs. 89,154 or 8 annas and 4 pies per acre, the rather high rate per acre being due to the scattered nature of the estate. As to apportionment of cost, a report is awaited from the local officers in respect to the area surveyed under the old rules.

The benefits of the operations to the zemindar and to the ryots are thus summarised by the Settlement Officer:—

I have mentioned what increase in the rental has been effected by the settlement. But an increased rental is not the only gain to the landlord. That is, indeed, a trifling gain compared with others. There was no such thing as a complete rent-roll for any of the mehals previous to the survey; and in the landlord's books and papers the areas of tenants' holdings were conspicuous by their absence. The landlords had no idea of the quantity of waste land, and how much of that again was culturable and how much unculturable. All these details have now been definitely ascertained and recorded; the amount of the rentals can no longer be a matter of speculation, and peculation of portions of the realizations by the patwaris will no longer be easy. It is impossible now for the zemindars' amin to quarrel with the ryots over the local *rassi*, and put down the areas of the holdings in accordance with his caprices; for the local standard bigha in each village has been definitely ascertained and authoritatively recorded. The record of rights will give the landlords every facility for effecting a legal enhancement of rent in the future, in accordance with rise in prices, and the boundaries, as demarcated and plotted in the maps, will, it is hoped, be effectual in preventing future litigation with neighbouring landlords. The amounts respectively payable by the landlords and tenants towards meeting the cost of the survey and settlement have not yet been declared by the Government under section 114 of the Tenancy Act, but a statement has been submitted showing the amounts for which the landlords and tenants are severally liable. In that statement the sum of 5 annas 3 pie to the acre is shown to be the share of cost chargeable to the landlords, and this sum I consider to be a very cheap price for the advantages gained by them.

As regards the tenants who will have to bear a share of the costs of survey and settlement, it is hardly necessary to point out in detail the manifold advantages the survey has effected on their behalf. The settlement may be said to have opened their eyes. They have, I believe, for the first time understood what their legal rights and status are, and now these have been safeguarded by the settlement. All of them, except the lower strata of the two unintelligent classes, the Palis and the Dessis, have eagerly sought their khatians, and asked whether these would be binding on the landlords. Was it true that the settled and occupancy ryots could not be ejected by the landlords at their will? Could they, under any circumstances, legally refuse to pay enhanced rental? Would the question of their local *rassi* crop up when the landlords shall send an amin to measure their holdings, or was it settled for good? Should they pay to the patwaris anything more than the amounts recorded in their khatians? These and several other questions which they have asked show that they have taken a keen and intelligent interest in the settlement proceedings. A large number of tenants of each village attended the amin during the measurements, and they have all more or less understood the process of measuring their holdings and the calculation of their areas. The awakening of this intelligence, and the greater interest and attachment to their holdings which this must necessarily cause, not to mention the legal protection which the khatians afford them, are benefits for which the sum of four annas to the acre—the amount of cost shown in the apportionment statement as chargeable to the ryots—does not appear to be at all too high.

As regards the litigation created by the survey, it is reported that 105 petitions were registered in the Settlement Officer's Office: 84 were disposed of summarily and 21 were tried as suits under section 107 of the Act; of these six were uncontested. No appeals were presented against the Settlement Officer's decision.

3. *Maldwar Estate.*—The survey-settlement was undertaken by the Court of Wards. The mehals constituting this estate are situated in the two districts—Dinajpur and Purneah. They do not form a compact block, but contain several villages which lie scattered widely apart from each other. As ascertained by the survey, the estate contains an area of 93,082 acres, of which 58,267 acres are cultivated, 15,942 acres cultivable, and 18,873 acres waste. The total cost of the survey and record of rights was Rs. 60,751, of which Rs. 36,113 were incurred on survey and Rs. 24,638 on settlement, the rates per acre being 5 annas 10 pies for survey and 4 annas 2 pies for settlement. The high cost of the survey was due partly to the scattered positions of the villages, and partly to the irregular supply of coolie labour, the obstruction of ryots, the passive opposition of neighbouring zemindars, the inexperience of newly-trained amins, and the insufficient support accorded to the latter by the officials of the estate.

The total cost has been apportioned as follows:—

	Rs.
Landlords	38,149
Tenure-holders	492
Ryots	22,110
Total ...	60,751

There are in the estate 13,163 rent-paying holdings, occupied by 9,421 ryots. Fair rents were settled in 6,217 cases by the mutual consent of the landlord and tenant, the result being an enhancement of Rs. 4,508, which was obtained by assessing excess land found in the possession of the ryots, after deducting 20 per cent. from the area resulting from the present survey, on the ground of close measurements. The assessment of this excess land was made at the average rate for land of the same class in the village. As regards the remaining 6,946 holdings, the existing rents were recorded. Thus for the entire estate the total new rental is Rs. 95,714, so that the enhancement is 4·71 per cent. on the previous rental (Rs. 91,206), 7·6 per cent. on the total cost of the work, and 11·8 per cent. on the proprietors' outlay.

The following account of the attitude of the tenantry is given by the Settlement Officer:—

> The settlement operations were conducted without any friction or difficulty. During the early part of the operations the tenantry showed indifference by their absence from the scene of operations. The attitude shortly, however, changed from indifference and obstruction to one of eagerness and hearty co-operation. It has been stated that the impression had got abroad among the tenantry that the Settlement office was a branch of the manager's office, and that the rents were to be enhanced unusually high, and that they would gain no advantage in any way from the effects of the settlement. But when the erroneous nature of the impression was fully explained to them, they took great interest in the work. One application only was made by the tenants of lot Senua to the Commissioner of the Division in his executive capacity, stating that the manager was doing "zulum" in order to make them agree to pay enhancements. The application was sent to me for disposal. Their rents have not been enhanced in this settlement, although the manager pressed for enhancement, as I found that the ryots of this particular lot Senua had paid a high enhancement a few years ago during the time of the late proprietor, Baboo Budhi Nath Chaudhuri.

There were altogether 1,243 suits and objections. Of these, 495 were disposed of summarily, and the rest were tried by the Settlement Officer in accordance with the procedure of a Civil Court. There were six appeals preferred before the Special Judge, of which three were dismissed, two allowed, and one was still pending when the Settlement Officer's report was submitted.

4. *Shankarpur Estate.*—The Shankarpur Estate consists of villages and parts of villages widely scattered over the districts of Dinajpur, Bogra, Rajshahye, and Maldah, the principal portion being in Dinajpur, and has been under the management of the Court of Wards since 1873

The aggregate area of the estate, as ascertained by the survey, is 157,802 acres, and the total cost of the survey-settlement was Rs. 1,31,729, of which Rs. 89,611 were for survey and Rs. 42,118 for settlement, the rates per acre being 7 annas and 3 pies and 3 annas and 6 pies respectively. The high cost of the survey is attributed to the scattered nature of the property, the necessity for measuring lands of other estates interlaced with those belonging to the

ward, and the sickness which prevailed among the establishment. The cost has been apportioned as follows:—

	Rs.	A.	P.
Ward	60,485	0	0
Co-sharer landlords and their patnidars	47,522	8	0
Ryots	23,721	8	0
Total	1,31,729	0	0

The total number of holdings in the estate is 32,607, the average size of a holding being 3 acres. The Board reported that rents were settled mainly by amicable arrangement between the management and the tenants, an allowance of 20 or 25 per cent. of the excess areas found in their possession being made to the tenants on account of the closer measurement of the professional survey, and the rest of the excess lands being assessed at the rates paid for similar lands in the village. The result has been an enhancement of the rental of the estate from Rs. 90,573-5-6 to Rs. 1,07,619-12-2, or nearly 19 per cent. on the previous rental, 13 per cent. on the total outlay, and 16 per cent. on the landlord's outlay, the increase on the ward's share being from Rs. 49,305 to Rs. 59,022. The average rate of rent on the cultivated area is stated to be Rs. 1-9-3 per acre.

The following extract from the Settlement Officer's report sums up the result of the operations:—

No obstruction or friction was met with in carrying out the settlement operations. The adoption of the English standard bigha for assessment in the estate Jehangirpore created dissatisfaction among the tenants, but it was removed by the granting of a larger allowance arranged amicably between the tenants and manager. The manager of the estate had taken an active part in conducting the demarcation, and rendered me assistance in the work of settlement generally.

Soon after the commencement of the present survey all the ryots appeared to have been frightened on seeing their lands measured by chain instead of *rassi*, which was used in the previous settlements, and to think of the probable enhancement that might result from the new mode of survey and settlement under the Tenancy Act, and under that impression several tenants filed *istafanama* of their holdings in the Munsif's Court of Balughat and were willing to run away. To remove such sensation among the illiterate tenants, I had to take much trouble to explain to them the provisions of the law whenever I visited the villages to test the amins' work. I gave them assurance that their due claims would by no means be overlooked. But at last, when they came to understand, after the settlement of a few *taraf's* had been completed, that the intention of Government by the present settlement was to protect the tenants from the exercise of the illegal proceedings of their zemindars of depriving the ryots of their legal rights to hold the lands, and to prevent further litigation between the tenants respecting their holdings—at the same time to prepare correct records to enable the landlords to realize their just dues—they began to appreciate and take interest in the matter by attending the amins regularly to point out their lands and to clear up the errors that crept in the records during the khanapuri. They appear now to have been satisfied with the concessions allowed to them for different systems of measurement. The fact that the tenants have appreciated the benefit of the present survey and settlement is apparent from the earnestness with which they came forward with applications to have their lands measured that came under cultivation since the survey. The reduction of *istafanamas* and increase of transfer of holdings since the completion of settlement of villages clearly shows how the tenants liked the proceedings. * * * * * * The cost-rate of the Shankarpur settlement cannot be considered as an index to the probable cost for such operation in a healthy district, in which the estates are compact and the survey records are properly prepared.

Of 2,265 petitions filed, 918 were summarily settled, and the remaining 1,347 objections were tried as civil suits by the Settlement Officer. Of the latter, 467 suits were amicably settled; in 14 cases the plaintiffs were permitted to withdraw from the suits, and 866 objections were regularly contested. Twenty-one appeals were preferred against the decision of the Settlement Officer, of which 6 were dismissed, 3 decreed, and 2 remanded for retrial; and the remaining 10 were pending when the settlement report was submitted.

5. *Srinagar-Banaili Estates.*—These estates are situated in the districts of Bhagalpur, Monghyr, Purneah, Maldah and Darbhanga, and are owned jointly by the Srinagar Ward and Raja Padmanand Singh of Banaili. The villages in Bhagalpur and Monghyr lie in comparatively compact blocks, but the estates in the three other districts are much scattered. Proceedings were initiated, with the object of ascertaining and recording existing rents, on an application from the Court of Wards, in which Raja Padmanand Singh, the co-sharer in the greater part of the property, joined. The total area surveyed

was 447,189 acres, but the total area settled was only 426,652 acres, the remainder having been excluded from settlement on account of lands belonging to other proprietors having been found interlaced with the surveyed area, and for other reasons. The cost of survey was Rs. 1,32,328, and that of settlement is estimated to be Rs. 1,62,000, the total cost of the operations thus being Rs. 2,94,328 or annas 10-6 on the total area surveyed. The causes which have rendered the settlement expensive and protracted are reported to be the scattered nature of the estates, disputes as to the standards of measurement and as to existing rents, the large number of objection petitions filed, the necessity of making a fresh copy of the records for the proprietors, and the remand during 1890 of 14 boundary disputes for retrial. As regards apportionment of the cost, it has been decided that the ryots should pay 2 annas an acre on the area of their holdings, the balance being paid by the landlords according to their several interests; but as the operations are not yet quite concluded, it is not possible to state the exact sum payable by the parties concerned.

The following extracts from the Settlement Officer's report show the results of the survey-settlement:—

Excluding the pergunnah of Akbarabad and a small area in the Kotwalli pergunnah, in the Maldah district, the records of which are not yet complete, the result of the record and settlement of rentals shows that the nominal rent-roll has increased from a demand of Rs. 4,68,328 to Rs. 4,69,498, or an increase of Rs. 1,170, equal to an increase of 23 per cent. There has been an increase of rental in Bhagalpur and Maldah, and a decrease in Monghyr, Purneah, and Darbhanga. The decrease is a decrease in the rent-demand, and is due not to any arbitrary reduction of rent or rates of rent, but to the settlement of disputes as to existing rates. There has been a real increase of Rs. 22,020, that is to say, the total rental, after striking out the disputed claims, has been increased by that sum in consequence of the settlement. The record and settlement of rents has performed two functions: firstly, the rent-roll has been cleared of disputes, and, secondly, an increase of Rs. 22,020, equal to 4·7 per cent., has been obtained. With regard to the first point it is to be remembered that the landlords' rent-roll was known to be in confusion, and the rent demand was never collected in full. The object of the settlement was to clear up these disputes, and not to effect an enhancement of rents. I have noted some of the causes of the confusion which was greatest in the Nohatta tehsil of the Bhagalpur district. It arose chiefly from the system of letting out villages in lease, under which the lessees endeavoured to enhance the rates or, at least, to gain an addition to the rental during the period of their leases.

* * * * * * * *

The value of the settlement is not to be tested by the increase of rent obtained. This increase is small, amounting to 4·7 of the ascertained rent demand. It gives a return of a little over 7 per cent. on the outlay. The object of the settlement was, however, not to enhance rents, but to clear up the confusion in the rent-roll, and to enable the rent to be punctually collected. The effect of the decision of disputes as to rents may be judged by the fact that in 1886-87 the rent collections of the Srinagar Estate were only 63 per cent. of the demand, whereas in 1889-90 112 per cent. of the demand, and in 1890-91 125 per cent. was collected. Apart from the adjustment of the rent demand, the records will enable the estates to prevent unauthorised encroachments and additions to holdings. This result will be especially valuable in the Purneah district, where, in the absence of any records or measurement papers, the raiyats had taken possession of large areas without payment of rent, and in many cases had converted lands into rent-free tenures supported by deeds of sale and other documents, which the landlords were unable to disprove. In future, the proprietors will be in a position to prevent any further accretions to such rent-free tenures as now exist.

As regards the attitude of the parties concerned, the Settlement Officer reports as follows:—

The attitude of the landlords and tenants towards the survey and settlement was varied. At first there was considerable opposition from both sides. The local agents of the estates gave little help, and the raiyats were naturally afraid of the proceedings. Matters improved when the present manager was appointed, but a great deal had of necessity to be left to the inferior agents, who often appeared unreasonable in their claims and disposed to press demands which they were unable to prove. The fact that the landlords only gained decrees in 59 per cent. of the contested cases shows that the claims of the landlords were in many cases unreasonable. The raiyats, as a rule, showed no disposition to hold aloof from the proceedings. They readily came to the Settlement Officer's camp to have the entries explained, and appeared to take great pains to have their records correctly prepared. The large number of objections filed is a proof of the interest taken in the proceedings. The Collector of Bhagalpur, who is responsible for the Court of Wards' estate, has throughout the operations rendered me much assistance. The only instance of organized opposition has occurred in the Akbarabad pergunnah of the Maldah district, where the proceedings are still delayed in consequence of the refusal of the raiyats to have the entries in the records tested. The dispute arose over the standard of measurement, and when this was judicially decided after an appeal to the Special Judge, the raiyats still held aloof, and claimed that all should

be recorded without proof as raiyats at fixed rents. It has been pointed out to them that if they can prove such rights, they will be registered, but few of them are able to do so, and hence they have adopted an attitude of sullen opposition. Measures are being taken by the officer left in charge of the operations to complete the records of the area in dispute, which consists of 22 villages and about 12 square miles.

There was a considerable amount of litigation in this estate, due to long-pending disputes and the confusion in the landlords' records. The case-work of the Settlement Officer was as follows:—

(1)	Objection suits under section 106 of the Bengal Tenancy Act	2,852
(2)	Suits under section 104(2) for settlement of fair rents ...	632
(3)	Boundary disputes	368
	Total ...	3,852

Of the suits under section 106, 1,743 were brought to trial and decided, and of the 632 suits for fair rents, 477 eventually came to trial. There were also about 20,000 petitions of objection against entries in the record, and these were all heard and the entries corrected, if necessary, on the spot.

The following is a statement of the appeals preferred against the decision of the Settlement Officer:—

Class.	Total number.	Decision upheld.	Modified.	Reversed.	Remanded.	Struck off.	Pending.
Appeals to the Commissioner in boundary disputes cases	67	39	2	7	14	4	1
Appeals to the Special Judge against decisions under section 104(2) and section 105 of the Bengal Tenancy Act.	271	125	34	68	13	18	15

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Secretary to the Government of Bengal.

RESOLUTION REVIEWING THE REPORTS ON THE WORKING OF DISTRICT BOARDS DURING THE YEAR 1890-91.

MUNICIPAL DEPARTMENT—LOCAL SELF-GOVERNMENT.

Calcutta, the 11th December 1891.

RESOLUTION No. 2803.

READ—

The reports from the several Commissioners of Divisions on the working of District Boards in Bengal during the year 1890-91.

Read also—

The Resolution reviewing the Divisional Reports on the working of District Boards in Bengal during the year 1889-90.

The date fixed for the submission to Government of the District Board reports is 31st July, but only three out of the eight reports were received on or about the prescribed date. Those shown on the margin were submitted especially late. The Lieutenant-Governor trusts that steps will be taken to ensure the earlier preparation of these reports in future.

Commissioner of Rajshahye, 24th August 1891.
Commissioner of Dacca, 27th August 1891.
Commissioner of Patna, 2nd September 1891.
Commissioner of Presidency Division—Report, 5th September, and Statements, 16th September 1891.

2. The year under review was the fifth in which the Bengal Local Self-Government Act, III (B.C.) of 1885, was in operation. As in the preceding year, there were 38 District Boards, in whom the administration of local affairs was primarily vested, and 106 Local Boards working in subordination to them. The area under their jurisdiction was 109,429 square miles, and the total population, as returned by the local officers, 59,313,428. This figure, however, will be subject to correction when the returns of the last census have been finally compiled. All the District Boards were presided over by the Chairman, who is the Magistrate of the district. Some of the District and Local Boards completed their three years' term of existence during the year, and were reconstituted. The system of election, which was extended to the district of Mymensingh in 1889, was brought into operation there during the year, and is said to have aroused a fair amount of interest throughout the district, except in three thanas of the Jamalpur sub-division, where the elections were a failure. Regarding the elections held in Backergunge, Mr. Savage, the Magistrate, writes—

"The interest taken in the elections varied greatly in different thanas. Generally speaking, the Hindu voters had more idea of what they were voting for than the Mussalman voters had. The latter indeed, in general, only came forward because it was the wish of their zemindars they should do so; and if left to themselves I doubt whether any of them would have taken the trouble to attend at the poll. The members were in general either zemindars or talukdars with local influence, or pleaders and others put forward by them."

3. *Constitution of District Boards.*—On the 31st March last the 38 District Boards contained in all 755 members, exclusive of the Chairmen. The decrease in the strength of members is due to the reduction of the maximum strength of the Midnapore District Board from 36 to 24, of the Bhagulpore District Board from 40 to 30, and of the Rungpore Board from 30 to 20. All of which, as was remarked in paragraph 7 of the Resolution on the working of District Boards during the year 1888-89, had been found inconveniently large for actual work. The numerical strength of the Tipperah District Board was increased by five members with a view to provide a sufficient number for the Standing Committees. Of the 755 members on 31st March 1891, 148 held their seats *ex-officio*, 284 were nominated by Government, and 323 were elected by the Local Boards. Of the entire number, 220 were official and 535 non-official members. The number of Europeans or Eurasians and natives of the country respectively was 163 and 592. The average number of meetings held by each District Board was 12, which shows that the instructions conveyed in paragraph 7 of

the Resolution reviewing the reports on the working of the District Boards in Bengal during the year 1888-89, regarding the holding of meetings at least once a month, were attended to during the current year. The largest number of meetings (19) was held by the District Board of Durbhunga; the Noakhali and Sarun District Boards come next with 18 meetings each; while the Pubna, Dinagepore, Mymensingh, and Furreedpore District Boards show 17 meetings each.

4. The Boards that met least often were Hooghly, Jessore, Rajshahye, and Julpaiguri (8 meetings each), and the Nuddea, Khulna, Mozufferpore, Rungpore and Dacca District Boards (9 meetings each). The Chairman of the Hooghly District Board pleads that there was no business for more meetings. On this the Commissioner remarks that "if little districts like Beerbhoom and Bankoorah can find enough work for 15 meetings, there ought to be no trouble in the case of Hooghly. Where a Board finds its affairs managed for it, the attendance is apt to fall off, and this is just what has happened at Hooghly." The Chairman of the District Board of Jessore states that through an oversight the new Board was not actually formed until June, and that there was no meeting either of the new or the old Board from April to June. The Commissioner of the Division, however, does not consider the number of meetings sufficient when it falls below one in every month, or that the attendance indicates an eager interest on the part of the members when half of them are generally absent at every meeting. In the case of the other districts mentioned above no attempt has been made to explain why so few meetings were held.

5. Taking all the Boards together, the average attendance of members at each meeting was 9·68 against 8·98 in 1889-90. It was best in Rungpore, 24-Pergunnahs, Rajshahye, Backergunge, Dacca, Midnapore, Shahabad, and Chittagong, and worst in the four districts noted in the margin, where it was below one-third of the actual strength of the Boards. No reason is assigned for the small attendance in Gya and Dinagepore. The short attendance in Julpaiguri is attributed to an outbreak of cholera in the district and to the unusually heavy rains during the year. In Chumparun it is said to be due to the fact that many of the members live at a long distance from the head-quarters, and will only attend when some matter of special interest is before the meeting. As regards Rungpore, the Chairman writes—

Dinagepore	...	...	5·05
Julpaiguri	...	...	5·63
Gya	...	...	5·7
Champarun	...	...	5·7

"The attendance of members at Board's meetings was not as large as it should have been. An average number of 12 present out of 20 members leaves much to be desired. I am glad to report, however, that the degree of interest shown in the public duties continued to increase during the year under report. The discussions of the meetings were often keen and evoked a considerable display of intelligence and grasp on the part of most of those who took part therein."

The attendance of the official members was bad in 24-Pergunnahs, Backergunge, Rajshahye, Dinagepore and Burdwan. The attendance of the non-officials was on the whole fair, except in Julpaiguri, Maldah, Chumparun, and Gya. In the worst cases of continuous non-attendance on the part of individual members action was taken under the provisions of section 18 (*c*) of the Act. The Commissioner of Rajshahye writes that the non-official members were everywhere, except in Julpaiguri, more regular in attendance than they were the year before; while the official members showed greater apathy everywhere except in Julpaiguri. In Chittagong, on the other hand, each official attended on an average about one meeting more than each non-official member.

6. *Constitution of Local Boards.*—Appendix I (*b*) shows the constitution and attendance of the Local Boards. The 106 Local Boards had, on the 31st March 1891, a total strength of 1,206 members, excluding the Chairmen. The extension of the elective system to the district of Mymensingh necessitated an increase in the number of members fixed for the several Local Boards in the district from 44 to 64. The number of members of the Arrah Local Board was reduced from 30 to 20, agreeably to paragraph 8 of the Resolution on the working of District Boards during 1888-89; but the Midnapore Local Board having been reconstituted only lately, it was decided to postpone the reduction of its strength till the next general

elections of 1892. Of the 1,206 members on the 31st March 1891, 115 were officials and 1,091 non-officials. In proportion to the total number of members, the European and Eurasian element is even more sparsely represented on the Local Boards than it is on the District Boards, there being only 94 out of 1,206.

7. The Local Boards held 882 meetings, or 94 more than in 1889-90. The largest number of meetings was held by the Local Boards of Rampore Hât and Pubna (18 each); Durbhunga comes next with 16 meetings. No less than 89 Local Boards failed to meet once a month. The Local Boards that met least often were those noted in the margin. The number of meetings held in Tipperah, the only district in the Chittagong Division where these Boards exist, is said to correspond fairly with the work and powers entrusted to the Board. The fewness of the meetings of the Hajipore Local Board is attributed to the fact that, in order to avoid delay in the despatch of business, much of the routine work was performed by the Chairman or Vice-Chairman, with the express or implied consent of the Boards. The Commissioner, however, does not consider this explanation satisfactory. The average attendance at the meetings of the Local Boards was 5·41 against 5·69 in 1889-90. On this subject Mr. Toynbee, the Commissioner of Orissa, writes:—

Meherpore	...	2
Dum-Dum	...	3
Hajipore	...	3
Bissonpore	..	4
Midnapore	.	4
Jessore	...	4
Bagirhat	.	4
Munshigunge	...	4
Tipperah	...	4
Pooree	.	4

"Mr. Allen, the Chairman of the Pooree District Board, makes the following pertinent remarks :—'As the Local Board had not much work to do, only four meetings were held. If Local Boards would meet more frequently in order to discuss local requirements, and to prepare schemes for the consideration of the District Board instead of leaving the whole initiative with the official Chairman of the District Board, they might become far more useful than they are now.' This is very true. The excuse of 'no business' is a very common one, but it cannot be accepted. The whole object of the existence of the Local Boards is to make work for themselves and the District Boards by bringing local wants to notice and arranging to meet them in the best possible manner. Thus only can real Local Self-Government exist in more than name."

8. The following table classifies the members of the several District and Local Boards according to their professions and occupations:—

		Government servants.		Zemindars, talukdars and zemindars' servants.		Pleaders and mukhtears.		Planters.		Missionaries.		Other occupations.		Total number of members.

It will be seen from this statement that the measure of representation obtained by different classes on the District Boards corresponds fairly on the whole to the degree of influence which each class commands in the country. In the Local Boards the zemindari element, as might be expected, largely predominates, while Government servants, who on District Boards almost equal the representatives of the landholders and outnumber the pleader class, are on Local Boards largely outnumbered by both of these classes. The Commissioner of the Presidency Division states that the Mahomedans, as compared with the Hindus, are not numerically fairly represented, but that good representatives of them are on the Boards. The Commissioner of the Orissa Division remarks that pleaders and Government servants form more than 50 per cent. of the

members, a figure quite out of proportion to their actual numbers. The Commissioner of the Presidency Division writes—

"It will be seen that of the total number of members in the division, the percentage of zemindars is, as it should be, the largest, and next to it is that of pleaders and mukhtears, which I cannot consider satisfactory, as such men are seldom really interested in local affairs, and think more of the pleasures of administration and patronage than of the work which has to be done."

9. *Powers of Local Boards.*—There has been no change in the powers delegated to the Local Boards. They continue to administer the grants for village roads, pounds, ferries, and primary education, and in some places the supervision of dispensaries, sanitation and medical relief is also entrusted to them. The Bankoora Local Board is stated to object to taking over money for any purpose—a position which the Commissioner rightly describes as "a strange shrinking from responsibility." In Howrah the Boards wish to have their powers enlarged, but the Magistrate has withheld his consent on the ground that the small size of the district renders any such delegation unnecessary. The Commissioner of Burdwan thinks that the management and control of pounds might unobjectionably be made over to all the Local Boards in his Division. The abuses so often connected with them would then, in his opinion, stand a better chance of being exposed and remedied. The Chairman of the Commillah Local Board suggested the delegation of additional powers to the Board, on the ground that the care of village roads is not sufficient to occupy the time of the members: but the Magistrate of the district thought it undesirable to withdraw the duty of supervising primary education, pounds, and ferries from the District Board. On this Mr. Oldham, the Commissioner of the Division, remarks—

"The Chairman of the District Board does not seem to put this quite correctly. There is no question of withdrawing the duty of supervising primary education from the District Board, but of giving the management of its details to the Local Board within its local area. I think the complaint of the Chairman, Local Board, is just and constitutional, and will ask the District Board to consider it."

The Commissioner of the Presidency Division finds no conspicuous instances of Local Boards having worked well and taken interest in the administration of the matters placed under their charge. It is admitted that the Boards at Meherpore and Kooshtea did not work satisfactorily, and though Bussirhat did well in the matter of pounds, the action of the Local Boards generally is described as very far from efficient as regards pounds and ferries, and the Commissioner says that the principal sign of energy apparent is the demand for increased funds for village roads. In Mozufferpore the District Board found it necessary to withdraw from the Local Boards the control over educational matters which had been delegated to them.

The question of the working of Local Boards is not dealt with in the reports so fully as might perhaps have been expected, and on the incomplete evidence available, the Lieutenant-Governor is unwilling to record any final expression of opinion. The problem of distributing administrative functions between district and local authorities is one of considerable difficulty, and can only be solved by experience. Speaking generally, the Lieutenant-Governor would wish the Local Boards to be treated in a liberal manner and given as extensive powers as circumstances in each case appear to render possible. Experiment alone can determine the best mode of dividing authority between them and the District Boards. In next year's reports the subject should be handled at greater length.

10. *Union Committees.*—No Union Committees have yet been appointed, and the correspondence that has taken place on the subject shows a great divergence of opinion on the part of the officers who have been consulted. It is clear, however, that it would be premature to initiate a new administrative departure of this kind before the relations of District and Local Boards have been finally settled and have stood the test of several years' experience. Sir Charles Elliott therefore does not anticipate that any immediate necessity is likely to arise for appointing Union Committees.

11. *Financial results.*—The year opened with a balance of Rs. 19,33,291 (corrected figures) while the receipts during the year amounted to Rs. 58,67,818.

The total amount available for expenditure was thus Rs. 78,01,109. The principal items of income and expenditure for this and the preceding year are given below :—

		1889-90.	1890-91.
	Income.	Rs.	Rs.

	Debt	6,25,260	5,75,891
	Total ...	61,72,240	61,29,603

INCOME.

12. *Land Revenue.*—Of the total income under this head, Rs. 10,227 represent canal tolls realized in Chittagong, and Rs. 15,461, the proceeds of trees, grass, &c., sold by the Boards. Compared with the previous year, in which it fell off by Rs. 2,213, the Chittagong canal revenue shows an increase of Rs. 862. The fluctuation is said to be due to silting and silt clearing. The increase of Rs. 17,892 in the total realized under this head of Land Revenue is due in some measure to the fact that in the Chittagong Division certain collections which were last year credited to Miscellaneous were treated as Land Revenue in the year under review.

13. *Provincial Rates.*—The income derived from Road Cess declined from Rs. 34,32,574 to Rs. 33,38,524. In some districts the decrease is ascribed to bad collections; in others to the heavy expenditure incurred in the establishment entertained for revaluation of cess-paying property. The income from this source is, however, expected to rise as revaluation operations progress. The entire subject has been discussed at length in reviewing the Board's Cess Report.

14. *Pounds.*—The receipts from pounds show an increase from Rs. 3,94,594 to Rs. 4,43,775, which is shared by the 21 districts named in the margin. The remaining districts show a decrease. The increase is variously attributed to the larger number of pounds established; to higher bids at auction; to farmers paying in with greater punctuality; and to the collection of outstanding balances. The decrease is put down to the high floods of the year which submerged the fields and stopped both cattle-trespass and the impounding of cattle; to change in the system of keeping accounts; to closing of pounds; to keen competition during the previous year which acted injuriously on the collections of 1890-91; to

non-settlement of pounds for want of bidders; and to the default on the part of the farmers.

In Moorshedabad the administration of pounds was entrusted as an experiment to the Local Boards, with the result that the annual settlements fell off, and a considerable balance was left unrealised at the close of the year. The District Board has since resumed the management, and the income of the pounds is said to have recovered. In the 24-Pergunnahs it is stated that the collections of the year were the largest ever credited to the District Board, owing partly to enhanced rents at which some of the pounds were settled, and partly to the realization during the year of a portion of the outstanding balances of the previous year. The Burdwan Local Board is reported to have in two years raised the number of pounds under them from 67 to 171, while the rest of the district has only 54. The Commissioner remarks—

> No other district in the division indulges in such a number, and the carelessness in accepting lessees is evidenced by the poorness of the collections. The Chairman thinks the number should be revised and reduced, and he should take measures in this direction.

In the Shahabad district the receipts from pounds being on the decrease, the Board recently introduced the system of triennial settlement with proper provisions in the lease for keeping the buildings in an efficient state of repair by the lessees. The system of inspection of pounds by Sub-Inspectors of Police introduced in this district is said to have worked well. All the pounds were inspected by the police officers in consequence of which their general condition has improved. At the public auction of pounds in Noakhally, some bidders were found to be fictitious, and prosecutions were instituted against them under section 185 of the Penal Code. An inspector of pounds and ferries has been appointed in this district since the close of the year. In Tipperah the services of the pound sub-inspector experimentally appointed have been retained for one year more, as the revenue rose with the appointment of an establishment for the stricter supervision of pounds. The Chittagong District Board is about to try the same plan. In the districts of Dacca and Furreedpore an inspector was appointed during the year to supervise the management of ferries and pounds by the farmers. In the Cuttack district the inspection of pounds by Sub-Inspectors of Schools having been objected to by the officers of the Education Department, the District Engineer has been asked to arrange for their inspection by himself and his subordinates. In some districts the system of payment by regular instalments is not enforced. It is regulated according to the different seasons at which crops are most liable to damage from cattle trespass. The Chairman of the Pooree Local Board remarks that "pounds under direct management bring in practically no income, while those that have been farmed pay something and are better managed." The question of farming pounds has recently formed the subject of correspondence with the Government of India, and the Lieutenant-Governor has now under consideration the necessity of introducing certain safeguards against the abuse of the system on the part of the lessees.

15. *Education.*—The total receipts from this source increased from Rs. 30,561 to Rs. 33,496. Compared with the previous year, the receipts in all the districts of the Chittagong Division show a considerable increase, of which more than two-thirds were in Chittagong, consisting of the fees derived from four Model Schools (Middle Vernacular) which were taken over by the District Board from the Education Department. The receipts from the Model Schools in Beerbhoom and Howrah during the year 1889-90, which amounted to Rs. 1,775, were not credited to the respective District Funds. This accounts for the large increase noticeable in the figures shown against those two District Boards for 1890-91. The increase in Pooree is due to the rates of school fees in Board schools having been raised during the year, and in Purneah to the subscriptions raised for the establishment of a technical school. The increase in Backergunge and Moorshedabad has not been explained. The decrease which occurred in Shahabad was due to the refund to Government of a sum of Rs. 606 on account of surplus balance of middle schools, while in Durbhunga it was due to the abolition of two middle schools. A similar decrease in Midnapore is attributed partly to the removal of the middle vernacular

school from Gurbetta to Jagardanga and partly to the falling off in the number of pupils of the Board schools at Samsabad and Daulia. The small fluctuations in the other districts call for no remark.

16. *Medical.*—The total income of Rs. 7,035 under this head was chiefly derived from contributions, and, compared with the previous year, it shows a decrease of Rs. 590.

17. *Miscellaneous.*—The receipts under this head fell from Rs. 1,39,874 to Rs. 1,31,538. Fees, fines, and forfeitures yielded only Rs. 1,15,095 against Rs. 1,27,154 in the preceding year, while the proceeds of staging bungalows rose from Rs. 7,502 to Rs. 10,188.

18. *Ferries.*—The income from this source increased from Rs. 2,84,164 to Rs. 3,38,558. The increase is shared by all the districts except Cuttack, Balasore, Durbhunga, Chumparun, Gya, Burdwan, Howrah, Dinagepore, Bogra, Pubna, and Julpaiguri. The decrease in Cuttack is due to the loss incurred on the resale of certain ferries, the farmers of which defaulted, and in Balasore to the opening of the Coast Canal and the consequent diversion of pilgrim traffic from the Juggurnath Road. The falling off in the receipts in Durbhunga is said to be more apparent than real, as a sum of Rs. 5,938, which was paid by the farmers as their security money for the year under report, was received and credited in 1889-90. The decrease in Chumparun is partly attributed to the same cause, and partly to the fact that the demands for the last quarter of the year for the two combined ferries—Sukhua and Husseni—were outstanding at the close of the year. In Hooghly it is due in part to the abolition of tolls on Hooghly bridge, which has lessened the receipts of the ferry at Fulta, and in Burdwan to a considerable falling off of the receipts of the Mejhia ferry on account of the opening of the Bengal-Nagpore Railway. The falling off in Pubna is attributed to the high floods which kept the ferries closed for a length of time and diminished the income of ferry farmers, who in consequence failed to pay up their dues. In Dinagepore and Bogra the decrease is said to be owing to there being no competition among the farmers, and in Julpaiguri to ignorance of the rule that one-fourth of the rents paid in advance by the pound farmers during the preceding year, and entered as deposits, has to be transferred to the accounts of the succeeding year. The decrease in Gya is too small to require any explanation. The increase in Patna is attributed to the combination of ferries on both sides of the Ganges, and the division of the proceeds between the opposite districts, which was carried into effect during the year. In the case of the 24-Pergunnahs the Commissioner remarks:—

> Although there was an increase in the demand, the close of the year showed a decrease of Rs. 4,026 as compared with the year preceding. The Chairman does not consider this branch of the Board's work satisfactory. He observes that great laxity has been allowed in the recovery of ferry rents, and that for years past the actual collections have fallen very short of the demand; that the stipulations as to security have been so worked that the so-called security deposit has come to be only an advance payment. The Chairman reports that this is now being attended to.

The Chairman of the District Board of Moorshedabad observes "that the receipts from this source would have been much greater during the year, as the ferries were all settled at very high rents, the bidders expecting large profits from the concourse of pilgrims for the *Ardhodoy Joga*, and having offered larger rents than ever; but their anticipations were disappointed by the high floods."

Ferries in Howrah are reported to have suffered greatly from the competition of river steamers. The silting up of the mouth of the Gyeghatta canal, which is now fordable for nine months in the year, has entailed on the District Board an annual loss of nearly Rs. 6,000. The Noakhali District Board is said to have got into difficulties with some defaulting farmers, and, owing to irregular lettings, lost their cases in the legal proceedings which ensued. The steam ferry between Naraingunge and Munshigunge continued to be managed by the District Board of Dacca. There was, however, a decrease in the receipts from the ferry, which is ascribed to the fact that no *Nangalbund Snan* took place during the year, that the *Kartick Buruni* fair was not so flourishing as in previous years, and that the steam-launch was laid up for about a month and a half for survey and repair.

19. *Contributions.*—The contributions to District Boards from Provincial revenues amounted to Rs. 8,12,454 against Rs. 10,98,148 in 1889-90. The large

increase in the previous year was chiefly due to the inclusion of the contributions of Rs. 1,36,728 and Rs 37,108 made to the District Boards of Durbhunga and Mozufferpore, respectively, towards expenditure on relief works, and to the grants made for previous years to the District Boards of Furreedpore, Cuttack, and Tipperah, and to the several District Boards in the Burdwan Division having been drawn in 1889-90.

20. *Debt.*—The receipts under this head, which besides loans include deposits made by farmers of pounds and ferries as security for payment of revenue, and advances given by the Boards for the execution of works to be recovered by subsequent adjustment, fell from Rs. 8,19,261 to Rs. 6,91,111. The decrease was very large in the districts of Patna, Mozufferpore, and Durbhunga, and in the case of the two latter districts is mainly due to the fact that an unusually large sum advanced for famine relief works was adjusted in the preceding year In Patna it was due to the fact that the ferries and most of the pounds were leased out in the year 1889-90 for three years, and security deposits were taken in that year, in consequence of which no deposits were received during the year under review.

21. *Loans.*—No loans were granted during 1889-90. The Dinagepore District Board drew in 1890-91 the first instalment, Rs. 40,000, of a loan of two lakhs from Government for the construction of permanent bridges on the district roads. The Julpaiguri District Board borrowed from Government Rs. 25,000 for the construction of four large bridges on the Central Emigration road, an important feeder to the Haldibari railway station. A loan of Rs. 80,000, to be paid by two equal instalments, was granted during the year to the District Board of Patna for the purpose of completing the construction of bridges on the roads from Buktearpore to Behar, and from Masourhi to Pabhera. The first instalment was received by the Board in December 1890.

Expenditure.

22. *Administration.*—The charges under this head amounted to Rs. 2,65,885 against Rs. 2,58,533 in the preceding year. The creation of new posts, the grant of annual increments to employés, enhanced payments by way of percentage for the establishment of the offices of account and control, and heavier charges for the travelling expenses of members of District Boards under section 53 of the Act, are the main causes referred in explanation of the increase.

23 *Pension and Provident Fund Rules.*—In the original orders which were published by this Government on the 29th October 1889 regarding pensions to Local Fund employés, the creation of a Provident Fund was distinctly held out to local bodies as the first of the alternatives before them for consideration; and in a subsequent circular, dated the 12th January 1891, the special advantages of this system both as regards efficiency and economy were explained at length. A set of Model Rules for the administration of Provident Funds for the employés of District Boards was prepared with the approval of the Government of India and circulated for the guidance of local bodies These rules were to apply only to those whose whole service has been or will be under the District Board, while employés transferred from pensionable service under Government or under the late Road Cess Committees were to come under the Pension Rules. Provision was accordingly made in the rules for the administration of the Provident Fund for the levy of a contribution from every employé of the former class at the rate of 6¼ per cent. of his salary. The District Boards of Patna, Mozufferpore and Monghyr have already adopted the Provident Fund for those employés whose whole service has been or will be under the Board, and it is believed that other local authorities will follow their example.

24. *Pounds.*—The expenditure under this head amounted to Rs. 29,618, being Rs. 6,029 in excess of that incurred during the year 1889-90. This small increase is probably due to the appointment of pound-inspectors in certain districts.

25. *Education.*—The educational expenditure of District Boards during the year under report amounted to Rs. 10,01,855 against Rs. 10,04,140 in the previous year, showing a decrease of Rs. 2,285. The following table summarises the statistics as they are presented in Appendix C of the Commissioners' reports:—

	Schools maintained by District Boards.			Schools aided by District Boards.			
	Number of schools.	Number of scholars on 31st March 1891.	Expenditure from District Funds.	Number of schools.	Number of scholars on 31st March 1891.	Expenditure from District Funds.	Total expenditure from District Funds.

On comparing the figures given in this table with those contained in Subsidiary Table III of the General Report on Public Instruction, which purports to show the expenditure from District Funds on schools maintained by public and private bodies, it appears that the statistics of schools and scholars agree, but the amounts set down as expenditure differ, so that the total outlay of the District Boards on education is represented by the Director of Public Instruction to be Rs. 9,67,105, while by the Boards themselves, as detailed in the above table, it is stated at Rs. 9,83,805. The last figure again differs by Rs. 18,050 from the total expenditure on education as shown under head 22 of Form III annexed to the District Board reports. The discrepancies between the Director's report and the District Board reports in the matter of educational expenditure are believed to be due to some extent to the fact that when the departmental returns were sent in no allowance was made for outstanding cheques issued by the District Board, payments of which had not been received by the schools. In some districts again the departmental figures include the pay and pension contribution of the education clerk attached to the Board's office, this charge being omitted in the district accounts. But these explanations do not cover all the cases in which the figures disagree, and they fail to account completely for the discrepancies observed between Form III and Appendix C of the District Board reports. Arrangements will be made in future to secure agreement between the

statistics used in those reports, which deal with the same set of facts and ought to present them in the same form. An authoritative series of figures will be compiled in consultation with the Director of Public Instruction, and no departure from them will be permitted.

The statistics of the Patna Division show an increase of 386 schools and 3,273 pupils during the past year, mainly under the head of private schools, which rose from 974 with 8,925 pupils to 1,388 with 13,395 pupils. At the same time there was a decrease of 15 lower primary schools and 35 pupils. Upper primary schools have increased by 7 schools and 68 pupils. Middle vernacular and middle English schools show a falling off of 2 schools and 184 pupils, and 11 schools and 572 pupils, respectively. In the Burdwan Division, Burdwan and Beerbhoom lost both primary schools and pupils during the year, while there was a gain in the remaining districts. In the Dacca Division the total numbers of schools and pupils, respectively, have decreased from 6,602 and 166,895 in 1889-90 to 6,383 and 152,869 in 1890-91. The decrease occurred mainly under the head of primary schools for boys in Mymensingh, Dacca, and Furreedpore. In Backergunge there was an increase of 1,047 in the number of Boards' primary schools for boys, owing to the fact that "some of the unaided successful schools received grants during the year, and this stimulated the increase in the number of both upper and lower primary schools." In the Chittagong Division the number of secondary schools remained stationary, while primary schools increased from 4,318 with 91,660 pupils to 4,558 with 97,975 pupils. In the case of Noakhali the increase in the number of lower primary schools is attributed to the resumption of the system of granting rewards for the more attendance of day labourers in night schools. This had been done away with in the previous year by reason of the temptation it offers to falsify registers of attendance, and the Commissioner hopes that the Board will not maintain what he considers an unsatisfactory method of granting rewards In the Presidency Division there was a decline in the number of aided middle English and girls' schools as well as in that of lower primaries, while the aided middle vernacular schools and upper primaries show a slight increase. In the Bhagulpore Division there has been a slight increase of institutions and scholars under the heads of secondary and upper primary schools, along with a very marked decrease both in the number and attendance in lower primary schools. In Bhagulpore district the decrease amounts to 320 schools and 5,121 pupils. This is attributed to some of the patsalas having been reduced to the elementary class for failure to adopt the departmental standard, or because they had less than ten pupils, to want of energy on the part of the inspecting pundits, and to the employment of gurus as census enumerators. Whatever may have been the cause, it indicates, as the Commissioner remarks, a want of success in this branch of the District Board's administration. In the Orissa Division, Poorce alone shows a decrease both in the number of schools and pupils. The Chairman observes:—"The state of education in the district is lamentable. Money is wasted on stipends and grants-in-aid, while no attempt has been made to carry out the Government policy to replace fixed salaries by payment by results." On this the Commissioner remarks that in his experience the system of payment by results has not been so practically successful in some parts of Bengal as to enable him to support the Chairman's view. It is possible that in a backward district like Poeree, where the people are indifferent to education and naturally indolent, a system of stipends combined with vigorous inspection may be better than payment by results. But whatever system is adopted, it is essential that constant and careful inspection should be insisted on.

26. In reviewing the report of the Director of Public Instruction for 1890-91, the Lieutenant-Governor touched upon the necessity of laying down a minimum scale of expenditure on primary education to which all District Boards should attain. It seemed to him that the proportion that the expenditure on primary schools bore to the total expenditure of the District Boards on all purposes might fairly be taken as a standard of what might be expected from individual Boards. In 1890-91 the total expenditure of all the District Boards, excluding debt, amounted to Rs. 55,53,712, and their expenditure on primary education, as shown in the statement given in paragraph 25, to Rs. 4,37,270, or 7·8 on the total of their expenditure. This being so, it seems to the Lieutenant-Governor that District Boards may reasonably be required to devote to primary education not less than 7 per cent. of their total expenditure, excluding debt

heads. The following statement shows for each District Board in Bengal their total expenditure for 1890-91, their actual expenditure on primary education, and the figure which, at the ratio of 7 per cent., is the minimum that should be set aside in future for primary education :—

District Board.		Total expenditure, excluding debt, in 1890-91.	Expenditure on primary education in 1890-91.	Expenditure on primary education at 7 per cent. on total expenditure.

Excluding the Dacca Division, for which separate district figures are not given, it will be seen that in the districts of Bengal Proper the expenditure on primary education exceeds the amount required by the standard now laid down everywhere except in Dinagepore, Julpaiguri, and Chittagong. In these three districts the minimum of 7 per cent. should be worked up to, but it is not meant to suggest that the more liberal grants made by the other districts should be reduced. In all districts of the Patna Division, on the other hand, and in Monghyr, Bhagulpore, and Purneah, the expenditure on primary education is invariably below the standard indicated, and in some cases, as in Darbhanga and Shahabad, the disproportion is very marked. The Lieutenant-Governor trusts that no time will be lost in raising the contribution to primary education in these districts. During his recent tour in Behar he has met the members of the District Boards at all the stations which he visited, and has personally explained to them the especial importance, in a backward province like Behar, of developing primary education on a regular system, so that the natives of Behar shall have a fair chance in the struggle for employment within their native districts.

There has been no change in the educational functions delegated to District Boards. The Deputy Inspector of Schools has been appointed to be an *ex-officio* member of all the District Boards, and the Lieutenant-Governor notices with satisfaction that the relations of the Boards with that officer have, with one exception, been cordial.

27. *Special schools.*—In Bankoorah the same number (6) of advanced Arabic and Persian schools was maintained. The number of pupils in them was 108. The number of Sanskrit *tols* also remained the same, but the number of boys decreased from 331 to 305. In Hooghly it is reported that there are 16 Sanskrit *tols* with 132 pupils and 11 Arabic and Persian schools with 106 pupils. There were also other elementary schools. The Commissioner remarks :—"These schools seem to be old-established ones which have hitherto escaped notice owing to their not sending in any returns. They neither receive nor ask for any assistance, and are content to enjoy a healthy independence." There is a music school at Chatnah in the Bankoorah district with 13 pupils who learn instrumental music: it is self-supporting, the Board contributing only one rupee as an inducement to furnish returns. There is a *madrassa* at Gya for the training of Mahomedans. The Chairman of the District Board of Chittagong submitted a scheme for a technical school to be started from the Khas Mehal grant and aided by the District Board, but it is reported that the plan did not altogether meet with the Director's approval. The District Board of Noakhali have awarded a scholarship of Rs. 10 a month tenable for five years at the Sibpur Engineering College to a Noakhali boy who passed the first examination in Arts. The Commissioner submits the following report regarding the artisan school established at Commillah to teach boys carpentry and blacksmith's work:—

"During this short time the school has attracted 19 pupils—14 in the carpentry and 5 in the blacksmith's class—and both the classes have acquired a fair knowledge. The District Board has founded twenty scholarships of the value of Rs. 4 each for the encouragement of these artisan pupils, a certain number being reserved for Tripuras (*Tipperahs*). Fifteen of these have been awarded. A trained master-carpenter and a blacksmith have been entertained on salaries of Rs. 40 each. The total expenditure towards the maintenance of the school amounted to Rs. 1,405, including the cost of apparatus."

The District Board also have founded two scholarships of Rs. 15 each tenable at the technical branch of the Sibpur Engineering College to be awarded to two natives of the district on their contracting to serve under the District Board after the completion of their College career. The District Board of Purneah have sanctioned the establishment of a technical school similar to that established at Rungpore for the purpose of training mechanics, surveyors and workers in wood and iron.

28. *Female Medical Education.*—The Bankoorah and Burdwan Boards renewed their offers of scholarships of Rs. 20 and Rs. 8 respectively, but no candidates were forthcoming. The Burdwan District Board also, acting in concert with the local Municipality, employed a midwife on Rs. 12 a month for a part of the year in connection with the Burdwan dispensary. Sarat Kumari Mittra, mentioned in the last year's Resolution, continued to hold her scholarship in Midnapore, and has passed her final examination. Sreemati Koilash Bashini Dasi, who held the Rungpore scholarship of Rs. 15 per mensem, has also passed the final examination, and is under an agreement to practise in the district for five years. The District Board of Gya expended during the year a sum of Rs. 839 on their establishment for the training of midwives. The District Board of Sarun have established a scholarship of Rs. 10 a month tenable at the Bankipore Temple Medical School for female students of Sarun. A naturalised Bengali lady offered herself, but the Board desired to obtain the services of one who is a Behari by race. The District Board of Shahabad had also before them a proposal to found a scholarship for the training of midwives. In Patna two special scholarships worth Rs. 10 each were created by the Board last year to attract female students, but none have come forward. The District Board of Rajshahye received some applications from Calcutta for the scholarship offered by that body for the promotion of female medical education, but it was decided to reserve it for a resident of the district. The Tipperah District Board have founded two scholarships of Rs. 15 each tenable at the Campbell Medical School, Calcutta, for females of that district. The Board have also provided an additional monthly allowance of Rs. 80 for the establishment of a lady doctor at Commillah. The Cuttack District Board continued their scholarship of Rs. 100 a year to the most

deserving female student attending the local medical school. The Lieutenant-Governor accepts these arrangements as evidence that the Boards are disposed to recognise their obligations in the matter of female medical education. If in some cases their efforts have not met with a very ready response, it must be remembered that the idea of providing skilled female medical attendance for the women of this country is comparatively a new one, that the class of women from among whom such practitioners can be drawn is at present extremely small, and that a mass of prejudice exists on the subject which greatly enhances the difficulty of adding to their number.

29. *Medical.*—The total outlay under this head amounted to Rs. 58,519, showing an excess of Rs. 15,973 over that of the preceding year. The increase is noticeable under all the heads except "Sanitation charges" and "Lunatic Asylums." There has been an increase of two in the number of dispensaries maintained by District Boards. The dispensary at Bhola in Backergunge was placed under the management of the Board, with effect from the 1st April 1890, and the Jessore District Board took over charge of the dispensary at Narail during the course of the year. In addition to the maintenance of their regular dispensaries, several District Boards contributed towards the support of institutions which were not under their direct control. The Gya District Board contributed Rs. 1,000 to the Lady Dufferin's Fund towards the maintenance of a lady doctor. The Shahabad District Board gave Rs. 300 towards the support of the Nasrigunge Dispensary. The District Boards of Patna, Shahabad, and Sarun spent Rs. 7,862 on sanitation and medical relief. The Durbhunga District Board sanctioned a sum of Rs. 600 as a contribution towards the maintenance of the old dispensary at Tajpur, the income of which had fallen off considerably owing to the transfer of the sub-divisional head-quarters to Somastipore. The District Board of Burdwan contributed Rs. 600 towards the maintenance of the Municipal Dispensary in the town. The Bankoorah District Board contributed Rs. 1,000 towards the maintenance of the local municipal dispensary. The Beerbhoom District Board contributed Rs. 992 as half cost of the maintenance of the Suri Charitable Dispensary and Rs. 360 to the Rampore Haut Charitable Dispensary. The District Board of Pubna entertained temporary medical officers to attend sufferers from cholera, which broke out in an epidemic form in the district, and contributed to the cost of medicines. They had also in their employ two midwives for a part of the year. The District Board of Rungpore, besides contributing in part towards the maintenance of the Kurigram, Gaibandha, and Nelphamari Dispensaries, gave Rs. 300 as subsidy to the Nelphamari Charitable Dispensary and purchased medicines and incurred other charges incidental to a violent outbreak of cholera. Srimati Jogamaya Dasi, the midwife employed by the Rungpore District Board, is favourably reported on. The Chairman writes that she is clever, knows her work, and is in great request among the ladies of the district. The District Board of Dinagepore spent a large sum in constructing a building at Thakurgaon for the accommodation of indoor patients. The District Board of Backergunge made a grant of Rs. 1,200 to the Municipal Dispensary at Barisal during the year; besides sending native doctors and medicine to various localities in thanas Gournadi, Bhandaria, Sarupkati, and Matbaria, where there was an outbreak of cholera. The total outlay on account of medical relief thus given amounted to Rs. 885. In Furreedpore a sum of Rs. 225 was spent in aiding the charitable dispensaries at the Sudder station and Goalundo and in administering relief in cholera-stricken areas of the district. In Mymensingh the contribution of Rs. 600 per annum to the Nasirabad Municipality for medical purposes was increased to Rs. 900. Besides this amount, the District Board has placed the services of one midwife at the disposal of each of the Local Boards except that at Netrokona. The District Board of Mymensingh has recently awarded a medical scholarship to one Id-un-nissa, a Mahomedan young lady, on the condition that she returns to practise at Mymensingh if required to do so by the District Board. The Board have also resolved to open a new dispensary at Dewangunge. The District Board of Monghyr contributed Rs. 130 and Rs. 50 monthly towards the maintenance of the dispensaries situated at the head-quarters of the district and the sub-division of Beguserai respectively. A grant of Rs. 1,000 was also made by the Board to the Jamui Dispensary for providing additional accommodation for indoor patients. The Purneah District Board expended a sum of Rs. 96 in affording medical relief to the people in the tracts affected with cholera. This

District Board has also agreed to contribute to the Purneah Municipality a sum of Rs. 700 per annum towards the pay of an Assistant Surgeon to be employed in the charitable dispensary. As, however, no Assistant Surgeon could be procured during the year, the amount was expended agreeably to the recommendation of the Inspector-General of Hospitals in providing a ward for the better class of patients. The Maldah District Board paid Rs. 900 during the year to a dispensary opened at Mathoorapore by Mr. G. Hennessy. The District Board of the 24-Pergunnahs paid Rs. 130 in scholarships to two female students studying medicine in the Campbell Medical School at Sealdah. The same Board have also, at the request of the Commissioners of the Bussirhat Municipality, sanctioned a contribution of Rs. 150 per annum towards the cost of the maintenance of the Municipal Dispensary. The Nuddea District Board contributed Rs. 120 to the maintenance of a dispensary at Chooadanga, and spent about Rs. 200 in removing corpses from the road from Krishnaghur to Bogoola, on which a large number of pilgrims died on their way back from Nabadip during the late *Ardhaday* festival. The District Board of Cuttack have resolved to open a dispensary at Nayabazar at an annual expenditure of Rs. 800, and to provide a building for it at a cost of Rs. 1,500. The action of the District Board of Tipperah, in opening ten new dispensaries during the year, shows a creditable interest in medical progress and a just sense of one of the chief wants of the people of Bengal. These dispensaries are said to have been carefully looked after by the Civil Surgeon and to have given a good outturn of work. The District Board also offer to aid in setting up a dispensary at any important place where local subscriptions are forthcoming to prove that the residents really desire such an institution. The Lieutenant-Governor hopes that other District Boards will see their way to follow the good example that has been set by the people of Tipperah in this matter. A lady doctor was engaged during the year by the Chittagong District Board on a salary of Rs. 100 a month. She has been provided with a house and is allowed Rs. 30 a month for conveyance. She attends all patients in the dispensary free of charge, and is also allowed to take private practice, for which it is understood her fee is Rs. 4 for each visit. The District Board have also decided to start eight dispensaries in the interior, on the Tipperah system, provided that a certain amount of local help is given. The Lieutenant-Governor has perused with much satisfaction this record of the measures adopted by the several District Boards to extend medical relief in various forms, and he trusts that they will continue to persevere in their good work. He also hopes that the eight District Boards named in the margin, which incurred no expenditure during the year under this head, will realize their obligation to contribute to the cost of hospitals and dispensaries, and take steps in that direction at an early date.

Noakhali.	Darbhunga.

Hooghly.	Moorshedabad.
Howrah.	

30. *Sanitation.*—Details of the works undertaken for the improvement of sanitation in the districts of Bengal during the past year are given in Appendix IV. The Noakhali District Board expended the largest amount on these works. The Lieutenant-Governor regrets to notice that no real sanitary improvement was effected during the year in any of the districts of the Presidency Division. The Commissioner of the Division writes:—

"The improvement of water-supply is a duty which the Boards must not be allowed to neglect. The objection has been made that if a tank is re-excavated for one group of villages, the whole of the rest of the district will complain. The objection may be gradually met by impartially improving the water-supply of different parts of a district in turn, and I hope that, when a beginning is once made and an example shown, wealthy individuals and Village Committees may initiate works, and the Boards may be able to confine themselves to giving grants-in-aid. Here, again, I submit that if Village Union Committees were organised as proposed seven years ago, we should have bodies directly interested in a supply of good drinking water, and in a position to ask the District Boards for help. I do not see why Local Sub-divisional Boards should be expected to interest themselves in such a matter any more directly than the District Board. The first essentially necessary step to be taken is to obtain absolute rights over a tank and its banks so as to prevent pollution, and the best place to select for operations is where two or three small tanks adjacent to one another can be deepened and thrown into one large one. The work can often be made remunerative by reclaiming low lands with the earth excavated, by leasing out fishery rights, and by planting fruit trees on the banks, though not so near as to allow leaves to fall into the water. The Boards will be advised to undertake operations on these lines."

The Cuttack District Board is said to have been trying to improve the supply of drinking water in the interior for the last two or three years, but the landowners will not co-operate, and the finances of the Board will not admit of their acquiring land for the purpose. Eight tanks and four khals are reported to have been excavated during the year in Tipperah by way of sanitary improvement; but it is not stated from what source the expenditure was met. The Commissioner of Chittagong makes the following pertinent remarks on the subject:—

"This is no doubt the part of their functions which District Boards find most difficulty in administering. The Tipperah Board, for instance, has a population of, by the last census, over 1,700,000 of souls under it. To provide sanitary improvements which would benefit one hundredth part of this population is impossible. The point is not only what to do without favouritism, but where to begin. The funds only allow of a few scattered model measures. Some alternative model schemes framed by experts and carried out to detail would, I am sure, be welcomed by every Board in the Province."

The Mozufferpore District Board have lately asked several zemindars and planters in the district to undertake the reclamation of tanks and wells in their neighbourhood, and have allotted in their budget for the current year Rs. 5,000 for general purposes of sanitation. Since the close of the year the District Board of Pooree have resolved to contribute Rs. 2,000 to the Juggernath Road Fund for improving the sanitation of the chutties along the Juggernath road.

31. The question of rural sanitation is one of extreme difficulty in Bengal, not merely because the financial resources of the District Boards are wholly inadequate to the work to be done, but also because no village agency exists competent to carry out the simpler measures which are necessary to guard against the pollution of the village site, and the fouling of the water-supply. Having regard to the necessary limitations to which the action of the District Boards is subject, the Lieutenant-Governor considers that the best principle for them to adopt is that suggested by the Commissioner of Chittagong. Clearly the Boards cannot execute all the sanitary works that are needed. But they can set examples as opportunity offers by cleaning tanks, digging or cleaning out wells (especially along the chief roads), and by promoting general knowledge of the measures which tend to improve the healthiness of a locality. If their sanitary works are well and cheaply done, using materials available on the spot and not of too elaborate a character, it may be hoped that neighbouring landholders will be led to undertake works of the same kind, and that the villagers may themselves combine to carry out petty local schemes with or without the assistance of the Board. Small grants-in-aid for cleaning tanks and drainage channels might be found to encourage local effort in such cases. It should also be an object to distribute such works impartially, as the Commissioner of the Presidency Division suggests, in different parts of the district, in order to diffuse as widely as possible the knowledge of what the District Board is doing and what its intentions are.

32. *Miscellaneous.*—The expenditure under this head increased from Rs. 43,365 in 1889-90 to Rs. 46,686 in 1890-91. In three districts rewards were paid for the destruction of wild animals and snakes, viz., in Purneah Rs. 40, in Rungpore Rs. 443, and in Sarun Rs. 328. On this subject, the Chairman of the District Board of Rungpore writes:—

"I was obliged to reduce the rewards for tigers in order to prevent their extermination. The balance of nature must not be ruthlessly disturbed. Tigers have their uses in keeping down deer and pigs on the vast Brahmaputra churs, many of which have large tracts not yet fit for cultivation."

The District Board of Burdwan set apart a sum of Rs. 200 for the payment of rewards, but no portion of this was spent.

33. *Famine Relief.*—The Sarun District Board spent Rs. 12,206 in affording relief to the sufferers from the heavy flood of August 1890. Of this sum, however, only Rs. 1,618, which was spent on charitable relief, has been entered under head 33 of the Accounts; Rs. 9,345 spent on relief works, and Rs. 1,243 on establishment have been debited to roads. The District Board of Furreedpore advanced loans to the extent of Rs. 1,400 for a similar purpose. The destruction of crops by the floods of August 1890 was also severely felt in certain tracts of the Pubna district. Employment was provided by the District Board for the sufferers; but it is reported that the people did not resort to the work freely owing to the feeling that coolies' work would be degrading to them

At one time signs of distress appeared in some parts of the Bussirhat subdivision in consequence of the unusually high floods in the river Ichamati; but as it did not appear necessary to start relief works, no further steps were taken in the matter. In the district of Nuddea relief works had to be opened, owing to the floods in the Bhagirathi, during the year. The Board sanctioned for the work Rs. 9,500, of which Rs. 7,976 were spent up to the end of October last. Of the balance, Rs. 1,164 were spent on completion of the works afterwards. The number of labourers of all classes employed on the relief works started by the District Board of Nuddea was 54,095, the daily total on an average being 886·8. It is said that the District Board exhausted its funds on these works. The amounts of Rs. 1,12,221 and Rs. 4,466 entered under the head Famine Relief for Durbhunga and Mozufferpore represent merely adjustments of the previous year's accounts.

34. *Civil Works.*—The following table shows the Public Works expenditure under the several heads as compared with that of 1889-90:—

Year.	Original works.	Repairs.	Establishment.	Tools and plant.	Water-supply and water-works.	Drainage works.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1889-90	11,71,943	19,43,739	5 57,345	32,893	20,960	5,347	37,32,219
1890-91	11,84,483	20,16,549	5,65,446	29,759	36,338	51,452	38,33,986

Although the Patna Division shows, as in the preceding year, the largest outlay on Original works, this item has gradually decreased from year to year. This is said to be due to the small expenditure in Gya and Shahabad, where the outlay aggregates only 56 and 57 per cent., respectively. The most expensive work undertaken was the renewal of the bridges on the Buktearpore-Behar road at a cost of Rs. 56,000. The Dinagepore District Board continued their policy of improving the existing roads by constructing permanent bridges. During the year 46 bridges and culverts with an aggregate waterway of 582 running feet were constructed at a cost of Rs. 66,738.

35. The following statement shows the length of roads maintained by the several District Boards, with their cost per mile, divided roughly into first and second class: in the former class are placed roads which are metalled or partly metalled and wholly bridged, in the latter all the rest except the purely village roads:—

District.		Miles of Road.		Cost per mile.

	Mozufferpore ..	111	1,347	63	9	0	31	3	8
	Durbhunga ..	163	904	93	11	0	30	12	0
	Chumparun ...	84	955	50	10	0	24	2	3

The average cost of maintaining each mile of first class road for all the districts taken together was about Rs. 380, and of second class roads about Rs. 51. The average cost per mile of roads of the first class was highest in Howrah (2,492), Tipperah (1,167) and Maldah (1,152), and lowest in Chumparun (Rs. 50-10), Mozufferpore (Rs. 63-9), and Durbhunga (Rs. 93-11). Roads of the other class were cheapest in Bankura (Rs. 12), Gya (Rs. 16-12), Shahabad (Rs. 18-1) and Rungpore (Rs. 18-8).

36. *Village Roads.*—The total outlay on village roads amounted to Rs. 4,51,900, or Rs. 82,948 more than that of the year 1889-90. The expenditure was largest in Tipperah (Rs. 29,814), Mymensing (Rs. 26,161), and Sarun (Rs. 25,885), and smallest in the three districts marginally named.

	Rs.
Julpigoree ...	737
Beerbhoom ..	726
Bogra	807

The cost of maintaining a mile of village road has been in many districts higher than the cost of maintaining a mile of district road. It ordinarily means merely surface repairs of a surface track, but some of the village roads are partly embanked and bridged, and then repairs are more expensive. The amount required for these repairs is generally expended through the Local Boards. In Burdwan it is reported that nearly the whole of the amount allotted for village roads was spent, and that no case of improper expenditure was brought to notice. A village road inspector was appointed to look after the village roads under the Sudder Local Board. The Lieutenant-Governor has read with much pleasure that, in the Munshigunge sub-division of Dacca, the grants for village roads were in some instances supplemented by private subscriptions, and that the lands required for the construction of these roads were given gratis in all cases. In Behar and some districts of Western and Central Bengal, and also, it is believed, in Darjeeling, a certain number of village roads are annually repaired through the agency of planters and other private gentlemen, and the Lieutenant-Governor is happy to learn that these gentlemen generally render great assistance to the Local Boards by their co-operation, and by undertaking to repair numerous village roads in the neighbourhood of their estates. The District Board of the 24-Pergunnahs have, in view of the limited

funds placed at their disposal, found it difficult to satisfy the growing demand for village communications. On this subject the Commissioner of the Chittagong Division writes :—

"Village roads have a special importance in this division, because the distinction between them and the scheduled roads is very fine indeed. Many of the latter have a surface width of from six to four feet. Again, village roads are found 12 and 15 miles long. The fact that there are only 10 miles of metalled road in the division outside the municipalities illustrates the physical position."

37. *Water communications.*—A sum of Rs. 1,962 was expended by the Pubna District Board on the maintenance of the Telkupi khal. The District Board of the 24-Pergunnahs expended a sum of Rs. 330 in maintaining the 17 miles of khal under them. Four important khals were deepened during the year in Tipperah. In Backergunge the improvement of the khal leading from the Barisal river to Lakutea Done was undertaken and completed within the year, and that of another khal, running from the Torki river to Goila bheel, which was taken in hand last year, was also finished during the year under report. The total outlay on both these khals amounted to Rs. 4,713. In Mymensingh a sum of Rs. 310 was spent on the improvement of the Sandhikona khal and the Kuirai river in the Netrokona sub-division. More might usefully be done in this way in the districts of Eastern Bengal.

38. *Steam river service.*—The steam ferry between Naraingunge and Moonsheegunge, referred to in paragraph 18 above, continued to be managed by the District Board of Dacca. In Backergunge a monthly subsidy of Rs. 500, minus deductions on account of late arrivals, was paid by the District Board for the daily service between Barisal and Khoolna. The steamer service between Barisal and Noakhally was kept up during the year. During the floods there was steam communication between Maldah and Rajmehal, and also between English Bazar and Rampore Beauleah. The daily steamer service between Rampore Beauleah and Damukdea, and between Pubna and Kooshtea, was maintained throughout the year. The Rajshahye District Board paid a subsidy of Rs. 4,600 for the maintenance of the former, and the Pubna District Board Rs. 3,975 for the latter.

39. *Miscellaneous Public Improvements.*—In Monghyr three beacons were constructed on the Munpathal rocks in the river Ganges to indicate the position of the rocks, which are covered by water in the rains and become dangerous to navigation.

40. *Public Works Establishment.*—The percentage of the cost of establishment on the total expenditure on public works during 1890-91 in the several districts is shown below—

24-Pergunnahs ...	11·2	Durbhunga	25·8
Nuddea	16·7	Dacca ...	15·9
Jessore	15·7	Furreedpore	12·2
Khoolna	16·8	Backergunge	13 4
Moorshedabad	20·5	Mymensingh	12·4
Chittagong	21·9	Burdwan	10·3
Noakhali	16 8	Hooghly	13·4
Tipperah	9·2	Howrah	9·2
Cuttack	20·3	Bankoora	22·9
Pooree	19·9	Beerbhoom	16·0
Balasore	19·0	Midnapore	17 3
Patna	13 3	Julpaigori	8·9
Sarun	15·9	Rungpore	12·2
Shahabad	15·9	Dinagepore	11·2
Gya	18	Rajshahye	19·3
Chumparun	18·1	Pubna	17·3
Mozufferpore	19·5	Bogra	18·3

The figures for the several districts in the Bhagulpore Division have not been supplied, but it is reported that the expenditure incurred on the establishment is below 20 per cent. of the amount expended on the works. In five districts, viz. Durbhunga, Bankoora, Chittagong, Moorshedabad and Cuttack, the percentage exceeded the limit prescribed in the second proviso of section 33 of the Act. It was highest in Durbhunga and lowest in Julpaigori. As compared with the previous year, there was an increase in the

cost of the establishment in the districts named below, viz., Hooghly, Bankoora, Beerbhoom, Midnapore, Khoolna, 24-Pergunnahs, Moorshedabad, Dacca, Backergunge, Mymensingh, Cuttack, Pooree, Patna, Durbhunga, Rajshahye, Pubna, and Rungpore. In the remaining districts there was a decrease.

41. *Drainage.*—The drainage channel from Dinagepore to Gouripore was maintained at a cost of Rs. 500 by the Dinagepore District Board. The Rungpore drainage project, which was commenced in 1889-90, was nearly completed during the year. The total length is 25 miles, and the area benefited by it is reported to be at least 200 square miles. A sum of Rs. 49,898 was expended on the work during the year.

42. *Railway feeders.*—The earthwork on the railway feeder from Haripal to Bandarhatty was completed during the year, but the metalling has not yet been put on, as the earthwork is not sufficiently consolidated. The Monghyr District Board completed during the last year the three railway feeder roads, Beguserai to Garhara, Indupore to Barhia, and Darhara to Latiha. Of these the first-named is said to be of much importance, in that it forms a direct communication from Beguserai sub-divisional cutcherry to the railway station. In Purneah a feeder road, half a mile in length, connecting the Koosiorgaon railway station with one of the district roads, has been constructed at a cost of Rs. 162. In Dacca good progress was made in the railway feeder road connecting the Sripur station of the Dacca State Railway with Gosinga, an important mart on the river Lakhiya. Another feeder road from Tongi station was continued as far as Kaligunge.

43. *Tramways.*—None of the projects referred to in paragraph 37 of the Resolution on the working of District Boards in Bengal during 1889-90 were taken in hand during the year.

44. *General remarks.*—The following extracts contain the opinions of the Commissioners of Divisions on the general administration of the District Boards:—

Mr. Quinn, the Officiating Commissioner of the Bhagulpore Division, quotes with approval the opinion of Mr. Wace, the Chairman of the Bhagulpore Board, to the effect that it is doubtful policy to put a Local Board under a non-official Chairman, who cannot go about the district like the Sub-divisional Officer, and exercises less check on subordinates. In the District Board also the ablest men are tied to head-quarters by their habits and their business, and little or no work is done by individual members outside the committee-room. Happily, says Mr. Wace, they are wise enough to trust in matters requiring local knowledge, those who know the interior of the district. In Education, "too much money goes in establishment, and the inspecting pundit does less for his pay than any other servant of the Board." The Finance Committee, on the other hand, "do excellent service in administering the funds allotted to them and watching the expenditure." Mr. Quinn himself adds:

> The work of the several District Boards was carried on smoothly and with a fair degree of efficiency during the past year. The system of entrusting the control of the primary education grant to Local Boards is, I think, of doubtful expediency. The Bhagulpore local authorities have, as remarked in a former part of this report, been unsuccessful in the promotion of primary education, and the Inspector of Local Works is of opinion that the road works under the control of the District Board would be better and more expeditiously executed if the District Engineer were allowed a free hand. I am disposed to agree in this opinion. There is also a tendency here and elsewhere, on the part of the Finance Committee, to assume too much of the functions of an executive body, which should, I think, be discouraged. I am happy to observe that the disposition towards undue expenditure on establishment by the unnecessary increase of salaries which was noticed in the last report has not manifested itself in the year under review.

Mr. Westmacott, the Officiating Commissioner of the Presidency Division, quotes the opinion of the Chairman of the District Board of the 24-Pergunnahs, who doubts whether Local Boards are of much use. They have no independent sources of income, and their duties are limited to expending fixed allotments on works in which no discretion is allowed them. On the other hand, they cost something for establishments and office expenses. Mr. Baker believes therefore that the work would be done more efficiently and economically if it were entrusted wholly to the District Board. Mr. Westmacott's own view is—

> That Village Union Committees would prove a more efficient agency for carrying out any measures of real Local Self-Government than sub-divisional Local Boards can be. I cannot now find a reference to a report in which I stated this view comparatively recently, but I

have before me a copy of the report already alluded to, which I submitted on the 31st March 1884 to Sir Rivers Thompson's Government, after forming 180 Committees in 33 thanas and 10 sub-divisions. I believe that those Committees would have worked well. Their only fault was, in my opinion, that they were much too large, comprising about 2,500 households each. I should have preferred making them very much smaller, knowing, as I do, the difficulty of getting a Bengal villager to extend his interests beyond the limits of his own village. In introducing Self-Government, I would begin with the village as a unit, and gradually get the villagers to combine to support joint-schools, pounds, roads, hospitals, and so work up to sub-divisional Boards. In starting with District Boards and working downwards, I think we began at the wrong end of the chain. I do not, however, think it too late even now to organize Village Union Committees, and entrust them with local administration under the existing Boards, and if this is done, I feel confident that Self-Government will show a vitality which it has not shown yet. In another generation we might hope to find men seeking election to be members of the Boards, who, as members of Union Committees, had been trained in the administration of public affairs in which they felt a strong personal interest in the place of men without training, the majority of whom seek election, not so much for the furtherance of local interests, as because they wish for a share in the administration and patronage of the district and sub-division. I will not, however, enlarge upon this subject now.

Mr. Forbes, the Officiating Commissioner of the Dacca Division, remarks:—

I only took charge of this division two months after the expiration of the year under report, and have not therefore had time to inform myself thoroughly as to the working of the different District Boards. I have been able, however, to pay a short visit to each of the districts under my charge, and from what opportunity I have had in this manner of forming a judgment, as well as from the reports of the district officers, I am of opinion that the different Boards have worked well and harmoniously—in short, in such a way as to fairly fulfil the expectations of the framers of the scheme. At the same time we must not conceal from ourselves the fact that their successful working hitherto has in a chief measure been due to the judicious guidance and the personal efforts of the official Chairmen, without whose constant and active control I fear the fabric would soon fall to pieces. In this matter, as well as owing to the fact that the supply of the sinews of war—the assessment and collection of the tax—is in the hands of the Government officials, the District Boards are in a much more advantageous position than that occupied by Municipal Committees, and to these two important differences must, in the main, be attributed their comparatively better working. The working of the Local Boards appears to have been somewhat uneven. In places they seem to have done well, but in others indifferently. The Magistrate of Furreedpore especially complains of irregularity in attendance at their meetings, and Mr. Jenkins considers that there is not much use in making over to the Local Boards any considerable allotments, as the members find difficulty in giving time to supervise the expenditure. I am inclined to agree in this, and also in Mr. Phillips' opinion that the making over the management of pounds and ferries to the Local Boards was scarcely a wise policy. In Backergunge the Local Boards are reported to have done much useful work. It must, however, be mentioned that in that district the Local Boards' Chairmen are all Government officials, viz., the respective sub-divisional officers.

Mr. Veasey, the Officiating Commissioner of the Burdwan Division, observes:—

I joined this division after the close of the year, but, so far as my experience goes, matters, have worked smoothly, and it is but seldom that advice or warning becomes necessary. Very much depends on the personality of the Chairman, and I doubt if the time has yet come for the elimination of the official element, which means the product of official and special training in what is not to be acquired by intuition.

Mr. Lowis, the Commissioner of the Rajshahye Division, says:—

The District Boards have, on the whole, worked satisfactorily, and much good work has been done during the past year Without detracting from the merits of the individual members of the respective bodies, however, I may add that a good deal of the success which has marked the past year's administration is due to the interest taken in the working of the Boards by the District Officers. Messrs. Price and Skrine have both rendered excellent service in this direction.

Mr. Oldham, the Officiating Commissioner of the Chittagong Division, makes the following remarks:—

All the Boards have done well and worked effectively and harmoniously. Their weak points are still, as was to be expected, in the matter of accounts and despatch. In Chittagong the members, with few exceptions, took considerable interest in the work. The work of this Board comes less before me than that of the two others. It has not developed its Committee system as fully as they, but its members have more work in their hands as individuals than those of the other Boards. In Noakhally the non-official members have on the whole, says the Magistrate, excelled the official members in point of zeal, without at the same time misdirecting their energies. A large amount of solid, substantial business has been discharged by the three Committees of the Board, the members of which have worked harmoniously with their professional advisers. The Noakhally Board has always seemed to me a very strong practical and business-like body. In Tipperah the Magistrate says that,

as regards the outturn of work, the year compares favourably with its predecessors. Much interest has been taken in sanitary improvements, and in affording medical aid in outlying parts of the district. The District Board acknowledges the praiseworthy attention the Civil Surgeon, Dr. Whitwell, bestowed on the management of dispensaries. The establishment of an artisan school in Commilla is a commendable beginning. The members devoted a reasonable amount of time to attending the meetings of the District Board, while the attendance at Local Boards was less satisfactory. The Chairman regrets that zemindars remain satisfied to leave the discharge of the duties connected with the important District Board in the hands of their legal agents, who have no time to devote to the personal inspection of public works. The work of this Board comes more before me than that of any other. It is the most ambitious and progressive of the three Boards, and must, I think, be also pronounced to be the most successful, except in the matter of public works, in which its agency, though good, is not so exceptionally good as that which the Chittagong and Noakhally Boards are so fortunate in having.

Mr. Stevens, the Commissioner of the Patna Division, reports as follows:—

On the whole, I think that the working of the Boards has been satisfactory, and that the introduction of the system of Local Self-Government into this Division has been fully justified by results. It was of course recognized from the first that the method of working must follow local conditions, and it was always expected that in Behar the Boards would have to lean on official guidance more than elsewhere. The law and rules have been sufficiently elastic to meet these local differences, and are adapted to a greater as well as to a lesser degree of development. As time goes on the honour of serving on the Boards, which is already appreciated, will become more and more highly esteemed, and doubtless, as education progresses, there will be an increasing number of country gentlemen fit and desirous to be candidates for office.

Mr. Toynbee, the Commissioner of the Orissa Division, makes the following observations:—

Mr. Allen, the Chairman of the Pooree District Board, writes:—"The District and Local Boards were reconstituted during the year. The latter got through the little work they had to do quietly and with tolerable efficiency. The former body met regularly and acquiesced readily in the measures proposed by the official executive. There was no obstructiveness, but, on the other hand, there was not much practical assistance, except that afforded by the Education and Finance Committees, and of these the latter was rather dilatory in getting through its monthly audits. The Board does not interfere with the District Engineer, who gets through his work satisfactorily, and it does not quarrel with the Deputy Inspector of Schools, whose suggestions are generally accepted and carried out; but there is little real interest among the non-official members in Local Self-Government." Mr. Cornish, the Chairman of the Balasore District Board, reports as follows:—"The District Board has perhaps worked as satisfactorily as it did in the previous year, but I cannot report as confidently on the working of the Local Boards. The Sadar Local Board sustained a great loss in the transfer last November of Dr. Zorab, its late Chairman. His great local knowledge, tact and patience commanded the respect and confidence of all classes, and enabled him to keep in check the miserable tendencies of petty party spirit which are ever threatening to bring discredit on Local Self-Government in Balasore. The Bhuddruck Local Board suffered from the arbitrary misconduct which led to the transfer of its former Chairman and from a double change of officers.

"I am glad to be able to note that during the year under report some attempt has been made to ensure better supervision of roads, schools, and pounds in the Sadar sub-division by the officials of the Sadar Local Board. This still requires to be more systematic and regular, but it is a great thing to have secured at least the beginning of some supervision by those to whom the responsibility is entrusted." Mr. Stevenson writes:—"The plant of Local Self-Government has not yet been naturalized. Even the educated class has yet to learn that if the people are to manage their own affairs, they, or rather their representatives, must be prepared to subordinate their personal convenience to the public good."

The burden of these remarks and of similar observations in the body of this report is somewhat discouraging. Local Self-Government in Orissa is evidently an exotic which has not yet become acclimatised. The official Chairmen apparently do all the work, and the Boards agree to their proposals and register their decisions without discussion There is happily an absence of anything like obstruction, active or passive; but this fact is due, I fear, rather to lack of interest and energy, than to a spirit of fairness and good sense.

During the various tours he has made since assuming charge of the Government of Bengal, Sir Charles Elliott has endeavoured to take every opportunity of looking into the work of the District Boards and personally discussing with the members of those bodies their views as to the requirements of their districts. What he has seen in this way, and what he has learned from the reports of experienced officers, go to strengthen his conviction that the success or failure of the system of Local Self-Government depends less upon the constitution and legal status of the Boards than on the practical capacity and good sense of the individual members who serve upon them, and on the amount of experience and local

knowledge which they contribute to the service of the executive. The precise form of the law under which local authorities are organized matters comparatively little; the spirit in which they exercise their functions matters a great deal. The question of amending the Local Self-Government Act has recently been under consideration, and although on a few minor points the law may be susceptible of some improvement, the Lieutenant-Governor has decided not to undertake any fresh legislation for this purpose at present. He finds everywhere a praiseworthy disposition on the part of the Boards to attend regularly to their duties and to pay due regard to the wishes of Government and the advice of their Chairmen and professional advisers. Special commendation is due to the work of the Finance Committees of the various Boards, who discharge duties of an important and laborious character, and of a kind which public bodies have not always shown an inclination to attend to in sufficient detail. The thanks of the Lieutenant-Governor are due to these gentlemen and to the District Boards generally for much excellent work done during the past year.

By order of the Lieutenant-Governor of Bengal,

H. H. RISLEY,

Offg. Secy. to the Govt. of Bengal.

APPENDIX I.

FORM No. I (*a.*)

Statement showing the constitution of the District Boards in Bengal during the year ending 31st March 1891.

Number.	Name of District Board.	Act under which constituted.	Area in square miles.	Population within the area.	Number of Members.*								Number of meetings held.	Average attendance at each meeting.†

LIBERALITY OF RAJA BAIKUNTHA NATH DE, BAHADUR, OF BALASORE.

No. 2744, dated Calcutta, the 10th December 1891.

From—H. H. RISLEY, Esq., Offg. Secy. to the Govt. of Bengal, Municipal Dept.,
To—The Commissioner of the Orissa Division.

I AM directed to acknowledge the receipt of your memorandum No. 283 L.F., dated the 29th October 1891, and enclosure, from the Magistrate of Balasore, forwarding a copy of a letter from Raja Baikuntha Nath De, Bahadur, in which he proposes to establish a charitable dispensary at his own cost at Soro on the Jagannath road, in the district of Balasore, and to guarantee the payment of Rs. 300 annually towards its cost for ten years, if the Pilgrims Lodging-house Fund for that district contribute a corresponding amount. It is proposed to call the institution the "Elliott Charitable Dispensary."

2. In reply, I am directed to say that the Lieutenant-Governor accepts the offer on the terms proposed; and I am to request that you will convey to Raja Baikuntha Nath De, Bahadur, an expression of His Honour's thanks for his liberality. The Inspector-General of Civil Hospitals will be requested to appoint a Civil Hospital Assistant of the third class to be in charge of the dispensary when it is opened. This letter will be published in the *Calcutta Gazette*.

LIBERALITY OF BABU KRISHNA MOHUN RUDRA SIRKAR OF IRPALA, IN THE MIDNAPORE DISTRICT.

No. 2746, dated Calcutta, the 10th December 1891.

From—H. H. RISLEY, Esq., Offg. Secy. to the Govt. of Bengal, Muncipal Dept.,
To—The Commissioner of the Burdwan Division.

I AM directed to acknowledge the receipt of your letter No. 655M., dated 6th November 1891, in which you state, in continuation of previous correspondence on the subject, that Babu Krishna Mohun Rudra Sirkar has deposited the sum of Rs. 13,500 in the sub-treasury at Ghattal in order to endow a charitable dispensary which he proposes to establish in his native village of Irpala, in the district of Midnapore. The donor proposes to call the institution after the name of his father, the late Babu Ram Prosad Rudra Sirkar, and stipulates that if at any future time Government finds it necessary to close the institution, he and his heirs shall have the right to withdraw the invested funds from the custody of Government.

2. In reply, I am directed to say that the Lieutenant-Governor accepts the donation on the terms proposed; and I am to request that you will convey to the donor an expression of the Lieutenant-Governor's appreciation of his liberality and public spirit. The Inspector-General of Civil Hospitals will be requested to appoint a Civil Hospital Assistant of the third class to the charge of the dispensary as soon as it is established.

LIBERALITY OF SYED MAHDI HOSSAIN KHAN OF PATNA.

No. 2775, dated Calcutta, the 13th December 1891.

From—H. H. RISLEY, Esq., Offg. Secy. to the Govt. of Bengal, Municipal Dept.,
To—The Commissioner of the Patna Division.

I AM directed to acknowledge the receipt of your letter No 39Ct., dated the 29th November 1891, in which you report that Syed Mohomed Mahdi Hossain Khan of Patna has made a most liberal donation of Rs. 10,000 to form the nucleus of a fund for the establishment of a Female Medical Hospital in that city, and to request that you will be so good as to convey to Syed Mohomed Mahdi Hossain Khan the thanks of the Lieutenant-Governor for his munificent gift. This letter will be published in the *Calcutta Gazette*.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 12th December, 1891.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL.			
BURDWAN DIVN. 1	Burdwan Dec. 12, '91	Nil	Weather—cool. Harvesting of *aman* going on. Prices of common rice:—
	Culna ...	Nil	
	Cutwa ...	Nil	
	Raneegunge ...	Nil

* Mean of 5 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last The humidity of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numbers are the arithmetical means or average of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the past seasons in the district sending in returns divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

for the week ending Saturday, the 12th of December 1891.

Average humidity at 8 A.M.	Average cloud amount at 8 A.M. for week.	Rainfall of week at observing station.	DISTRICT OBSERVATIONS. RAINFALL. Of week. Mean for district.	Of week. Normal mean. Explanation.—.....indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the columns of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the 15th December* 1891.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 12TH OF DECEMBER 1891.

CONDITIONS at the close of the previous week had become fairly normal for the cold weather, both in Bengal and over the Bay, and during the present week the meteorological changes which have occurred, though they have been small and unimportant, have been practically all in the direction of the further development of north-east monsoon conditions. On the 6th the barometer was rising by about 0·03 inch, and the general pressure had become above the normal by about the same amount. Temperature was falling slowly but the mean temperature was still higher than usual by amounts ranging up to about 5°. A steady northerly wind current was blowing over the whole of the province; the sky was nearly cloudless and absolutely no rain was reported. On the 7th pressure had again risen by one or two hundredths of an inch, and temperature had fallen slowly at the majority of stations, but it was still rather largely above the normal, while the other conditions remained practically unchanged. On the 8th a slight fall of pressure had set in, but temperature continued to fall slowly. Cloud proportion had increased rather rapidly on this day, and the sky was generally moderately to rather heavily clouded, while humidity had increased decidedly at many stations, but no rain was reported. This increase in the amount of cloud and slight change in the general conditions may perhaps have been connected with the commencement of a barometric depression in the south-west of the Bay, the existence of which was distinctly shown on the morning of the 9th. In Bengal on this day pressure had again fallen moderately, generally by about 0·03″ or 0·04″: temperature also still continued to fall, though cloud proportion and humidity remained rather high, but again there was no rain. The depression in the south-west of the Bay advanced on the 9th in a westerly direction, and passed partly over the south of the peninsula and partly over Ceylon, perhaps also filling up in its advance, and on the 10th very heavy rain was reported in the south of the peninsula. Conditions in Bengal then began to become more settled, and the sky cleared rapidly on the 10th and became almost cloudless. Humidity also fell very rapidly, and the air became decidedly dry, the northerly winds blowing over the province generally strengthened, pressure rose slowly and temperature fell moderately to rapidly, and the mean temperature over the province became nearly normal, while in Behar there was a considerable defect. On the 11th pressure continued to rise moderately and became about a twentieth of an inch in excess of the normal. Temperature also fell rather briskly and was below the normal at the western and southern stations, though it was still slightly above it in North Bengal. On the 12th pressure had again risen slowly in Bengal, and had become about 0·06 inch to 0·08 inch above the normal, but the barometer had fallen moderately to briskly in the south-west corner of the Bay, and another barometric depression appeared to have formed over this area on that day. Again the sky became a little clouded in Bengal and temperature commenced to rise at many stations, so that at the close of the week the mean temperature was very nearly normal over the province generally, except, perhaps, in North Bengal, where there was a distinct excess of about one or two degrees. No rain, however, fell, and throughout the week fine weather obtained over the whole province

Pressure.—The mean pressure for the week has been in excess of the normal in all districts; the usual excess has been from 0·05 inch to 0·06 inch, but the excess has been generally largest at the western stations where it is about 0·07 inch and smallest in East and South-East Bengal where it has equalled about 0·04 inch.

Temperature.—Has been in excess of the normal in all districts, the usual excess being from one to two-and-a-half degrees. This excess has been largest in East and North Bengal and smallest in Chutia Nagpur and Orissa. The variation of the mean temperature of the province from the normal for the whole week has been an excess of 1·5°

This variation of temperature is, however, most clearly seen in the table below where the average maximum, minimum and mean temperatures for the week at nine typical stations in different districts of the province are compared with the normal values for the same period. In this table it will be seen that the principal variations have occurred in the day or maximum temperatures, while the night or minimum temperatures have been more nearly normal.

Table showing the excess or defect of the actual mean temperature from the normal for the week ending 12th December 1891.

	Normal mean maximum temperature for the week ending 12th December.	Actual mean maximum temperature for the week ending 12th December 1891.	Variation of actual mean from the normal.	Normal mean minimum temperature for the week ending 12th December.	Actual mean minimum temperature for the week ending 12th December 1891.	Variation of actual mean from the normal.	Normal mean daily temperature for the week ending 12th December.	Actual mean daily temperature for the week ending 12th December 1891.	Variation of actual mean from the normal.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain-gauge is one foot above the ground.

≏, dew; ═, fog.

C. Little,

Decrease.

Coal ... ... 1,577 Tons.
This is due to less import owing to bad season for failure of cocoons.

Cotton piece-goods 62
Imported by steamer plying between Calcutta and Azimganj.

Grains—
(2) Rice 19
Due to less export on account of local rate being high.
(4) Others 94
This is due to falling off in roher and khasari collie owing to less demand.

Jute—
(1) Raw 19
Carried by steamer.

Railway plant and rolling-stock 52
Due to less renewals.

Salt 25
Due to less import to intermediate stations.

Sugar—
(2) Undrained 26
Less imported due to less demand.

R. G. Mookerjee,
Manager, Nalhati State Railway.

Orders and Notifications by the Lieutenant-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 99A.

GENERAL.—*The 23rd November* 1891.—Mr. C. Fisher, Assistant Magistrate and Collector, Shahabad, is transferred to Backergunge, and is posted to the head-quarters station of that district.

The 16th December 1891.—Sergeant Richard Mytton is appointed to be Honorary Paymaster of the Northern Bengal Mounted Rifles, *vice* Captain M. Power, resigned.

Mr. C. Johnston, Assistant Magistrate and Collector, has been granted by Her Majesty's Secretary of State for India an extension of extraordinary leave for six months, on medical certificate, without pay.

Moulvi Ahmed, Deputy Magistrate and Deputy Collector, Jessore, is appointed to perform the functions of a Collector under section 4 of Act VII (B.C.) of 1880 in that district.

The 17th December 1891.—The order of the 20th October last, granting fifteen days' privilege leave to Babu Roy Brahma Dutt, Probationary Deputy Magistrate and Deputy Collector, on Excise work, Durbhanga, is cancelled.

Mr. W. D. Blyth, Magistrate and Collector, Chumparun, is allowed leave for six days, under article 291 of the Civil Service Regulations, in extension of the leave granted to him under the order of the 1st September 1891.

The 18th December 1891.—Mr. H. G. Cooke, Officiating Magistrate and Collector, Hooghly, is confirmed in that appointment.

Mr C. H. Vowell, Officiating Magistrate and Collector, Purneah, is confirmed in that appointment.

Mr. Romesh Chunder Dutt, Officiating Magistrate and Collector, Midnapore, is confirmed in that appointment.

Mr. A. C. Tute, Officiating Magistrate and Collector, Dinagepore, is confirmed in that appointment.

Mr. G. Stevenson, Officiating Magistrate and Collector, Cuttack, is confirmed in that appointment.

Mr. H. C. Williams, Officiating Magistrate and Collector, Burdwan, is confirmed in that appointment.

Mr. F. R. S. Collier, Officiating Magistrate and Collector, Moorshedabad, is confirmed in that appointment.

Mr. G. E. Manisty, Officiating Magistrate and Collector, Chittagong, is confirmed in that appointment.

Mr. H. Savage, Officiating Magistrate and Collector, Backergunge, is confirmed in that appointment.

Mr. H. A. D. Phillips, Officiating Magistrate and Collector, Mymensingh, is confirmed in that appointment.

Mr. J. Posford, Officiating District and Sessions Judge, Furreedpore, is confirmed in that appointment.

Mr. G. G. Dey, Officiating District and Sessions Judge, Tipperah, is confirmed in that appointment.

Mr. F. W. Badcock, Officiating District and Sessions Judge, Burdwan, is confirmed in that appointment.

Mr. E. W. Collin, Officiating Magistrate and Collector, Rungpore, is allowed furlough for one year and eight months, under article 340 (*b*) of the Civil Service Regulations, with effect from the 15th March 1892, or such subsequent date as he may avail himself of it.

Moulvi Syed Mahomed, Deputy Magistrate and Deputy Collector, Sealdah, 24-Pergunnahs, is transferred to the head-quarters station of the Rajshahye district, with effect from the date on which he may be relieved by Kumar Gopendra Krishna Deb.

The 19th December 1891.—Babu Khudiram Poddar, Sub-Deputy Collector, Raniganje, Burdwan, is allowed leave for nine months, under articles 264 and 369 of the Civil Service Regulations, with effect from the 10th September 1890.

Moulvi Shah Mohammad Azam, Sub-Deputy Collector, on leave, is posted to the Sitamarhi sub-division of the district of Mozufferpore.

In modification of the order dated the 17th November 1891, it is notified that the special leave for six months granted to Mr. J. Scobell Armstrong, C.S., under the order of the 14th April last, has been commuted by Her Majesty's Secretary of State for India to furlough for ten months.

The 21st December 1891.—Mr. W. C. Macpherson, C.S., is appointed to act, until further orders, in the third grade of Magistrates and Collectors, but will continue to be employed on his present special duty under the Board of Revenue.

Babu Atul Chunder Chatterjee, Deputy Magistrate and Deputy Collector, Patuakhally, Backergunge, is allowed leave for one month, under article 369 of the Civil Service Regulations, in extension of the leave granted to him under the order of the 27th ultimo.

The Lieutenant-Governor is pleased to accept the resignation tendered by Lieutenant-Colonel W. B. Hudson, C.I.E., of his appointment as Honorary Aide-de-Camp on the staff of His Honour the Lieutenant-Governor of Bengal.

Major J. J. Macleod, Commanding the Behar Light Horse, is appointed to be Honorary Aide-de-Camp on the staff of His Honour the Lieutenant-Governor of Bengal, *vice* Lieutenant-Colonel W. B. Hudson, C.I.E., resigned.

Mr. L. F. Morshead, Assistant Magistrate and Collector, Hajeepore, Mozufferpore, is vested with the powers of a Collector under Act X of 1870 in that district.

Mr. Nauda Krishna Bose, Joint-Magistrate and Deputy Collector, Pubna, is allowed leave for two months, under article 291 of the Civil Service Regulations, with effect from the afternoon of the 18th instant.

Babu Chunder Coomar Dutt, Deputy Magistrate and Deputy Collector, Backergunge, is appointed to have charge of the Dukhin Shabazpore sub-division of that district, with effect from the date on which he joined his appointment.

Babu Prasanna Kumar Karfarma, substantive *pro tempore* Deputy Magistrate and Deputy Collector, Dukhin Shabazpore, Backergunge, is transferred to the head-quarters station of that district, with effect from the date on which he joined his appointment.

Mr. E. Geake, Officiating Joint-Magistrate and Deputy Collector, Meherpore, Nuddea, is allowed leave for fifteen days, under article 291 of the Civil Service Regulations, with effect from the 9th January 1892.

Mr. Kedar Nath Roy, Officiating Joint-Magistrate and Deputy Collector, Chooadanga, Nuddea, is also appointed to have charge of the Meherpore sub-division of that district, during the absence, on leave, of Mr. E. Geake, or until further orders.

The services of Colonel E. G. Lillingston, Deputy Commissioner, Lohardugga, on leave, are replaced at the disposal of the Government of India, in the Military Department, with effect from the 16th March 1892.

The 22nd December 1891.—Babu Gunga Govinda Gupta, Head Assessor of Income-tax, Calcutta, is appointed to be a Sub-Deputy Collector of the first grade.

Babu Gunga Govinda Gupta, Sub-Deputy Collector, is appointed to be Special Deputy Collector for employment on batwara work in the district of Shahabad.

The order of the 2nd November 1891, granting Mr. W. H. D'Oyly, late Magistrate and Collector, Mozufferpore, furlough for ten months, is cancelled.

The following officers are vested with the powers of a Deputy Collector:—

Mr. L. J. Kershaw, Assistant Magistrate and Collector, Mozufferpore.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

The 21st December, 1891.—Mr. A. C. Bryson, Sub-Deputy Opium Agent, on leave, is transferred from the Benares Agency to the Behar Agency, and is posted to Motihari.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 17th December, 1891.—Deputy Collector Babu Mohim Chundra Ghose is hereby authorized to receive and dispose of applications for commutations of rent under section 40 of the Bengal Tenancy Act VIII of 1885, in the district of Mozufferpore.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 18th December, 1891.—Under the powers conferred upon him by section 101, sub-section 2, clauses (*c*) and (*d*) of the Bengal Tenancy Act VIII of 1885, the Lieutenant-Governor is pleased to order that a survey shall be made and a record of rights prepared in respect of all the lands included in the Government estate Simulcharn, No. 1838, in pergunnah Taragunia, in the district of Pubna.

The particulars to be recorded shall be the following :—

(*a*) The name of each tenant.

(*b*) The class to which he belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, occupancy raiyat, non-occupancy raiyat or under-raiyat, and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure.

(*c*) The situation, quantity, and boundaries of the land held by him.

(*d*) The name of his landlord.

(*e*) The rent payable.

(*f*) The mode in which that rent has been fixed, whether by contract, by order of a court, or otherwise.

(*g*) If the rent is a gradually increasing rent, the time at which, and the steps by which, it increases.

(*h*) The special conditions and incidents, if any, of the tenancy.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 22nd December, 1891.—Under the powers conferred upon him by section 101, sub-section (1) of the Bengal Tenancy Act VIII of 1885, the Lieutenant-Governor, with the previous sanction of the Governor-General in Council, is pleased to order, in continuation of the notification, dated the 6th May, 1890, published in the *Calcutta Gazette* of the 14th idem, Part I, page 451, that a survey shall be made and a record of rights prepared in respect of all lands included within the boundaries of thanas Town, Kumera, Mirkasarai, Fatikcheri and Hathazari, in the district of Chittagong.

The particulars to be recorded in the survey and record of rights shall be the following :—

(*a*) The name of each tenant

(*b*) The class to which he belongs, viz., whether he is a tenure-holder, raiyat holding at fixed rates, occupancy raiyat, non-occupancy raiyat or under-raiyat; and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure.

(*c*) The situation, quantity, and boundaries of the land held by him.

(*d*) The name of his landlord.

(*e*) The rent payable.

(*f*) The mode in which that rent has been fixed, whether by contract, by order of a court, or otherwise.

(*g*) If the rent is a gradually increasing rent, the time at which, and the steps by which, it increases.

(*h*) The special conditions and incidents, if any, of the tenancy.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

NOTIFICATION.

HIGH COURT NOTICES.

HIGH COURT—Original Side.

MR. W. R. FINK, Deputy Registrar, took charge of his duties on the forenoon of this day. The remaining portion of his leave on furlough is cancelled at his request.

By order,

Dated 27th November, 1891. R. BELCHAMBERS, *Registrar.*

ISSUED BY AUTHORITY OF THE HIGH COURT OF JUDICATURE AT FORT WILLIAM IN BENGAL.

CIVIL AND CRIMINAL.

Rule No. 15, *dated the* 27*th November* 1891.

13. Except in the case of Courts at out-stations, the whole cash balance must be remitted to the treasury, as provided by Rule 58 below, at the close of each day. At out-stations the entire cash balance must be so remitted on the last day of the month, and from time to time on such other days in the course of the month as may be convenient. Under no circumstances shall the balance of cash in hand be allowed to exceed Rs. 500.

60. On the last day of the month, and from time to time as provided by Rule 13, the Treasury Pass-book shall be made up showing all receipts and payments at the Court since the last remittance to the treasury. Its accuracy having been tested, it shall be forwarded to the treasury with all chalans and payment orders. If the receipts have exceeded the payments, the cash excess shall be sent to the treasury; if the contrary, the cash deficit shall be received from the treasury: in either case the cashier will have, after the completion of the transaction, in addition to the balance of peremptory cash transactions, only the permanent advance allowed to the Court for carrying on its payments at a distance from the treasury.

After the second sentence of Rule 13, Chapter V, page 139 of the Court's Rules and Orders (Civil), Chapter III, page 72 of the Court's Rules and Orders (Criminal), *insert* the following:—"Should, however, the cash balance at any out-station be less than Rs. 25 at the end of any month, the Officer concerned may send a special report of the circumstances to the Collector of the district and keep the balance in hand for remittance during the following month."

In Rule 60 $\frac{\text{at page 169}}{\text{at page 95}}$, *ibid*, after the words "sent to the Treasury" in the eighth line, *insert* the following:—"unless such excess does not amount to Rs. 25, in which case it may be remitted in the following month."

Published in the *Calcutta Gazette* of the 18th November 1891, Part I, page 986, and in the *Assam Gazette* of the 21st November 1891, Part III, page 580.

CIRCULAR ORDER ISSUED BY AUTHORITY OF THE HIGH COURT OF JUDICATURE AT FORT WILLIAM IN BENGAL.

EDUCATION DEPARTMENT, BENGAL.

MIDDLE SCHOLARSHIP EXAMINATION FOR 1893-94 (OCTOBER 1893).

I.—MIDDLE ENGLISH—

The following text-books in languages have been selected for the examination of October 1893—

English—

Middle Class Reader, by Krishna Chandra Roy, 6th edition. (Price 8 annas).

Bengali—

(1) Charupath, Part III, Chapter III (10 annas).

(2) Bhishma Charita, by Rajani Kanta Gupta, omitting Chapters VII and VIII (8 annas).

(3) Padyapath, Part III, 35th edition (6 annas).

The poetry paper will include essay-writing and questions in composition.

Urdu (for Mahomedan candidates only, alternatively with Bengali)—

Kuat Faisla, by M. Hasan Ali; Intikhab Nayab, by M. Suraj Mal.

In most of the following subjects no text-books are prescribed, but school managers are restricted to the use of the books specified in the authorised list, dated 8th July 1891. *No book not included in that list must be introduced into any school, aided or unaided, that prepares candidates for this examination.*

English Grammar—

Parsing, and general questions in Etymology and Syntax arising out of passages taken from the text-books.

Bengali Grammar—

The same as under English Grammar.

Urdu Grammar—

Kawaid Urdu, Part III.

History—

(1) (*a*) History of the World;
or (*b*) History of Greece and Rome;
or (*c*) History of England, to the restoration of Charles II.

(2) History of India; Hindu, Mahomedan, and British periods.

Geography—

(1) General Geography, with special knowledge of India.

(2) Physical character of the earth's crust; internal terrestrial phenomena, including volcanic phenomena; the sea; the atmosphere; evaporation and condensation; action of rain, springs and rivers; distribution of organic life.

Arithmetic—

Native and European.

Geometry and Mensuration—

(1) Euclid, Book I, with deductions.

(2) Mensuration of lines and planes.

One of the following subjects in addition to Sanitary Science:—

(*a*) *Elements of Botany.*

Characters and functions of the root, stem, leaves and different parts of the flower, illustrated by specimens of common flowering plants; structure of wood, bark and pith; cells and vessels; food of plants and manner in

which a plant grows, including the phenomena of germination.

(*b*) *Elements of Chemistry.*

Elementary and compound bodies, their combination and decomposition; preparation and properties of oxygen, hydrogen, nitrogen and chlorine; air, water, ammonia; combination by weight and volume; carbon and its chief inorganic compounds; coal gas; phosphorus; sulphur; preparation and properties of hydrochloric, nitric and sulphuric acids.

(*c*) *Elements of Natural Philosophy.*

Properties of matter; different kinds of force; centre of gravity; laws of motion; general properties of solids liquids and gases; heat and its effects.

In Sanitary Science the following text-books have been prescribed by Government:—

(1) Bengali Translation of "The Way to Health" (1 anna); and
(2) Swasthyaraksha, by Radhika Prasanna Mukherjea (6 annas).

II.—MIDDLE VERNACULAR—

The same as the Middle English, with the exception of English Reader and English Grammar.

III.—MIDDLE EXAMINATION FOR GIRLS—

Female candidates have the option of substituting the following for Geometry and Mensuration, and Botany, Chemistry, or Natural Philosophy:—

(*a*) Cutting and making of pirans, pyjamas, and chapkans ... ... } 150 marks.
(*b*) Knitting, darning and embroidery ... }

The following are the conditions of sale:—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered

DEPOSIT.
When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained; and the first *bond fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazeepore Factory for the year 1890-91, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

T. INGLIS, *Secretary.*

FORT WILLIAM, *the 24th November* 1891.

No. 1646B.

NOTICE is hereby given that the First Sale of Opium, the Provision of 1889-90, will be held at the Government Opium Sale-room, No. 2, Bankshall-street, on Monday, the 4th January 1892, at 11 A.M., and will comprise 4,500 chests, viz.—

	Chests.
Behar Opium	2,150
Benares do.	2,350
Total ...	4,500

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 24th November 1891, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 9th and 19th January 1892 respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 1-30 P.M. of Saturday, the 9th January 1892, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Tuesday, the 19th January 1892.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less of Behar and Benares Opium, will be brought to sale in the present year about the date specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so :—

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION.

The 18th December 1891.—It is hereby notified for general information that, in the exercise of the power vested in the Local Government by section 221 of Act III (B.C.) of 1884, and in accordance with the recommendation of the Commissioners of the Bali Municipality, in the district of Howrah, made at a meeting, the Lieutenant Governor sanctions the extension of the provisions of Part VI of the Act, with the exception of sections 230, 237 to 242, 254 to 259, 263 to 265, 269 and 274 to the said Municipality.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 18th December 1891.—In accordance with the provisos in sections 252 and 276 of Act III (B.C.) of 1884, it is hereby notified for general information that the Lieutenant-Governor is pleased to direct that the provisions contained in the second clause of section 252, and in section 276 of the said Act, shall come into operation within the limits of the Bali Municipality, in the district of Howrah, after the expiration of a period of six months from the date of the publication of this notification.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 21st December 1891.—It is hereby notified that, under sections 23 and 27, Act, III (B.C) of 1884, the Lieutenant-Governor is pleased to appoint Babu Pranknmar Ghose, Sub-divisional Officer, to be the Chairman of the Kandi Municipality, in the district of Moorshedabad, *vice* Babu Chandra Kumar Gupta, resigned.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 21st December 1891.—It is hereby notified that, under section 24 of the Bengal Local Self-Government Act III (B.C.) of 1885, the Lieutenant-Governor is pleased to re-appoint the Magistrate of Patna to be the Chairman of the Patna District Board.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 21st December 1891.—It is notified for general information that the declaration, dated the 15th March 1889, published at page 65, Part IB of the *Calcutta Gazette* of the 28th idem, for the acquisition of a plot of land required by the Calcutta Municipality for improving the south-west approach of Taltollah Square, in the town of Calcutta, is hereby cancelled.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 21st December 1891.—It is hereby notified that, under section 24 of the Bengal Local Self-Government Act III (B.C.) of 1885, the Lieutenant-Governor is pleased to re-appoint the Magistrate of Durbhunga to be the Chairman of the Durbhunga District Board.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 22nd December 1891.—It is hereby notified that, under section 19, clause (3) of the Bengal Local Self Government Act III (B.C.) of 1885, the Lieutenant-Governor is pleased to appoint Mr. B. Walton to be a member of the District Board of Rajshahye in the place of Mr. S. J. Andrews, resigned.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 22nd December 1891.—It is hereby notified that, under section 19, Act III (B.C.) of 1885, Babu Har Prosad Singh has been elected by the members of the Jamui Local Board, in the district of Monghyr, to be a member of the District Board of Monghyr, *vice* Shah Mohamed Quasim, resigned.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 18th December 1891.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz., for improving Baistumpara 1st Lane, it is hereby declared that for the above purpose pieces of land, Nos. 6, 9, and 9-1, Diamond Harbour Road, 1, 2, 4, 5, 6, 7, 8, 9, 10, 11, 12, 14, 15, 16, 17, 19, and 20, Baistumpara 1st Lane, and 1 and 1 1, Doorgapore Road, in pergunnah Magurah, district 24-Pergunnahs, measuring, more or less, 16 bighas 13 cottahs 11 chittacks and 37 square feet, are required. The boundaries of the land are as follows:—

Portion marked A on plan.—On the North No. 6, Diamond Harbour Road; on the South and East Baistumpara 1st Lane; and on the West Diamond Harbour Road.

Portion marked B on plan.—On the North Baistumpara 1st Lane; on the South Nos. 9 and 9-1, Diamond Harbour Road; on the East a passage; and on the West Diamond Harbour Road.

Portion marked C on plan.—On the North Baistumpara 1st Lane; on the South portions of Nos. 7, 9, 10, 11, and 12, Baistumpara 1st Lane, and a passage; on the East Baistumpara 1st Lane and a passage; and on the West Baistumpara 1st Lane and a passage.

Plan and specifications of the land are filed in the Office of the Commissioners for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

This declaration supersedes that dated the 14th April 1891, published at page 126, Part 1B of the *Calcutta Gazette* of the 15th idem.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 19th December 1891.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz., for a new road B through Chetla, it is hereby declared that for the above purpose pieces of land, Nos. 21, 21-1, 22, 23, 26, 27, 28, and 29, Chetla Road, 7, 8, 10, and 11, Dwarka Nath Ghose's Lane, 8, 10, 67, 68, 71, and 71-1, Mayerpore Road, 1, 1-1, 4, 4-1, Joynuddee Mistry's Lane, 7 and 8, Moonshee

Dasaratulla's Lane, 9, 14, 16, and 17, Pittumber Ghuttuck's Lane, and 38, Tallygunge Circular Road, in the district of the 24-Pergunnahs, measuring, more or less, 23 bigahs 1 cottah and 1 chittack only, are required. The boundaries of the land are as follows:—

Portion marked A on plan.—On the North portion of No. 71-1, Mayerpore Road, and portions of Nos. 29, 27, 26, 23, and 24, Chetla Road; on the South a passage, portions of No. 12, Dwarka Nath Ghose's Lane, No. 14, Dwarka Nath Ghose's Lane, and No. 20, Chetla Road; on the East portion of No. 27, Chetla Road, Chetla Road, and No. 20, Chetla Road; and on the West portion of No. 71-1, Mayerpore Road, a passage, and Nos. 12 and 13, Dwarka Nath Ghose's Lane.

Portion marked B on plan.—On the North portions of Nos. 68 and 71, Mayerpore Road; on the South a passage and portions of Nos. 7 and 9-1, Dwarka Nath Ghose's Lane; on the East a passage; and on the West Dwarka Nath Ghose's Lane.

Portion marked C on plan.—On the North and East Dwarka Nath Ghose's Lane; on the South No. 66, Mayerpore Road; and on the West Mayerpore Road.

Portion marked D on plan.—On the North portions of Nos. 16, 15, 13, and 9, Pittumber Ghuttuck's Lane, portions of Nos. 1 and 1-1, Joynuddee Mistry's Lane, and Nos. 9 and 8, Mayerpore Road; on the South Nos. 4, 5, and 6, Moonshee Dasaratulla's Lane, Moonshee Dasaratulla's Lane, portions of Nos. 4-1 and 1-1, Joynuddee Mistry's Lane, and portion of No. 10, Mayerpore Road; on the East Mayerpore Road, portion of No. 1, Joynuddee Mistry's Lane, and No. 13, Pittumber Ghuttuck's Lane; and on the West a public drain, Nos. 15 and 9, Pittumber Ghuttuck's Lane, No. 9, Mayerpore Road and Moonshee Dasaratulla's Lane.

Portion marked E on plan.—On the North Pittumber Ghuttuck's Lane; on the South portion of No. 38, Tallygunge Circular Road, and portion of No. 17 Pittumber Ghuttuck's Lane; on the East a public drain and portion of No. 17, Pittumber Ghuttuck's Lane; and on the West portion of No. 17, Pittumber Ghuttuck's Lane and Tallygunge Circular Road.

Portion marked F on plan.—On the North, East, and West Moonshee Dasaratulla's Lane; and on the South portion of No. 4, Moonshee Joynuddee Mistry's Lane.

The plan and specifications of the land are filed in the Office of the Commissioners for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

The Calcutta Gazette.

WEDNESDAY, DECEMBER 23, 1891.

PART II.

Advertisements.

[N. B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

LAND SALE NOTICES.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates, or shares of estates, in the district of Gya, will be put up for sale at the Collector's Office of that district on the 5th January 1892, for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale :—

Mozufferpore Collectorate, the 27th November 1891. B. G. GEIDT, Offg. Collector.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates or shares of estates in the district of Tipperah will be put up for sale at the Collector's Office of that district on the 7th January 1892, for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale.

ABDUL KHALEQUE, Deputy Magistrate in charge.
Khulna Magistrate's Office, the 15th December 1891.

Commissioners for the Port of Calcutta.

NOTICE.

THE following scale of charges for the use of the Commissioners' new Graving Dock at Kidderpore having been approved by His Honour the Lieutenant-Governor of Bengal is hereby published for general information, in accordance with the provisions of section 107, Act III of 1890.

By order of the Commissioners,
R. A. DONNITHORNE, Secretary.

The 5th December 1891.

Graving Dock.

		Feet.
Length on blocks	... ...	520
Width at entrance	... ...	67
Least depth on blocks	... ...	23

The Dock is intended principally for the painting and cleaning of vessels and the execution of very slight repairs. Its use for heavy repairs will only be given in special circumstances.

The terms are as follows, and will include removal of vessels from Graving Dock entrance into Graving Dock and back, docking, pumping, shoring, and undocking; also the use of stages and stage-ropes for cleaning and painting:—

	Rs.	A.	P.	
For the first 24 hours with a minimum of Rs. 600 ...	0	8	0	per ton gross tonnage.
For the second 24 hours or part thereof	100	0	0	
For the third 24 hours or part thereof	200	0	0	

and for every period of 24 hours or part thereof that a vessel remains in dock in excess of 72 hours, the charge of Rs. 200 will be repeated; provided that, if the Dock be required for another vessel, a vessel that has already occupied it for 72 hours must immediately vacate or pay 8 annas per ton gross tonnage with a minimum charge of Rs. 600 a vessel for every 24 hours or part thereof that she remains in occupation.

For night work Rs. 100 a night, or part thereof, will be charged extra for work done in connection with the docking or undocking of vessels.

A vessel engaging the Dock and not using it will be charged Rs. 300.

The Commissioners will not undertake the work of cleaning, painting, or repairing vessels. Owners, Agents, or Masters will have to make their own arrangements for the execution of the work.

No commission or other fees will be levied on stores brought either by land or water into the Dock for cleaning, painting or repairing.

No. 2678 Marine.

The Local Government hereby signifies its approval of the above scale.

W. B. BESTIC, Under-Secy. to the Govt. of Bengal.
Govt. of Bengal, Marine Dept., the 13th Nov. 1891.
(809—2)

Santrabari Fair.

NOTICE.

THE public are hereby informed that a "Fair" will be held at Santrabari in the sub-division of Alipur, Western Duars, district Julpaiguri. The Fair will commence on January 10th, 1892 (A. D), corresponding with 27th Poush 1298 (B.S.), and will continue up to January 20th, 1892. Tradesmen, dealers, and others may buy and sell there during this time. Blankets and cloth of sorts, wool, ivory, rhinoceri horns, yak tails, musk, honey wax, lac, ponies, and various other articles from Bhootan and Thibet, and also tea, paddy, rice, tobacco, jute, mustard seed, cotton and other crops which are grown in the Western Duars, will be available at the Fair. Santrabari is just at the foot of the Paxa hill and within easy reach of Jalpaiguri and Cooch Behar. A good cart and driving road exists all the way. Arrangements for good drinking water and for comfort of strangers will be made.

W. H. W. MACKENZIE, Sub-divisional Officer,
Alipur Duars.

REVENUE DEPARTMENT.

REVISED ADVERTISEMENT.

A Dictionary of the Economic Products of India

BY DR. GEO. WATT, C.I.E.

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first five volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets; &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries and confirmed the vernacular names, so that the Dictionary is

not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Vol. II embraces the letter C in 689 pages; Vol. III contains the letters D, E, F and half of G. Vol IV latter half of G to middle of L; and Vol. V contains the latter half of L to end of "O." The whole work will, it is expected, be completed in seven volumes during the current year; but an eighth volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a Glossary of the vernacular and European names of the plants, animals and minerals of India, and as such will be a work of reference, which, it is hoped, may prove of considerable value.

The period of registration of subscribers' names having expired on the 1st October, the price will in future be in India Rs. 45 and in England 3 guineas, payable in advance, for the complete set (exclusive of the Index, for which a separate charge will be made. An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England, at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately.

The Shargi Architecture of Jaunpur, with Note on Zafarabad, Sahet-Maher, and other places in the N.W. P. and Oudh. By A. FUHRER, Ph. D. with drawings and architectural descriptions. Super royal 4to., cloth bound. Rs. 16 (Re. 1.)

Calcutta Series	2	0	0	2	0	0
Each of the Madras, Bombay and Allahabad Series ...	1	0	0	1	0	0

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

Notice.

IT is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

The List of Books available for sale at the Secretariat Press will in future be published once only in each month. Spare copies of the List will, however, be kept in stock ready for issue on receipt of applications for them.

NOTICE TO SUBSCRIBERS.

SUBSCRIBERS to the *Calcutta* and *Bengali Gazettes* and Indian Law Reports are hereby informed that unless the amount of their subscription for 1892 is received before the 31st December 1891, it will be concluded that the Gazettes and Reports are no longer required, and the supply will accordingly be discontinued from 1st January 1892.

All remittances should be made direct to the Accountant and Treasurer, Bengal Secretariat, Calcutta, by means of money-order. No postage stamps or stamps of any other kind will be received in payment of subscriptions.

The correct address of the subscriber should be legibly written on the money-order coupon, and the period for which the subscription is paid should be stated.

H. C. STREATFEILD,
Under-Secy. to the Govt. of Bengal.

The 1st December 1891.

JAPAN—KOREA STRAIT.

Sunken rocks in Tsu sima sound.

THE British Admiralty has given notice (No. 517 of 1891) of the existence of the three undermentioned sunken rocks lying near the fairway of Tsu sima sound (Takeshiki harbour):—

1. A sunken rock (*Karakashi se*) with 3¾ fathoms water on it lies with the north-east extreme of Flat island (Majishima) bearing S. ¼ E., distant 5 cables, and Utsuno saki W. ¼ N.

2. A sunken rock (*Imosaki se*) with 2¾ fathoms water on it lies with Finger point (Inosaki) bearing S.S.E. ¼ E., distant 2¼ cables, and the north extreme of Flat island W.S.W.

3. A sunken rock (*Nakasone*) with 4¼ fathoms water on it lies with Observatory rock (Benten jima) bearing W. by S. ¼ S., distant 4¼ cables, and Strata rock N. by W. ¼ W.

AUSTRALIA—PIONEER RIVER ENTRANCE.

Flat Top island light-house—Sector of red light over Taroba rock.

THE British Admiralty has given notice (No. 522 of 1891) that a sector of *red* light is shown from Flat Top island light-house, through an arc of about 6°, over Taroba rock; the northern edge of the sector, bearing West, defines the north-east extreme of the rock.

The position of Taroba rock is also indicated by the undermentioned leading marks, which intersect at its north-east extreme. Flat Top island light-house in line with a white square painted on the rocks just above high water mark on that island, bearing West; and two white marks on Round Top island in line, bearing about S. W. by S. ¼ S.

Approximate position of light-house, lat. 21° 9½′ S., long. 149° 16½′ E.

AFRICA—ZANZIBAR ISLAND.

The system of buoyage established in the approaches to Zanzibar harbour.

THE British Admiralty has given notice (No. 531 of 1891) that the following system of buoyage has been established in the approaches to Zanzibar harbour:—

Approaching Zanzibar harbour, red buoys should be left on the starboard hand, black buoys on the port hand (consequently the colours of the two Southern pass buoys are reversed, but in order to prevent confusion, the old buoys are for the present kept in position). The buoys recently placed are *can* buoys:—

(1) A *can* buoy, black and red chequered, is moored in 3½ fathoms water on the southern edge of Seagull shoal, with White Block house bearing E. by N. ½ N., distant 1 6/10 miles, and large house on Bet el Ras S S.E.

(2.) A black *can* buoy is moored in 5 fathoms water on the bank northward of Bet el Ras with Bububu house bearing E. by N. ½ N, distant 6½ cables, and Large house on Bet el Ras S. by E.

(3.) A black *can* buoy is moored in 5 fathoms water, about half a cable seaward of the edge of the bank off Bet el Ras, with Bububu house bearing N.E. ½ N, and Large house on Bet el Ras S E., distant 3 cables.

(4.) A red *can* buoy is moored in 6¾ fathoms water near the eastern edge of Chapani reef, with White stone pillar bearing N.E. by E. ½ E., distant 5½ cables, and Square white house S. ½ W.

(5.) A red *can* buoy is moored in 7 fathoms water near the eastern edge of Chapani reef, with White stone tower bearing N.E. ½ E., distant 6½ cables, and Square white house south.

(6.) A black *can* buoy is moored in 5 fathoms water near the eastern edge of Kisiki reef, with Mbweni house bearing E. by S. ½ S., distant 1 4/10 miles, and Conspicuous house on Ras Buyu S.S.E. ½ E. The old buoy (red) near the above mentioned buoy remains in position for the present.

(7.) A red *can* buoy is moored in 6 fathoms water near the western edge of Mtwana reef, with Mbweni house bearing E.N.E. distant 1 4/10 miles and Conspicuous house on Ras Buyu S.E. ½ E. The old buoy (black) near the abovementioned buoy remains in position for the present.

The depths given are at low water ordinary spring tides.

NOTICE TO MARINERS No. 222.

[First Publication.]

CHINA SEA—BORNEO.

Fixed harbour light on Sandilands rock—Kudat harbour entrance.

IN continuation of Notice to Mariners No. 57, dated 23rd March 1891, issued by this Office, the British Admiralty has given notice (No. 543 of 1891) that the light on Sandilands rock is exhibited:—

Sandilands rock light is a *fixed harbour* light of low power; it shows *white* between the bearings of N. by W. ½ W., through west, and W. by S. ½ S.; *red* between S. W. ½ S. and S. by W. ½ W.; *red* between S.E. ½ E. and E. ½ S.; and *white* between E. by N. ½ N., through north, and N. by W. ½ W.; in all other directions it is obscured. It is elevated 7 feet above high water, and should be seen in clear weather from a distance of 2 miles.

The light-house, erected on piles, is about 10 feet high.

Approximate position, lat. 6° 52′ 20″ N., long 116° 52′ 5″ E.

Also that the *fixed white* light, previously shown from the fort at Kudat, has been discontinued.

NOTICE TO MARINERS—No. 223.

[First Publication.]

AUSTRALIA—Cape Bougainville.

Sunken rocks and shoals in the Inner and Outer Routes.

The British Admiralty has given notice (No. 552 of 1891) of the existence of the undermentioned sunken rocks and shoals lying in the Outer and Inner Routes, off cape Bougainville, the result of recent examination of the locality.

Outer Route.

1. A rock (*Oliver rock*) consisting of a coral head, with 9 feet water over it, and 25 fathoms close around, lies with the south extreme of Cassini island bearing N. 80° E, distant $4\frac{3}{10}$ miles. The sea was not seen to break on this rock, the *Penguin* passed over it without observing any sign of shoal water.

Approximate position on Admiralty charts, lat. 13° 56½′ S, long. 125° 39½′ E.

Note.—The rock marked awash in lat. 14° 0′ 30″ S., long. 125° 35′ E., does not exist.

2. A shoal (*Bassett-Smith shoal*) about one mile in diameter, with general depths of 5 to 6 fathoms, and 50 fathoms around, with a head of 20 feet near its western edge, is situated in approximately lat. 13° 16′ 50″ S., long. 125° 50′ E. The sea did not break on this shoal, and there was no appearance of danger in the vicinity.

3. *Penguin shoal*, situated in approximately lat. 13° 6′ S., long. 126° 4½′ E., has a least depth of 6 fathoms over it.

4. A rock (*Warn rock*) consisting of a small coral head, with 6 fathoms over it, lies in approximately lat. 13° 8½′ S., long. 126° 11′ E.

Inner Route

1. A coral pinnacle (*Lee rock*) with 3 feet water on it, and 10 to 17 fathoms close around, lies with Pascal island summit bearing S. 83° W., distant $7\frac{2}{10}$ miles, or in approximately lat. 14° 2′ S., long. 125° 52′ E. The *Penguin* passed twice within a few feet of this rock, but no indication of danger was seen.

2. A coral shoal (*Tancred shoal*), 7 cables in diameter, with 3 to 7 fathoms over it, and 16 to 22 fathoms around, lies with Low rocks summit bearing No. 56° W., distant 2 miles, or in approximately lat. 14° 3½′ S., long. 126° 0′ E.

3. The extensive reef charted north of Gibson point does not exist, but there is a rock (*Fury rock*) awash at high water, lying with the islet north of Gibson point bearing East, distant $1\frac{2}{10}$ miles. A reef dry at low water, extends 4 cables north-west of this rock, and foul ground for a distance of $1\frac{2}{10}$ miles north of it. Approximate position, lat. 13° 56½′ S. long. 126° 4′ E.

4. *Bishop rocks* consist of a small group of coral heads, drying 2 feet at low water, and lying with the north extreme of Troughton island bearing S. 75° E., distant $2\frac{1}{10}$ miles, or in approximately lat. 13° 42½′ S. long. 126° 12′ E.

5. A coral reef, with 2 fathoms over it, lies with the north extreme of Troughton island bearing S. 50° E., distant $6\frac{9}{10}$ miles, and is separated by a deep channel from the south point of Eastern Holothuria reef. Approximate position, lat. 13° 39½′ S., long. 126° 9½′ E.

6 *Branch Banks* consisting of two coral shoals with 6 and 7 fathoms over them, lie with the north extreme of Troughton island bearing S. 18° W., distant $8\frac{1}{10}$ miles, or in approximately lat. 13° 35½′ S., long. 126° 17′ E. Depths of 6 fathoms were obtained for a distance of one mile east of this position.

Caution.—As in the neighbourhood of the dangers off cape Bougainville the tides are strong, the banks and reefs steep-to, and the water unusually turbid, great care is necessary when navigating in the locality.

The depths given are at low water spring tides.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 224.

[First Publication.]

AUSTRALIA—Victoria.

Uniform system of buoyage.

The British Admiralty has given notice (No. 533 of 1891) that the following uniform system of buoyage, somewhat similar to that adopted in the United Kingdom, was and will be established at ports in the Colony of Victoria, at the dates hereinafter mentioned:—

(1) The term Starboard Hand shall denote that side which would be on the right hand side of the mariner, either going with the main stream of flood, or entering a harbour, river or estuary from seaward; the term Port Hand shall denote the left hand of the mariner under the same circumstances.

(2) Buoys showing the pointed top of a cone above water shall be called *conical*, shall be painted red, and shall always be Starboard Hand buoys, as above defined

(3) Buoys showing a flat top above water shall be called *can*, shall be painted black, and shall always be Port Hand buoys, as above defined.

(4) Buoys showing a domed top above water shall be called *spherical*, and when used to mark middle grounds shall always be distinguished by horizontal stripes of white colour.

(5) Surmounting beacons, such as Staff and Globe, &c., shall always be painted of one dark colour.

(6) Staff and Globe shall only be used on Starboard Hand buoys. Staff and Cage on Port Hand, Diamonds at the outer ends of middle grounds, and Triangles at the inner ends.

(7) Buoys for marking Submarine Telegraph Cables shall be painted green, with the word *Telegraph* painted thereon in white letters. Mooring buoys shall be continued as heretofore. Gas buoys shall be painted red or black to correspond with the side of the channel on which they may be moored.

(8) The buoyage of the West, South, and Geelong channels, port Phillip, will be altered to conical and *can* shaped buoys.

(9) The buoyage of Sorrento and Cole's channel, port Phillip, also of Western port, port Albert, and Corner inlet, will remain of the same shape as heretofore, but all starboard hand buoys or beacons shall be painted red, and all port hand buoys or beacons shall be painted black.

(10) The alterations in the buoyage of the several ports and channels have been and will be made during the following months and years :—

Western port	September 1891.
Port of port Albert	October 1891.
Port of Geelong, and entrance thereto from port Phillip	November 1891.
West channel, port Phillip	February 1892.
Port of Corner inlet	March 1892.
South channel, port Phillip	June 1892.

(11) Buoying and Marking of Wrecks. All buoys and topsides of vessels used for marking wrecks shall be painted green, with the word *Wreck* painted thereon in white letters, and when practicable shall be moored near to the side of the wreck next to mid-channel.

(12) When a wreck-marking vessel is used, she shall exhibit : —

By day : Three balls 20 feet above the level of the sea, two placed vertically at one side of the vessel, and one on the other side, the single ball being on the side nearest to the wreck.

By night : Three *fixed white* lights, similarly arranged, but not the ordinary riding light.

NOTICE TO MARINERS No. 225.

[First Publication.]

AUSTRALIA—Mary river.

New leading marks, Horseshoe bend.

The Port Master, Brisbane, has given notice (No. 34 of 1891) that two White Triangular Beacons have been erected on the south bank of the river, near Turkey Creek, to lead through the upper part of the Horseshoe Bend.

Directions.—After rounding the bend and passing a black buoy, haul up to bring these beacons in line. Steer with them in line until past the red buoy, when proceed as usual. The channel, the centre of which is marked by this line of beacons, is 150 feet wide, and has a minimum depth of 10 feet at low-water springs.

NOTICE TO MARINERS—No. 226.

[First Publication.]

AUSTRALIA—TORRES STRAIT.

Reported reef in western approach to Prince of Wales, Channel.

THE Port Master, Brisbane, has given notice (No. 35 of 1891) of Mr. Frank Jardine having crossed an unknown reef of small extent, with apparently not more than 6 feet over it at low-water springs, whilst sailing up to Thursday Island in a lugger.

When upon it his estimated position was about 5 miles west by north from Quoin Point, Goode Island. Very shortly after passing over it, whilst steering southerly, the Government Residency on Thursday Island opened clear of Quoin Point. Vessels are therefore cautioned to keep the Residency well open to the southward of Quoin Point when approaching from or leaving for the westward, and to exercise great care whilst in the locality.

BENGAL VETERINARY INSTITUTION.

REVENUE DEPARTMENT—AGRICULTURE.

Calcutta, the 22nd December, 1891.

RESOLUTION No. 3886Agri.

PROPOSALS for the establishment of a Veterinary School and Hospital in the vicinity of Calcutta have for some time been under the consideration of the Government of Bengal. The objects which Government have in view in establishing such an institution are the amelioration of the condition of animals, the investigation and treatment of cattle-disease, and the cultivation of veterinary science by means of instruction in connection with the treatment of diseased and injured animals. When the hospital has been constructed and the arrangements of the institution are in working order, it will be open to the drivers of hackney carriages and bullock carts to take their sick and sore animals there for treatment in accordance with such rules as the Committee of management may frame hereafter, on the lines of the arrangements made in Bombay with the Bombay Society for the Prevention of Cruelty to Animals, as suggested by Sir Dinshaw Manockjee Petit, or as may be otherwise determined.

2. It was at first proposed that the school and hospital should be located on part of the grounds occupied by the Pinjrapole Committee at the Sodepur

station of the Eastern Bengal State Railway, ten miles from Calcutta, the Pinjrapole Committee having offered to make a free gift of a portion of them and to contribute Rs. 30,000 to the construction of the necessary buildings. The Committee having since withdrawn their offer, Babu Sheo Baksh Bagla has very generously subscribed and paid to Government Rs. 30,000 in aid of the project, and has also offered (*a*) to give, free of cost, 3¼ bighas of land and tank at Belgachia on the Belgachia–Dum-Dum road; (*b*) to make over, on payment, four more bighas required for the whole scheme, the entire area of 7¼ bighas making one compact block with a road-frontage of about 270 feet from east to west, and a depth of 400 feet; and (*c*) not to charge anything for the house, the value of which he states at Rs. 2,500, standing within the area of the 7¼ bighas. As soon as he has completed his transactions for the purchase of the land, Government will issue a declaration, under Act X of 1870, for the acquisition of the whole 7¼ bighas, so that the title of Government to the land may be hereafter secure.

3. Sir Dinshaw Manockjee Petit, of Bombay, has also promised a donation of Rs. 25,000 for the establishment of the proposed hospital.

4. The Lieutenant-Governor desires to thank both these gentlemen for their liberality and public spirit. His Honour is quite willing to meet their wishes in regard to the naming of the contemplated Veterinary Institution as far as he can, and has accordingly decided that it should as a whole be called "The Bengal Veterinary Institution," and the parts thereof (1) "The Kenneth MacLeod Veterinary School," Babu Sheo Baksh Bagla being anxious to commemorate in this way Dr. K. MacLeod's labours in the cause of veterinary science, and (2) "The Sir Dinshaw Manockjee Petit Veterinary Hospital," and that a tablet should be put up with an inscription stating the objects of the Institution and connecting with it the names of the gentlemen above mentioned.

5. The Lieutenant-Governor has been pleased to appoint a Committee, consisting of the following members, to complete the organization of the proposed school and hospital, and for their management when established:—

1. Mr. M. Finucane, Director of the Department of Land Records and Agriculture, Bengal.
2. Babu Sheo Baksh Bagla.
3. Mr. W. B. Gwyther, Executive Engineer—to be also Secretary.

Sir Charles Elliott has inspected the site referred to above, and it appears to him to be conveniently situated, near to but not within Calcutta, and suitable and sufficient for the purposes for which it is required. Mr. Gwyther has drawn out a rough sketch of the buildings, which has been submitted for the opinion of Mr. J. H. B. Hallen, General Superintendent, Horse Breeding Department in India, as to their suitability, their arrangement, &c. As soon as the general plan of the buildings required has been settled, the Committee will have plans and estimates of cost properly prepared and submitted for the approval of Government.

ORDER.—Ordered that copies of the foregoing Resolution be communicated to Mr. Finucane, Mr. Gwyther, Baboo Sheo Baksh Bagla, and Sir Dinshaw Manockjee Petit, for information.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Secretary to the Government of Bengal.

RESOLUTION REVIEWING THE REPORTS ON THE WORKING OF MUNICIPALITIES IN BENGAL DURING 1890-91.

MUNICIPAL DEPARTMENT—MUNICIPAL.

Calcutta, the 18th December 1891.

RESOLUTION No. 2895.

READ—

The reports from the several Commissioners of Divisions on the working of the Municipalities in Bengal (except Calcutta) during the year 1890-91.

Read again—

The Resolution reviewing the divisional reports on the working of Municipalities during the year 1889-90.

The following Resolution reviews the reports submitted by Commissioners of Divisions on the working of municipalities during the year 1890-91.

2. *Number of Municipalities.*—The total number of municipalities in existence at the close of the year was 145 against 147 in the preceding year, the Khagoul and Gurwah Municipalities having been abolished during the year.

The statement in Appendix A shows the date of establishment of each municipality in the province, the population within municipal limits, and the actual number of rate-payers in each. The average proportion of rate-payers to the whole population within Municipal limits was 17·67 per cent. against 17·9 in the previous year. The decrease is due to the higher population figures of the recent census which have been used in the statements of the majority of municipalities. In many cases, however, the figures of the census of 1881 have been given either for whole divisions or for isolated municipalities, and it is therefore impossible to review the general results of the census in this Resolution.

3. *Elective System.*—The system under which two-thirds of the total number of Commissioners fixed for each municipality are elected by the rate-payers was in force in all the municipalities except the twenty-eight named below :—

Bettiah.	Dobhatta.	Lalgunge.
Chanduria.	Jajpore.	Lohardugga.
Chogda	Jamui.	Nalchitty.
Chyebassa.	Jehanabad.	Netrokona.
Colgong.	Jhalda.	Perozepore.
Cox's Bazar.	Jhalokati.	Raghunathpore.
Daltongunge.	Julpigoree.	Roserah.
Darjeeling.	Kendrapara.	Sitamarhi.
Daudnugger.	Khoolna.	Sonamukhi.
	Tikari.	

4. *Results of elections held during the year.*—The third general election of Commissioners under Act III (B.C.) of 1884 took place during the year on the expiry of the term of office of those elected in 1887. Elections were held in 113 Municipalities, and in the great majority of cases were contested with some spirit. The figures given are not altogether complete, as in some cases votes were not counted, and in others the results have not been reported; but in the Municipalities for which figures are forthcoming, the percentage of registered voters who actually gave their votes was 39·4 against 33·8 in the general elections of 1887.

This increase in the number of persons who actually voted may be regarded as a sign of progress, but the Lieutenant-Governor notices that in many towns the proportion of voters who appeared at the polls was so small as to deprive the elections of all value as a test of public feeling, and several local officers report that even where considerable excitement was aroused by the elections, these were fought on purely personal grounds and without any

trace of intelligent public feeling. The best attendance of voters was at Birnagore in the Nuddea district, where 361 voters out of a total electorate of 373, or 96·7 per cent. of the whole voting power of the Municipality, were present at the polls: at Serajgunge out of 664 registered voters 600, or 90·3 per cent., actually gave their votes. The Commissioner of the Presidency Division reports that interest in the elections is confined to the lower middle class, the upper and higher middle classes standing aloof, while in some cases the votes of the lower class of electors were obtained by improper influence. The Lieutenant-Governor has reason to believe that this account of the state of affairs is not altogether exaggerated. The remedy seems to lie in raising the standard of electoral qualification—a question which is separately receiving His Honour's consideration in connexion with the amendment of the Municipal Act. There were several cases of disputed elections, but in no case were the objections raised sufficient to invalidate the proceedings. At Serampore, by an error in counting, the candidate who had obtained the smaller number of votes was declared elected. The Advocate-General having held that nothing could invalidate this declaration, the opposing candidate was appointed to the Municipal Board as a nominee of Government.

5. The chief point calling for notice which arose from the general elections was the question of the status of the Municipal body between the time of the elections and that of the appointment of the fresh body of Government nominees. Under the present law it would seem that the old body of Commissioners ceases to have a corporate existence as soon as the elections are declared, while the new body is not complete until the Government appointments have been notified, and the consequence has frequently been a more or less prolonged suspension of the Municipal business. It has also been brought to the Lieutenant-Governor's notice that the present practice of holding the general elections in the cold weather, which is the time at which Municipal works should be carried out, is prejudicial to the public interests. These questions are being separately considered by His Honour.

6. The following statement shows, Division by Division, the constitution of the Committees of the various municipalities at the close of the year:—

Division.	Nominated.	Elected.	Total.	Europeans.	Natives.	Government servants.	Zemindars or other landholders.	Pleaders and mukhtears.	Planters.	Merchants, traders and money-lenders.	Medical practitioners.	School-masters (other than Government servants).	Government pensioners.	Unspecified.

In January last the Commissioners of Divisions were asked to furnish in their Annual Reports detailed information regarding the profession or occupation of the gentlemen serving as Commissioners of Municipalities. The information was, however, omitted in several of the Divisional Reports and had to be obtained by subsequent reference, while the totals of figures furnished in many cases do not agree with those entered in Form No. I. The Lieutenant-Governor hopes that in future the required information on this head may be correctly given in the Annual Reports. The following table compares the percentages of

officials and Europeans respectively on the total number of Commissioners during 1890-91 with the corresponding percentages of the previous year, and with the average of the five years 1884-85 to 1888-89:—

	Officials.	Europeans.
Average percentage for the years 1884-85 to 1888-89	16·4	9·9
1889-90	16·1	9·0
1890-91	17·5	8·2

7. *Attendance at meetings.*—The largest number of meetings during the year in any municipality was 35, held by the Municipal Commissioners of Cutwa. In each of the following 22 municipalities the number of meetings exceeded 20:—

District.	Name of Municipality.	Number of meetings.	Average percentage of attendance.
Burdwan ...	Cutwa ...	35	48·3
	Burdwan ...	34	53·6
Maldah	English Bazar . .	31	21·2
Hooghly	Serampore ...	27	59·4

Chittagong ...	Chittagong ...	25	50·3
Nuddea ...	Santipore ...	24	51·2
Tipperah ...	Comilla ...	23	48 7
Nuddea ...	Kumarkali ...	23	46·6
Mymensingh ...	Nasirabad ...	22	52·7
Dacca ...	Dacca ...	22	42 4
24-Pergunnahs ...	Maniktolla ...	22	38·2
Hooghly ...	Baidyabatty ...	22	36·1
Furreedpore ..	Madaripore ...	21	67 4
Midnapore ...	Chunderkona ...	21	57·5
Manbhoom ...	Purulia ...	21	50 7
Mymensingh ...	Kisoregunge ...	21	46 6
Moorshedabad ..	Jungipore ...	21	38·1
Jessore ...	Jessore ...	21	38 0

On the other hand, in the Utterpara and Barh Municipalities only three meetings were held, and only four each in Kotrung, Cox's Bazar, and Jugdispore, while in no less than 48 municipalities the number of meetings was less than 12. Section 38 of the Act provides that the Commissioners of a municipality shall meet at least once every month for the transaction of business (if there be any business to transact), and the Lieutenant-Governor cannot believe that in any

municipality less than twelve meetings is compatible with a proper performance of their duties by the Commissioners. During the year 1889-90 more than 20 meetings were held in 27 municipalities, and in only 26 were there less than twelve: there has therefore been a great falling off, which though possibly due in some measure to the suspension of municipal business on account of the elections, cannot be regarded as satisfactory.

In 83 municipalities as against 82 in 1889-90, the average attendance of Commissioners at the meetings exceeded 50 per cent. It is probable that these figures also were unfavourably affected by the apathy produced by the near approach of the elections, but the Lieutenant-Governor does not consider that any circumstances can justify an average attendance of less than half the members of the Committee, and he hopes to see an improvement in this respect on the part of the Commissioners newly elected and appointed.

Sir Charles Elliott regrets to observe that the Magistrate of Maldah reports that while the elected Commissioners gave much time and trouble to their duties, the Commissioners nominated by Government displayed no interest in municipal affairs. If this state of things continues, the Magistrate should call upon these gentlemen to resign their offices and nominate more energetic representatives of Government.

8 *Ward Committees.*—The Lieutenant-Governor is disappointed to find that ward committees have been appointed in only 12 municipalities, and that in only one of these, Rampore Beauleah, are they said to have done any useful work, while in Patna the ward committees are alleged to have made such bad use of the powers conferred upon them, that these powers have been withdrawn by the Municipality. In His Honour's opinion ward committees should be the mainstay of municipal administration by helping the executive in the many matters that require local information and cannot be decided by the Commissioners at a meeting, and in relieving the Chairmen and Vice-Chairmen of many of the executive functions which they have not the time or the special knowledge to carry out properly. Care must at the same time be taken that no functions are delegated to ward committees which can be better exercised by the Chairman as the executive head of the entire body of Commissioners.

9. The Municipal Benches in the Province tried 19,668 cases of nuisance and breach of conservancy rules in which 17,689 persons were convicted against 16,604 cases and 14,730 persons convicted in the previous year. The average amount of fines inflicted on each offender varied from Rs. 6-12-4 in the Daudnagar Municipality in the Patna Division down to Re 0-2-9 in the Dainhat Municipality in the district of Burdwan The following statement shows the work done in detail:—

10. *Assessments.*—The statement in Appendix D shows the mode of assessment prevailing in each municipality in the province, the rate at which the tax on holdings or on persons according to their circumstances and property within municipal limits was levied, and the result of any revision of assessment made during the year. The tax on holdings was in force in 36 municipalities* as in the previous year, and was levied at rates below the maximum (ordinarily 7½

*Burdwan	Division	...	8

	Sahebgunge ...	... 5	

Out of the twelve municipalities named above, seven are the head-quarters stations of important districts, and the inhabitants may be supposed to be well able to bear the maximum rate of taxation leviable under the law. As long as the Municipal Commissioners of thriving towns so far neglect the means ready to hand of raising the funds required for much needed improvements, the Lieutenant-Governor cannot admit the plea of financial inability so often put forward as an excuse for inaction in the most important duties of a Municipal Committee. It is satisfactory to find, however, that the rate was raised in Monghyr from 6 to 6¼ per cent., in Sahebgunge from 3½ to 5 per cent., and in Sewan from 7 to 7½ per cent., and the Lieutenant-Governor trusts that the other municipalities will follow this good example. The incidence of municipal taxation per head of population in the several Divisions was as follows :—

Division.	Incidence of taxation.						Remarks.
	Maximum.		Minimum.		Average.		
	1889-90.	1890-91.	1889-90.	1890-91.	1889-90	1890-91.

A general or partial revision of assessment was undertaken in several municipalities, and among those in which it was completed and brought into force during the year, the revision resulted in an increase of income in 39 and a loss in 11 municipalities. In some cases the operations were not completed during the year, and in others it was proposed to enforce the new assessments with effect from 1st April 1891. The largest increase of income accrued to the Municipalities of Gya (Rs. 4,000), Durbhunga (Rs 3,212, out of an expected increase of Rs. 6,000), Burrisaul (Rs. 2,683), Sahebgunge (Rs. 1,400), Manicktolla (Rs. 1,324), and Berhampore (Rs. 1,300). The average incidence of municipal taxation throughout Bengal (excluding Calcutta) was annas eleven and pie eleven as in the previous year, and in 72 municipalities (none in the Rajshahye Division) the incidence amounted to 8 annas or less per head against 67 in the preceding year. The subject of municipal assessment and its periodical revision is at present separately under the consideration of Government, and it is needless to review it at any length in this Resolution.

11. *Demands, collections and outstandings on account of taxes.*—The attention of Municipal Commissioners has been frequently drawn to the necessity for realising taxes promptly and for arranging the collections on such a system as shall guard against the accrual of long-standing arrears, and shall protect the Municipalities against loss from embezzlement by the collecting agency. In order to secure this object definite instructions were laid down during the year in the shape of rules forming an appendix to the general rules for keeping

Municipal accounts. One of these rules requires Municipalities to submit every year, in the month of June, a taxation report through the Magistrate of the district to the Commissioner of the Division in the form of a combined progress statement for the Municipality, and if there are outstandings extending further back than the first quarter of the previous year, to furnish a full explanation why these taxes have not been either collected or remitted. The Commissioner of the Division is to submit these explanations to Government for orders with his remarks. In the Divisional Reports now under review, the information given under these heads is not sufficiently complete to enable any general figures to be prepared. From figures furnished by the Commissioners of the Burdwan, Rajshahye, and Chittagong Divisions, it appears that the realizations in those Divisions amounted respectively to 76·4, 90·9, and 73·7 per cent. of the nett demand, and the remissions to 2·6, 3·6, and 2·7 per cent., after deduction of remissions for the year. The Commissioner of Burdwan reports that in the Baidyabati Municipality the remissions granted amounted to 19·5 per cent. of the total demand. The Commissioner has already called for an explanation of these figures, and the explanation when received should be submitted to Government. From the reports received it would appear that the collection of taxes is hardly in a more satisfactory condition than the assessments. The Commissioner of Burdwan reports that in the Hooghly and Chinsura, and Midnapore Municipalities there are arrears of five and six years' standing, and the Commissioner of Chittagong observes that in the Chittagong Municipality arrears as far back as 1882 are still unrealized, and that it is stated that the Municipality has of late years lost from Rs. 600 to Rs. 1,000 yearly, owing to want of supervision over the tax-collecting department. The lack of real control over the collection of taxes is shown in many municipalities by the excuses put forward for insufficient realizations during the year, such, for instance, as that the time of the tax-darogahs was taken up by duties in connection with the elections or the census, or that the tax-collector was on leave or under suspension. The Lieutenant-Governor hopes that the rule referred to above will effect an improvement in this department, and that the next Annual Reports will contain a more satisfactory account of the administration of the tax-collecting branch of Municipal business. The work of constantly supervising and checking the operation of the collecting staff devolves more especially upon the Vice-Chairman, whose duties are laid down in the account rules, and the Lieutenant-Governor will look to these gentlemen to see that in future the routine of collecting current and arrear demands is arranged on an intelligent system in the first instance, that that system is carefully followed, and that the instructions issued by the local auditor for dealing with old arrears are fully carried out. The Vice-Chairman of a Municipality may fairly be expected to devote as much care and attention to the supervision of the Municipal finances as he would give to his own affairs, and if he cannot find time to look after the accounts properly, it is his duty to resign his post to some one with more leisure to attend to the details of one of the most important branches of Municipal business. From the taxation reports separately submitted by the Commissioners of the Patna and Orissa Divisions, in accordance with the rule mentioned above, it appears that the Municipal Commissioners are carefully carrying out the instructions therein laid down, and it may be hoped that heavy arrears will not be allowed to accumulate in the future. The Lieutenant-Governor notices with satisfaction that in the small Municipality of Kendrapara in the Orissa Division there was no arrear for the year under review, and that in Balasore and Bhabooah there were only very small outstandings, and those were due only for the third and fourth quarters of the year, and were in course of collection.

12. *Fresh imposts levied during the year.*—Sanction was given to the levy of a tax on horses and elephants in the Tangail Municipality, and to the imposition of a fee on the registration of the carts kept or habitually used within the Municipalities of Kishoregunge, Ranchi, Lohardugga and Purulia. Sanction was also accorded to the levy by the Commissioners of the Cutwa, Soory, Khulna, Kishoregunge and Berhampore Municipalities of fees for the cleansing of private latrines within the respective municipalities. It is, however, reported that there is a general dislike on the part of Municipal Commissioners to anything of the nature of increased taxation.

13. *Extension of various provisions of the Municipal Act and Bye-laws sanctioned during the year.*—The conservancy and other provisions of Part VI of the Act, or portions of them, were extended during the year to Ghattal, Kharar, and Kandi Municipalities.

Part IX of the Act, which regulates the construction and cleansing of latrines, was extended to the Municipalities of Cutwa, Soory, Khulna, Kishoregunge, Berhampore, and parts of Burdwan. Although these provisions were extended to Bankura in 1889, no action, it is reported, has yet been taken by the Commissioners in the matter. The reasons why the provisions are not being actually enforced in the town are not explained, and the Commissioner of Burdwan will be asked to submit a report on the subject.

Part X, which contains provisions for the regulation of markets, was extended to Julpigoree; but the Commissioners have kept its operation in abeyance for the present.

Bye-laws were framed under section 350 of the Act by the Commissioners of the following municipalities, and were confirmed by Government :—

Ghattal.	Daltongunge.	Durbhunga.
Joynagore.	Darjeeling.	Soory.

14. *Revision of Municipal boundaries.*—In the Burdwan Division the boundaries of the Raneegunge Municipality were revised so as to include two adjoining villages in the municipal limits. A portion of the town of Jungipore in Moorshedabad having been washed away by the river on which it stands, the boundaries were extended so as to include two villages within the Municipality. A case has recently come to the Lieutenant-Governor's notice, in which it was found that a village which had been recommended by the Municipal Commissioners of the Debhatta Municipality and by the local officers for inclusion within that municipality contained a population which was more than three-fourths agricultural, and that the proposal could not therefore, under the terms of section 11 of the Act, be lawfully entertained. His Honour has reason to believe that Municipal Committees are not always sufficiently careful, when recommending the extension of the Act to outlying villages, to assure themselves that the conditions laid down by the law are fulfilled, and desires that in future local officers will not forward such proposals without first satisfying themselves on this point. As the law at present stands, no village which has been included within municipal limits can be withdrawn from the operation of the Act except on the recommendation of the Commissioners at a meeting.

15. *Income and expenditure.*—The following table compares the opening balances, income, expenditure and closing balances of municipalities, Division by Division, for the year 1890-91, with those of the preceding year :—

Division.	Opening balance.		Income during the year.		Total funds available for expenditure.		Total expenditure.		Closing balance.	
	1889-90.	1890-91.	1889-90.	1890-91.	1889-90.	1890-91.	1889-90.	1890-91.	1889-90.	1890-91.

Orissa ...	1,868	3,635	6,786	86,320	88,654	89,955	85,019	84,565	3,635	5,390
Chota Nagpore ...	10,643	11,220	63,519	64,409	74,162	75,629	63,127	61,339	11,035	14,290
Total ...	3,46,402	3,16,262	26,47,502	28,24,204	29,93,904	31,42,466	26,77,511	27,81,524	3,16,393	3,60,942

There is a total discrepancy of Rs. 1,869 between the opening balance of 1890-91 and the closing balance of the previous year. This is due mainly to the accounts of the Ramjibunpore Municipality, which show a difference of Rs. 1,550 owing to the fact that the sum of Rs. 1,500 invested in Government securities and Rs. 50 paid as advance on account of departmental work

during the previous year was added to the opening balance of the year under review. The other small discrepancies have been explained by the local officers. In many municipalities the closing balance seems to be unduly large, in view of the admitted need of sanitary and other works and the plea of poverty which is constantly put forward as an excuse for delay in undertaking them.

16. *Income.*—From the above table it will be seen that there was a total increase in the income of municipalities in Bengal of Rs. 1,76,702. Nearly a lakh of this, however, accrued under debt heads, including loans, deposits, advances and sinking fund payments, which amounted to Rs. 2,88,144 against Rs. 1,87,051 of the previous year. The income from taxation proper is compared, Division by Division, with that of the previous year in the table below :—

Year.	Name of Division.									
	Burdwan.	Presidency.	Rajshahye.	Dacca.	Chittagong.	Patna.	Bhagulpore.	Orissa.	Chota Nagpore	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1889-90	5,07,501	3,87,617	1,68,299	2,23,819	45,148	3,58,813	1,40,136	65,884	38,541	19,35,911
1890-91	5,43,474	4,19,402	1,76,073	2,10,760	49,737	3,56,439	1,29,983	67,794	38,189	19,91,960
Increase (+) or decrease (—) ...	+35,973	+31,785	+7,820	—13,059	+4,589	—2,374	—10,153	+1,820	—352	+56,049

The increase and decrease of income under this head during each of the last two years is shown in the following table:—

Division.	Increase (+) or decrease (—).		Total.	Remarks.
	1889-90.	1890-91.		
Burdwan ...	+ 7,318	+35,973	+43,291	* *Vide* paragraph 13 of resolution for 1889-90.

Orissa	+11,172	+1,820	+12,992	
Chota Nagpore ...	+8,003	—352	+7,651	

The Lieutenant-Governor notices with satisfaction the continued progress shown by the municipalities in the Burdwan, Rajshahye, and Orissa Divisions. As regards the Patna Division, which last year showed the largest increase of income under this head, the Commissioner reports that the decrease occurs in the districts of Patna, Shahabad, Durbhunga and Chumparun, but chiefly in the first two districts. In the Patna Municipality there is a noticeable decrease under the head "House-tax" and "Latrine-tax," said to be due to an increase in the number of appeals and applications for exemption and revision of assessment and delays in disposing of them on the part of the Appeal Sub-Committee, to the prevalence of sickness in the town, and to the employment of tax-collectors in the late general elections and again on census

work. The last-mentioned reason applies equally to almost all the municipalities, and as already remarked in paragraph 10, the Lieutenant-Governor cannot admit it as a valid excuse for the neglect of the most elementary duties of municipal administration. The employment of municipal servants in connection with the general elections would seem to require explanation. In Dacca there has been a large falling off in the income from taxation during both the years, and here the fault seems to lie in the assessments, a point which has already been discussed, and which His Honour considers to be one of the vital questions of municipal government. No explanation is furnished by the Commissioner of Bhagulpore of the decline in the income from taxation in his Division. The Lieutenant-Governor desires that in comparing the income of municipalities during the year with that for the previous year, the income from taxation proper should always be separated from that from miscellaneous sources, and any appreciable fluctuations explained in the Commissioners' reports.

17. The statement in Appendix E shows the details of income under each head, Division by Division, as compared with that of 1889-90. The total receipts from the municipalities show an increase under the following heads:—

Heads of Revenue.			Amount of increase.
Taxation—			Rs.
Conservancy cess		...	47,519
Tax on houses and lands ...		...	4,778
Water tax		...	1,947
Tax on carriages and animals ...		...	13,331
Tolls on roads and at ferries ...		...	2,785
Total Taxation		...	70,360
Miscellaneous		...	19,560
Debt—			
Loans	79,000		
Deposits and advances ...	22,093		
			1,01,093
Total		...	1,91,013

On the other hand, there was a decrease under the following heads:—

Heads of Revenue.			Amount of decrease.
Taxation—			Rs.
License on trades		...	3,209
Tax on persons according to their circumstances and property		...	9,879
Fees on musical processions ...		...	1,223
Total		...	14,311

18. *Conservancy Cess.*—The increase in the receipts occurred chiefly in the Burdwan, Presidency, and Rajshahye Divisions. There was a large increase of income, as compared with 1889-90, of Rs. 16,937 in Howrah, Rs. 3,474 in Serampore, Rs. 2,710 in Maniktolla, Rs. 2,182 in Baranagore, and Rs. 2,124 in the South Suburban Municipality. The increase was due in Serampore partly to the enforcement for the first time of the provisions of Part IX of the Act in certain portions of the town, and in other places to increase in demands on account of new assessments and collections of arrears. The tax was levied for the first time in the Municipalities named in the margin,* and brought an accession of income as noted against the name of each.

	Amount of tax realized. Rs.
*Bally ...	... 1,033
Ranigunge	... 1,009
Soory ...	... 1,597
Khoolna ...	... 2,814
Berhampore	... 9,984
Dinagepore	... 4,045
Motihari ...	... 816

The Municipalities of the Presidency Division all show an increase of income under this head, with the exception of Krishnaghur and Jessore, where the decrease was only nominal, whilst those in the Dacca Division show a falling off (except Barisal, where there was an increase of Rs. 771). In the Municipality of Dacca there was a large falling off of Rs. 4,339 attributed to the collections of the previous year having included a large arrear, and to the employment of tax collectors on census work.

In Patna the income derived from this source has fallen from Rs. 12,421 in 1887-88 to Rs. 8,992 in the past year. The tax is in force only in two wards of the city; and in these its proceeds have been continually reduced in consequence of the Commissioners exempting from tax houses which have no privies. The result has been that a constant abolition of privies has been going on ever since, and collections have been interfered with by the increasing number of applications for exemption. At a recent meeting the Municipal Commissioners of Patna resolved, in accordance with the opinion of the Advocate-General given on the corresponding section of the Latrines Act, VI (B C.) of 1878, to levy latrine tax on all premises on which house tax is levied Measures will be taken when the Municipal Act is amended to remove any uncertainty that may exist on this point.

19. *Tax on houses and lands.*—There was an increase under this head as compared with the previous year in the Divisions of Burdwan (Rs. 8,036), Presidency (Rs. 10.353), and Chittagong (Rs. 5,076), whilst there was a falling off of Rs. 6,553 in the Dacca Division, Rs. 8,725 in Patna, and Rs. 3,957 in the Bhagulpore Division. Although the figures against Burdwan show an increase in the aggregate, the increase was actually shared by the municipalities of Howrah (Rs. 11,565), and Bally (Rs. 1,218), whilst in the rest of the municipalities in the Division, where the tax is levied, the revenue fell off. In the Presidency Division the three Municipalities of Cossipore-Chitpore, Maniktolla, and South Suburbs show an increase of Rs. 2,829, Rs. 7,678, and Rs. 2,903 respectively, whilst all the rest show a small falling off of revenue. In the Chittagong Municipality the income rose from Rs. 7,804 in 1889-90 to Rs. 12,862 in 1890-91. The municipalities named in the margin show a large falling off of income. In the case of Patna there can be little doubt that the town is greatly under-assessed. The system under which appeals against assessment were received and disposed of by Ward Committees was distinctly adverse to sound assessment, and it is stated that at the elections of December 1890 several Commissioners sought election on pledges to reduce taxation. The assessment of some portions of the town was revised during the past year, but the revision did not add to the Municipal income, as in almost all cases where the valuation was raised the Appeal Sub-Committee reduced it. The decrease of Rs. 5,530 in Dacca is attributed to the same causes that were mentioned in the last paragraph as having affected the collections of conservancy cess. Although there are no Ward Committees, the Ward Commissioners make assessments, and the existing valuation is believed to be very unequal.

Name of Municipality.	Amount of decrease. Rs.
Dacca	5,529
Patna	6,264
Jamalpore (Monghyr) ...	3,223
Hooghly and Chinsurah	1,933
Serampore	1,158

20. *Water-rates.*—Water-rates were levied only in Burdwan and Darjeeling, as in the previous year. There was an increase of Rs. 1,705 in Burdwan and a small increase of Rs. 242 in Darjeeling. The increase in Burdwan was due to the raising of the rate from 4¼ per cent. to 5 per cent. on the annual value of holdings. No water-rate was levied at Bhagulpore, but the town has been assessed for a water-rate during the current year.

21. *Tax on carriages and animals.*—There was an appreciable increase of income in the Municipalities of Patna (Rs. 3,807), Baidyabati (Rs. 1,943), Maniktolla (Rs. 1,692), Midnapore (Rs. 1,410), Howrah (Rs. 1,334), South Suburbs (Rs. 1,184), and Cossipore (Rs. 1,074), whilst there was a falling off of Rs. 1,095 in Baranagore. All the Municipalities in the Bhagulpore Division show a decrease of income under this head.

22. *Tolls on roads and at ferries.*—As was observed in the Resolution on the Reports of 1889-90, no tolls are levied on any roads in Bengal, and this heading,

therefore, refers only to ferry tolls. There was an increase in the Patna Division of Rs. 5,710, in Dacca of Rs. 1,990, and in Chittagong of Rs. 302, the income having fallen off more or less in the rest of the Divisions, except Chota Nagpore, where no tolls are levied by any of the Municipalities. The Municipalities of Mozufferpore, Dacca, and Revelgunge show the largest increase of income, viz., Rs. 3,842, Rs. 2,605, and Rs. 2,003, respectively. The increase in Mozufferpore was due to the bridge over the Burganduk river not having been repaired by the District Board, which enabled the Municipality to give a lease of the ferry at Akhara Ghât, and thus add considerably to their income. There was a falling off of Rs. 1,420 and Rs. 1,145 in the Lalbagh and English Bazar Municipalities respectively, of which no explanation is given.

23. *Miscellaneous.*—The following Municipalities show the largest fluctuations in the receipts as compared with the previous year :—

Municipality.	Amount of increase.	Municipality.	Amount of decrease.
	Rs.		Rs.
Howrah ...	... 16,325	Midnapore ...	... 4,196
Burdwan ...	... 13,299	Baranagore ...	... 3,002
Maniktolla ...	... 3,812	Berhampore ...	... 2,872
Krishnaghur ...	... 3,112	Rampore Beauleah	... 6,831
Khoolna ...	... 5,856	Madaripore ...	... 7,929
Dacca ...	... 2,910	Chittagong ...	... 3,932
Nasirabad ...	... 6,213	Mozufferpore	... 4,842

In Burdwan the increase consisted of Rs. 1,406 on account of increased receipts from the municipal school, due to the raising of the schooling fees, Rs. 5,000 realized by the sale of municipal debentures, and Rs. 4,298 paid by Babu Banshi Gopal Nandi as the price for the site of a Town Hall. The Khoolna Municipality received a grant of Rs. 6,000 from Government, being part of a special grant of Rs. 50,000 sanctioned for the improvement of the town. The decrease in Rampore Beauleah is only apparent, as the receipts of the previous year included donations from private individuals, amounting to about Rs. 6,000, for the improvement of drainage and water-supply. The old market at Madaripur having been washed away by the action of the Arialkhan river, the Municipality acquired a new site and re-established a market in 1889-90. The lands so acquired were let out to the merchants and shop-keepers on payment of heavy premia in addition to the annual rents. These premia amounted to over Rs. 8,000, which caused a large increase in receipts under this head in 1889-90, and a corresponding falling off in the year under review. The other fluctuations are not explained in the Commissioners' reports.

24. *Tax on persons according to their circumstances and property.*—There was a slight increase in the total receipts in the Burdwan Division, whilst in the Orissa and Chota Nagpore Divisions income under this head remained practically unchanged from the previous year. In the rest of the Divisions there was a falling off under this head. There was a large decrease in the Municipalities of Lalbagh (Rs. 5,990), Kandi (Rs. 2,484), Sasseram (Rs. 2,466), and English Bazar (Rs. 1,655), whilst the accounts of the Municipalities named in the margin show an appreciable increase. The increase in Baidyabatty is attributed to an increase in the rate of taxation. To the revision of assessments made during the year, the delay in the disposal of objections and the employment of the tax-darogah for more than three months in the census work is attributed the falling off of income in the Sasseram Municipality. The large decrease in Lalbagh was due to the exclusion of certain villages from municipal limits. Although, excluding Lalbagh, there has been an increase of revenue in the Presidency Division, the Commissioner thinks that it should be very much greater with vigorous and impartial administration. In Arrah a revision of the tax on persons was undertaken during the year, but it resulted in a decrease of income amounting to Rs. 292, and the executive officers of the Municipality are said to be unduly conscious of the odium attaching to any attempt to raise the assessment of the town.

Municipality.	Amount of increase.
	Rs.
Baidyabatty	... 2,214
Baranagore	... 4,322
Naihati ...	... 3,218
Baduria ...	... 1,057
Behar ...	... 1,273

25. The following table shows the grants received by municipalities from Provincial or Local Funds:—

Name of Municipality.	Amount of grant.		From what fund and for what purpose sanctioned.
	Rs.	A.	
Burdwan	1,594	0	Rs. 937 from Government as grant-in-aid to schools maintained by this Municipality, Rs. 57 from Burdwan District Board for training a nurse, and Rs. 600 from the same Board as contribution to the cost of maintaining the Burdwan charitable dispensary.
Bankoora	1,000	0	From the District Board towards the cost of maintenance of the charitable dispensary.
Midnapore ...	3,189	0	From Government for maintenance of the college and collegiate school.
	459	0	From the Mohsin Fund for the part schooling fees of Mahomedan boys of the collegiate school.
	180	0	From the District Board towards the support of the charitable dispensary.
Khirpai	77	0	Ditto ditto.
Chunderkona	15	0	From the District Board towards the support of the charitable dispensary in the fourth quarter of 1889-90.
Khulna	7,000	0	From Government—Rs. 1,000 (annually) for the maintenance of roads transferred to the charge of the Municipality, and Rs. 6,000 being part of a special grant sanctioned for the improvement of the town.
Darjeeling	6,483	8	From Government (annually) for the maintenance of certain Government roads within municipal limits.
	1,050	0	From the Darjeeling Improvement Fund for the repayment of the Cooch Behar loan of Rs 50,000, and for the working of the Porters' and Dandiwallas' Act.
Rampore Beauleah ...	1,386	0	From the Prosunnanath Roy Fund (annually) for the maintenance of the charitable dispensary.
Nattore	1,393	0	From the Prosunnanath Roy Fund (annually) for the maintenance of the dispensary.
Nasirabad	1,000	0	From Government (annually, for a term of 5 years) for the support of the charitable dispensary and school.
	600	0	From the District Board for the support of the charitable dispensary and school
	30,000	0	Promised by the District Board for the water-works to be constructed in the town. to be paid in three years.
Burisaul	1,200	0	From the District Board for the maintenance of the charitable dispensary.
Patna	5,725	0	From Government Rs. 5,725 out of the Wahabee Fund to meet the preliminary expenses of the drainage and water-supply schemes.
Dinapore	1,850	0	From Government Rs. 1,850 (annual) for the repair of that portion of the Bankipore-Dinapore Road which lies within municipal limits.
Gaya	4,471	0	From the Lodging-house Fund for (1) constructing a pucca drain in the old town, (2) Gaya Pilgrim Hospital, and (3) metalling a road in the old town.
Sasseram	1,200	0	From the Sasseram Endowment Fund (annually) for the support of the Sasseram dispensary.
Durbhunga	2,426	0	From Government, Public Works Department, for maintaining two roads in the Collectorate compound.
Motihari	400	0	From the District Board as contribution towards the expenses incurred by the municipality on the charitable dispensary in treating patients resorting to the dispensary from beyond municipal limits.
Bhagulpore	600	0	From the District Board for the maintenance of the charitable dispensary.
Deoghur	300	0	From the Pilgrims' Lodging-house Fund for improvement of street lighting.
Pooree	4,000	0	From the Pooree Lodging-house Fund for the conservancy of the town.

26. The Lieutenant-Governor has read with great satisfaction the record in the Commissioners' Reports of gifts of money or land made, and works of public utility executed, by private individuals within municipal limits. His Honour notices the following instances of private munificence as specially deserving of acknowledgment:—Rupees 3,300, which remained to be paid out of Rs. 6,300 contributed by Babu Kali Krishna Tagore of Calcutta for metalling a road in the Baranagore Municipality, was received during the year. Rupees 112 was contributed by the same gentleman for seven lamp posts for the Municipality. The Lieutenant-Governor also notices with satisfaction the good work done in the same Municipality by the dispensary established by the late Babu Sagore Chundra Dutta of Calcutta at Kamarhattee, and opened on the 1st April 1890; the cost of establishment and medicines amounted to Rs 7,552-2, which was entirely defrayed from the funds allotted by the deceased gentleman. In South Dum-Dum, Rai Chatrapati Singh Bahadur made a free gift of land, measuring 7 cottahs and 10 chittacks, for the purpose of making a road. In Naihati (24-Pergunnahs), Srimati Monmohini Dassi, widow of the late Kerr Terak, built a pucca ghât on the river Hooghly at a cost of Rs. 6,000. Mr. C. Orr, the Manager of the Gouripore Company, also constructed a ghât at a cost of Rs. 2,000. Babu Bangshi Gopal Nandi of Burdwan made a donation of Rs. 4,298 for the purchase of a site for a town hall within the Municipality, but the land has not yet been formally acquired, and the case is pending in the Civil Court, though the foundation-stone was laid by Sir Steuart Bayley in July 1890. Her Highness the Dowager Maharani Narain Kumari of Burdwan has made a gift of the site of the Soory Municipal market, on the condition that, if the market ceases to exist, the land is to revert to her. To the Midnapore Municipality, Raja Mohendro Lal Khan of Moisadul contributed Rs. 25 a month for the maintenance of the ward for contagious and moribund cases attached to the Municipal Charitable dispensary. In Ghatal, Babu Chintamoni Kumar is constructing a pucca bathing ghât on the left bank of the river Silye. Some lands and Rs. 766 in money were given by Her Highness the Maharani Surnomoyi of Cossimbazar for the construction of a road in Howrah to be called after her name. In Bali, Babu Kanti Chunder Mukerjea has undertaken to build a pucca bathing ghât on the river-bank at an estimated cost of Rs 5,000. A commodious building is being erected in the Rampore Beauleah Municipality at the cost of the late Rai Grishchandra Lahiry Bahadur, zemindar of Kasimpore, for the purpose of accommodating the Rajshahye public library. The work has approached completion, and has cost about Rs. 2,000 Raja Deonundun Singh of Sheohur in Mozufferpur contributed Rs. 1,000 for the construction of a new female ward to be attached to the Sitamarhi Dispensary. Babu Satyendra Nath Dey of Balasore, the owner of a thickly populated and insanitary *bustee* in the heart of the Balasore Municipality, had it remodelled at a cost of about Rs. 2,000, an excellent work, well worthy of imitation by other landlords. Syad Ibrahim Hossain Khan of Patna has placed in the hands of Government Rs. 2,000 with which to found scholarships tenable at the Medical College, Calcutta, for Behari Mahomedan women studying midwifery. He has also liberally provided 60 iron beds at a cost of nearly Rs. 1,500 for the use of patients in the Bankipur and Patna City Hospitals. Kazi Reza Hossain Khan Bahadur contributed Rs. 1,000 towards the cost of constructing the Begumpur Road in Patna. In Kishengunge, Babu Lal of Khagra excavated a large tank at an estimated cost of Rs. 1,100 by the side of the Ganges and Darjeeling Road for supplying good drinking-water to travellers. Raja Nilmoni Sing Deo of Pachete made a gift of Rs. 5,000 for the improvement of the water-supply of the Purulia Municipality. This gift has already been acknowledged by Government. In the same Municipality Babu Surja Ram Marwari built a masonry well at a cost of Rs. 80. Babu Chandra Mohun Basak of Dacca paid Rs. 4,000 to the Municipality for improving a street in that town. At Bhagulpore, Babu Udit Narain Singh of Hundwa has promised a contribution of Rs. 26,000 for the extension of the water-works. Nawab Ahsanulla Bahadur of Dacca made a donation of Rs. 5,000 to the Comilla Municipality towards the lighting of the town.

27. *Expenditure.*—The total municipal expenditure of the province was Rs. 27,81,524 against Rs. 26,77,511 of the preceding year, showing an increase

of Rs. 1,04,013. The year closed with a balance of Rs. 3,60,942, against Rs. 3,16,393 of the year 1889-90. The following statement compares the percentages of the municipal expenditure in each Division under each of the principal heads of expenditure (excluding debt and suspense heads) during the last two years:—

Head of Expenditure.		Name of Division.									
		Burdwan.	Presidency.	Rajshahye.	Dacca.	Chittagong.	Patna.	Bhagulpore.	Orissa.	Chota Nagpore.	Provincial total.

The Lieutenant-Governor desires that the main heads of expenditure incurred by each Municipality may in future divisional annual reports be compared in the form of the above statement. The statistical information thus collected will enable Commissioners and Magistrates to exercise some check where any class of expenditure falls much below or rises much above the normal rate without the existence of any special reason.

28. The statement in Appendix F shows the details of expenditure under each head, as compared with the previous year. The largest expenditure was as usual incurred on conservancy (Rs. 5,05,355), public works, including the maintenance and repair of roads (Rs. 4,73,551), general establishment, including collection charges (Rs. 2,99,547), maintenance of medical institutions (Rs. 2,32,651), road-cleaning establishment (Rs. 1,84,768), establishment and appliances for lighting (Rs 1,43,343), water-works (Rs. 1,38,501), and public instruction (Rs. 1,15,288). The chief differences in expenditure as compared with that of the previous year are the following :—

Increase.

Heads of expenditure.	Amount of increase. Rs.
Establishments and appliances for extinguishing fires ...	7,596
Ditto ditto lighting streets ...	31,902
Erection of slaughter-houses and latrines, &c.	3,170
Water-works (establishment, repairs)	27,054
Conservancy establishments	35,488
Public works	16,360
Miscellaneous	9,578

Decrease.

Heads of Expenditure.	Amount of decrease.
	Rs.
General establishment (including collection charges) ...	7,948
Road-cleaning establishment	7,973
Public health—Other measures (markets, slaughter-houses, public gardens, &c.)	5,829
Public convenience—Survey of lands	6,440

29. *Establishments and appliances for extinguishing fires.*—The bulk of the expenditure under this head is incurred in the Municipalities of Howrah (Rs. 10,794), Cossipore-Chitpore (Rs. 23,979), and Darjeeling (Rs. 1,002). The Municipal Commissioners of Howrah paid Rs. 9,880 to the Commissioner of Police, Calcutta, on account of the Metropolitan fire-brigade, which included arrears due. The balance of the expenditure incurred under the head (Rs. 1,238) was distributed amongst several Municipalities.

30. *Slaughter-houses &c.*—The tables do not show the expenditure on slaughter-houses as apart from latrines, but the Lieutenant-Governor finds that there has been very inadequate provision hitherto for the erection and maintenance of slaughter-houses in such a condition as to ensure absolute privacy and to cause no offence to the Hindu population of the town. In one place His Honour found that the cattle were killed in an open piece of ground, in others a wall has been erected, but not high enough to prevent an outsider from seeing what takes place within. This is a matter to which Sir Charles Elliott attributes the greatest importance, and he trusts that early steps will be taken in all municipalities to remedy the defects which may exist in the construction of these slaughter-houses, and to pass bye-laws which will effectually prevent the slaughter of cattle in any other place.

31. *Street-lighting.*—The largest increase of expenditure occurred in the Municipalities of Howrah (Rs. 14,057), Cossipore-Chitpore (Rs. 10,455), and South Suburbs (Rs. 2,272). In Howrah the increase was due to an increase in the number of lights, and in Cossipore-Chitpore to the payment of arrear bills of the Gas Company, amounting to Rs. 4,733. The Municipalities of Dinapore Nizamut, Sitamarhi and Jamui incurred an expenditure under this head of Rs. 1,861, Rs. 288 and Rs. 225, respectively, against *nil* in the previous year. No expenditure was incurred in 47 Municipalities* against 59 of the previous year. Among these were the Municipalities at the head-quarters of the districts of Nuddea (Krishnaghur), Khulna, Mymensingh (Nasirabad), Chumparun (Motihari), Maldah, Hazaribagh and Singbhoom (Chyebassa). The Motihari Municipality have, however, introduced street-lighting during the current year.

Name of Division.	Number of Municipalities in which there were no street lamps.	
	1889-90.	1890-91.
Burdwan	12	11
Presidency	21	16
Dacca	3	3
Chittagong	1	1
Patna	8	4
Bhagulpore	4	3
Orissa	2	2
Chota Nagpore	8	7
Total ...	59	47

The Lieutenant-Governor observes great discrepancies in the average cost of lighting per lamp in various municipalities, which would seem to show that proper supervision is not always exercised over expenditure under this head. In some municipalities a saving in expenditure was effected concurrently with an increase in the number of lamps used, and it is hoped that these savings may be employed to increase the number of lights. On this subject the Lieutenant-Governor desires to repeat here the remarks already recorded in reviewing the report on the administration of the Police Department for the year 1890:—

"Street-lighting, which is essential to efficient watch and ward at night, has not made very much progress throughout these provinces. Not a single street in the Motihari, Maldah, English Bazar, and Chyebassa towns is lighted at night. That the people themselves feel the want of street-lights is shown by a quaint petition received by the Lieutenant-Governor on his recent tour from some residents of Faridpur, who ask for 'sufficient light in the bazaar to escape fear of robbers, and to avoid mistakes committed by constables thinking customers as thieves in the dark.' His Honour desires Commissioners of Divisions and District Officers to bring to the notice of the municipalities with which they are concerned the necessity of supplying adequate lighting."

32. *Water-works.*—The largest increase appears against the Dacca and Rajshahye Divisions, and the greatest falling off in the Bhagulpore Division. At Dacca the capital expenditure was Rs. 79,047, against Rs. 18,888 in 1889-90, owing to the extension of the water-works in the town by means of a loan made by Government. The present extension is expected to give a supply of 200,000 gallons of water per diem to the town in addition to the 200,000 gallons distributed before. Thus about five gallons of water will be supplied per head of population. At Nasirabad Rs. 6,265 were spent on the acquisition of lands required for the carrying out of the water-works scheme, for which Raja Surjya Kanta Acharjee, Bahadur, has offered a very liberal donation of Rs. 1,14,000, which was noticed in the Resolution for 1888-89. In the Darjeeling Municipality the expenditure rose from Rs. 4,304 in 1889-90 to Rs. 10,996 during the year under review. The increase in capital expenditure as shown in the margin was due to the laying of a 4″ main pipe of about 5,000 feet in length and to the execution of certain minor new works. The charges on account of the maintenance of the water-works at Burdwan fell from Rs. 8,571 to Rs. 6,679; but a capital outlay of Rs. 6,333 was incurred on the construction of a new settling tank and the extension of the area supplied. The accounts of the Bhagulpore Municipality show a large decrease in expenditure under this head of Rs. 45,115 due to the completion of the project. The capital outlay, which amounted to Rs. 46,316 in 1889-90, was only Rs. 7,034 during the year under report. There was also a reduction in the maintenance charges on account of the water-works in the town. The municipalities which have received the blessing of a pure wate-rsupply up to the present date, or in which water-supply works are under construction, are—

	1889-90. Rs.	1890-91. Rs.
Capital outlay	793	9,268
Establishment, repairs, &c.	3,511	1,728
Total ...	4,304	10,996

Burdwan. | Darjeeling.
Bhugalpore. | Dacca.
Mymensing.

His Honour regrets that the number in this list has not been increased during the year.

33. *Conservancy and road-cleaning.*—The former item shows a total increase of Rs. 35,488, whilst the latter shows a decrease of Rs. 7,973. These two items have, however, to be considered together, as the same establishment is employed generally for both purposes, and the expenditure is not as a rule correctly adjusted under the respective heads. The Lieutenant-Governor notices with satisfaction the net aggregate increase of expenditure. In the Burdwan Division the increase was most marked in Howrah (Rs. 17,876), Bally (Rs. 1,297), Hooghly and Chinsurah (Rs. 1,146), Serampore (Rs. 1,220), Raneegunge (Rs. 770), and Soory (Rs. 806); whilst Baidyabatty shows a decrease of Rs. 1,591. The increase in Hooghly and Serampore is due to the strengthening of the conservancy establishment and increasing the number of carts as well as to the repair of cow-sheds. The increase in Bally, Raneegunge and Soory is due to the introduction of Part IX. The decrease in Baidyabatty is only apparent, and is due to the charges incurred under "Conservancy" having been erroneously shown under other heads. The steam tramway for the removal of night-soil in Howrah was completed during the year at a cost of Rs. 80,000. It is proposed to increase the number and capacity of the trucks in order to render the tramway more serviceable, and to work the trains at night so as to minimise the inconvenience to the public. In the Presidency Division the Baranagore Municipality shows an increase under both heads, amounting together to Rs. 2,826. At Berhampore the charges on account of conservancy rose from Rs. 5,957 in 1889-90 to Rs. 9,526, and for road-cleaning from nil to Rs 3,680, thus showing a total increase of Rs. 7,249. At Darjeeling there was a reduction of Rs. 3,048, which appears to have had a disastrous effect on the sanitary arrangements of the station. The Lieutenant-Governor will, however, deal with the Municipal administration of Darjeeling in a separate Resolution. At Dacca the expenditure on conservancy, as shown in head 3 (*i*) of Appendix G to the Commissioner's Report, appears to have fallen from Rs. 49,340 to Rs. 45,770, but no reference is made to this decrease in the body of the

report. Information will be called for to show how these sums are made up, and the details of the establishment employed during the last four years on cleaning private latrines, on cleaning public latrines, and for other purposes. A statement of the establishment maintained and the expenditure incurred under the head "Conservancy" in each Municipality in Bengal is given in Appendix I.

34. *Public works.*—There was a decrease of Rs. 9,411 in Hooghly, part of which is due to the expenditure of a large sum in the preceding year for the acquisition of land for a new road. There was also a decrease in Burdwan of Rs. 2,223. Howrah, however, shows an increase of Rs. 3,228, Serampore of Rs 2,077, Baidyabatty of Rs 1,551, and Midnapore of Rs. 1,919. The decrease in Burdwan is attributed to the fact that only ordinary repairs were executed within the year; the increase in Midnapore is chiefly due to the construction of new roads at a cost of Rs. 1,118. In Baidyabatty many roads were repaired, and the expenditure at Serampore, both on construction and repair of roads, compares favourably with that of the preceding year. Of the expenditure of Rs. 4,673 by the Municipal Commissioners of Hooghly, Rs. 1,800 was spent on a protective work on the river side to prevent the erosion of the bank. There were large increases of expenditure in Manicktolla (Rs. 6,653), Mozufferpore, Lalbagh (Rs. 5,186), Rampore Beauleah (Rs. 3,875), South Suburbs (Rs. 2,544). The Municipalities of Gya, Arrah, Santipore, Jamalpore and Bhagulpore show a large decrease of expenditure.

35. *Miscellaneous.*—At Dacca the expenditure rose from Rs. 7,849 in 1889-90 to Rs. 13,259 in 1890-91. It is reported that the increase was only apparent, being due to the fact that expenditure which should have been entered under "other measures" subordinate to "Public health" has been shown under this heading. The increase in the Naraingunge Municipality of Rs. 1,167 was due to the heavy expenditure incurred by the Commissioners in conducting an appeal pending before the High Court. The increase of Rs. 4,856 in Burdwan is chiefly due to the acquisition of the site of the new Town Hall, the cost of which, being met by private liberality, is only a matter of account.

36. *General establishment.*—The Lieutenant-Governor notices with satisfaction the reduction of Rs. 7,948 effected in the expenditure under this head as compared with the previous year. The decrease was shared by all the Divisions except Rajshahye, where the Darjeeling Municipality, shows an increase of expenditure of Rs. 1,669, due to the payment of Rs. 1,200 as bonus to the Vice-Chairman and to the Accountant drawing full pay during the year.

The Commissioner of Burdwan reports that a scale of establishment has now been fixed by each municipality in that Division. In some instances the scale of pay and establishment seemed unnecessarily high, and he had to check a tendency to give unnecessary annual increases in pay and to make additional appointments. The Commissioner of the Presidency Division also reports that Municipal Commissioners are constantly trying to create new appointments, and to raise the pay of their servants; that the Commissioner of the Division is obliged to exercise a vigilant control over them; and that it is to this control that the decrease in expenditure is due. The example set by the Burdwan Commissioner might usefully be followed in other Divisions, and the figures in the table in Appendix F(1) will assist Municipalities in fixing a suitable ratio.

37. *Drainage works.*—There was a large increase of Rs. 9,281 in Rampore Beauleah. The town is being provided with saucer-shaped roadside pucca drains, for which the Commissioners have contracted a loan of Rs. 15,000 from Government. The drains have already been completed on the sides of several roads. The construction of an underground masonry central drainage channel to tap the most filthy parts of the town, and to admit of the passage of river water into foul tanks and ditches, was completed with the help of a donation of Rs. 5,000 made by the Dighaputtia Ward's estate. The arterial or main channels were also cleaned and renovated, and several additional culverts were constructed as waterways. In Rungpore a new drainage canal has been completed, for which the town is largely indebted to the liberality of Babu Janaki Bullubh Sen of Dimla, and to the skill and energy of the Magistrate Mr. Skrine. The subsidiary drains of this town are being properly repaired, and several new kutcha drains have been provided or connected with the new canal. The

Municipal Commissioners intend to borrow Rs. 20,000 from Government for the completion of this scheme. During the year the survey of the Jalpaiguri Municipality was made, and a drainage scheme has been prepared by a qualified engineer at a cost of Rs. 1,610: the scheme is now under the consideration of the Sanitary Board. The bazar drains of the Kurseong Municipality, which are the property of the Burdwan Raj estate, were made pucca with Portland cement. An increase of Rs. 1,781 in expenditure under this head was incurred in Serampore, due to the construction of new drains In Utterpara there was an increase of Rs. 645 owing to the purchase of surveying and levelling instruments and the entertainment of a surveyor. The Lieut nant-Governor has recently sanctioned an arrangement which will make it possible for the Sanitary Board to render material assistance to municipalities having schemes of drainage in contemplation by lending them the requisite instruments for surveys at a moderate charge for actual wear and tear. In Burdwan there was a large decrease of Rs. 3,084, due to the suspension of all new works under this head pending the preparation and adoption of a complete scheme of drainage. There was a falling off of expenditure in the Municipalities of Darjeeling (Rs. 4,137), Naraingunge (Rs. 1,489), Chuprah (Rs. 2,533), Bhagulpore (Rs. 2,320), and Poorea (Rs. 1,621). At Behar the expenditure rose from Rs. 638 to Rs. 1,766. The Commissioner of Dacca reports that in Dacca, where the drainage continues to be very defective, a sum of Rs. 5,767 was expended during the year for the construction of surface drains. Five pipe drains and 68 concrete drains were also newly constructed during the year. In Burrisal the improvement in drainage noticed in former reports has been continued during the year. A sanitary survey of the towns of Comilla, Burdwan and Patna was made with a view to introduce a proper system of drainage. The Lieutenant-Governor would be glad to see a sanitary survey of every municipality undertaken without delay, and would specially invite attention to the following orders of the Government of India:—

"In regard to the general question of sanitation in mofussil municipalities, it appears to His Excellency the Governor-General in Council that the time has come for the prosecution of sanitary measures on a more systematic plan than has hitherto been adopted as a rule. The recent municipal legislation has endowed local bodies with very considerable powers for the improvement of the sanitary condition of towns and villages, and has placed at their disposal considerable funds for expenditure on that object. It is therefore of the utmost importance that the money thus made available should be laid out to the best purpose on well-devised schemes of permanent utility. I am therefore to suggest to His Honour the Lieutenant-Governor that a sanitary survey of each municipality in the province should be, with as little delay as possible, undertaken by the Sanitary Commissioner and by the Local Engineering Authorities, and that plans and estimates may be prepared of all improvements necessary to provide each town with an efficient system of drainage, water supply and conservancy. The plans so fixed upon should be executed from year to year as funds become available, the object aimed at being persistently kept in view until it is attained."

38. *Maintenance of hospitals and dispensaries and vaccination.*—One hundred and eighteen municipalities maintained 126 dispensaries during the year. The total cost incurred on account of "Medical institutions" was Rs. 2,32,651, against Rs. 2,30,241 of the previous year. By far the heaviest expenditure under this head was in the Patna Division, where an expenditure of Rs. 65,069 was incurred among 25 municipalities with an income of Rs. 4,72,157. The Presidency Division comes next with Rs. 37,799 divided among 37 municipalities with an income of Rs. 5,65,671. The Commissioner of Chittagong, referring to the expenditure by the Cox's Bazar Municipality of Rs. 570 under this head out of a total income of Rs 3,268, mentions this as a striking, perhaps scandalous, disproportion of expenditure. Whatever the proportion may be the amount is not excessive in itself and the Lieutenant-Governor considers that a thoroughly efficient dispensary is one of the first necessities of the general public, and would not discourage reasonable expenditure in this direction. The statement in Appendix G shows the number of patients, both indoor and outdoor, treated at the hospitals and dispensaries maintained or aided by municipalities, and the cost thereby incurred by each municipality. The Municipalities of Culna and Hooghly are relieved of such charges by the existence of the Burdwan Raj Dispensary in the former, and of the Imambarah Hospital in the latter. The Raj estate also maintains a large and efficient dispensary in the town of Burdwan. The statement in Appendix H shows the establishment employed and cost incurred by the municipalities on account

of vaccination and the results of vaccine operations. The total municipal expenditure on this item amounted to Rs. 17,127, against Rs. 16,847 of the previous year. The total number of persons vaccinated or revaccinated during the year amounted to 85,358, of whom 78,094 were reported as successful cases. The only event of importance during the year in this connection was a violent outbreak of small-pox in the town of Chittagong. Extra vaccinators were employed, some of whom had to be prosecuted for practising inoculation. In Cox's Bazar Hindus and Mahomedans are reported to have received vaccination unwillingly, while the Mughs protested so strongly that only one Mugh child could be vaccinated. It must be remembered, however, that in Chittagong itself the lymph used was bad, and the protection afforded by vaccination imperfect. If similar defects were observed in Cox's Bazar, the prejudice against the operation would not be unnatural.

39. *Female medical education.*—The Burdwan Municipality contributed Rs. 81 towards the support of a female student of the Campbell Medical School, and Rs. 96 for a nurse and midwife attached to the Burdwan charitable dispensary. The latter resigned on March 16th, and the vacancy has not yet been filled up owing to the want of a suitable candidate. The Municipal Commissioners of Hooghly offered Rs. 20 a month for a trained midwife practising within the town, but no one came forward for the appointment. The Municipal Commissioners of Serampore paid Rs. 4 a month to a female student of the Campbell Medical School. All that was done in this direction in the Rajshahye Division was the offer of a monthly scholarship by the Commissioners of the Municipality of Ramporo Beauleah for a period of three years to secure the education of a female in the Campbell Medical School, on condition that she practised in the town after completing her studies. Although no suitable candidate came forward, the offer has been repeated this year. In Serajgunge one midwife has been entertained at Rs. 12 per mensem. One stipend at the rate of Rs. 5 was provided for by the Revelgunge Municipality in the Patna Division for a female medical student, but no candidate appeared. There is a lying-in-hospital attached to the Bankipur dispensary, where a trained nurse is employed. The Lieutenant-Governor trusts that next year the municipalities will continue their efforts to promote female medical education, and that they may meet with a more ready response. The idea is a novel one in this country, and some time will have to elapse before a supply of candidates has grown up to meet the demand for female medical attendance. Pending the creation of such a supply in the locality itself, it would be well for the municipalities to place themselves in communication with the authorities of the Campbell Medical School and to obtain trained females from that institution who are willing to be attached to the Municipal Hospital to practise in the Municipality.

40. *Vital statistics.*—Under this head it is only necessary to reproduce the remarks already recorded in reviewing the report of the Sanitary Commissioner for 1890, as follows :—

"Out of the 142 municipalities which profess to register births, only seven* reach this standard (40 per thousand), and only 29 show a birth-rate equalling or exceeding the birth-rate of England and Wales in 1888 (30·6 per mille). These results are accepted by the Sanitary Commissioner as approximately correct: 55 municipalities, returning birth-rates varying from 29·43 to 20·03, are held to have done moderately well in the matter of birth registration; while in 58 municipalities, or 40 per cent. of the entire number concerned, the results are spoken of as very defective. In the following 19 municipalities the birth-rate is so absurdly low that it is clear not the smallest attention can have been paid to the work of registration :—

Excluding physiological causes tending to affect the number of births, which, though referred to by the Sanitary Commissioner, may for practical purposes be disregarded, it is obvious that the abnormally low birth-rates shown in this statement must be due to two causes—the preponderance of the male over the female population reducing the actual number of births, and defective registration reducing the number reported. By way of illustrating the operation of the former factor, the Sanitary Commissioner observes that in most of the towns which have a larger male than female population the deaths exceed the births, while in most of those where females preponderate, the births exceed the deaths. The report, however, omits to supply the statistics requisite to test this statement, which, if correct, would tell rather in favour of the relative accuracy of the birth and death statistics. It is, however, in the highest degree improbable that the disproportion of the sexes can anywhere be pronounced enough to account for the very low birth-rates referred to above. It may further be observed that, with one exception, all of these towns are situated in Bengal Proper, and most of them are known to contain a large proportion of people of the respectable and educated classes, who might have been expected to desire to have the births of their children officially recorded, and who at any rate cannot plead ignorance of their obligations under the law or of the requirements of sound municipal administration. * * * * * * * * * * * * * * * *

Death-rate in different districts.

In the following municipalities the recorded death-rate is below 15 per thousand, and the work of registration appears to be neglected:—

Santipore	...	11·21	Lohardugga	...	6·49

Three years ago, in a circular addressed to Commissioners of Divisions, the Lieutenant Governor drew attention to the fact that in 51 municipalities out of 64 for which the figures were examined, the registration of deaths during 1877 showed a serious falling off when compared with the mean of the previous five years, during which registration had been conducted by the police. Since then some improvement has taken place, but hardly so much as might reasonably have been looked for, and it is evident that much still remains to be done.

On further consideration and after enquiring into the question in the municipalities which he has visited on tour, the Lieutenant-Governor has satisfied himself that the duty of collecting and recording vital statistics cannot properly be entrusted to municipalities in Bengal. It demands for its adequate performance more continuous care and attention than Municipal Commissioners are ordinarily willing to give to it, and it seems doubtful whether the object of recording such statistics and the necessity for aiming at a high standard of accuracy have been at all generally realised. The results at any rate are so unsatisfactory that the Lieutenant-Governor has decided to introduce a complete change of system, and to transfer the work of registration to the town police with effect from the 1st January 1892. Municipalities will then be relieved of the charges hitherto incurred under this head, and His Honor desires that the funds thus set free may in all cases be applied to the advancement of primary education.

41. *Public instruction.*—The total expenditure as shown in the municipal accounts was Rs. 1,15,288 against Rs. 1,14,198 of the previous year. There was a large increase of Rs. 6,880 in the Burdwan Division, and a decrease of Rs 3,333 and Rs. 2,318 in the Presidency and Patna Divisions, respectively. The statement in Appendix J shows, division by division, the class and number of schools (except colleges) maintained or aided by municipalities, the number of pupils receiving instruction at them, and the expenditure incurred on them; and also the number and class of other schools within municipal limits. The report for the Patna Division does not furnish the necessary information under this head, and it was found necessary to obtain the figures for this Division from the Education Department. It is hoped that for future years complete information will be supplied in all the divisional reports on this point. As was the case last year, the figures furnished in the divisional reports and reproduced in Appendix J do not agree with those furnished to the Education Department for insertion in a similar tabular statement—statistical table No. IV—appended to the Annual

Education Report. Special arrangements will be made to secure this agreement in future by prescribing an authoritative set of figures from which no deviation will be permitted. The figures cited in the margin, taken from the Education Report for the year 1890 91, show that, although there was a reduction of expenditure on secondary education, the charge remains disproportionately high with reference to the expenditure incurred on primary education, in which there was a slight falling off during the year. On this subject the Commissioner of Dacca writes as follows:—

	1889-90.	1890-91.
	Rs.	Rs.
Secondary ...	54,019	49,577
Primary ...	20,827	20,411
Female ...	1,000	1,309
Special ...	..	...
Buildings ...	4,298	976
Inspection ...	154	157
Miscellaneous	2,489	1,862

"This large expenditure on secondary education is having my attention, and I am taking measures to check the diversion of municipal funds for purposes scarcely contemplated by the law, and by which only a small section of the rate-payers, viz., that containing the well-to-do classes, can be said to be benefited. The giving a boy in these days an English education is equivalent to starting him in business with a stock-in-trade, and the cost of doing so should certainly not be charged to the general body of rate-payers, or paid for from funds which are all too small for their legitimate objects, viz., the advancement of the health and convenience of the public, and the encouragement of primary education. There can be no doubt that the time has come when English education should be self-supporting, and in some places the Municipal Commissioners are beginning to recognize this principle and are withdrawing municipal aid from high English schools"

With these remarks the Lieutenant-Governor entirely agrees. It is one of the first duties of a municipality to provide primary education for all boys and as many girls as will accept it, and Sir Charles Elliott desires that in future Commissioners of Divisions when dealing with the annual estimates of municipalities will see that provision is made for the proper performance of this duty before any funds are allotted to the support of secondary education. In reviewing the reports on the administration of District Boards, the Lieutenant-Governor has fixed seven per cent. as the minimum proportion of expenditure which should be devoted to primary education. In the case of Municipalities a standard of this kind is hardly applicable, but the extent of their obligations admits of being defined clearly enough for practical purposes in a different way. A municipality may fairly be required to provide primary education for all boys of a school-going age, a number which may be taken to be 15 per cent. of the male population of the town. In reply to the numerous addresses which have been presented to him by municipalities, the Lieutenant-Governor has frequently taken occasion to impress this principle upon the Municipal Commissioners, and has been glad to find that his advice was received with general approval and concurrence The demands of primary education, thus formulated must be held to take precedence over those of secondary education, and Commissioners of Divisions are authorised to give effect to this principle in dealing with Municipal budgets under section 76 of the Act. The best plan of giving effect to these orders will, however, probably be to ask each municipality to prepare a definite scheme for providing the requisite number of primary schools, and to submit it for the Divisional Commissioner's approval. The Lieutenant-Governor trusts that Municipal Commissioners will find no difficulty in meeting his wishes in this matter. Orders will soon be issued transferring the grants now made by Government to primary schools within municipal limits to the municipalities concerned for expenditure on the same object, and this will be a considerable assistance to Municipal Commissioners towards meeting this new liability. Moreover, the transfer of the collection and registration of vital statistics to the town police will appreciably relieve their finances, and the entire amount shown in their budgets under this head may properly be devoted to the extension of primary education.

42. *Loans and sanitation.*—The policy of Government in regard to loans to local bodies has been frequently enunciated, and an estimate is annually prepared on reports from the Commissioners of Divisions of the requirements of Municipalities in this matter, so that every possible facility is given them for obtaining funds for the sanitary improvement of towns. The following municipalities incurred loans or otherwise made special arrangements for improving drainage or water-supply:—

Serampore Municipality.—A loan of Rs. 30,000 was sanctioned for the improvement of the drainage of the town, but the amount was not brought into account during the year.

Burdwan Municipality.—The Commissioners propose to borrow Rs. 25,000 from Government, in order to purchase a second pair of engines and a boiler, and to make other necessary arrangements to extend the supply of filtered water to the whole town. A survey has been made and levels taken, and a drainage scheme is now in course of preparation in consultation with the Engineer of the Sanitary Board.

Howrah Municipality.—The question of supplying the town with filtered water is now under the consideration of the Sanitary Board. A Norton's tube well sunk to the depth of 60 feet failed to reach a water-bearing stratum, and the river therefore appears to be the only available source of supply. The Commissioners have, since the close of the year, applied for another loan of Rs. 8,000 for the acquisition of the Huddooah tank with a view to its improvement.

Utterparah Municipality.—The Municipal Commissioners applied for a loan of Rs. 8,000 for the construction of certain new drains. They have been asked by the Commissioner to prepare a plan and estimates for the drainage of the whole town and to consult the Sanitary Board. Meanwhile they have purchased surveying and levelling instruments and employed a surveyor. A survey is also in progress in Midnapore, and a scheme has been proposed for the town of Bally.

Presidency Division.—In North Dum-Dum a map of the municipality was prepared and submitted to the Sanitary Board with a view to the preparation of a drainage scheme. The Sanitary Board have directed the Commissioners to record the levels of the adjacent khals, which, when properly restored, may serve as main drains, and the Commissioners have made provision for this in their current year's budget. The Naihati Municipality is reported to have cut a number of channels to drain the low lands on its western border near the river Hooghly, and it is proposed to carry the work further. The drainage of North Barrackpore, North Dum-Dum, South Barrackpore, and Baranagore is closely connected. A comprehensive scheme for draining this area by opening or re-excavating the Dunka, Khurda, Dantia, and Bagjulla khals, which have partly silted up, and also by sluicing them in convenient places, has been for some time before the Sanitary Board. Certain valuable suggestions for the improvement of the sanitary condition of Baranagore, submitted by Babu Dukhina Runjan Mookerjee, a resident of the municipality, were referred to the Sanitary Board for consideration. The recommendations of the Board on the subject of the drainage scheme are now before Government. Another comprehensive project for the supply of filtered water to the riparian municipalities in the district of the 24-Pergunnahs is under consideration by the Sanitary Board. The municipality of Chanduria applied for a loan of Rs. 2,000 for the excavation of a tank in a part of the municipality where the want of drinking water is very severely felt. The application was not approved of by the Commissioner of the Presidency Division, as the dimensions of the proposed tank seemed too small. The Collector has again included this sum in his estimate of loans and advances for 1892-93, and the project is still under discussion. The Commissioner observes that upon the whole these important subjects appear to be receiving some attention, and hopes some real advance may be made. The Lieutenant-Governor concurs in the opinion expressed in the following extract from the Commissioner's report :—

"Application has recently been made to the Lieutenant-Governor by the Municipal Commissioners of Jessore and Krishnagar (Nuddea) for grants for drainage, but they appear to have done nothing themselves or to be in a position to ask for help. I understand that in Jessore no levels have been taken and no practical schemes devised, and no attempt appears to have been made to raise money by either municipality upon their own resources. I am of opinion that Municipal Commissioners should prepare schemes and see what amounts they can borrow before coming to Government for grants. The same remarks apply to the supply of drinking water. I have no sympathy with appeals for aid made by bodies who cannot show that they have made all possible use of their own resources."

It may be added that before preparing schemes on their own account, municipalities will do well to seek the advice of the Sanitary Board, who will be in a position to instruct them as to the best method of drawing up projects of this kind, and to give them information regarding measures which have proved effectual in other places.

Dacca Municipality.—The extension of the water-works carried out by means of the loan of Rs. 1,25,000 sanctioned by Government has been noticed elsewhere.

Furreedpore Municipality.—The Commissioners obtained a loan of Rs. 5,000 from Government to enable them to complete the excavation of a tank called the Jubilee tank, and to metal certain roads in the town. The amount was received only in October 1890, and a sum of Rs. 2,596 has already been deposited in the Collectorate as compensation for the acquisition of the land required for the tank and Rs. 447 has been spent in metalling the roads in question.

Comilla Municipality.—The municipality obtained a loan of Rs. 2,500 from Government to re-excavate a large reserved tank which had silted up, and to reserve and re excavate another big tank in the eastern part of the town where the population is thick. With the exception of the re-excavation of the last mentioned tank, for which there was no time, the work was completed before the close of the year, and the balance of the loan refunded to Government. The Lieutenant-Governor would have preferred to see the amount devoted to some necessary work. The number of tanks reserved for drinking purposes has risen from two to four. The Maharajah of Hill Tipperah, who owns many tanks in the town, has lately consented to entrust the preservation of the Nannu Dighi to the Commissioners, and this tank under proper care will furnish an abundant supply of good water to a thickly populated quarter of the town. The District Board proposes to aid the municipality with funds when their title to the reserved tanks has been secured.

Chittagong.—In this town the drinking water is obtained from natural springs and artificial wells and tanks. All these sources of supply are carefully guarded by the municipality. The Commissioners applied for the services of a competent Engineer to determine the levels of the several springs with reference to those of the adjacent country with a view to ascertain whether it is possible to make a reservoir by damming up a valley or by diverting a stream, so as to give a sufficient supply of drinking water to the town. A similar application was received from the Pubna Municipality for the preparation of a scheme for the drainage of the town. Both applications are under the consideration of the Sanitary Board.

Patna Municipality.—The town has been surveyed with the object of providing it with a regular system of drainage; a scheme has been prepared, and it is understood that the Commissioners are about to apply to Government for a loan to enable them to carry it out. The question of the water-supply of the town has also engaged the attention of the Commissioners, and the Inspector of Local Works has submitted a plan and estimate to Government, but his project will cost seven lakhs, and it is doubtful whether the Commissioners will be able to undertake it in its present form.

Mozufferpore Municipality.—The Municipality incurred an expenditure of Rs 2,690 in order to prepare a drainage scheme and to put the existing drains in order. As there is no regular system of drainage in the town, the Municipal Commissioners applied to Government to allow them the assistance of the Executive Engineer. The levels of the existing drains have already been taken, and a project is being prepared under the Engineer's direct supervision.

Pooree Municipality.—A scheme for the drainage of the town has been approved by Government, and a loan of Rs. 25,000 sanctioned to meet the cost. In 1886 an attempt was made to supply the town with drinking water from the Surnomoyi river. The necessary plans and estimates were prepared; but as sufficient funds could not be raised for carrying out the scheme, which was estimated to cost about three lakhs of rupees, it had to be abandoned. In his last visit to the town, the Sanitary Commissioner examined the water of the river and found it unfit for human consumption. As, however, the water from the wells in the town is of excellent quality, he recommended that these should be improved on some regular system. A copy of the Sanitary Commissioner's inspection report was forwarded to the Commissioners, and they were asked to state definitely what sort of scheme for improving the well water-supply they are prepared to introduce, and what expenditure they would incur. It was at the same time suggested that the best thing for them to do would be to raise a loan, to acquire a number of wells, put them in perfect order, impose a water-rate, and with the proceeds keep the wells in repair and maintain a proper supervising establishment. The reply from the Municipality with the

Commissioner's remarks thereon is now under the consideration of Government. The question of the sanitation and water-supply of Puree is one of extreme importance owing to the large numbers of pilgrims who visit the town, and the Lieutenant-Governor hopes soon to have an opportunity of looking into the subject on the spot.

Kendrapara Municipality.—The Municipality used to obtain canal water free of charge for filling some of the tanks in the town, when the canals were closed for annual repairs. This procedure having been objected to, and a heavy water-rate imposed, the Commissioners have, it is reported, resolved to discontinue taking water from the canal, and to spend some portion of their income every year in providing permanent sources of water-supply. As the whole supply of canal water is never or hardly ever utilised for irrigation, the Commissioner agrees with the District Magistrate and with the Chairman of the Municipality in thinking that the former practice might well be resumed. The Lieutenant-Governor desires that, if the canal water is really good, the municipality should be required to take it, a moderate charge being made for the water.

Chaibassa.—This town gets its supply of water from an artificial lake within its limits, now called the Jubilee lake, and from tanks, wells, and the Roro river. The re-excavation work of the Jubilee lake was completed during the year at a cost of Rs. 3,328.

43. Under orders contained in a Resolution dated 20th February 1882, all charges on account of police in municipalities were transferred to Government, and it was expressly stipulated that the municipal funds so set free should still be levied for expenditure on works of general municipal utility, and that the increased resources should not be devoted to the reduction of taxation. In order to ascertain how far this stipulation had been complied with, Commissioners of Divisions were asked to submit, with the reports now under review, a statement showing for each municipality the amount of income released by the exemption of the municipality from police charges together with the expenditure under the heads "Public Instruction" and "Public Health" during the years 1881-82 and 1890-91. The following table shows the results of these enquiries:—

Name of Division.	Number of Municipalities which were relieved of police charges.	Number of municipalities in which the savings on account of police have not been fully applied with in accordance the terms of the contract.
Burdwan	21	12
Presidency	33	16
Rajshahye ...	10	3
Dacca	10	Nil.
Chittagong	5	1
Patna	21	13
Bhagulpore	10	4
Orissa	5	1
Chota Nagpore ...	5	1
Total ...	120	51

Some municipalities have more than fulfilled the stipulation, but in 51 municipalities out of 120 the terms made by Government at the time of the transfer of the Police charges have not been fully carried out. The Lieutenant-Governor desires that Commissioners of Divisions will bear this in mind in passing the estimates, and will in their next annual reports explain any failure on the part of a municipality to carry out the terms of the agreement. The figures for each municipality are shown in appendix K.

44. *Embezzlement.*—The tax-collector of the Mozufferpore Municipality was accused of embezzling on three different occasions certain funds of the Municipality, amounting in all to about Rs. 97, and was prosecuted for criminal breach of trust. The municipal accounts were, however, kept in such an irregular manner that the misappropriation of any specific sums could not be proved against him to

the satisfaction of the court, and he was acquitted. In view of the vagueness of the accounts, it was considered undesirable to sue the tax-collector's surety to recover the loss, and the Municipality had thus to suffer a loss of the funds embezzled. This case shows a degree of carelessness in the administration of municipal affairs, which reflects the greatest discredit on all concerned. The tax daroga of the Raneegunge Municipality was prosecuted on a charge of embezzling Rs. 1,750, but he was acquitted at the Sessions. Owing to disputes as to the election of a Chairman, the Commissioners are reported to have taken no steps towards the recovery of the amount. A collecting sircar of the Hooghly-Chinsurah Municipality, who was entrusted in January 1890 with house and latrine-tax bills for the fourth quarter of 1890-91, misappropriated sums amounting to Rs. 633. He died in March 1890, and the embezzlement was detected on examining his accounts. A sum of Rs. 355 was recovered from his estate, and the balance will be demanded from his surety. A collecting sircar in Howrah was found to have been embezzling ever since 1887-88. His friends paid up the amount short, Rs. 737, and he was let off without being prosecuted—a course which the Commissioner considers was probably a wise one, as the account rules had been systematically neglected, and there would have been difficulty in getting a conviction for embezzlement. Another sircar in Howrah appropriated Rs. 1,049 in the second and third quarters of 1889-90. Rupees 678 has been recovered by the sale of his house and of the Government paper held as security. A warrant has been issued against him by the Magistrate, but has not yet been executed. Enquiries instituted at Bansberiah, in consequence of some remarks made by the local auditor, led to the dismissal of the tax-daroga, who paid up Rs. 183; but the way in which the accounts had been kept rendered a prosecution hopeless. One of the collecting sircars of the North Barrackpore Municipality embezzled Rs. 895, and as soon as the embezzlement came to light from the audit of accounts of the Municipality, and the man was suspended, he absconded. The Municipal Commissioners held a paper purporting to be a security for Rs. 100, which was executed 17 years ago in favour of the Barrackpore Municipality. On the man's appointment to the North Barrackpore Municipality this security was accepted without being tested or transferred in legal form. No civil action for the recovery of the amount could be undertaken as the document was worthless.

The frequency of these cases of embezzlement clearly demonstrates a want of proper check and control on the part of the executive officers over the collecting agency, and general disregard of the instructions contained in the rules for the keeping of municipal accounts. The Lieutenant-Governor considers that these occurrences are the strongest possible proof of administrative inefficiency on the part of the municipal executive concerned, and desires that in order to prevent the recurrence of such malpractices and the consequent loss of public revenue, the responsible officers will insist on greater regard being paid to these rules in the future, and will in all cases take securities in the form prescribed by Government, so that they may be easily realizable.

45. *Miscellaneous.*—There were unusually heavy floods during the year in the several districts of the Dacca Division, which caused considerable damage to many of the Municipal roads and necessitated the expenditure of a large sum of money on their repair. Floods also caused considerable damage to the roads in Lalbagh and Jungipore. Several other towns in the Presidency Division suffered from the floods. A very extensive fire took place in the town of Khulna in the beginning of the year, and nearly the whole bazar was reduced to ashes. Advantage was taken of the circumstances to prohibit the construction of houses and shops with inflammable materials, and although this was at the time attended with some hardship to the people, it has, it is believed, made the bazar practically safe from the recurrence of similar calamities. Fires also occurred in the Municipalities of Jhalkatti and Nasirabad.

46. *Working of the Porters and Dandiwallas' Act in Darjeeling.*—The Act is said not to have worked satisfactorily owing to the powers of the Commissioners being insufficient, and the whole subject is reported to be under the special consideration of the Municipality. Three hundred and fifteen dandiwallas and 361 porters were registered and 643 badges issued. The cost incurred in the working of the Act was Rs. 284-7. There were no prosecutions.

47. *Working of the Pilgrims Lodging-House Act, IV (B.C.) of* 1871.—In Pooree the total receipts of the year, which amounted to Rs. 12,126, excluding the opening balance of Rs. 1,186, show an increase of Rs. 3,666 over the receipts during the previous year, which again exceeded those of 1888-89 by Rs. 3,000. The total expenditure amounted to Rs. 9,923, against Rs. 11,255 of the previous year, and the year closed with a balance in hand of Rs. 3,389. The contribution to the municipality for conservancy and other charges fell from Rs 5,000 in 1889-90 to Rs. 4,000 during the year under review. The total amount of fines realized amounted to Rs. 1,271, against Rs. 911 of the previous year. The total number of lodging-houses licensed at the close of the year was 779, capable of accommodating 16,719 lodgers, against 417 lodging-houses with accommodation for 11,170 lodgers licensed in the previous year. This large increase in the number of houses licensed under the Act seems to show that the people appreciate the working of the Act. Pucca latrines are insisted on in every house, and frequent inspections provide for their maintenance in a sanitary condition. Five thousand and thirty-eight inspections were made by the Health Officer and Assistant Health Officer. The Lodging-House Committee maintained the hospital at Pipli, and a temporary field hospital at Satyabadi during the car festival, and contributed largely towards the support of the Balianta hospital and the Pilgrim Hospital at Pooree. Two new latrines were erected for the patients at the Pipli Hospital. The Act continued to work satisfactorily.

48. The total income of the Gya Lodging-house Fund during the year amounted to Rs. 13,534-11-1 including the balance of the previous year, and the total expenditure was Rs. 8,409-10-2, leaving a surplus of Rs. 5,125-0-11. Altogether 392 licenses were issued during the year, against 405 in 1889-90. The number of lodgers fell from 11,659 to 10,732. Fifty two prosecutions were instituted; 47 cases ending in conviction and three in acquittal. The amount of fines imposed was Rs. 156. The Lodging-house Committee held four meetings during the year. The lodging houses were kept in good order, under the supervision of the Health Officer and the Overseer. The working of the Act appears on the whole to have been satisfactory.

49. In Uluberiah the total receipts during the year amounted to Rs. 866, including the opening balance of Rs. 425, and the expenditure to Rs. 257, leaving a balance of Rs. 609 at the close of the year. The attention of the Committee was drawn to the anomaly of allowing the unexpended balance to accumulate in the case of a town which is described as "becoming full of filth and cesspools." The Committee met 13 times during the year. The fines levied amounted to Rs. 126 against Rs. 111 of the previous year. Thirty-two licenses were taken out against 31 of the previous year, and the amount of license fees realised was Rs. 277 against Rs. 288. Four sweepers were employed throughout the year to sweep the streets and cleanse the public latrine and urinal in the town.

50. The income of the Deoghur Lodging-house Fund was Rs. 1,552, including the opening balance of Rs 248, and the expenditure Rs. 584, leaving a balance of Rs. 968 at the close of the year, which it is proposed to utilise during the current year. Although the number of licenses issued during the year was the same as in the previous year, the amount of license fees rose from Rs. 670 in 1889-90 to Rs. 736 during 1890-91, owing to some of the lodging-house-keepers taking out licenses for a larger number of lodgers. The fines levied amounted to Rs. 360 against Rs. 242 of the previous year, which was due to a better supervision exercised by the Committee. In the opinion of the Commissioner the management was efficient.

51. At Chandbally the income was Rs. 891, including the opening balance of Rs. 266, against Rs. 921 of the preceding year, and the expenditure Rs. 354 against Rs. 655. The balance in hand at the close of the year was Rs. 537. Sanction was accorded to the sinking of a well and cleaning of a tank at a cost of Rs. 250 out of the accumulated balance. The Act worked smoothly during the year.

52. The provisions of the Act were put in force during the year in the *chutties* (or rest-houses) along the Juggernath Road in the districts of Balasore, Cuttack and Pooree; itinerant Health Officers were appointed to supervise the working of the Act in the *chutties*, and bye-laws were framed to give effect to its provisions. There were no receipts under the Act in the Cuttack

district, and the pay of the Health Officer (Rs. 40 a month) and that of 13 sweepers (Rs. 48 a month), maintained for the conservancy of the *chuttics*, was met from the Juggernath Road Fund. The extension of the Act to the *chutties* is said to have been resented by the shopkeepers, owing to the passenger traffic on the Juggernath Road having declined on the opening of the coast canal and the sea routes, and it is reported that for a few months certain inn-keepers actually closed their shops in Balasore. The inn-keepers have, however, commenced to file applications for licenses, and in Balasore the receipts came up to Rs. 356, including Rs. 240 as license fees, Rs. 46 certificate fees, and Rs. 70 as fine. The Lieutenant-Governor agrees with the Commissioner in thinking that if the Act is worked with tact and firmness, there is no reason why it should not be as successful as in Pooree. The salaries of the Health Officer and of the 10 sweepers maintained in the Balasore district were also paid out of the Juggernath Road Fund for that district. The income of the Lodging-house Fund may now be applied to improving the water-supply of some of the chutties.

53. *General working of the Municipal Act, III (B.C.) of* 1884.—The Commissioner of the Burdwan Division observes:—

Burdwan Division.

"I do not know that I can, or need, add much to what has been written on this subject in previous years. The gentlemen selected for special mention have well earned the thanks of Government, and there are others who, in less important positions, have discharged their duties with zeal and ability. What is wanting in Municipalities generally is a better use of local knowledge, and a better control over overseers and out-door work generally. An occasional inspection by a gentleman who knew the wants of his neighbourhood, and what could be done with the money allotted for them, would often do far more good than the most assiduous attendance at meetings, where discussions are apt to be needlessly protracted to the great inconvenience of busy men."

The Lieutenant-Governor notices with satisfaction the favourable mention made in the report of Rai Nalinaksha Bose Bahadoor (Chairman, Burdwan Municipality), Baboo Dhone Kisto Ghose (late Chairman of the Soory Municipality), the late Rai Bepin Behari Dutt, Bahadoor, (Chairman, Midnapore Municipality), Baboo Ishan Chandra Mitra (Chairman, Hooghly and Chinsurah Municipality), and Baboo Siv Narain Mukerjee (Chairman, Utterparah Municipality) for the efficient manner in which they have administered the affairs of the towns under their charge.

54. The Commissioner of the Presidency Division remarks:—"From what has come before me while in charge of the division, I cannot consider municipal administration satisfactory. Nothing appears to have taken the place of the constant supervision of the Magistrate or Joint-Magistrate, who used to spend the morning in going about noting requirements and supervising the work of the servants. It is most exceptional to find a Chairman or Vice-Chairman or any Municipal Commissioner who makes a practice of riding or walking about. Servants are left to themselves, money is wasted, and work is not properly done. As regards executive action, the boon of self-government conferred upon the people appears to have entailed the result that work which used to be done is done no longer. The bulk of the Municipal Commissioners appear to consider that all their work is to be done in meetings and not outside. There is a general want of personal activity and energetic supervision. The work of assessment is unpopular, and the Municipal Commissioners therefore neglect it. Taxation is much below what it should be, and bad as the work of assessment is the work of collection is still worse. I am sorry that this report contains no return of the balances of tax remaining uncollected. There may be exceptions which have not come to my notice, but enough has come before me to create the general impression that there are very discreditable balances of arrears remaining uncollected. Municipal Commissioners do not like to be hard on defaulters, and neglect their duty in a manner calling for the strongest censure. * * *

Presidency Division.

Mr. Baker thinks that the tax on persons should be replaced by a tax on the annual value of holdings, that it should be assessed by a person unconnected with the Municipality, and collected by the Magistrate as the road cess is collected by the Collector. Thus an experienced Magistrate considers that the

elected or nominated representatives of the people have shown themselves unfit to be entrusted with the duty of assessing or collecting the taxes which are to supply the funds for their expenditure, and all that I have seen leads me to agree with Mr. Baker that in this respect municipal administration has proved a failure. There have been cases of party feeling, unworthy imputations, and unfair criticisms, but nothing which appears to call for special notice; nor do I find any gross case of misconduct on the part of the Municipal Commissioners, except in Manicktollah (24-Pergunnahs), where the late Vice-Chairman was convicted of misappropriating public money. The conviction was set aside by the Appellate Court."

Rajshahye Division.

55. The Magistrate of Rajshahye writes:—"Both the Corporations (Rampore Beauleah and Nattore) have discharged their duties with great ability and to my entire satisfaction. I have always been consulted on all matters, and it has been a pleasure to me to advise bodies in whom I have inspired confidence. The relations between me and the Corporations, I may say, have always been cordial." The Magistrate of Bogra writes thus in regard to the Municipalities in his district:—"Before the general elections of December 1890, there were in both the municipalities a few Commissioners who attended scarcely any meetings, and took little or no interest in the concerns. But there were also several who attended almost all the meetings and did useful service. It is too early to speak of such changes as have been caused by the general elections. The Commissioners of Sherepore are not active or progressive, but those of Bogra are decidedly so. They keep the roads in very good order, the streets are well lighted, and the business of their office is excellently conducted. In all these matters the traditions and the practice at Sherepore show want of energy and efficiency. At Bogra, the Chairman, Babu Rajani Kant Mazoomdar, whom the new Commissioners have wisely re-elected, has great powers of reorganization. The taxation in the town of Bogra is very bad, and I think unduly high; the contribution towards primary education is too small, but, with these exceptions, the arrangements are good and successful, and the Commissioners deserve much credit. On the whole the Act may be said to have worked well in Bogra and only fairly in Sherepore." The late Magistrate of Rungpore wrote as follows:—"My hearty acknowledgments are due to Dr. Raj Mohun Banerjee, the Chairman, and Babu Jogesh Chandra Mozoomdar, Vice-Chairman, to whose untiring efforts is due such measure of success as has attended the working of the Rungpore Municipality during the year under review." The Deputy Commissioners of Jalpaiguri and Darjeeling and the Magistrate of Pubna are of opinion that the municipalities in their districts have worked well during the year.

The Commissioner writes:—"In the above opinion expressed by the district officers I entirely concur. The Municipal Commissioners have on the whole performed their duties with zeal and devotion to the public interests as well as in harmony with the heads of their districts."

Dacca Division.

56. The Magistrate of Dacca has recorded the following opinion:—"The year has been one of some progress. In the town of Dacca effect was given to the long-pending scheme for extending the water-supply. This has now been nearly doubled, and much benefit will result to the town from this important improvement. The interest taken in their work by many Municipal Commissioners was perhaps less than in previous years, and may be accounted for by the fact that many were aware that they would shortly cease to be Commissioners. In Naraingunge especially much important road work, which should have been done in the cold weather, was put off and has had to be done since at increased expense. Some improvements were effected in Dacca in the working of the conservancy establishment, but these large establishments require a very strong hand to keep them in full working order. The Municipal Commissioners do not, I think, sufficiently realize this, and that an officer competent to do this must be well paid. They are inclined rather to multiply low-paid officers and to cut down the Secretary's pay." The Commissioner agrees with the concluding remarks in the above extract, and thinks that many of the shortcomings in the Municipal administration in the town of Dacca are due to petty jealousies and party dissensions among the Commissioners, which render the Chairman's

position a difficult one, and the action of the Municipal Executive often weak and uncertain. The Magistrate of Furreedpur observes as follows:—"Both the municipalities in the district have worked fairly well, but more attention should be given to the practical administration of minor details. The Commissioners show a praiseworthy inclination to benefit by the instruction of higher authorities and to work harmoniously with other public bodies. The Commissioners of the Furreedpur Municipality have generally consulted the District Officer on points of difficulty, and have always tried to carry out his suggestions." The Magistrate of Backergunge writes:—"All the Municipal Committees have worked smoothly and considerable improvements have been effected. In Burrisal town in particular the change for the better must be very apparent to any one who knew the place 8 or 10 years ago. The other towns, however, are in many respects a long way behind. Jhallokati and Nalchitti in particular are, and must continue to be, towns with filthy surroundings, as they contain no latrine accommodation. I tried to get the Committees to move in the matter, but failed, and nothing short of a law which will compel the adoption of the latrine system in its entirety will be of any effect." The Magistrate of Mymensingh writes as follows:—"On the whole the Act has worked satisfactorily, and the Commissioners have taken a fair amount of interest in their work. The Commissioners of Nasirabad and Kishoregunge have displayed a considerable interest in the welfare of their respective towns. * * * * Municipal administration in Bengal is marred by some serious defects, and these defects are due to a tendency to expend more money for the benefit of the well-to-do classes than for that of the general bulk of the rate-payers. The greatest good of the greatest number should constitute the sole justification of Municipal taxation; an excessive amount is spent on English education and very little on primary education, which alone in this district benefits the bulk of the rate-payers. The great want is a want of men with leisure as well as education and enlightenment. Pleaders, who are mostly elected, have the latter qualifications, but not the former. The want of leisure must mean deficient interest, and the result of deficient interest is seen in many directions, such as the worthless vital statistics compared with which the statistics in rural areas are accuracy itself. Then it must be remembered that the Magistrates as *ex-officio* Chairmen were absolutely independent. It is perhaps impossible for permanent residents of a place to be so. The Magistrates are birds of passage: they come and go; the non-official Chairman stays on for ever. No wonder that he is perhaps inclined to court popularity or at least to avoid unpopularity. The very best native Chairmen readily admit this. They are very reluctant to take action against encroachments and bad drains, the class of offences, broadly speaking, in which well-to-do people indulge. When compelled to act, they prefer to invoke the aid of the Magistrate, so that some or all of the odium of the interference may not fall on themselves."

The Commissioner of the Division observes:—"There is much in Mr. Phillips' remarks in which I entirely concur. I am not, however, inclined to agree with him in thinking that the remedy for inefficient administration is to be found in generally increasing the powers of control exercised by the local Government officials. The powers given to Magistrates and Commissioners by the law are, I think, sufficient, except in regard to one or two matters, which I will notice further on. I also think that it would be a mistake to encourage constant interference with Municipal bodies by the magistracy, or to do anything which will have the effect of making the Commissioners feel that what is being given them with one hand is being taken away with the other. Such a course cannot promote mutual good feeling or willing co-operation, but must lead to complications and much vexation of spirit. In all such matters prevention is better than cure, and much more will be gained by judicious guidance than by any amount of driving. My experience of Municipal Commissioners generally is that they are anxious to do what is right, and to perform their duties honestly and thoroughly, but that they are so beset by wheels within wheels of private or party interests, that it is in many cases almost impossible for them to shake themselves clear of surrounding influences and to act independently, though their better feelings would induce them at once to do so if they only had some one to give them a lead and to take the responsibility."

57. The Commissioner of Patna observes:—"In the Gaya Municipality the working of the Act is reported to be on the whole satisfactory. The working of the Arrah Municipality was not quite satisfactory. As regards this Municipality the Magistrate observes that 'The roads are in a bad state and require repairs. There is little supervision over the conservancy staff; watering and lighting are insufficient and badly supervised. Latrines are wanted. Drainage is defective. Of late the Commissioners have split up into two factions. They finally recommended Government to appoint a Chairman, and Mr. Forbes was appointed. On his transfer they have re-elected Babu Seo Sarun Lall, the late Chairman. This gentleman and the Vice-Chairman, Babu Jadubans Sahai, interest themselves in their work, but do not seem to be able to make much improvement.' The defects pointed out in Arrah exist more or less in other municipalities in the district. The want of latrines and good drains is felt everywhere; but the real difficulty in the way of providing them is the want of funds. In the Mozufferpur Municipality the Act has on the whole worked fairly well. Babu Purmeshwar Narain Mahata, the Vice-Chairman, deserves great credit for the interest he has taken in his work. In Lallgunge the Commissioners generally take no interest in their work. In Durbhunga the Commissioners on the whole seem to take a fair amount of interest in their work, but there is still room for improvement. Better attendance at meetings is wished for. Speaking of the Chuprah Municipality, the Chairman writes:—"The year has on the whole been one of progress, which would have been greater had I had more time to give to details. The Commissioners as before gave a good deal of assistance in the only way in which it can really be expected from a body of native gentlemen * * * * Great attention has been paid to sanitation, and still more would have been done had I or the Vice-Chairman had more leisure. Regular trenching has been introduced; some progress has been made towards incessant supervision of the establishment, and a new slaughter-house has been built, and the old slaughter-house for horned cattle renewed. Arrangements are being made for two new markets * * * * * Latrines have been supplied and a relief camp was opened during the floods in August last. Lastly, the town has been, it is believed, thoroughly protected from flood." * * * * Special mention is made of the services of the Vice-Chairman, Mr R. P. Ghose, and others. As regards the Motihari Municipality, the Magistrate says that the elected Commissioners worked well during the year. Both the present and the late Vice-Chairman took great interest in the Municipality. In my General Administration Report for the past year, I wrote the following remarks on the subject of the Patna Municipality:—"Mr. Currie, the District Officer, writes in very strong terms of the shortcomings of the municipality. He specially complains that the Commissioners have divested themselves of most of their powers and duties and delegated them to Ward Committees. Lighting, watering, scavenging, building, &c., are all in the hands of Ward Committees, who are in the hands of their neighbours. They are afraid to close well-privies, or to propose latrine taxes, or to refuse licenses to build. They are too ignorant of the rudimentary ideas of sanitation to see their importance, and when orders are passed by the Commissioners, the Ward Committees are afraid to enforce them. Latrine taxes are now imposed in only two wards, and attempt has been made to free them also. The taxes were under-assessed and the Ward Committees then made large remissions without proper enquiry." I confess that I should have thought a long narrow tract like the city of Patna would be unusually suitable for Ward Committees, but much must depend on the manner in which they are worked. * * * The Commissioners have since resolved at a meeting to withdraw the powers from the Ward Committees. The Municipal Commissioners of Barh have been very negligent in the matter of their accounts; both the district officer and I have taken notice of this, and have ordered the submission of periodical reports showing the steps taken to remedy the irregularities. The Behar Municipality works fairly well, though there is a chronic feud among the Commissioners. The same is to be said of the Dinapur Nizamut Municipality."

Patna Division.

58. The Commissioner of Bhagulpore has recorded the following remarks:—

Bhagulpore Division

"The record of Municipal administration during the past year is not altogether satisfactory. In some cases local jealousies and dissensions between rival sections of the Committee have interfered with successful working, and in two municipalities, viz., English Bazar in the Maldah district, and Sahebgunge in the Sonthal Pergunnahs, from both of which, considering the number of educated and intelligent residents, better things might have been expected, conservancy and sanitation have been greatly neglected, and the administration has been generally inefficient. At the same time there has been in some municipalities a good outturn of useful work, and indications of progress are not wanting. The Commissioners generally are alive to the real requirements of the municipalities under their charge, and in several cases successful attempts have been made to provide for growing needs by increasing the assessments, though there is still a tendency to look to Government as the only source from which help can be obtained. Establishments have been reviewed, and on the whole there has been a reduction of charges under this head, while the practice of increasing salaries at irregular intervals and without regard to any fixed scale has been checked. The proceedings of some Municipal bodies, such as the Bhagulpore Committee, evince a high degree of intelligence and ability in dealing with administrative questions, and if the scheme of work were always as well executed as it is often designed, there would be little left to desire."

59. Not having had an opportunity of inspecting any of the Municipalities, the Commissioner of Orissa was unable to make any remarks based on personal knowledge, and he has confined himself to reporting the following remarks of the District officers in his Division:—The Magistrate of Cuttack makes the following remarks:—"On the whole the Cuttack Municipality has done well. I had up occasion now and again to point out an unfenced well, holes on crest of bridges and the like, and found matters promptly set right."

Orissa Division.

In Pooree the Chairman reports that steps have been taken to improve one of the big tanks called the Seth Ganga by appointing a Sub-Committee to devise means for so doing. But the Magistrate writes:—"The water of this tank was sent to the Chemical Examiner nearly two years ago. It was said to resemble liquid sewage. Bathing has gone on ever since, and Municipal Commissioners have effected no improvement. The appointment of a Committee is a mere blind. The contribution from the Lodging-house Committee more than covers the up-keep of the hospital, which is practically the only benefit the pilgrims get from the Municipal Commissioners, who will not employ a Food Inspector, and will not enforce the cleaning of the filthy tanks in which the pilgrims have to bathe, and so they are annually poisoned with fermented and putrid food and are forced to bathe in sewage. * * * I reluctantly recommend the abolition of the Municipality and its reconstitution as a second class Municipality with official Chairman." The Commissioner also thinks that the Municipal Commissioners have not hitherto done all they could have done with the money and powers they have, and it is quite possible that special measures will be necessary to compel them to adopt more rigorous measures; and he has, therefore, asked the Magistrate to submit a special report embodying his proposals for reform. The Lieutenant-Governor desires that the submission of this report to Government may be expedited.

The Magistrate of Balasore writes:—"During the three years of Dr. Zorab's incumbency there was practically no need for the Magistrate to intervene in municipal matters. I fear however, that, under the existing *régime*, I may be forced to take more frequent action in support of authority and order." The Magistrate is, however, satisfied that the state of the roads and of conservancy arrangements are generally satisfactory.

60. The Commissioner of the Chota Nagpore Division observes:—The Commissioners of both the Hazaribagh and Chattra Municipalities in the district of Hazaribagh are reported to have generally taken interest in their duties. Speaking of the Vice-Chairman of the Hazaribagh Municipality, Rai Jadu Nath Mukerjee, Bahadur, the Deputy Commissioner says:—"The Vice-Chairman has rendered invaluable service to the town for many years. He looks into every branch

Chota Nagpore Division.

of the municipal administration, and has every detail at his fingers' ends; he is quite fit, as an exceptional case, for appointment by Government as Chairman. He is one of the very few non-officials who so far have thoroughly justified the Government policy of extending local self-government, and as such he is deserving of Government recognition." The Deputy Commissioner of Lohardugga reports :—"The Commissioners of the Ranchi Municipality take a lively interest in its affairs. The collection of municipal dues is made almost with mathematical regularity * * * The Municipal Commissioners take particular interest to see that the funds of the municipality are strictly appropriated to legitimate purposes. They also devote all necessary attention to the sanitary requirements of the town." Of the Municipal Commissioners of Ranchi, the name of Dr. F. R. Swaine, Civil Surgeon, is specially mentioned. He is said to have taken particular interest in improving the sanitation of the town. The working of the Lohardugga Municipality is said to be on the whole good. Regarding the working of the Act in the Purulia Municipality, the Deputy Commissioner of Manbhoom writes :—" The Purulia Municipality was on the whole managed well. The Commissioners with few exceptions took an interest in their duties and supplied their obligations. Besides attending the meetings, they assisted in the executive work of their respective wards. The efficiency of its Committee was greatly due to the active interest taken in municipal matters by its Vice-Chairman, the late Rai Gunga Nund Mukerjee, Bahadur. This excellent gentleman died some three weeks ago, and his loss will be felt by us for many a year to come. The Civil Surgeon and District Engineer are members of our Municipal Committee. Their professional knowledge is always at our service, and they have rendered us much service by their advice." The Chairman of the Chyebassa Municipality, Dr. S J. Manook, appears to have continued to evince interest in its affairs."

61. On a general view of the year's work and bearing in mind the special difficulties which Municipal Commissioners have to contend with, especially when acting without the guidance and initiative power of an official Chairman, the Lieutenant-Governor considers that the record is fairly satisfactory. Almost everywhere the Commissioners appear to have made a genuine effort to do useful work, and the shortcomings which have been pointed out in the reports are such as might naturally have been expected from a body of gentlemen who have their own business to look after, and who as a rule have undergone no special training in the work of administration. The making and revision of assessments, the collection of municipal taxes, the checking of accounts, the supervision of conservancy establishments, and generally the maintenance of efficient control over out-door work, represent a considerable amount of personal labour, and demand close attention to a variety of details. It is in these points, rather than in attendance at meetings and appearances on public occasions, that the work done by Municipal Commissioners seems to admit of improvement. During his various tours Sir Charles Elliott has had frequent opportunities of discussing local requirements with the Municipal representatives, and he has always found them extremely ready to take advice and to adopt any reforms that were suggested to them. It seems to him, therefore, that a good effect would be produced if the Magistrates of districts and Sub divisional Officers were to make periodical inspections of the Municipalities in their jurisdictions, and to submit notes of their inspections to the Commissioner of the Division. A copy of such notes, with the remarks of the Commissioner, might afterwards be sent to the Municipalities concerned. In this way the Municipal Commissioners will get the benefit of the wider experience of the District Magistrate and the Commissioner of the Division, who see the working of many Municipalities, and are therefore in a position to offer advice without interfering with the independence of the Commissioners. In the case of Municipalities at the head-quarters of districts, the Commissioner of the Division might himself occasionally inspect them, and in that case the Lieutenant-Governor would be glad to have a copy of the inspection note submitted for his perusal. Such notes would form a useful supplement to the Annual Report, which does not always contain sufficient information as to the working of individual Municipalities.

By order of the Lieutenant-Governor of Bengal,

H. H. RISLEY,

Offg. Secretary to the Government of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 19th December, 1891.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL.

	Bagirhat ...	Nil	
	Satkhira ...	Nil	
10	Jessore ,, 19, '91	Nil	Weather—rather warm. *Aman* paddy is being harvested; it is best in Narail subdivision. Prospects of *rabi* crops not good owing to want of rain. Fodder and water sufficient.
	Jhenidah ..	Nil	
	Magurah ...	Nil	
	Narail ...	Nil	
	Bongong ...	Nil	
11	Murshedabad ,, 19, 91	Nil	Weather—seasonable. Harvesting of *kalai* going on. *Rabi* crops doing well. Winter rice being harvested with better results than had been anticipated. No want of fodder for cattle.
CHITTAGONG DIVS. 12	**Chittagong** ,, 19, '91	0·19	Weather—still warm. Clouds often about. Harvesting of winter rice in progress, probable average outturn estimated at 10 to 12 annas. Vegetable crops benefited by late showers. Prices steady. Condition of cattle generally good. Supply of fodder sufficient.
13	Noakhally ,, 19, '91	0·06	Weather—cloudy and unseasonably warm. Harvesting of *aman* paddy continues. *Rabi* crops doing well. No cattle-disease reported from Feni or Sudder subdivision. Supply of water and fodder good. Price of common rice at Feni 15 seers and at Sudder head-quarters 14 seers per rupee.
14	Tipperah ,, 19, '91	Nil	Weather—seasonable. Harvesting of *aman* going on. Winter crops progressing. Fodder sufficient. No cattle-disease.
15	Chittagong Hill Tracts. ,, 17, '91	Nil	Weather—unseasonable. Cloudy and very hot during midday. Harvesting and gathering of paddy continue. Cold-weather crops not doing well. Price of common rice 9 seers 0½ chittacks per rupee.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL—*concld.*			
Dacca Divn.			
16	Dacca Dec. 19, '91	Nil	Weather—less cold than it ought to be at this time of the year. Harvesting of *aman* going on. Prospects of *rabi* crops good. Fodder available. Common rice selling at from 13 to 18 seers per rupee. Condition of cattle good.
17	Furreedpore ,, 19, '91	Nil	Weather—seasonable. Harvesting of *aman* and sowing of winter crops nearly finished. Rice selling at 16, 16, and 15 seers per rupee at Sudder, Madaripore, and Goalundo respectively. Condition of cattle good and fodder available.
18	Backergunge ,, 19, '91	Nil	Weather—seasonable. Prospects of crops good. Common rice sells at from 10 to 17 seers per rupee. Fodder and water sufficient. Cattle-pox reported from Bhandaria and Matbaria.
19	Mymensingh ,, 19, '91	Nil	Weather—cold. Prospects of crops fair. Gathering of winter crops nearly completed. Coarse rice sells on an average at 16 seers per rupee. Condition of cattle good. Supply of fodder and water sufficient except in Kishoregunge subdivision.
Rajshahye Divn.			
20	Dinagepore ,, 19, '91	Nil	Weather—cool. Winter rice still being harvested. Prospects of standing crops unchanged. Land being prepared for *bhadoi*. Price of rice at Sudder 14½ seers per rupee and at Thakurgaon 11 seers. Condition of cattle good. Supply of fodder and drinking water sufficient.
	Thakurgaon ...	Nil	
21	Rajshahye ,, 19, '91	Nil	Weather—seasonable. Harvesting of *aman* continues. Prospects remain unaltered. Condition of standing crops (tobacco, mustard, turmeric, sugarcane, &c.) good. Prospects of *ganja* good; insects causing some damage. Price of common rice ranges from 12 to 18 seers per rupee. No cattle-disease. Fodder and water-supply sufficient.
	Nattore ..	Nil	
	Nowgong ...	Nil	
22	Rungpore ,, 19, '91	Nil	Weather—seasonable. Prospects unchanged. Tobacco looking well. Price of rice stationary from 9 to 14 seers per rupee. Fodder and water sufficient.
	Gaibanda ...	Nil	
	Nilphamari ...	Nil	
	Kurigram ...	Nil	
23	Bogra ,, 19, '91	Nil	Weather—clear and seasonable. Prospects of *rabi* favourable. *Aman* 8 annas for the whole district. No want of fodder and water. Price of rice (new) varies from 13½ to 16 seers per rupee.
	Sherpur ...	Nil	
	Nowkhilla ...	Nil	
24	Pubna ,, 19, '91	Nil	Weather—seasonable. State of standing crops fair. Rain wanted. *Aman* paddy being reaped; yield 10 annas. Common rice selling at 13 seers per rupee. Water-supply and fodder sufficient. No cattle-disease.
25	Darjeeling ,, 19, '91	Nil	Weather—fair. Reaping of paddy going on everywhere. Prospects of mustard, *kalai*, and potatoes good. No cattle-disease Fodder and water ample. Wheat and barley about 3 inches high in the hills. Big *marua* is still being harvested. Prices of common rice:—

		Srs.	
Silliguri	13		
Nuxalbari	12		
Kurseong	10		
Kalimpong	10		
Darjeeling	10	}	per rupee.
Jore Bungalow	10		
Nagri	8		
Sonadah	10		
Pulbazar	11		

26	Julpigoree ,, 19, '91	Nil	Weather—seasonable. Winter rice harvest in full swing. Outturn is unfavourably reported on. Prospects of *rabi* crops good. Common rice sells at 11 seers per rupee at Head-quarters and 9 seers per rupee at Alipur. No cattle-disease. Fodder and water-supply abundant.
BEHAR.			
Bhagulpore Divn.			
27	Monghyr ,, 19 '91	Nil	Weather—cold and seasonable. Prospects unchanged. Rain badly wanted for *rabi* crop Paddy being harvested. Prospects of poppy fair. Common rice selling at 11 and 12 seers per rupee in Begusarai, 15 seers in Jamui, and 12 to 17 seers in different parts of the Sudder. Fodder and water-supply sufficient.
	Begusarai ...	Nil	
	Jamui ..	Nil	
28	Bhagulpore ,, 19, '91	Nil	Weather—seasonable. Prospect of *rabi* not improved. Harvesting of rice goes on, but outturn low. *Kurthi* being harvested; outturn fair. Price of common rice—old 12 seers 10 chittacks, new 14 seers 8 chittacks per rupee.
29	Purneah ,, 19, '91	Nil	Weather—cool and dry. Harvesting of *aghani* continues, that of *kurthi* nearly complete. Prospects of *rabi* still fair, but rain will soon be needed. New rice selling at 11 seers at Kishengunge. In Arrareah and Head-quarters prices stationary. No scarcity of water or fodder.
	Kishengunge ...	Nil	
	Arrareah ...	Nil	
30	Maldah ,, 19, '91	Nil	Weather—cool and bright. Harvesting of winter rice progressing throughout the district. Gathering of *kalai* has begun in some places. Wheat and other *rabi* crops doing well. Fodder and water-supply plentiful. No cattle-disease. Common rice selling at 11 to 16 seers per rupee. The present year is almost the same as 1888—neither better nor worse.
	Chanchal ...	Nil	
	Shibgunge ...	Nil	
	Gajole ...	Nil	
31	Santhal Pergha. ,, 19, 91	Nil	Weather—cool and pleasant, but too persistently dry. Paddy harvest going on; an outturn of from 8 to 12 annas expected; outturn worst in Rajmehal. *Rabi* will be short this year owing to drought. Common rice selling at from 15 to 22 seers per rupee. Price highest as usual in Rajmehal. Fodder sufficient.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BEHAR—*concld.*			
PATNA DIVISION. 31	Patna Dec. 19, '91	Nil	Weather—cool and clear. Paddy still being harvested in some places. Prospects of *rabi* and poppy fair, but rain urgently wanted. Mustard and *rahar* in flower and in ear. Prices of food-grains almost stationary.
	Barh ...	Nil	
33	Gya ,, 19, '91	Nil	Weather—cold. Harvesting of paddy continues. *Rabi* crops require rain. Poppy doing well. Prices of food-grains stationary. Supply of fodder and water for cattle yet sufficient.
	Jehanabad ...	Nil	
	Aurungabad ...	Nil	
	Nawada ...	Nil	
34	Shahabad ,, 19, '91	Nil	Weather—cool. Prospects unchanged. *Rabi* will do fairly well if rain falls in the next two or three weeks. Sugarcane harvest proceeding. Poppy harvest about finished. Opium promises well. Prices rising in Bhabuah.
	Buxar ...	Nil	
	Bhabuah ...	Nil	
	Sasseram ...	Nil	
35	Durbhunga ,, 19, '91	Nil	Weather—seasonable. Harvesting of rice continues. Rain wanted everywhere for *rabi* crops. *Rahar* good. Prospects of poppy not favourable. Fodder and water-supply for cattle sufficient. Price of common rice varies from 13 to 15 seers per rupee.
36	Muzaffarpore ,, 19, '91	Nil	Weather—cool and clear. Harvesting of paddy, *urid*, and *kurthi* in progress. *Rabi* in low lands and where irrigated doing fairly well, elsewhere suffering for want of rain. Poppy sowings in irrigated tracts in Hajipur Sub-Agency coming on well; in unirrigated lands seeds have failed to germinate everywhere. In Tirhoot Sub-Agency poppy has failed in several plots though sown twice and thrice, water-supply being very scanty. Cattle doing well. No scarcity of water and fodder for them. Prices as below:—
	Hajipur ...	Nil	
	Sitamarhi ...	Nil	

	Wheat.	Barley.	Rice (common).	Makai.	Marua.	
	Srs.	Srs.	Srs.	Srs.	Srs.	
Sudder ...	12	25	13	21	...	per rupee.
Sitamarhi ...	13	22½	14	23	24	per rupee.
Hajipur ...	13½	27	14	22	...	per rupee.

37	Sarun ,, 19, '91	Nil	Weather—cold and fine. *Rabi* being irrigated and doing well. Poppy plants healthy in Sewan. About 1,200 bighas have failed. Water and fodder for cattle sufficient. Prices of common rice:—

	Srs. Ch.	
Chupra	13 0	per rupee.
Sewan	15 12	per rupee.
Gopalgunge	14 6	per rupee.

38	Chumparun ,, 19, '91	Nil	Weather—seasonable. Paddy is being reaped. *Rabi* being weeded. State of standing crops fair. Prospects of poppy satisfactory. Prices stationary. Fodder and water for cattle sufficient.
ORISSA.			
ORISSA DIVN. 39	Cuttack ,, 19, '91	Nil	Weather—seasonable and dry. *Sarad* rice is being harvested. *Muny* attaining maturity. Common rice selling at 13½ seers per rupee at Head-quarter and 21 seers at Kendrapara and Jajpore. Fodder-supply sufficient.
40	Pooree ,, 17, '91	Nil	Weather—cool. *Laghu* rice being collected. *Sarad* rice being reaped. *Dalua* rice being sown. Miscellaneous crops doing well. Common rice sells at from 15½ to 24 seers per rupee. Cattle-disease reported fom Khoorda, Banpur, Kunpalia, and Dandimal.
41	Balasore ,, 19, '91	Nil	Weather—seasonable. Harvesting of winter rice still continues. Outturn of *sarad* rice estimated at 12 annas in Bhadrak and 13 annas in Sudder. Prospects of *biri*, *muny*, and mustard good. Rice selling at 19 seers per rupee.
CHOTA NAGPORE.			
South-West Frontier Agency.			
CHOTA NAGPORE DIVN. 42	Hazaribagh Dec. 19, '91	Nil	Weather—seasonable. Rain greatly wanted for *rabi* crops; outturn likely to be seriously affected. Poppy doing fairly so far. Common rice selling at from 12 to 17 seers per rupee. Fodder and water-supply sufficient.
	Giridih ...	Nil	
43	Lohardugga ,, 19, '91	Nil	Weather—seasonable. Harvesting of winter rice finished. Rain still badly wanted for *rabi* crop. Common rice selling at 15 seers per rupee. Fodder and water plentiful.
	Palamow (up to 14th)	Nil	
44	Singbhoom ,, 19, '91	Nil	Weather—seasonable. Harvesting of rice crop continues. Cold-weather crops on the ground doing well. There is sufficient fodder for cattle.
45	Manbhoom ,, 19, '91	Nil	Weather—seasonable. Prospects of all crops satisfactory. Rice selling at from 18 to 22 seers per rupee. Fodder and water-supply sufficient.
	Govindpore ...	Nil

* Mean of 6 days.

Explanations.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last [illegible]. The humidity of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numbers are the numerical means or averages of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the past [illegible] stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

for the week ending Saturday, the 19th of December 1891.

Average humidity at 8 A.M.	Average cloud amount at 8 A.M. for week.	Rainfall of week at observing station.	DISTRICT OBSERVATIONS. RAINFALL. Of week. Mean for district.	Of week. Normal mean. ten years. The variations are *negative* when the mean for the week is less than the corresponding normal mean, and *positive* when greater.

denoting cloud amount represents the part of the sky covered, the whole sky being denoted by 10. Under the head District observations of rainfall the normal mean ten years. The means of the district are the numerical average of the rainfall return received in the district, i.e., from total rainfall at the subdivisional

Explanation.—.....indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

Calcutta, *the 22nd December* 1891.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY THE 19TH OF DECEMBER 1891.

At the close of the previous week ordinary north-east monsoon conditions obtained in Bengal, and these have continued practically without interruption in almost all districts throughout the present week. There have been the usual slight oscillations of pressure, temperature, &c., but fine settled weather has prevailed except for one or two days in the Chittagong district, where a few drops of rain fell on the 15th to the 17th instant. On the 13th the barometric changes were very small, and at some stations pressure was rising and at others falling, while temperature on the whole had fallen slowly on this day. In the south-west corner of the Bay a feeble barometric depression had formed on the 12th, or the last day of the previous week, and on the 13th it had given rather heavy rain to the South Madras coast, but the depression was evidently commencing to fill up. On the 14th in Bengal pressure fell rather rapidly, though it still remained above the normal, while the temperature changes were generally in an upward direction. In the south of the Bay the barometric depression had continued to fill up, but there had again been heavy rain at some of the Madras stations, and weather still continued in a disturbed state in the southern half of the Bay. On the 15th pressure continued to fall very slowly in Bengal, and temperature had again risen slightly and had become above the normal in all districts. In the south-west of the Bay, also, pressure had risen slowly, and though strong winds continued to be reported over the southern half of the Bay, there was no evidence of the existence of any depression. Pressure again fell slowly in Bengal on the 16th, and temperature also rose moderately, while over the Bay pressure was rising along the Madras coast and falling elsewhere, and strong winds were still blowing in the centre and south of the Bay, and weather was distinctly disturbed over that area. It was about this period that skies became rather clouded over in parts of South-East Bengal and a few unimportant showers were reported. On the 17th the continued fall of pressure in Bengal had ceased, and was succeeded by a rather brisk rise, which caused pressure to become almost normal; but temperature, on the other hand, continued to rise at many stations, and was from about 2° to 6° above the normal. Over the southern half of the Bay, also, the disturbed conditions with rather strong winds continued, and these conditions had probably advanced northwards in the Bay, though they were confined to the sea area, and weather in Bengal was practically unaffected by them. On the 18th a further slight rise of pressure was generally reported, but temperature was steady, and in the Bay the conditions were similar to those of the 16th and 17th. On the 19th, however, a further moderately rapid rise of pressure took place in Bengal, and the general pressure of the province became about a twentieth of an inch in excess of the normal, while temperature commenced to fall slowly, but the mean temperature was still above the normal by about 2° to 4° or 5°; a very light shower was, however, reported from Noakholly on this day. On the 19th also the conditions in the Bay began to improve, and winds in the centre and south fell off in force, and from this day again weather conditions in the Bay became more normal.

It will therefore be seen that ordinary cold season conditions have been present practically uninterruptedly throughout the week in Bengal, but that in the centre and south of the Bay the weather conditions have been very decidedly disturbed for almost the whole of this period.

Pressure—Fell for the first three or four days of the week and rose for the remaining portion. The mean pressure for the whole period has therefore not been very far removed from the normal, and at many stations in South Bengal and Orissa the variations only equal a few thousandths of an inch. At the stations further inland, however, pressure has been in distinct excess of the normal, the excess usually equalling about 0·02″ or 0·03″.

Temperature—Rose for about the first four or five days and fell at the close of the week, but almost on every day and at most stations temperature was above the normal. For the whole province the mean temperature for the week has been 1·5° in excess; but the excess has been largest in Orissa and East Bengal, where it has equalled more than 2°, while, on the other hand, temperature has been almost normal in Behar.

This variation of temperature is, however, most clearly seen in the table below, where the average maximum, minimum, and mean temperatures for the week at nine typical stations in different districts of the province are compared with the normal values for the same period.

From this table it will be seen that the principal variations have again occurred in the day or maximum temperatures, which average about 3° above the normal, while the night or minimum temperatures have been nearly normal :—

Table showing the excess or defect of the actual mean temperature from the normal for the week ending 19*th December* 1891.

	Normal mean maximum temperature for the week ending 19th December.	Actual mean maximum temperature for the week ending 19th December 1891.	Variation of actual mean from the normal. The average fall of the corresponding period for 24 years, S.-G.'s Office ...		0·01
The total fall from 1st January to 19th December 1891		46·93
The average fall of the corresponding period for 24 years, S.-G.'s Office ...		65·23

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain-gauge is one foot above the ground.

⌓, dew; ≡, fog.

	Inches.
The mean 10 A.M. pressure of the seven days	30·103
The mean temperature of the seven days	69·1
The extreme variation of temperature	26·5
The maximum temperature	81·9
	%
The mean 10 A.M. relative humidity of the seven days	58
The total fall of rain from 13th to 19th December 1891	Nil

The daily mean temperatures are the crude means of maximum and minimum temperatures.

C. Little,
For Meteorological Reporter to the Govt. of India.

Meteorological Office, India,
The 21st December 1891.

STATEMENT SHOWING THE RESULTS OF THE REGISTRATION OF BIRTHS AND DEATHS IN THE PRINCIPAL MUNICIPALITIES IN BENGAL DURING THE WEEK ENDING WITH SATURDAY, THE 28TH NOVEMBER 1891.

Statement showing the Results of the Registration of Births and Deaths in the principal Municipalities in Bengal during the week ending with Saturday, the 28th November 1891.

PART I.

Orders and Notifications by the Lieutenant-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 101A.

GENERAL.—*The 23rd December* 1891.—Second Lieutenant A. Manners Paget, Behar Light Horse, is allowed leave of absence for twelve months, with effect from the 12th December 1891.

Mr. J. H. E. Garrett, Assistant Magistrate and Collector, Buxar, Shahabad, is appointed to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors, with effect from the forenoon of the 19th instant, the date on which he was relieved of his appointment as Officiating Deputy Commissioner, Julpigoree.

The 24th December 1891.—Babu Hem Chunder Mitter, Sub-Deputy Collector, Ranaghat, Nuddea, is allowed leave for one month, under article 372 of the Civil Service Regulations, in extension of the leave granted to him under the order of the 30th November last.

The 28th December 1891.—Babu Manick Lal Pal, Deputy Collector on Excise work, Purneah, is allowed leave for four weeks, under article 291 of the Civil Service Regulations, with effect from the date on which he may avail himself of it.

The 29th December 1891.—Mr. G. G. Dey, District and Sessions Judge, Tipperah, is appointed to act, until further orders, in the first grade of District and Sessions Judges, with effect from the 16th instant, *vice* Mr. Brojendro Coomar Seal.

The services of Babu Sarat Chandra Basu, Sub-Deputy Collector, Dinagepore, are placed at the disposal of the Financial Department of this Government for employment as Superintendent of Distillery, Burdwan.

Babu Hira Lal Sen, Sub-Deputy Collector, is posted to the district of Dinagepore.

Babu Basanta Krishna Bose, Deputy Magistrate and Deputy Collector on revaluation work, Hazaribagh, is allowed leave for two months and twenty-two days, under article 291 of the Civil Service Regulations, with effect from the date on which he may avail himself of it.

Kumar Girindra Narayan Deb, Officiating Joint-Magistrate and Deputy Collector, Jessore, is transferred to the head-quarters station of the Monghyr district.

Babu Khetter Mohun Mitter, Deputy Magistrate and Deputy Collector, Monghyr, is transferred to the head-quarters station of the Jessore district.

Babu Chandi Charan Chatterjee, substantive *pro tempore* Deputy Magistrate and Deputy Collector, is posted to the head-quarters station of the Nuddea district.

Moulvi Ahmed, Probationary Deputy Magistrate and Deputy Collector, Jessore, is transferred to the head-quarters station of the Beerbhoom district.

Babu Amrita Lal Gupta, B.L., is appointed to be a probationer in training for employment as Sub-Deputy Collector, and is posted to the head-quarters station of the Hooghly district.

Babu Suresh Chandra Das, Deputy Magistrate and Deputy Collector, Bongong, Jessore, is allowed leave for three months, under article 291 of the Civil Service Regulations, with effect from the date on which he may be relieved.

Babu Monmotho Coomar Bose, Deputy Magistrate and Deputy Collector, Beerbhoom, is appointed temporarily to have charge of the Bongong sub-division, in the district of Jessore.

The services of Mr. P. H. O'Brien, Joint-Magistrate and Deputy Collector, Dinagepore, are placed at the disposal of the Government of India in the Home Department.

POLICE.—*The 24th December* 1891.—Mr. E. H. D'Oyly, Assistant Superintendent of Police, Bengal, has been granted by Her Majesty's Secretary of State for India an extension of leave for six months on medical certificate, the last two months being extraordinary leave without pay,

The 29th December 1891.—Mr. M. G. Peters is promoted from the third to the second grade of Inspectors of Police, *vice* Babu Kylash Chunder Gangooli, retired.

Babu Bireshar Chatterjee is promoted from the third to the second grade of Inspectors of Police, with effect from the 3rd September 1891, *vice* Babu Issan Chandra Banerjee, retired.

This cancels so much of the orders of the 19th September 1891 as relates to the promotion of Babu Bireshar Chatterjee.

ECCLESIASTICAL.—*The 29th December* 1891.—The Reverend A. E. Stone is appointed to be Chaplain of the Garrison of Fort William and of the Military Hospital, with effect from the date on which he joined his appointment.

REGISTRATION.—*The 29th December* 1891.—Moulvi Muhammad Mofazzal Hosain who was, under orders dated the 13th December 1889, appointed on probation to be Rural Sub-Registrar of Netrokona, in the district of Mymensingh, is confirmed in that appointment.

EDUCATION.—*The 29th December* 1891.—Mr. J. S. Slater, Professor, Civil Engineering College, Sibpur, is appointed to be Principal of that College, *vice* Mr. S. F. Downing, deceased.

The following notifications are republished from the *Assam Gazette*:—

No. 10604*G.*—*The 16th December* 1891.—With effect from the 21st September 1891, in consequence of the termination of the special duty of Major H. St. P. Maxwell, I.S.C., Deputy Commissioner, first grade—

Mr. W. Teunon, Officiating Deputy Commissioner, second grade, to officiate as Deputy Commissioner, third grade.

Mr. C. W. E. Pittar, on privilege leave, and Lieutenant P. R. T. Gurdon, I.S.C., Officiating Deputy Commissioners, third grade, to officiate as Deputy Commissioner, fourth grade.

No. 10605*G.*—*The 16th December* 1891.—With effect from the 11th November 1891, the date of his return to duty from furlough, Mr. J. C. Arbuthnott, C.S., Deputy Commissioner, fourth grade, to officiate as Deputy Commissioner, second grade.

Mr. A. W. Davis, C.S., Officiating Deputy Commissioner, second grade, to officiate as Deputy Commissioner, third grade.

Messrs. E. A. Gait, C.S., and G. Gordon, C.S., Officiating Deputy Commissioners, third grade, to officiate as Deputy Commissioners, fourth grade.

This supersedes notification No. 9894G., dated the 26th November 1891, published at page 582 of the *Assam Gazette*, dated the 28th November 1891.

H. J. S. COTTON,
Offg. Chief Secy. to the Govt. of Bengal.

REVENUE DEPARTMENT,—(FORESTS).

NOTIFICATION.—No. 3929For.

The 29th December, 1891.—In modification of the orders contained in the notification, dated the 6th July, 1891, and 11th September, 1891, published at pages 767 and 836, Part I of the *Calcutta Gazette*, dated, respectively, the 12th August and 16th September, 1891, the following changes in the Upper Controlling Staff of the Forest Department in Bengal are hereby ordered :—

Mr. R. H. M. Ellis, Officiating Deputy Conservator, first grade, to continue to officiate in that grade, with effect from the 4th May, 1891, *vice* Mr. H. H. Davis, Deputy Conservator, first grade, on furlough.

Mr. G. A. Richardson, Deputy Conservator, third grade, to officiate in the second grade of Deputy Conservators, with effect from the 4th May, 1891, to the 30th September, 1891 (both days inclusive).

Mr. E. G. Chester, Deputy Conservator, third grade, to officiate in the second grade of Deputy Conservators, with effect from the 1st October, 1891 (*vide* notification dated the 28th October, 1891).

Mr. C. A. G. Lillingston, Deputy Conservator, fourth grade, to officiate in the third grade of Deputy Conservators, with effect from the 4th May, 1891.

Mr. R. L. Heinig, Assistant Conservator, first grade, to officiate in the fourth grade of Deputy Conservators, with effect from the 4th May, 1891.

Mr. H. H. Haines, Assistant Conservator, second grade, to officiate in the first grade of Assistant Conservators, with effect from the abovementioned date.

Consequent on the grant of three months' privilege leave to Mr. W. M. Green, Deputy Conservator, third grade, with effect from the 9th May, 1891, the following temporary promotions are made from that date:—

Mr. M. S. Fowler, Deputy Conservator, fourth grade, to officiate in the third grade of Deputy Conservators.

Mr. C. G. Rogers, Assistant Conservator, first grade (on deputation to the Dehra Dun Forest School), to officiate in the fourth grade of Deputy Conservators (seconded).

Mr. H. D. D. French, Assistant Conservator, first grade, sub. *pro tem.*, to officiate in the fourth grade of Deputy Conservators, *vice* Mr. Rogers, on deputation (seconded).

Mr. W. H. Lovegrove, Assistant Conservator, second grade, to officiate in the first grade of Assistant Conservators, *vice* Mr. French.

Consequent on the grant, with effect from the 2nd July, 1891, of nine months' leave on medical certificate out of India to Mr. M. S. Fowler, Officiating Deputy Conservator, third grade, the following temporary promotions are hereby sanctioned :—

Mr. R. L. Heinig, Assistant Conservator, first grade, and Officiating Deputy Conservator, fourth grade, to officiate as Deputy Conservator, third grade.

Mr. H. H. Haines, Officiating Assistant Conservator, first grade, to officiate in the fourth grade of Deputy Conservators.

Consequent on the death of Mr. Fowler, Deputy Conservator, fourth grade, the following promotions are ordered, with effect from the 31st July, 1891 :—

Mr. R. L. Heinig, Assistant Conservator, first grade, and Officiating Deputy Conservator, fourth grade, is confirmed in the latter grade, but will continue to officiate in the third grade of Deputy Conservators.

Mr. C. G. Rogers, Assistant Conservator, first grade (on deputation), will continue to officiate in the fourth grade of Deputy Conservators, *vice* Mr. Lillingston.

Mr. H. D. D. French, Assistant Conservator, first grade, sub. *pro tem.*, is confirmed in that grade, *vice* Mr. Heinig, but will continue to act in the fourth grade of Deputy Conservators, *vice* Mr. Rogers (seconded).

Mr. H. H. Haines, Assistant Conservator, second grade, and Officiating Deputy Conservator, fourth grade, to the first grade of Assistant Conservators, sub. *pro tem.*, *vice* Mr. Rogers (seconded), but will continue to act in the fourth grade of Deputy Conservators in the chain of Mr. Green, *vice* Mr. French appointed to act in that grade, *vice* Mr. Rogers in the chain of Mr. Davis.

Consequent on the return of Mr. W. M. Green, Deputy Conservator, third grade, from the three months' privilege leave granted to him in the notification, dated the 24th April, 1891, the following reversions are ordered, with effect from the 9th August, 1891 :—

Mr. R. L. Heinig, Officiating Deputy Conservator, third grade, to revert to his substantive appointment of Deputy Conservator, fourth grade.

Mr. H. H. Haines, Officiating Deputy Conservator, fourth grade, to revert to Assistant Conservator, first grade, sub. *pro tem.*

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

DIOCESAN REGISTRY OFFICE, *the 22nd December* 1891.

HIGH COURT NOTICES.

CIVIL PROCESS No. 131.

FORM OF APPLICATION UNDER SECTION 10, ACT VIII OF 1890.

(*Rule No.* 1, *dated the* 17*th March* 1891.)

In the Civil Court of the district of _____

To

His Honour _____

District Judge of _____

Dated _____, the _____ of _____

The humble petition of _____

Son of _____

Resident of _____

Sheweth,

That _____,* of _____, ordinarily residing at _____, was born on the _____ of _____ 18 , and is by religion a _____ and by sex a _____

* Son or daughter, as the case may be.

That the said _____ is the wife† of _____

† Omit this paragraph if a male; if a female unmarried, substitute the word unmarried; if married, state also the age of her husband.

That the said minor is entitled to certain property, to wit‡ _____

That the said property is in the custody or possession of _____, residing at _____

‡ Here state nature, situation, and approximate value, if any, of the property of the minor.

That _____ §of _____ has the custody of the person of the said minor.

§ Son or daughter, and, if married, the name of the husband.

That the minor has the following near relations, viz., _____ ‖ of _____, residing at _____¶

‖ Son or daughter, and, if married, the name of the husband.

¶State relationship to minor.

That** _____

That no guardian of the person or property of the said minor has been appointed by any person entitled or claiming to be entitled by the law to which the minor is subject to make such appointment.

**Here state whether an application has at any time been made to this Court or to any other Court with respect to the guardianship of the person or property, or both, of the minor, and, if so, when, to what Court, and with what result. If any guardian has been appointed, erase the next paragraph.

That this application is for the appointment (or declaration, *as the case may be*) of a guardian to the †† _____ of the said minor.

††State whether to the person or the property of the minor, or to both.

That your petitioner is‡‡ _____

That your petitioner, therefore, prays that an order appointing (or declaring, *as the case may be*) _____ to be guardian to the said minor be issued under section 7 of Act VIII of 1890.

‡‡Here state the degree of relationship to, or connection with, the minor, or any other grounds on which the petitioner claims to be entitled to be appointed or declared guardian, and the causes which have led to the making of the application, together with such other particulars as may be necessary.

And your petitioner as in duty bound, &c.

I _____, petitioner named in the above petition, do solemnly affirm that what is stated therein is true to the best of my information and belief.

Signed in the presence of§§

(*Signature of Petitioner*)

Solemnly affirmed before me, this _____ day of _____ 18 .

District Judge.

§§If not so signed but admitted by the petitioner to the witness to be his signature, to be so stated.

ISSUED BY AUTHORITY OF THE HIGH COURT OF JUDICATURE AT FORT WILLIAM IN BENGAL.

CIVIL.

Rule No. 17, *dated the 4th December*, 1891.

Cancel the form of affirmation at the foot of the form of application under Section 10 *of Act VIII of* 1890 (*Form No.* 131) *at page* 661 *of Appendix A of the Civil Rules and Orders* (1891).

H. A. BAMFORD,
Inspector of European Schools, Bengal.

The 28th December 1891.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 1793B.

NOTICE is hereby given that the Second Sale of Opium, the provision of 1889-90, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Monday, the 1st February 1892, at 11 A.M., and will comprise 4,500 chests, viz.—

	Chests.
Opium manufactured at the Patna Factory consisting of ...	2,150
Opium manufactured at the Ghazeepore Factory consisting of ...	2,350
Total ...	4,500

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 24th November 1891, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 6th and 16th February 1892, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 1-30 P.M. of Saturday, the 6th February 1892, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Tuesday, the 16th February 1892.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazeepore Factories will be brought to sale up to December next about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so.

		25,800

Opium manufactured at the Ghazeepore Factory.

Reserve of 1889-90 ...	11,821	
Supply from 1890-91 ...	16,379	
		28,200
Total ...		54,000

2. The dates on or about which the sales will be held, and the total quantity of opium, as well as the respective quantities manufactured at the Patna and Ghazeepore Factories, which will be brought forward for sale every month, are specified below. The Board of Revenue reserve to themselves the right of altering the dates should circumstances render it expedient to do so. In accordance with the notification of the Government of India, No. 2686, dated 26th June 1891 2,150 chests of Patna and 2,350 chests of Benares opium will be sold monthly from January to December 1892:—

DATES				Chests manufactured at the Patna Factory.	Chests manufactured at the Ghazeepore Factory.	Total chests.
On or about Monday,	4th January	1892	...	2,150	2,350	4,500
On or about Monday,	1st February	,,	...	2,150	2,350	4,500

On or about Monday,	4th July	,,	...	2,150	2,350	4,500
On or about Wednesday,	3rd August	,,	...	2,150	2,350	4,500
On or about Thursday,	1st September	,,	...	2,150	2,350	4,500
On or about Monday,	10th October	,,	...	2,150	2,350	4,500
On or about Wednesday,	2nd November	,,	...	2,150	2,350	4,500
On or about Thursday,	1st December	,,	...	2,150	2,350	4,500
		Total	...	25,800	28,200	54,000

The following are the conditions of sale:—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs 1,600 per chest, Rs 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained; and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazeepore Factory for the year 1890-91, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore

Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

T. INGLIS, *Secretary.*

FORT WILLIAM, *the 24th November* 1891.

No. 1646B.

NOTICE is hereby given that the First Sale of Opium, the Provision of 1889-90, will be held at the Government Opium Sale-room, No. 2, Bankshall-street, on Monday, the 4th January 1892, at 11 A.M., and will comprise 4,500 chests, viz.—

	Chests.
Behar Opium	2,150
Benares do.	2,350
Total ...	4,500

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 24th November 1891, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 9th and 19th January 1892 respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 1-30 P.M. of Saturday, the 9th January 1892, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Tuesday, the 19th January 1892.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less of Behar and Benares Opium, will be brought to sale in the present year about the date specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so :—

DATES.	Behar about chests.	Benares about chests.	Total, about chests.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION.

The 28th December 1891.—It is hereby notified that, under section 19, Act III (B.C) of 1885, the Lieutenant-Governor is pleased to appoint Babu Nava Kumar Guha to be a member of the Chandpur Local Board, in the district of Tipperah, *vice* Babu Shib Chandra Aich, resigned.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 28th December 1891.—It is hereby notified that, under section 27, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint Munshi Abbas Khan to be a Commissioner of the Brahmanberia Municipality, in the district of Tipperah, *vice* Babu Gobinda Chandra Basak, resigned.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 28th December 1891.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz., for a new road connecting Roy Bagan Street and Cornwallis Street, it is hereby declared that for the above purpose pieces of land, Nos. 67 and 68, Cornwallis Street, and 47, Beadon Street, in the town of Calcutta, district 24-Pergunnahs, measuring, more or less, 1 cottah 5 chittacks and 31 square feet only, are required. The boundaries of the land are as follows:—On the North portion of No. 68, Cornwallis Street, and No. 24, Roy Bagan Street; on the South portion of No. 21, Roy Bagan Street, No. 67, Cornwallis Street, and No. 47, Beadon Street; on the East No. 21, Roy Bagan Street and Roy Bagan Street; and on the West portion of No. 47, Beadon Street and Cornwallis Street.

Plan and specifications of the land are filed in the Office of the Commissioners for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

G. DALTON, Collector.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates, or shares of estates, in the district of Dacca, will be put up for sale at the Collector's Office of that district on 7th January 1892, for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale.

The 12th December 1891. H. J. McINTOSH, For Collector.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates, or shares of estates, in the district of Khoolna, will be put up for sale at the Collector's Office of that district on the 11th January 1892, for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale:—

J. H. BERNARD, *for Collector.*

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates, or shares of estates, in the district of Patna, will be put up for sale at the Collector's Office of that district on the 18th January 1892, corresponding with 4th Magh 1298 (F. S.) (Monday), for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale.

SHAMBHU CHANDRA NAG, Offg. Sub-Judge.
(911—1)

NOTIFICATION.

TO be peremptorily sold by the Registrar of the Calcutta High Court, in his room in the Court-house, on Saturday, the 9th January next, at the hour of 12 o'clock noon, pursuant to a decree and order of the said Court, made in suit No. 562 of 1889 (Brojo Lall Nundy *versus* Sreemutty Heera Money Dossee and another), and dated, respectively, 6th February 1890 and 21st July 1891, the following property—

Lot I.—No. 82-1 (formerly No. 83), Manicktollah Street, in the town of Calcutta, being a two storied brick-built house and premises with the land appertaining thereto, and on part whereof the same is erected, the area of which is about 1 cottah 5 chittacks and 26 feet, and which is contained in holding No. 69, Block No. XIV, and is bounded on the north by the tenanted house of Syma Prosonno Bose; on the east by the land of Benode Beharry Shaha; on the south by a filled up drain; and on the west by Manicktollah Street. In respect of this property four annas is payable to the Collectorate of Calcutta annually.

The abstract of title and the conditions of sale may be seen at the office of Messieurs Ghose and Ghose, the Plaintiff's Attorneys, at any time before the sale, and will be produced at the sale.

R. BELCHAMBERS, Registrar.
Ghose and Ghose, Plaintiff's Attorneys, Calcutta High Court, the 26th November 1891. (860—1)

Lost or Stolen.

THE Government Promissory Notes Nos. 170719 and 170720 of the 4 per cent. of 1st February 1843 for Rs. 500 each, originally standing in the name of Srimati Rashmani Dasi, the proprietor, by whom they were never endorsed to any other person. Payment of the above notes and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of duplicates in favour of the proprietor.

SRIMATI RASHMANI DASI, No. 8, Nimtolla
(915—3) Ghât Street, Calcutta.

WANTED a Peshkar for the Office of the District Judge of Gya on a salary of Rs. 30 per mensem, rising to Rs 50 by biennial increments. Must have a fair knowledge of English, Urdu, Nagri and Hindi, and have experience of office work. Preference given to a native of Behar.

Apply, with full particulars as to age, acquirements and experience, enclosing copies of testimonials, before the 8th January 1892.

A. C. BERTT, District Judge.
Gya Judge's Office, the 21st December 1891.

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sâl beams and scantlings supplied from this depôt will be as follows:—

BEAMS.—21 feet length, at Rs. 2-10 per cubic foot.
22 „ „ 2-12 „
23 „ „ 2-14 „
24 „ „ 3 „

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS— From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7 „ 2-4 „
Under 7 feet „ 2 „

The above prices are for ordinary building purpose For *Planking Sleepers*, &c., special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Bahramghat Division.

Bahramghat, the 1st April 1886

Reduction in the Price of the Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

ON and after 1st April 1891 the price of this quinine will be as follows:—

1 Pound tin Rs. 16, or, post free, Rs. 16-12.
½ „ „ „ 8 „ „ „ „ 8-8.
¼ „ „ „ 4 „ „ „ „ 4-8.

Analysis shows this quinine to be of the purest manufacture, and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore, near Calcutta. It can be had either white or coloured pink.

Reduction in price of Cinchona Febrifuge.

FROM 1st April 1891, and until further orders Cinchona Febrifuge can be purchased by all Government officers and by any one taking *ten pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates. Four ounce tin Rs. 2-8; eight ounce tin Rs. 5; one pound tin Rs. 10. The general public can be supplied by the Superintendent, Botanic Garden, *for cash only* at the undernoted rates:—Per four ounce tin Rs. 3; per eight ounce tin Rs. 6; per pound tin Rs. 12. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage four annas per 4 ounce tin, eight annas per 8 ounce tin, and twelve annas per pound tin, in addition to the foregoing rates.

DEVENDRANATH BANERJI, B.L., intends to be admitted as a Vakeel, High Court. (803—4)

The List of Books available for sale at the Secretariat Press will in future be published once only in each month.

Spare copies of the List will, however, be kept in stock ready for issue on receipt of applications for them.

Notice.

NOTICE is hereby given that the terms for the purchase of publications from the Bengal Secretariat Press, except *for* Government offices or offices under the control of Government Officers are strictly cash, and on no other terms will any publication be applied, or advertisement, notice, &c, inserted in either of the Gazettes

In the case of insolvency notices, cash must be sent with such notices when forwarded by Mofussil courts or offices, and for those forwarded by the Official Assignee cash must be paid on presentation of memorandum of cost by the Accountant and Treasurer, Bengal Secretariat.

Remittances in postage stamps should be accompanied by an addition of one anna in the rupee on account of discount.

☞ Applications for Acts of the Bengal Legislative Council required on the public service should be addressed to the REGISTRAR, Office of the Legislative Department, Government of Bengal.

Copies are available for purchase at MESSRS. THACKER, SPINK AND CO, Government Place, Calcutta.

Notice.

IT is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

NOTICE TO SUBSCRIBERS.

SUBSCRIBERS to the *Calcutta* and *Bengali Gazettes* and Indian Law Reports are hereby informed that unless the amount of their subscription for 1892 is received before the 31st December 1891, it will be concluded that the Gazettes and Reports are no longer required, and the supply will accordingly be discontinued from 1st January 1892.

All remittances should be made direct to the Accountant and Treasurer, Bengal Secretariat, Calcutta, by means of money-order. No postage stamps or stamps of any other kind will be received in payment of subscriptions.

The correct address of the subscriber should be legibly written on the money-order coupon, and the period for which the subscription is paid should be stated.

H. C. STREATFEILD,
Under-Secy. to the Govt. of Bengal.

The 1st December 1891.

PUBLIC WORKS DEPARTMENT,—BENGAL.

DISTRICT ROAD FUND.

NOTIFICATION No. 462.

Dated Calcutta, the 29th December 1891.

THE subjoined annual report and accounts of the District Road Committee of the district of Darjeeling for the year 1890-91 are published for general information.

F. J. JOHNSTONE,
Joint-Secy. to the Govt. of Bengal.

No. 95, dated Darjeeling, the 17th August 1891.

From— J. G. RITCHIE, Esq, Deputy Commissioner and Chairman, District Road Cess Committee, Darjeeling,

To—The Commissioner of the Rajshahye Division.

I HAVE the honour to submit, in duplicate, the report on the administration of the Road Fund of this district for the cess year ending 31st March 1891.

2. The following statements are appended:—

(1) No. 6, Part I.—Annual account of income and expenditure from 1st April 1890 to 31st March 1891.

(2) No. 6, Part II.—Detail of income and expenditure for the cess year 1890-91.

(3) Memorandum showing in detail the amount of advances outstanding on the 31st March 1891.

* * * * * *

(5) Memorandum showing in detail the balance of cash at the close of the year 1890-91.

(6) Memorandum showing in detail the balance at credit of deposit on 31st March 1891.

3. The detailed accounts of income and expenditure for the year under report were duly examined by the Sub-Committee of Audit and passed by the District Road Committee at a special meeting held on the 8th August 1891.

4. The balance at the credit of the Fund on 1st April 1890 was Rs. 5,455-3-10. The balance outstanding on account of advances made for works was Rs. 5,560-3-3, and the receipts under the several heads during the year under review were Rs. 24,856-2-6, making up a grand total of Rs. 35,871-9-7. The total expenditure during that period was Rs. 16,675-6-1, leaving a balance of Rs. 19,196-3-6 made up of cash Rs. 12,518-8-9 and advances outstanding Rs. 6,677-10-9.

5. *Assessment and Collections.*—During the year under report, out of the current demand of Rs. 16,710, Rs. 935 were realized in advance during the previous years, and Rs. 15,748, were collected during the year, leaving a balance of Rs. 27 to be collected at the close of the year. A further sum of Rs. 1,087 was collected in advance for future years, which made the total collections amount to Rs. 16,835.

6. *Working of the Committee.*—The number of meetings of the District Road Committee held during the year was five. The average attendance of members was 3 out of 8 officials, and 3·4 out of 17 non-officials. The Terai Branch Committee met four times during the year, and the average attendance as reported by the Vice-Chairman was 1·75 out of 3 officials, and 7·25 out of 17 non-official members. The average percentage of attendance was 25·6 for the District Committee, and 45· for the Branch Committee.

7. *List of roads.*—During the year under report no new roads were taken over by the Committee, nor was any abandoned.

8. *Public works.*—(*a*) *Original works.*—Rupees 5,137-15-7 were expended during the year. This refers to the payment of the liabilities of the Committee in regard to the wire-steel suspension bridge over the river Little Rungeet at Pulbazar, which had been completed in the previous year, but not all paid for. The thanks of the Committee are given to Government for granting Rs 6,000 to clear off this debt.

(*b*) *Repairs.*—Rupees 3,852-8-1 were spent on Hill roads, Rs. 3,151-0-2 on Terai roads, including bridges, and Rs. 795-2-6 were spent on village roads (surface tracks, class V of the printed list of roads) in the Terai, making a total of Rs. 7,801-10-9 on roads and bridges. The repairs to the Hill roads were most of them executed by the planter members of the Committee.

9. *Working of the Cess Act*—The cess was levied at the maximum rate, and the results of the year were satisfactory. The percentage of collections was 99·79

10. *Establishment*—The services of the District Engineer were dispensed with from 1st May 1890 for reasons stated in last year's report.

11 *Inspection of accounts*—The accounts of the Committee for 1890-91 were inspected by the Local Auditor on the 25th ultimo. His notes on the inspection have not been received yet.

NOTICE TO MARINERS—No. 232.

[First Publication.]

AUSTRALIA—MONTALIVET ISLANDS.

Existence of certain reefs lying near the island.

THE British Admiralty has given notice (No. 564 of 1891) that information has been received from Commander W. U. Moore, H.M. Surveying vessel *Penguin*, dated 17th September 1891, of the existence of the undermentioned reefs lying near Montalivet islands, the result of recent examination of the locality:—

1. *Ingram reef* originally reported by Mr. H. Lee, commanding the Adelaide S.S. Company's vessel *Rob Roy*, is one mile in length in a north-west and south east direction,

and three cables broad, with depths of 28 to 30 fathoms around. The shallowest part, a coral patch of small extent, is awash at low water, and lies with the northern Montalivet island bearing S. by W., distant 6¼ miles, or in approximately on Admiralty charts lat. 14° 6′ 55″ S., long. 125° 20′ 45″ E. The sea does not usually break on this reef except near low water. The *Penguin* passed twice within a mile of it, before finding it, and though the weather was favourable, no indication of shoal water was seen.

2. *Albert reef* lying westward of the West Montalivet island, appears to be detached from that island, but vessels should not attempt to pass between. The north-west part which dries at low water is situated in approximately lat. 14° 11′ S., long. 125° 6′ E.

3. *Rob Roy reefs* extend about 6 miles in a north and south direction, with a breadth of about 3 miles. The western breakers lie in approximately lat. 14° 25′ S., long. 124° 50′ E.; the northern breaker is situated in approximately lat 14° 22′ S., long. 124° 52′ E. About half a mile south-east of the northern breaker there is a sand cay, which is awash at half tide.

CAUTION.—As in the neighbourhood of the dangers near Montalivet islands the tides are strong, the banks and reefs steep-to, and the water unusually turbid, great care is necessary when navigating in the locality.

The depths given are at low water spring tides.

(*Variation 2° Easterly in* 1891.)

JAPAN—KOREA STRAIT.

Sunken rocks in Tsu sima sound.

THE British Admiralty has given notice (No. 517 of 1891) of the existence of the three undermentioned sunken rocks lying near the fairway of Tsu sima sound (Takeshiki harbour):—

1. A sunken rock (*Karakashi se*) with 3¾ fathoms water on it lies with the north-east extreme of Flat island (Majishima) bearing S. ¼ E., distant 5 cables, and Utsuno saki W. ¼ N.

2. A sunken rock (*Imosaki se*) with 2¾ fathoms water on it lies with Finger point (Inosaki) bearing S.S.E. ¼ E., distant 2¼ cables, and the north extreme of Flat island W.S.W.

3. A sunken rock (*Nakazone*) with 4½ fathoms water on it lies with Observatory rock (Benten jima) bearing W. by S. ½ S., distant 4¼ cables, and Strata rock N. by W. ½ W.

(*Variation 4° Westerly in* 1891.)

AUSTRALIA—PIONEER RIVER ENTRANCE.

Flat Top island light-house—Sector of red light over Taroba rock.

THE British Admiralty has given notice (No. 522 of 1891) that a sector of *red* light is shown from Flat Top island light-house, through an arc of about 6°, over Taroba rock; the northern edge of the sector, bearing West, defines the north-east extreme of the rock.

The position of Taroba rock is also indicated by the undermentioned leading marks, which intersect at its north-east extreme. Flat Top island light-house in line with a white square painted on the rocks just above high water mark on that island, bearing West; and two white marks on Round Top island in line, bearing about S. W. by S. ½ S.

Approximate position of light-house, lat. 21° 9½′ S., long. 149° 16½′ E.

[Second Publication.]

AFRICA—ZANZIBAR ISLAND.

The system of buoyage established in the approaches to Zanzibar harbour.

THE British Admiralty has given notice (No. 531 of 1891) that the following system of buoyage has been established in the approaches to Zanzibar harbour:—

Approaching Zanzibar harbour, red buoys should be left on the starboard hand, black buoys on the port hand (consequently the colours of the two Southern pass buoys are reversed, but in order to prevent confusion, the old buoys are for the present kept in position). The buoys recently placed are *can* buoys:—

(1) A *can* buoy, black and red chequered, is moored in 3½ fathoms water on the southern edge of Seagull shoal, with White Block house bearing E. by N. ½ N., distant 1 6/10 miles, and large house on Bet el Ras S.S.E.

(2.) A black *can* buoy is moored in 5 fathoms water on the bank northward of Bet el Ras with Bububu house bearing E. by N. ½ N., distant 6½ cables, and Large house on Bet el Ras S. by E.

(3.) A black *can* buoy is moored in 5 fathoms water, about half a cable seaward of the edge of the bank off Bet el Ras, with Bububu house bearing N.E. ½ N, and Large house on Bet el Ras S E., distant 8 cables.

(4.) A red *can* buoy is moored in 6¾ fathoms water near the eastern edge of Chapani reef, with White stone pillar bearing N.E. by E. ½ E., distant 5½ cables, and Square white house S. ½ W.

(5.) A red *can* buoy is moored in 7 fathoms water near the eastern edge of Chapani reef, with White stone tower bearing N.E. ½ E., distant 6½ cables, and Square white house south.

(6.) A black *can* buoy is moored in 5 fathoms water near the eastern edge of Kisiki reef, with Mbweni house bearing E. by S. ½ S., distant 1 7/10 miles, and Conspicuous house on Ras Buyu S.S.E. ½ E. The old buoy (red) near the above mentioned buoy remains in position for the present.

(7.) A red *can* buoy is moored in 6 fathoms water near the western edge of Mtwana reef, with Mbweni house bearing E.N.E. distant 1 8/10 miles and Conspicuous house on Ras Buyu S.E. ½ E. The old buoy (black) near the abovementioned buoy remains in position for the present.

The depths given are at low water ordinary spring tides.

[Second Publication.]

CHINA SEA—BORNEO.

Fixed harbour light on Sandilands rock—Kudat harbour entrance.

IN continuation of Notice to Mariners No. 57, dated 23rd March 1891, issued by this Office, the British Admiralty has given notice (No. 543 of 1891) that the light on Sandilands rock is exhibited :—

Sandilands rock light is a *fixed harbour* light of low power ; it shows *white* between the bearings of N. by W. ¾ W., through west, and W. by S. ½ S. ; *red* between S. W. ¾ S. and S. by W. ½ W. ; *red* between S.E. ¾ E. and E. ¾ S. ; and *white* between E. by N. ½ N., through north, and N. by W. ½ W. ; in all other directions it is obscured. It is elevated 7 feet above high water, and should be seen in clear weather from a distance of 2 miles.

The light-house, erected on piles, is about 10 feet high.

Approximate position, lat. 6° 52′ 20″ N., long 116° 52′ 5″ E.

Also that the *fixed white* light, previously shown from the fort at Kudat, has been discontinued.

NOTICE TO MARINERS—No. 223.

[Second Publication.]

AUSTRALIA—CAPE BOUGAINVILLE.

Sunken rocks and shoals in the Inner and Outer Routes.

THE British Admiralty has given notice (No. 552 of 1891) of the existence of the undermentioned sunken rocks and shoals lying in the Outer and Inner Routes, off cape Bougainville, the result of recent examination of the locality.

Outer Route.

1. A rock (*Oliver rock*) consisting of a coral head, with 9 feet water over it, and 25 fathoms close around, lies with the south extreme of Cassini island bearing N. 80° E , distant $4\frac{3}{10}$ miles. The sea was not seen to break on this rock, the *Penguin* passed over it without observing any sign of shoal water.

Approximate position on Admiralty charts, lat. 13° 56½′ S , long. 125° 39½′ E.

NOTE.—The rock marked awash in lat. 14° 0′ 30″ S., long. 125° 35′ E., does not exist.

2. A shoal (*Bassett-Smith shoal*) about one mile in diameter, with general depths of 5 to 6 fathoms, and 50 fathoms around, with a head of 20 feet near its western edge, is situated in approximately lat. 13° 16′ 50″ S., long. 125° 50′ E. The sea did not break on this shoal, and there was no appearance of danger in the vicinity.

3. *Penguin shoal*, situated in approximately lat. 13° 0′ S., long. 126° 4½′ E., has a least depth of 6 fathoms over it.

4. A rock (*Warn rock*) consisting of a small coral head, with 6 fathoms over it, lies in approximately lat. 13° 8½′ S., long. 126° 11′ E.

Inner Route.

1. A coral pinnacle (*Lee rock*) with 3 feet water on it, and 10 to 17 fathoms close around, lies with Pascal island summit bearing S. 83° W., distant $7\frac{3}{10}$ miles, or in approximately lat. 14° 2′ S., long. 125° 52′ E. The *Penguin* passed twice within a few feet of this rock, but no indication of danger was seen.

2. A coral shoal (*Tancred shoal*), 7 cables in diameter, with 3 to 7 fathoms over it, and 16 to 22 fathoms around, lies with Low rocks summit bearing No. 56° W., distant 2 miles, or in approximately lat. 14° 3¾′ S., long. 126° 0′ E.

3. The extensive reef charted north of Gibson point does not exist, but there is a rock (*Fury rock*) awash at high water, lying with the islet north of Gibson point bearing East, distant $1\frac{3}{10}$ miles. A reef dry at low water, extends 4 cables north-west of this rock, and foul ground for a distance of $1\frac{3}{10}$ miles north of it. Approximate position, lat. 13° 56½′ S. long. 126° 4′ E.

4. *Bishop rocks* consist of a small group of coral heads, drying 2 feet at low water, and lying with the north extreme of Troughton island bearing S. 75° E , distant $2\frac{1}{10}$ miles, or in approximately lat. 13° 42¾′ S. long. 126° 12′ E.

5. A coral reef, with 2 fathoms over it, lies with the north extreme of Troughton island bearing S. 50° E., distant $6\frac{0}{10}$ miles, and is separated by a deep channel from the south point of Eastern Holothuria reef. Approximate position, lat. 13° 39¼′ S., long. 126° 9¼′ E.

6 *Branch Banks* consisting of two coral shoals with 6 and 7 fathoms over them, lie with the north extreme of Troughton island bearing S. 18° W., distant $8\frac{1}{10}$ miles, or in approximately lat. 13° 35¼′ S., long. 126° 17′ E. Depths of 6 fathoms were obtained for a distance of one mile east of this position.

CAUTION.—As in the neighbourhood of the dangers off cape Bougainville the tides are strong, the banks and reefs steep-to, and the water unusually turbid, great care is necessary when navigating in the locality.

The depths given are at low water spring tides.

[Second Publication.]

AUSTRALIA—VICTORIA.

Uniform system of buoyage.

The British Admiralty has given notice (No. 533 of 1891) that the following uniform system of buoyage, somewhat similar to that adopted in the United Kingdom, was and will be established at ports in the Colony of Victoria, at the dates hereinafter mentioned:—

(1) The term Starboard Hand shall denote that side which would be on the right hand side of the mariner, either going with the main stream of flood, or entering a harbour, river or estuary from seaward; the term Port Hand shall denote the left hand of the mariner under the same circumstances.

(2) Buoys showing the pointed top of a cone above water shall be called *conical*, shall be painted red, and shall always be Starboard Hand buoys, as above defined

(3) Buoys showing a flat top above water shall be called *can*, shall be painted black, and shall always be Port Hand buoys, as above defined.

(4) Buoys showing a domed top above water shall be called *spherical*, and when used to mark middle grounds shall always be distinguished by horizontal stripes of white colour.

(5) Surmounting beacons, such as Staff and Globe, &c., shall always be painted of one dark colour.

(6) Staff and Globe shall only be used on Starboard Hand buoys, Staff and Cage on Port Hand, Diamonds at the outer ends of middle grounds, and Triangles at the inner ends.

(7) Buoys for marking Submarine Telegraph Cables shall be painted green, with the word *Telegraph* painted thereon in white letters. Mooring buoys shall be continued as heretofore. Gas buoys shall be painted red or black to correspond with the side of the channel on which they may be moored.

(8) The buoyage of the West, South, and Geelong channels, port Phillip, will be altered to conical and *can* shaped buoys.

(9) The buoyage of Sorrento and Cole's channel, port Phillip, also of Western port, port Albert, and Corner inlet, will remain of the same shape as heretofore, but all starboard hand buoys or beacons shall be painted red, and all port hand buoys or beacons shall be painted black.

(10) The alterations in the buoyage of the several ports and channels have been and will be made during the following months and years:—

Western port	September 1891.
Port of port Albert	October 1891.
Port of Geelong, and entrance thereto from port Phillip	November 1891.
West channel, port Phillip	February 1892.
Port of Corner inlet	March 1892.
South channel, port Phillip	June 1892.

(11) BUOYING AND MARKING OF WRECKS. All buoys and topsides of vessels used for marking wrecks shall be painted green, with the word *Wreck* painted thereon in white letters, and when practicable shall be moored near to the side of the wreck next to mid-channel.

(12) When a wreck-marking vessel is used, she shall exhibit: –

By day: Three balls 20 feet above the level of the sea, two placed vertically at one side of the vessel, and one on the other side, the single ball being on the side nearest to the wreck.

By night: Three *fixed white* lights, similarly arranged, but not the ordinary riding light.

AUSTRALIA—MARY RIVER.

New leading marks, Horseshoe bend.

THE Port Master, Brisbane, has given notice (No. 34 of 1891) that two White Triangular Beacons have been erected on the south bank of the river, near Turkey Creek, to lead through the upper part of the Horseshoe Bend.

Directions.—After rounding the bend and passing a black buoy, haul up to bring these beacons in line. Steer with them in line until past the red buoy, when proceed as usual. The channel, the centre of which is marked by this line of beacons, is 150 feet wide, and has a minimum depth of 10 feet at low-water springs.

NOTICE TO MARINERS—No. 226.

[Second Publication.]

AUSTRALIA—TORRES STRAIT.

Reported reef in western approach to Prince of Wales, Channel.

THE Port Master, Brisbane, has given notice (No. 35 of 1891) of Mr. Frank Jardine having crossed an unknown reef of small extent, with apparently not more than 6 feet over it at low-water springs, whilst sailing up to Thursday Island in a lugger.

When upon it his estimated position was about 5 miles west by north from Quoin Point, Goode Island. Very shortly after passing over it, whilst steering southerly, the Government Residency on Thursday Island opened clear of Quoin Point. Vessels are therefore cautioned to keep the Residency well open to the southward of Quoin Point when approaching from or leaving for the westward, and to exercise great care whilst in the locality.

EATON W. PETLEY,
Port Officer of Calcutta.

		Bagirhat ...	Nil	
		Satkhira ...	Nil	
	10	Jessore ,, 26, '91	Nil	Weather—seasonable. *Aman* paddy being harvested; very poor outturn from short rain. Winter crops for the same reason do not promise well. Fodder and water sufficient.
		Jhenidah ...	Nil	
		Magurah ...	Nil	
		Narail ...	Nil	
		Bongong ...	Nil	
	11	Murshedabad ,, 26, 91	Nil	Weather—cold. Winter rice is still being harvested. Prospects of *rabi* crops not favourable. Harvesting of *kalai* almost finished. Fodder obtainable for cattle.
Chittagong Divn.	12	Chittagong ,, 29, '91	Nil	Weather—seasonable. Harvesting of winter rice continues. Prospects unchanged. Prices stationary.
	13	Noakhally ,, 26, '91	Nil	Weather—seasonable. *Aman* paddy is being harvested. *Rabi* crops doing well. No cattle-disease. Fodder and water available. Common rice 15½ seers per rupee at head-quarters and 16 seers per rupee at Feni.
	14	Tipperah ,, 26, '91	Nil	Weather—seasonable. *Aman* is being rapidly harvested. Winter crops doing well. No cattle-disease.
	15	Chittagong Hill Tracts. ,, 24, '91	Nil	Weather—cloudy during the first part of the week. Gathering of late plough-paddy continues. Mustard and other cold-weather crops progressing. Price of common rice 11 seers 10 chittacks a rupee.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL—*concld.*			
Dacca Div. 16	Dacca Dec. 26, '91	Nil	Weather—seasonable. Harvesting of *aman* going on. Prospects of standing crops fair. Fodder available. Condition of cattle good. Common rice selling at from 14 to 17 seers per rupee.
17	Furreedpore „ 26, '91	Nil	Weather—seasonable Harvesting of *aman* nearly finished; that of *mug* and *kalai* in progress. Rice selling at 16 seers per rupee. Condition of cattle good and fodder available.
	Goalundo ...	Nil	
	Madaripore ...	Nil	
18	Backergunge „ 26, '91	Nil	Weather—seasonable. Prospects of crops good. Common rice sells at from 10 to 18 seers per rupee. Fodder and water sufficient. Cattle-pox reported from Bhandaria, Matbaria, and Golachipa.
19	Mymensingh „ 26, '91	Nil	Weather—cold. Prospects of crops fair. Coarse rice sells at 14 seers 12 chittacks per rupee. Condition of cattle good. Supply of water and fodder sufficient.
Rajshahye Div. 20	Dinagepore „ 26, '91	Nil	Weather—seasonable. Harvesting of winter rice not yet finished. Prospects of standing crops continue unchanged. Land being prepared for *bhadoi*. Price of rice at Sudder 13 seers per rupee and at Thakurgaon 11 seers. Condition of cattle good. Supply of fodder and drinking-water ample.
	Thakurgaon ...	Nil	
21	Rajshahye „ 26, '91	Nil	Weather—seasonable. Prospect of *aman* continues unaltered. Expected outturn varies from 6 annas to 10 annas; the average will be about 8 annas. Condition of winter crops good. Pressing of sugarcane going on. Prospect of *ganja* good Price of common rice varies from 12 to 18 seers, the average being 15 seers. Condition of cattle good. Fodder and water-supply plentiful.
	Nattore ..	Nil	
	Nowgong ...	Nil	
22	Rungpore „ 26, '91	Nil	Weather—cold and clear. *Aman* paddy being harvested. Outturn slightly better than estimated in parts of Nilphamari and Gobindgunge thana. Price of rice falling slightly except in the Kurigram subdivision. It ranges from 17 seers in Gaibanda to 11 seers in Kurigram. Prospects of sugarcane and cold weather crops fair. Fodder sufficient.
	Gaibanda ...	Nil	
	Nilphamari ...	Nil	
	Kurigram ...	Nil	
23	Bogra „ 26, '91	Nil	Weather—seasonable. Harvesting of *aman* not yet finished. Prospects of *rabi* favourable. An average 8-anna crop of *aman* expected. No cattle-disease. Fodder and water sufficient. Price of rice stationary.
	Sherpur ...	Nil	
	Nowkhilla ...	Nil	
24	Pubna „ 26, '91	Nil	Weather—seasonable. State of standing crops fair; rain wanted. *Aman* harvest yielding 10 annas. Common rice 13 seers per rupee. Water-supply and fodder sufficient.
25	Darjeeling „ 26, '91	Nil	Weather—fair. *Marua* and *aghani* paddy have been cut. Wheat and barley promising well. Prospects good. Prices of common rice:—

		Srs.
Silliguri	11	per rupee.
Kurseong	10	
Kalimpong	10	
Darjeeling	11	
Pulbazar	11	
Jore Bungalow	12	
Nagri	8	
Sonadah	12	

26	Julpigoree „ 26, '91	Nil	Weather—seasonable. Harvesting of *haimanti* continues; outturn not favourable. *Rabi* crops doing well. Common rice sells at 11 and 12 seers per rupee at head-quarters, while 10 seers at Alipore and other thanas. No cattle-disease. Fodder and water-supply sufficient.
BEHAR.			
Bhagulpore Div. 27	Monghyr „ 26, '91	Nil	Weather—seasonable. Outturn of rice 2 annas only at Jamui. *Rabi* doing well still. Rain much wanted. Poppy sowings nearly completed. Prospects continue fair. Fodder and water-supply sufficient.
	Begusarai ..	Nil	
	Jamui ...	Nil	
28	Bhagulpore „ 26, '91	Nil	Weather—seasonable: colder than last week. Harvesting of rice going on. Prospects of *rabi* not improved. Rain badly wanted. Common rice—old 12 seers, new 12 seers 10 chittacks per rupee.
29	Purneah „ 26, '91	Nil	Weather—cold and clear. No material change. *Aghani* harvest continues. Prospects of *rabi* still fair, but rain is needed. In most places there is ample fodder and water, but a first note of scarcity is being sounded at Gondwara in the Sudder subdivision. Price of rice stationary.
	Kishengunge ...	Nil	
	Arrareah ...	Nil	
30	Maldah „ 26, '91	Nil	Weather—seasonable. Harvesting of winter rice still going on. Gathering of *kalai* also in progress. Wheat and other *rabi* crops thriving. Cattle-pox reported from Ratua and Sibgunge thanas. Supply of fodder and water sufficient. Common rice sells at from 11 to 15½ seers per rupee.
	Shibgunge ...	Nil	
	Gajole ...	Nil	
31	Sonthal Perghs. „ 26, 91	Nil	Northerly winds. Cold weather has set in; dry. Rice harvest continues; outturn 8 to 14 annas. Worst report from Rajmehal. Water-supply very short. No immediate fear of distress.

	No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BEHAR—*concld.*				
Patna Division.	34	Patna Dec. 26, '91	Nil	Weather—cool and clear. Harvesting and threshing of paddy going on. *Rabi* and poppy doing well, but rain wanted. Prices of food-grains almost stationary. In the corresponding week of the previous year, the *rabi* and poppy crops were reported to promise well, but were wanting rain, and the prices were showing a tendency to fall.
		Barh ...	Nil	
		Behar ...	Nil	
	33	Gya ,, 26, '91	Nil	Weather—cold and fair. Paddy harvesting going on. Prospect of *rabi* continues the same. Condition of poppy good. Prices of food-grains almost stationary. Supply of fodder and water sufficient.
		Jehanabad ...	Nil	
		Nawada ...	Nil	
		Aurungabad ...	Nil	
	34	Shahabad ,, 26, '91	Nil	Weather—seasonable. *Rabi* crops generally doing well, except on light sandy soils without facilities for irrigation. Peas, gram, mustard, *rahar* and *khesari* are in flower. Wheat and barley promising. Sugarcane being pressed. Prices steady. Food-supply and fodder abundant, but water-supply in the west of Bhabuah shows signs of failing.
		Buxar ...	Nil	
		Bhabuah ...	Nil	
		Sasseram ...	Nil	
	35	Durbhunga ,, 26, '91	Nil	Weather—cold, with west winds. Rain has not fallen and prospects of *rabi* show no improvement. Mustard and *rahar* in flower. Poppy doing fairly since the weather has become colder. Price of common rice varies from 13 to 15 seers per rupee. Fodder and water-supply sufficient.
	36	Muzufferpore ,, 26, '91	Nil	Weather—cool and clear. Harvesting of paddy in progress. *Rabi* in low lands doing well; elsewhere suffering for want of rain. Poppy in irrigated tracts coming on well; elsewhere failed in several plots though sown twice and thrice. Cattle doing well; no scarcity of water and fodder for them. Prices as below:—
				Srs. Common rice ... ... 13 Wheat ... ... 12 Barley ... ... 24 } per rupee. Makai 22
	37	Saran ,, 26, '91	Nil	Weather—cold and clear. Irrigation of *rabi* continues and the crop is doing well. Poppy backward in many places owing to failure of first sowings. Fodder and water sufficient. Prices of common rice are:—
				Srs. Ch. Chupra ... . 13 0 Gopalgunge ... ... 15 0 } per rupee. Sewan 15 8
	38	Chumparun ,, 26, '91	Nil	Weather—seasonable. Paddy being reaped. *Rabi* being weeded. State of standing crops fair. Rain wanted for *rabi*. Supply of water and fodder for cattle sufficient.
ORISSA.				
Orissa Div.	39	Cuttack ,, 26, '91	Nil	Weather—seasonable and cold. *Sarad* rice being harvested. *Rabi* doing well. Supply of fodder sufficient and condition of cattle good. Common rice sells at 12½ seers per rupee in Sudder and 20 seers in the interior.
	40	Pooree ,, 24, '91	Nil	Weather—cool. *Sarad* rice being reaped. *Dalua* rice being sown. Miscellaneous crops doing well. Common rice sells at 12½ to 24 seers per rupee. Cattle-disease reported from Dandimal, Begunia and Khorda stations.
	41	Balasore ,, 26, '91	Nil	Weather—seasonable. Harvesting of winter rice continues. Prospects of *rabi* good. Rice selling at 19 seers per rupee.
CHOTA NAGPORE.				
		South-West Frontier Agency.		
Chota Nagpore Div.	42	Hazaribagh Dec. 26, '91	Nil	Weather—seasonable. *Rabi* crops doing well, but suffering for want of rain. Common rice selling at from 13½ to 16 seers per rupee. Water-supply sufficient.
		Giridih ...	Nil	
	43	Lohardugga ,, 26, '91	Nil	Weather—seasonable. Harvesting of winter rice finished. Want of rain badly felt for *rabi* crops. Common rice selling at 15 seers per rupee. Fodder plentiful.
	44	Singbhoom ,, 26, '91	Nil	Weather—seasonable. Everything satisfactory. Cold-weather crops on ground doing well. *Kurthi* and *serguja* being harvested.
	45	Manbhoom ,, 26, '91	Nil	Weather—seasonable. Rain badly wanted for cold-weather crops. Prospects so far fairly satisfactory. Rice selling at from 18 to 22 seers per rupee.
		Govindpore	Nil

The average fall of the corresponding period for 24 years, S.-G.'s Office ...		65·23

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain-gauge is one foot above the ground.

o, overcast; ⌓, dew.

C. LITTLE,

For Meteorological Reporter to the Govt. of In

METEOROLOGICAL OFFICE, GOVT. OF INDIA;

* Mean of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last The humidity of the atmosphere is expressed as percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numbers are the numerical means or average of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the past stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

for the week ending Saturday, the 26th of December 1891.

Average humidity at 8 A.M.	Average cloud amount at 8 A.M. for week.	Rainfall of week at observing station.	DISTRICT OBSERVATIONS. Of week. Mean for district.	Of week. Normal mean.	Rainfall. ten years. The variations are *negative* when the mean for the week is less than the corresponding normal mean, and *positive* when greater.

denoting cloud amount represents the part of the sky covered, the whole sky being denoted by 10. Under the head District observations of rainfall the normal mean ten years. The means of the district are the numerical average of the rainfall return received in the district, i.e., from total rainfall at the subdivisional

Statement of Rainfall in Bengal for the week ending Saturday (8 a.m.), the 26th of December 1891.

Explanation.—.....indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

Calcutta, *the 29th December* 1891.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 26TH OF DECEMBER 1891.

THE meteorological conditions in Bengal during the past week only call for very brief comment, for ordinary north-east monsoon conditions have continued quite uninterruptedly throughout the week, and the only changes which have occurred have been of the usual oscillatory character which accompany fine weather. On the 20th pressure had risen very slowly, and was above the normal by about a twentieth of an inch. Temperature was generally falling moderately, though it still continued above the normal of the day by amounts which generally ranged from 1° to 3°; a steady northerly and north-westerly wind current was blowing over the whole province, humidity was fairly low, the sky was only lightly clouded, and there was no rain. On the 21st the pressure changes were again very small; while temperature continued to fall slowly, but it was still considerably above the normal. On the 22nd a slight to moderate fall of pressure took place, though pressure still remained above the normal, while the temperature changes were a little variable and, if anything, they had an upward tendency. On the 23rd pressure had risen rather rapidly, the rise equalling about 0·06″, and pressure became nearly a tenth of an inch above the normal, while temperature on this day fell briskly at the northern stations, though at the southern stations it had increased, and the mean temperature was again above the normal by amounts ranging from about 1° at the northern stations to 4° and 5° at the southern stations. On the 24th again the barometer had risen by small amounts, and pressure became from a tenth to a sixth of an inch above the normal; but, on the other hand, there had been a rather rapid fall of temperature, amounting in some cases to 2°, though the mean temperature of the province was still distinctly above the normal. On the 25th the barometric changes were extremely small, but temperature continued to fall rapidly, the decrease in the mean of the day at some stations exceeding 4°, and the mean temperature became rather below the normal at the southern and western stations, though it was still above elsewhere. On the 26th pressure was generally falling slowly, though it still remained about a tenth of an inch above the normal, and the temperature changes were a little variable and the general distribution of temperature remained practically unchanged. Thus for almost the whole of the week the pressure changes have been unimportant, while as a rule temperature has been falling. Steady northerly winds of moderate strength have also prevailed throughout the week, and cloud proportion and humidity have remained low, and except for a light shower (0·16 inch) of rain reported from Chittagong on the 21st, the whole province has been rainless.

Pressure.—The mean pressure for the week has been in excess of the normal over the whole province. This excess has been largest in North and part of South Behar, where it has averaged more than a tenth of an inch, while in the southern districts it has usually equalled about 0·07″ or 0·08″.

Temperature—Fell rather rapidly towards the close of the week, but for the greater part of it the mean temperature was in considerable excess of the normal. For the whole week the mean temperature of the province was 1·3° above the normal, and this excess has been very evenly distributed in all divisions.

The variation of temperature is, however, most clearly seen in the table below, where the average maximum, minimum and mean temperatures for the week at nine typical stations in different districts of the province are compared with the normal values for the same period. It will be seen that the excess has, if anything, been rather larger in the day than in the night temperatures:—

Table showing the excess or defect of the actual mean temperature from the normal for the week ending 26th December 1891.

	Normal mean maximum temperature for the week ending 26th December.	Actual mean maximum temperature for the week ending 26th December 1891.	Variation of actual mean from the normal.	Normal mean minimum temperature for the week ending 26th December.	Actual mean minimum temperature for the week ending 26th December 1891.	Variation of actual mean from the normal.	Normal mean daily temperature for the week ending 26th December.	Actual mean daily temperature for the week ending 26th December 1891.	Variation of actual mean from the normal

Rainfall.—Except for a slight shower (0·16 inch) at Chittagong on the 21st, the whole province has been rainless for the week.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 26th of December 1891 :—

Meteorological Division s.	Temperature.						Rainfall.								
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th Oct. 1891.
